A Daily Globe Department at Mankato Devoted to Developing and Advancing the Southern Portion of the State.

The Mankato office of the southern Minnesota department of the Globe will be, until further notice given, at the drug store of John A. Persons...

Special Reports from the GLOBE Mankato office April 16.

The delightful weather of yesterday made every one feel happy and smiling.

Building operations are generally under good way, and numerous of large mansions are being erected at night in the works.

Henry's ministers are to appear on Saturday night at Union hall, instead of at the Opera house, as reported on Wednesday.

Seeding in this locality has been generally finished, and if the present beautiful weather continues will be out of the way in a few days.

J. S. Fowler has just bought an immense junkyard general stock which will be soon offered for sale at his auction store opposite city hall.

Mr. Geo. E. Brett, who recently returned from market, has received a most complete stock of dry goods which fairly makes his shelves groan.

W. C. Davis, a resident of Minneapolis, who has been at Mankato for some time, left on yesterday for Sully county, Dakota, where he has a farm.

J. Bookwalter, Esq., United States collector of customs at St. Vincent, and former resident of Mankato, is visiting old friends for a few days.

The Hubbard & Co. mill has shut down for a few days to allow for certain repairs to be accomplished, but it is expected to start up in a week or two.

Will D. Amant an expert roller skater from Chicago, will give exhibitions of his skill at the rink in this city upon the evenings of April 23rd and 26th.

The time worn plankwalk in front of the Mankato house is being removed and a new one substituted. A change which will be grateful to both landlord and guests.

The very fine paper read at the late annual meeting of the Northwestern Dairymen's association, by Mrs. J. C. Currier, has been translated and printed in the Welsh language.

Dr. J. C. Currier has gone to LeSueur at the earnest request of some of his old patients and points to do a few days professional work upon the bad teeth of the citizens who may wish it.

Mankato Commandery No. 4, have decided to attend the annual convocation at Minneapolis, June 24th, next seventy-five strong. They will be the guests of the two Minneapolis commanderies.

Mrs. Ann Dickson, of Good Thunder, sixty-three years of age was adjudged insane yesterday by a commission composed of Judge Mead, Dr. Harrington and Dr. Frisby...

The street work goes bravely on, and what with new cross walks and general cleaning up, the city will soon be in a good sanitary condition so far as the streets are concerned.

If each citizen will pay equal attention to the condition of his own premises beneficial results will accrue.

The board of United States examining surgeons consisting of Drs. Frisby, Davies and Harrington were in session on yesterday, Wednesday of each week being set apart for that purpose.

Special United States Agent J. P. Williamson who has been located here, has been taking some testimony in special cases before the board.

The wires of the Mankato District Telegraph company have been put in circuit, and the neatly uniformed messenger boys are to be seen upon the streets.

This accomplishes one more method of relief for Mankato, and its convenience will be appreciated by those who use it. Now let a street railway company be formed, new water works established, and a system of sewerage adopted, and Mankato will be as desirable a place to reside in as any city in Minnesota.

A most painful and distressing accident, resulting in a double fracture of the left leg, occurred to Mrs. J. C. Wise on yesterday morning as she was about descending the front steps of her residence.

The steps being somewhat frosty and heavily to the walk, the fractured limb sustaining the weight of the lady's body, and being fractured as above stated. Drs. Warner and Davis were speedily summoned, and the fractured limb was soon set, but they report the patient as having experienced a very severe nervous shock.

The many friends of Mrs. Wise will regret to learn of her misfortune, and will hope for her speedy recovery.

An Unknown Suicide at Waterville. [Special Telegram to the Globe.]

WATERVILLE, April 16.—Last evening a young man who registered by the name of Smith, apparently about twenty-five years of age, arrived on the 6 p. m. train, holding a ticket from Fargo, D. T., to Burlington, Iowa, and who went directly to the Minnesota house. About 11 p. m. a shot was heard from room he occupied, and upon entering it he was discovered with the smoking revolver in his hand and his head, which must have produced instantaneous death. He had a baggage check, and the trunk which must have gone on has been telegraphed for to be returned, when something more may be learned of him. A coroner's jury returned a verdict in accordance with the facts.

Henderson Man Killed by Cars. [Special Telegram to the Globe.]

