P. Peterson, the tailor, is able to be up and around again after seven weeks of serious illness. He attributes his sickness to infection sustained when repairing an old auto top. At the time he had a little sczema on his hands and in removing rusty screws and rivets his hands became poisoned, numerous boils and blisters appearing on them. The infection also spread to his feet so that he was unable to walk, in fact, his whole system became saturated with the virus and he was near to death's door. After this hard exper-

ience, Mr. Peterson is very thankful that he still is in the land of the living. He hopes to be able to resume work in his shop the latter part of this week.

Wm. Tripp, of Warren, has the contract for about a mile and a half of grading on state road No. 8, west from the new bridge that is being built across the Thief river. Mr. Tripp commenced the work of grading the road on Monday. We understand the parties who are constructing the bridge, expect to complete the job by sometime next week. This will make a straight road from Grygla to Holt and will undoubtedly be used a great deal as soon as ready for travel.—Holt Weekly News.

As usual, he is cheerful and optimistic, and, although he can discern some clouds on the business sky, he hopes they will pass away. As far as the Red River Valley is concerned, he believes conditions never were better. A beautiful fall has enabled farmers to do their plowing and other fall work in good shape. Everything raised on the farm, also, brings good prices and adds to the general prosperity.

Red Cross Society of Warren:

Dear Friends:
My mother informs me of your kindness—a comfort kit—can't express my appreciation—something I need and use every day—mighty good folks in my old home town. Was without one for several weeks and now appreciate it more than if I had had it all the while.

Let me also ask that you express through the proper channels my sincere thanks for the Holy Bible donated by the M. E. Ladies' Aid Society. While I have not suffered any physical hardships to complain of, there are mental ones and comfort is found in this little book, not in the size, color or form, but in the good news therein contained. *

God bless the Red Cross and its work.

Not a drafted soldier only a volunteer with the regulars, sailing at a moment's notice into the unknown dangers of our enemy.

RED CROSS NOTES.

(By Mrs. F. P. Bernard)

Since our last report the following ladies have taken up knitting, namely: Mesdames C. A. Tullar, John Anderson, Joe Ovsak, N. O. Stadum, W. O. Holcomb, Chas. Wittensten, C. Enix, D. Samson, R. M. Gilbert, Ruth Shaw, E. L. Tornell and Celia Thomas. Also the Misses Peterson, Zora Rafferty, Perkins, Akerman and May Tvede. We now number 106 knitters, surely we ought to accomplish a lot of work in the next month. Will all knitters please phone and tell me just how much they will be able to do in the next six weeks? I am asked to report and unless you help me I shall not be able to report as I should. So please tell me what you will try to do before December first, let us get the knitting off our hands as early as possible. Let us hear from the auxiliaries too, very soon.

The committee on making needle books got busy Friday afternoon at the home of Mrs. A. B. Nelson and made 44 needle books. Enough, we hope, to last for some time.

The Red Cross benefit play will be given on Nov. 5th. Don't forget the date, and the cause.

A very enthusiastic Red Cross Auxiliary was organized at Radium last Saturday. There are some good workers there.

The Masonic Lodge of Warren has kindly donated \$10.00 to Marshall County Chapter for which the society is very thankful.

The testaments have arrived and are available to those who wish them for comfort kits.

The call for knitted articles continues to be persistent and letters received at the local Red Cross headquarters are so appealing that we are most anxious to do our part—get our allotment finished as early as we possibly can. These garments are to be used in northern France, a region of continued cold and drizzling rains in winter and hand-knitted garments have been proven to be the best available protection against these conditions. If you are not already doing it, will you not begin at once on this, your easy part of the great struggle.

The sewed garments are also much in demand, so let us not neglect that part of our work.

The basket social which was to have been held in the Horgen school on Friday, Oct. 26, has been postponed to Friday evening, Nov. 2.

Don't neglect the children's education, but do not let them ruin their eyes in school. Have glasses fitted to prevent eye-strain and save their eyes.

Our Country Needs Your Help

“DO YOUR BIT”

Patriotic Housewives all over the country are doing all they can to further the interests of those engaged on our side of this great World's War and those who fully understand that they can't "Do Their Bit" by making their own comforts are doing so.

There is no doubt but that this way of "doing your bit" is as advisable a way to help as any, because in doing so you relieve the pressure on our blanket manufacturers who need all of their time and material to make blankets for our soldiers at the front. Again we say
