Small Chance to Save \$5,000.

For the young man who thinks it is
a manly thing to spend money freely,
and who sneers at the thrifty person as
"stingy" and "mean," here are a few
facts that he may digest with profit:
Sixty-two of every 100 persons dying
in this country have absolutely no
estate; they die penniless. Of the re-
maining 34 persons, 25 never accumu-
late more than \$1,300 in their lifetime,
and die with less than that. Only nine
persons in 100 have more than \$5,000
when they die.
One of the best ways in which to
begin saving is to take out a life in-

urance policy and put into it the
nickles, dimes and quarters which gen-
erally go for trifles and unnecessary
outlays.—Kansas City Star.

Notice to the Voters of Comstock.