HENDERSON, April 16.—Information has been received here to-day of the killing by cars of a young man, formerly a resident here, by the name of Theodore Cammeron, who left this place on yesterday, in company with another man who had a car of stock for his claim at Devil's Lake, D. T. It seems that while his train was switching last night at Arden, a flag station between Hamilton and St. Paul Junction, on the Omaha road at 9 p. m., he was caught by the cars and dragged some distance, being horribly mutilated and of course instantly killed. No blame attaches to any of the train men and his death is no doubt the result of his own carelessness. His father returned here with his remains for burial.

STILLWATER. Anderson & Co.'s saw mill will commence cutting next Monday morning.

The long needed repairs on the Stillwater section of the bridge are about to be made. Mr. Miller, who has the job, intends to begin work the first of next week.

The proprietor of the Last Chance was before the police court yesterday for selling liquor to minors. The case comes up for a hearing this morning at 9 o'clock.

John Shortall, formerly city marshal and for many years a member of the police force, who has been seriously ill for several days past was thought to be much better yesterday.

The meeting at Music hall on Tuesday evening, for the purpose of organizing a brass band, seems to have been quite the reverse of harmonious. A number of musicians supposed to have been in the movement to hold a concert at the Music hall party, a meeting elsewhere effected an organization which they claim will entitle them to the instruments. It is much to be regretted, especially in a matter of this kind, that nationality should come into view. The party who felt aggrieved by the proceedings

of Tuesday night are all Germans, while among the seceders there is but one of that nationality.

The outcome of the whole matter is that Sullivan will have to look for his money. The Music hall party have already secured their instruments. The next move will be to secure the services of a competent teacher, which they propose to do forthwith.

Mr. Fayette Marsh, a prominent member of the Washington county bar, was yesterday united in marriage with Miss Kate, daughter of the late Elean Giesler. The wedding took place at the residence of the bride's mother, Rev. Theophilus Brooks, pastor of St. John's church, officiating. The ceremony was witnessed by some fifty of the relatives and friends of the parties. The newly wedded couple will reside in the city of Washington and other cities south and east.

At the meeting of the city council on Tuesday evening, President McComb announced the standing committees for the ensuing year. It is generally conceded that the president has succeeded admirably in getting the right men in the right places. Below will be found a list of the committees as at present composed: Finance—Townsend, Burk and Nelson; streets—Covell, Brownson and Kiltz; fire—Brownson, Lyons and Nelson; bridge—Drauser, Townsend, Kiltz; printing—Burk, Townsend and Draver; ordinances—Lyons, Townsend and Nelson; building—Drauser, Burk and Nelson; street cleaning—Brownson, Burk. The council evidently mean business in regard to paying Main street. On Tuesday evening, this important matter was referred to a special committee consisting of the city engineer and the chairman of the finance and street committees. Notice was taken in regard to the fire department. Further consideration of the question was postponed until after the report of the finance committee is presented to the council.

LATE MINNEAPOLIS NEWS.

Chamber of Commerce. At the adjourned meeting of the chamber of commerce held yesterday, A. A. Bishop presided in the absence of the president and vice president. The following were unanimously elected members of the chamber: Messrs. Joseph L. Mackey, Harry F. Legg and George W. Porter. E. A. Sommers, of the transit committee, made a report on the report of the committee on the proposed extension of the street car line from A. C. Brick, requesting the postponement of the report until he could see the committee. The committee was given until next regular meeting to present its report. On motion the meeting adjourned.

ROCHESTER. Easter was observed in all the churches of the city on Sunday.

C. E. Marvan has returned from the west. C. E. Marvan, general agent for the New England Life Insurance company, is in the city.

The Rochester orchestra are arranging to give an entertainment at Horton's hall on the 20th inst.

A runaway team caused a sensation on Broadway yesterday. No serious damage.

Progress in the cold-weather seeding is going rather slowly.

Ja-y-Duc has purchased a beautiful family carriage.

Determined to Humble England. LONDON, April 16.—Patrick Joyce, secretary of the Fenian brotherhood, has issued a manifesto, addressed to all Irishmen. He says: "The brotherhood has good cause for rejoicing at the discomfiture of John Bull. England has never before felt the vengeance of the expatriated Irish with such crushing force. The honor of inaugurating a scientific warfare is due to the brotherhood. We have convincing proof of the efficiency of our scientific warfare, as handled by intelligent, brave and determined men. We summon all to help us. We advise our brothers to persevere in the glorious war, and we will live to witness a free and regenerated Ireland. We are resolved to build up a republic, to be free, to be free, and we recommend Prof. Messeroff to all Irishmen as the exponent of the resources of civilization."

