The second debate was held in the school house in district No. 76 Sunday evening before last. The question was: "Resolved that the world owes more to navigation than to railroads," and the judges' decision was two to one in favor of the affirmative. The same evening the Forward Young People's Society was organized and from now on debates and literary programs will be given regularly at intervals of about three weeks.

Last Wednesday, at Anstad, the Rev. Bjornson officiating, occurred the marriage of Henry Klorstad and Alpha Brastad. Both these young people are well and favorably known around here.

We are greatly interested in the discussion relative to the ditches in this part of the county. For the present we suggest that inasmuch as the taxpayers are here to pay any or all costs the matter be threshed out as well as possible. Later on, perhaps we shall have a few remarks of our own on this topic.

Don't delay, don't put it off, but go right in NOW and give your order for a Ford automobile to W. F. Powell & Co.

He leaves a wife and small son.

Johnson was elected vice president, Laura Sahlberg, secretary and J. P. Nelson, treasurer. The standing committees were re-elected to serve another year. Marie Strandberg was elected member of the program committee in place of Martha Sjoquist who died last spring, and which vacancy had never been filled. Last year it was decided to work towards putting a steeple on the church. The money for this purpose is now in the treasury, and building will commence this spring just as soon as possible. L. C. Franzen, I. L. Strandberg and C. M. Carlson are on a committee to superintend the building of the steeple. It was decided that the League install an altar in the church this year, and the altar has already been purchased. It is hoped that it will be put up before next time of services in the church.

to it next fall. He has been spending the winter up here, bunking with C. E. Higley, another jolly old bachelor. While up here, he has cleared the biggest part of his land, and has employed Willie Wickstrom and Amandus Bergstrom to break it all this summer. He evidently does not believe in paying taxes on unproductive brush and poplars.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a tea-spoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
