

Straw and Chaff

THE WEEK IN HISTORY

Monday, August, 9. — Washington makes treaty defining the boundaries of the United States and the British possessions, 1842.

Tuesday, August, 10.—Battle of Wilson's creek, 1861.

Wednesday, August, 11.—Treaty of Prussia and France for neutrality of Belgium, 1870.

Thursday, August, 12.—E. M. Stanton, secretary of war under President Johnson, asked to resign; refuses, but is suspended and succeeded by General Grant, 1866.

Friday, August, 13.—Prince of Wales visits United States squadron at South Hampton, England, 1872.

Saturday, August 14. — Meeting in Philadelphia to establish National Union and restore South to its place in the Union, 1866.

Sunday, August, 15.—Garibaldi, Italian general, retires to private life, 1866.

ALONG CAME RUTH

"Oh dear," sighed the head of the luncheon committee, as she came up to Ruth the day before the picnic was to be held, "I simply don't know what quantities of anything to buy for that picnic tomorrow. I've never had anything of this kind to do before; and I'm all at sea."

"Why, my dear Mrs. Emythe, I believe I can help you," replied Ruth. "I cut something along that line out of a newspaper last week, and I think I have it in my bag now. Let me see. Yes, here it is. I'll give it to you. You see it says that one medium sized loaf of bread will cut in twenty slices for sandwiches; one medium layer cake will serve twenty; one gallon of ice cream will serve twenty; three quarts of wine jelly will serve forty; a ten pound turkey or twelve pounds of chicken, with fifteen stalks of celery, will make salad for fifty people; two quarts of bulk oysters will make a very large pan of escal-

loped oysters; and one pound of coffee will serve thirty-five."
"Oh Ruth, you will never know how grateful I am," enthused Mrs. Smythe, "I can buy now with ease."

Household Helps

When removing gloves never begin at the tips of the fingers to pull them off, but turn back the wrist and draw the glove off wrong side out.

Rub the patent leather shoes with vaseline and allow to remain on the shoes half an hour. Wipe off with soft cloth and polish with a piece of cotton flannel. Keeps shoes soft and bright.

Scrape the soles of the baby's shoes with a file or rasp and save the little fellow many falls.

A cheap and excellent solution to use in drains and closets may be made by using one pound of copperas to one gallon of water. Turn into closet or drain at night.

For tired, inflamed eyelids there is nothing better than a cloth wrung out from hot water, apply to eyes and change the cloth often.

Rice a la Creme

Boil one cup of rice in two cups of milk. Dissolve a tablespoon of gelatine in four tablespoons of hot water and add to the rice, also a cup of whipped cream, three tablespoons of sugar, a pinch of salt, and a tablespoon of vanilla flavoring. When cooled slightly pour into a wet ring mold. When chilled and firm and

My best friend stole my girl from me;
At first it made me sad,
He married her and then he said
He wished he never had

ready to serve turn on to a platter or plate, fill the center with fresh stewed figs, heap with whipped cream, garnish with green almonds and serve.

Rope

Vegetable fibers are the most common materials used in manufacturing rope. Hemp is the most widely used, although some varieties are made from manila or wild plantain, cotton, coanut. Wire rope, or cable, is now used extensively because of its superior durability and strength.

HAPPY CORNER

The past week has been one of fine weather.

Miss Olga Lundin is assisting with household work at the J. E. Borge home.

Mrs. Henry Hoper departed Sunday evening for a week's visit with Iowa friends.

Rev. A. Graval of Stephen filled his appointment at Happy Corner

last Sunday, he was accompanied by Rev. Skunes, of North Dakota, a former pastor of the church at this place.

J. W. and Mrs. Field and son Ward, spent Sunday at the home of Fred Field and family.

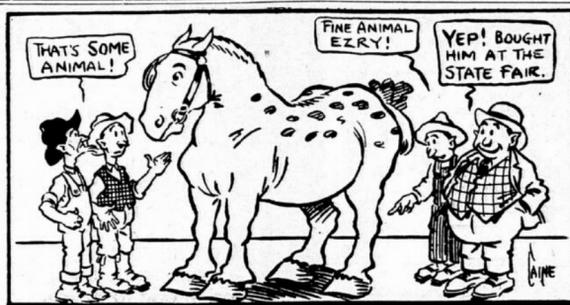

Herman Bartels and family were Sunday visitors with Charley Harrington and family.

Last Sunday was the first Sunday for some time that the roads have been in good condition for autoing and many took advantage of the good road conditions.

Mrs. L. C. Jorgenson returned one day this week from St. Paul, where she had been to receive treatment for her eyes, by a specialist.

Frank Suthard and cousin, Miss Nina Chapman, spent Sunday at the latter's home.

Tom Thorildson, C. E. Johnson, S. P. Jensen, S. J. Grandstrand and Henry Rasmussen with their families, autoed to the J. J. Hill farm near Northcote, last Sunday. They probably gave Mr. Hill some pointers on farming.

A BIG EDUCATIONAL FEATURE of the Minnesota State Fair, September 6 to 11, will be its great public livestock market. The noted American sheep, horse, swine, and cattle breeders are being urged to bring their surplus sale stock to the million dollar show for disposal to the army of farmers in the stock business attending the fair. Many pure-bred stallions will be brought to meet the demand for good horses created by the war. Hundreds of pure-bred sheep will be sold to help build up the industry in the Northwest. A large number of fine boars will also be disposed of, as receipts at South St. Paul indicate an unusual interest. It goes without saying that many beef and dairy cattle will be sold. Farmers who do not buy will have a wonderful opportunity to study the most profitable types and breeds of farm animals shown for premiums. LET'S GO!

Crookston College is one of the largest business colleges in the Northwest. They place all their graduates in good positions every year. They have a course in Auto, Gas and Steam Engineering. Board and room \$3 to \$3.50 per week. Write J. C. SATHRE, CROOKSTON, MINNESOTA.