Badeau Not Recalled. HAVANA, April 16.—General Badeau, in a card, notifies the Madrid despatch of the 14th, that he has resigned his position as aide to the minister. As the despatch is open to bad interpretation, I wish to state, I was not recalled, but on the contrary the government at Washington has asked me to remain. I wish further to say I have had no intercourse with the Cuban revolutionists, indeed, Captain General Castella has given me thanks for the course which I pursued in the Agiero affair. "The authorities are arming all the laborers and other employees on the public roads, causing painful surprise."

McLean County for Blaine. [Special Telegram to the Globe.]

BISMARCK, D. T., April 16.—The McLean county Republican convention to-day elected W. R. Maze as delegate to the Huron convention, and instructed him to cast the vote of the county for a Blaine delegate to the county convention. Resolutions were passed unanimously endorsing Col. C. A. Lounsbury for governor of Dakota. The Burlington county Republican convention elected E. A. Williams, Dr. W. A. Bentley and Robert MacNider delegates to Huron, unopposed.

Winship Delegates. [Special Telegram to the Globe.]

GRAND FORKS, D. T., April 16.—The Republican county convention was held to-day, and eight delegates to the Huron convention were elected, instructed to vote for G. B. Winship, of the Herald, for delegate to Chicago. Winship and Holmes returned from Yankton to-day, and the former received a despatch that the Huron convention was held at Yankton, and other counties of the Northwest, will probably be for him. The convention adopted complete rules governing future organizations. James H. Bosard was appointed chairman of the new committee.

Delegate Raymond Snubbed. [Special Telegram to the Globe.]

FARGO, April 16.—It is a matter of surprise to many that the Republican convention to-day should have unanimously, almost, laid on the table a resolution endorsing the official course of Delegate Raymond, and urging the Huron convention to take favorable action in regard to him. In the convention were many friends two years ago. Even the Postmaster at Wheatland, who was retained at his special instance, actively opposed the resolution.

BEECHER'S NEW LECTURE.

A "Circuit of the Continent," by Rail and Steamer.

St. Paul to New Orleans, by Portland and San Francisco.

Rev. Henry Ward Beecher, at Chicago Wednesday evening, delivered before a very large audience in Central Music hall, his new lecture entitled, "A Circuit of the Continent." We copy from the Chicago Times of yesterday a portion of its report. I remember emigrating from my boyhood to Ohio, and thought them going into the wilderness. When I was a boy a neighbor went to Illinois, and the village had a day of fasting and prayer. Then Buffalo was the ultimate northwest; later it was Chicago. Then St. Paul, Oregon, and Idaho, Arizona, Idaho, Wyoming, and if they can get agency they will control four states, and from such states will hold the balance of power in a closely contested election. In this there is danger. What are we going to do about it? Some have sought to convert the Mormons with a club; some advocate political methods;—one thing is certain, the Edmunds bill has done more harm than good by bringing back to the faith younger Mormons who were drifting away, by arousing the hostility of the people, and that is education and Christianity. There is in Chicago an organization which sends out teachers among the Mormons. Call back your missionaries from China, stop passing the hat around the churches where there is no belief in the doctrine of Christ. What is the use of trying to swan the Chinkmen from their idols if you can not remedy the evil of Mormonism in your own land. If such is the case religion is a delusion and churches a sham. I do not believe it.

I was impressed during my trip with the land—not its productions and wealth, but the amount of it. Through Ohio, Illinois, Iowa, there was so much out of doors, and further west, through the territories and Texas, there was the prospect of a vast and fertile plain waiting for the tiller. I made my first stop at St. Paul, and found there two beautiful cities. Minneapolis was the paradise of flour; 30,000 barrels a day are manufactured there. It would take a train to carry the flour from the mill to the flour made there in the year. But the Northern Pacific road opens up the wilderness of wonders.

THE CANADIAN POSSESSIONS. West of and including Manitoba are marked. Winnipeg, which but a short time ago was a fair trading post, is to-day a city of 20,000 inhabitants, and has streets much cleaner than Chicago. Her navigation for Oregon, and 1,200 miles across the west and north, and the streams drain the most fertile grain country of the world. It is the country of the north; and out of the north comes the men; men of brain and brawn; men of ideas and endurance; men who can and do do things that the men of the south cannot. It is cold up there, colder than we here know it, but the dryness of the air and the ozone of it do not allow the chilling cold we know of here. And the five months of growing weather they have there allow the common garden fruits we have here, and wheat is evidently adapted for wheat. There is plenty of forests, coal, stone for building, and timber for houses. The Hudson bay is navigable for five months, and it is three hundred miles nearer to Liverpool by that route than via New York.

