FLORIDA
Salt water to the East of us
Salt water to the South of us
Salt water to the West of us

FOR this reason no other state equals Florida's climate. A fine climate means **Health**; it also means **Comfort**: two of the most essential things in life. The cooling trade winds sweep across Florida day and night, making it warmer in winter and cooler in summer than other State. Plenty of rainfall, plenty of sunshine and plenty of cheap lands now, but they are going fast and prices will be higher before long. If you are going to make a change we call your attention to the country along the new

Okeechobee Division of the Florida East Coast Railway
where the towns of *Chulota, Kenansville and Okeechobee* have been established, with ten thousand acres of carefully selected lands surrounding each town. These lands are well drained, adapted to fruit growing, cattle, hogs, sheep and poultry and general farming.

Come along on one of the excursions on the first or third Tuesday of each month and investigate for yourself. Literature, maps, etc. FREE. If interested in live stock, get our new book on "Live Stock Farming in Florida," and "Forage Crops." Call on or address, NILES NELSON, State Agent, Land and Industrial Dept. Florida East Coast Ry. Co., 157 N. 3d St., Minneapolis, Minn. LOUIS LARSON, Western Industrial Agt., 155 W. Madison St., Chicago, Ill.

An Unexpected Delight

You'll discover a flavor you are unacquainted with in corn flakes, the first time you taste the kind made by the Dr. Price process.

Ordinary corn, ordinary processes and care in manufacture would not do for a product bearing the Dr. Price name. They had to be better to live up to the Dr. Price standard.

The result you will perceive the first time you taste
