

## List Your Lands With Us

We are now making up our list of lands for the coming season, preparatory to the season's campaign.

We want to list a number of farms for sale, and if you are thinking of selling your land this year, come in now and talk the matter over with us.

The selling of a farm is a business proposition and takes time to move. By getting your farm in early, we will be able to place it before thousands of prospective purchasers this season and practically assure a sale.

Where is the best place to work Algebra? Ask Ragnor and Henry H.

## SIGNS OF PROSPERITY

There is no surer indication of the soundness and prosperity of a community than the purchase of non-resident and adjoining lands by our local farmers. If anyone knows the real value of our Marshall and Polk County farms, it is the men who till them. When they buy, it means business. It isn't speculation, but, rather, PLANNING THE FUTURE for the young farmers growing to manhood.

### THE FIRST NATIONAL BANK OF WARREN

believes in encouraging this kind of expansion, and you will find its officers always ready to assist in every way, consistent with safe banking, in the raising of funds for such purposes. The great asset of this Valley is its rich soil, which is unsurpassed the world over. As an evidence of this, there is no place on earth where prosperity, health and happiness is more general than right here in our good old Marshall and Polk Counties. The fertility of our soil is responsible for this, and these lands are still cheap and will be until they pass the Hundred Dollar per acre mark a long ways.

THIS ISN'T A LAND BOOM, AN AIR CASTLE, OR A DAY DREAM, but simply cold facts, which are borne out by this bank's statement, which shows:

Capital of - \$50,000.00  
Surplus and Profits of \$18,000.00  
and  
Resources of Over a Half Million Dollars

We have helped our customers carry through dozens of such deals in the past six months and if we can help you, come and see us.

Yours for greater prosperity,
