Owners of the smaller cars can enjoy the same high relative value in Goodyear Tires that gives utmost satisfaction to owners of big, costly motor carriages.

They can take advantage of that tremendous amount of equipment, skill and care employed by Goodyear to build tires of extraordinary worth in the 30 x 3-, 30 x 3½-, and 31 x 4-inch sizes.

They can secure these tires without waiting, despite the enormous demand, because, in addition to its larger sizes, Goodyear builds an average of 20,000 a day in the world's largest tire factory devoted to the three sizes mentioned.

If you own a Ford, Chevrolet, Dort, Maxwell, or any other car using one of these sizes, go to the nearest Goodyear Service Station Dealer for Goodyear Tires and Goodyear Heavy Tourist Tubes.
