DISEASED CATTLE. LONDON, Feb. 25.—Thirty-one head of cattle and seven sheep belonging to the cargo of the steamer Ontario, at Liverpool on Friday last, from Portland, Me., are diseased. The infected animals are Canadian. Such strict precautions were taken with the Ontario's cargo that there is no fear the disease will spread. There was good reason to believe the disease was contracted in Liverpool, as the Ontario took to Portland a cargo of Herefords which showed disease after landing, and it is not believed it places a detention on Portland. The infected inspectors at Liverpool await a cargo due on Wednesday from Portland before coming to a final decision.

WHY SARGENT IS UNPOPULAR. LONDON, Feb. 25.—A Berlin correspondent, in a communication to the Standard, says independent papers are bitterly complaining of the dishonorable semi-official attacks upon Minister Sargent, who has never been popular in official circles here. The English press probably is unpopular because he is merely a politician and not a scholar, like his predecessors. The real reason, however, is, Sargent does not regard his position as a sinecure, but energetically fulfills his political duties, which fact often occasions difficulties.

THE SITUATION MORE SERIOUS DAILY. CAIRO, Feb. 25.—Great uneasiness is felt here as the report that the powerful Bersheera Arabs, who occupy the territory between Khartoum and Waddy-Halfa, and eastward as far as Berber have revolted. If this is true, Gen. Gordon, with Khartoum and other garrisons are cut off. Mahdis emissaries are going throughout the whole of Egypt bearing the simple message: "The coming is ready." This passes from month to month, and the situation is becoming serious.

Dolgorouki gave the emperor an autograph letter from the czar, asking for an interview. In consequence of the explanations of Dolgorouki regarding the concentration of Russian troops in the frontier provinces, Bismarck has countermanded the orders to increase the force in the Duchy of Posen, but maintains the present garrisons at their full strength. The emperor marks the restoration of the entente by ordering a special military celebration of the seventeenth anniversary of his entrance into the Russian Empire.

THE RAILROADS.

Condition of the Cattle.

Mr. R. B. Wilson, who was sent out by the Northern Pacific road to investigate the condition of the live stock along the line of that road, reports under date of February 19, from Miles City, that stock reports from the north side of the Yellowstone river are very favorable. The only losses are from wolves which are quite numerous. Young cattle particularly have suffered. The winter has been very fine. Very little snow having fallen until February 6, when it commenced snowing and continued for several days. Ten inches of snow fell in the Yellowstone valley but it has all disappeared, and cattle can now get the grass without trouble. I have met Mr. Teasdale, foreman for W. C. Connors who put in 5,000 head of cattle on Powder river. He says the cattle are in fine condition for that class. He has lost nothing yet and the cattle have not suffered for feed or from cold weather at any time this winter and predicts that unless the winter should become very severe and the spring late and cold, his loss need not exceed two per cent.

Mr. Graham, of the stock firm of Johnson & Graham, reports very favorable as to the condition of the cattle on the Little Powder river, where their herd is located. The weather there has been good, with but little snow. At present there is about six inches on the ground. Cattle have not suffered from want of feed. Range cattle are fat and state cattle are in good condition.

Mr. Lewis, of the Pickering, Lewis Cattle Co., says their herds on the Powder river, below a month of Chaco creek, he has never seen cattle looking better or less disposed to drift off. No losses have occurred in the hands of Carpenter & Robertson, Cook & Anderson or the De Hart Live Stock company. The writer does not think that there will be any serious loss on cattle on ranges tributary to Miles City. There will be some loss on state cattle, but what it will be no one can tell at present. He thinks that range cattle will come out in better condition than they did a year ago. The stockmen are all in the best of spirits.

Another New Railroad.

Mr. A. P. Hendrickson returned to-day and from him we learn the real facts in regard to this new railroad. The company was organized at Fargo January 30, and has obtained a charter, which has been accepted by the board of directors. The charter authorizes them to build and operate a line of railway from Fargo via Larimore to the boundary line. The following officers have been elected: President, Thos. S. Edison. Vice President, W. A. Kindred. Secretary, A. P. Hendrickson. Treasurer, W. G. Woodruff.

Messrs. Edison and Hendrickson have been appointed right of way agents, who will begin at once to complete the right of way, which they began some time since and in which they received such strong encouragement. The road will be built by the Fargo, Larimore & Northern Railroad company, backed by eastern capital, and will be operated in conjunction with the Fargo Southern railway.

Mr. Thos. S. Edison has just returned from Canada and the western states, where he secured \$1,000 to complete the road, and it will be organized and operated by the company which has been organized and we are authorized to say this new company's backing is a strong Chicago company, and one that will run its roads independent of any other such securing free competition. Also the fact that men prominently connected with the Fargo Southern are on the board of directors of the Fargo, Larimore & Northern declares beyond a doubt that we are to have an independent outlet to Chicago and the east.

The importance of this enterprise is hard to overestimate. It will be the making of the Elk valley and its beautiful city, and all will heartily co-operate in its advancement. One thing important must be known. There is no provision to purchase a right of way. This must be donated to the company or the road cannot be built. About this there will be no trouble though, as all are anxious enough to see a competing railroad. Let everybody put a shoulder to the wheel, secure the right of way at once, and we will have another road to help ship next year's crop.

Trying for a Better Position.

CINCINNATI, Feb. 25.—A meeting of the directors of the Ohio & Mississippi railroad was held here to-day. There were present Robert Garrett, Jas. Sloan, Jr., W. T. Montague, J. L. Donaldson, C. R. Goodwin, Edward Higgins, Jr., A. C. Crane, W. E. Guy, Judge A. B. Patterson, from Baltimore; Edward L. Whitaker, St. Louis; J. J. Jackson, Parkersburg; W. T. McClintick, Chillicothe; Ohio; J. Douglas, receiver, and W. W. Peabody, general manager. After a somewhat extended conference, resolutions were adopted, by a very decided majority, authorizing the executive and finance committee to dispose of the new five per cent. mortgage of the company to an amount necessary to pay all arrears of indebtedness, so as to release the railway and other property from the custody of the courts, and put the company again in control. Strong confidence was expressed by the committee in their ability to place the road with very little delay. Provision was made for an early application to the court for the proper order to restore the railway to the company, and for the settlement of the receiver's accounts. It is believed this valuable property will soon again be operated, free from restrictions, which necessarily trammel the receiver, and enable its managers to place it in a strong and independent attitude, so as to command the traffic to which the line is justly entitled.

The Chicago & Atlantic Eastern Connections.

CHICAGO, Feb. 24.—There is a possibility that the Chicago & Atlantic will lose its eastern connection, now enjoyed in the New York, Pennsylvania & Ohio. If McHenry is successful in his suits, now pending in Cleveland for the possession of the latter, such will be the case. A well-informed railroad official in conversation yesterday, thought that the New York, Pennsylvania & Ohio would be able to continue its eastern business without interruption, even if wrested from the Erie, and would also make satisfactory arrangements for a western outlet, though cut off from the Chicago & Atlantic. "You know," he said, "that President Sloan, of the Lackawanna is anxious to get a western line, and if McHenry secures possession there is no doubt that it will immediately be leased to the Lackawanna. The two roads might connect at Carry, Pennsylvania. Mr. Sloan needs the road while Mr. Jewett never cared for it, rather preferring to build a line of his own. At Mansfield, O., connections could be made with the Ft. Wayne and thus have a first-class line to Chicago. If McHenry is successful in his suits, and I have no doubt that he will, rapid changes will at once be made in the connection of the New York, Pennsylvania & Ohio.

A Road Sold.

PITTSBURG, Feb. 25.—The reported sale of the Pittsburg & Western railroad was confirmed at a late hour to-night by Thos. M. King, one of the new directors. A majority of the stock was taken by the Baltimore & Ohio company, who elect seven of the thirteen directors, as follows: Robert Garret, Samuel Spencer, J. K. Cowen, N. S. Hill, of Baltimore; Thos. M. King, Pittsburg; Solomon Humphreys, T. S. Terry, New York. This opens up a direct line from Baltimore to the lakes.

Her father was shot three times, and his head crushed with a club. The murderers escaped, but were closely pursued, and rode into Humboldt and surrendered to an officer. The town is excited to-night, and many armed men are on the streets. The sheriff is here with a strong posse. It is a cold blooded murder and trouble is feared before morning. This dispute was over land claimed by Guillard but owned by Mrs. Hawes. All the parties concerned are land leaguers, but the organization is blameless.

A Postoffice Fight. [Washington Letter.] Among the president's nominations sent to the senate was that of Miss Melissa A. Pemberton to be postmaster at Fredonia, N. Y. Some discontent is expressed among the New York delegation at this selection. They are understood to favor the claim of S. L. Wilson for the place. Wilson lost both legs in the war, and was for a long time one of the door-keepers of the senate, until the Democrats turned him out in 1879. He was warmly recommended by influential Republicans, and it is said that his appointment was promised to them by the president. Some time ago the friends of Miss Pemberton, who is a clerk in the postoffice at Fredonia, started a story to the effect that Wilson, if he should be made postmaster, would turn out all present employees of the office, Miss Pemberton included, and fill it with his friends. They got a petition in her favor, and her brother, it seems, with this petition in his pocket, arrived here a couple of weeks ago. To judge from to-day's nomination, his errand must have been successful.

The end of the matter, however, has not been reached yet, and it seems more than probable that the soldier element, whose votes senators, especially candidates for the presidency, consider worth counting just now, will be put forward to use its influence in the senate to prevent Miss Pemberton's confirmation. Senator Logan may be counted upon to exert himself for Wilson. There are others who are ready to assist him. Miss Pemberton's promotion, her friends say, would be in accordance with civil service principles. They assert that she has experience, that she is competent and in every way fitted to discharge the duties of the office.

The GLOBE has established special news bureaus in New York and Washington, and is served by a faithful corps of correspondents who will allow no item of interest to escape them.

The GLOBE has an elaborate and complete news bureau in Chicago. Its representative is upon the Board of Trade daily, and telegraphs each night a letter giving an entertaining review of the markets, the gossip of the Board, and the views and talk of leading operators.

The GLOBE has appointed correspondents in all the leading towns and cities of Minnesota, Northern Wisconsin, Northern Iowa, Dakota, Montana, Idaho and Washington Territories.

The GLOBE is issued every day in the year, Sundays and holidays included.

THE WEEKLY GLOBE.

The Saint Paul WEEKLY GLOBE is published every Thursday. It is especially and carefully edited, and while it contains the cream of the matter published in the daily issues, it is not a jumbled reprint of extracts from the DAILY GLOBE, but has a large amount of valuable matter especially prepared for it by a competent editor who devotes his entire attention to that issue. It is an eight page sheet, seven columns to the page.