COOKE AND VILLARD. But come back to the Northern Pacific; I am interested in that road. Horace Greeley and I owned some of the original stock; I have none of it now. When Jay Cooke first advocated that road, he was laughed at; it was thought that it was a waste of money. Some day that is going to be a valuable stock. When it has been watered and the water squeezed out, and the stockholders who paid their money for the stock frozen out, and the road got into a few hands, it will be a valuable stock. I would rather have the road now, than I would have it later. It is a road that will be a blessing to the people of the north. It will be a blessing to the people of the north. It will be a blessing to the people of the north.

THE NORTHERN PACIFIC. All along that road are cities built of canvas, and shanties, with all the gambling privileges of an eastern community. They are hardly yet inhabited, but they have corner lots staked out, speculate in them and have a lot of money. The money is not in the road, but in the shanties. The money is not in the road, but in the shanties. The money is not in the road, but in the shanties.

DAKOTA LAND AND CLIMATE. But come back to the wheat country. Dakota is the great state. You can put New England, New York, New Jersey there and have land enough to spare. The northern Dakota what surpasses that of all the world, you don't know what it is until you come to northern Dakota. It is the best wheat territory, the Italy of America. The climate is mild and equable, the soil wonderful, and mountains magnificent. To a sturdy, hard-working man, who can live on a little and wait for better days, it is the country of the world to migrate to. It is the country of the world to migrate to. It is the country of the world to migrate to.

RAILROAD MEN. The scenery across the mountains is beautiful, at least so it is said, for there was so much smoke from fires, dust, and smoke that nothing could be seen. From Portland we went to Puget sound, Washington territory, the Italy of America. The climate is mild and equable, the soil wonderful, and mountains magnificent. To a sturdy, hard-working man, who can live on a little and wait for better days, it is the country of the world to migrate to. It is the country of the world to migrate to. It is the country of the world to migrate to.

GRANT AND BLAINE. Gen. Beale, a Friend of Both, Brings About a Reconciliation.

[Special Telegram to the Globe.] WASHINGTON, April 16.—A well known politician here states that the reports that Grant and Blaine do not speak are incorrect. Stories printed to the effect that Grant stated that he would not attend a dinner if he knew Blaine was to have been there, had created the impression that Grant and Blaine did not meet when the former was here. The truth is Blaine called upon Grant by appointment and spent an hour in friendly conference. The meeting was arranged by Gen. Beale, a neighbor of Blaine and friend of both Grant and Blaine. Beale suggested to Grant that Blaine sympathized with him in his suffering; cherished no resentment, and would be pleased to call. Grant's reply was that he had no ill feeling toward Blaine, and that when he said that he would not attend a banquet at which it was known that Blaine was to be present, he only intended to state that he did not wish to have any formal public reconciliation, but that he would be pleased to see Blaine. With this agreement Blaine called.

The same gentleman asserts that Grant before leaving Washington told a friend that when he declared he favored Logan he could not understand how any one could suppose that he himself could possibly be a candidate. Grant expressed himself as strong as he possibly could that his name was under no circumstances to be considered at Chicago.

The story comes here, credited to Tom Platt, that Conkling does not intend to take any part in politics, for or against anybody, until he has made his fortune at the law, and that he will then seek to come back to the law. Conkling is growing old, and the advantage of an early opportunity to do so.

DELEGATES ELECTED. REPUBLICANS.

The South Carolina state convention was held yesterday, an elected delegate pledged to the Arthur administration, and to support him at the national convention at Chicago.

The Alabama state convention met at Montgomery yesterday, and chose Arthur delegates to Chicago. They unfurled a banner which they will carry to Chicago, inscribed "The choice, Chester A. Arthur. Second choice, John Logan."

The Seventeenth district, New York, elected delegates, unopposed, but anti-Arthur.

The First district, Maine, elected delegates, instructed for Blaine.

The Twenty-fifth district, New York, send delegates to Chicago for Blaine.

The Twentieth district, New York, delegates are favoring Edmunds and are friendly to Blaine.

The Twenty-eighth district, New York, delegates are instructed for Blaine first, then Sherman, Lincoln and any other man.

The First district, Nebraska, sends delegates for Arthur to Chicago.

The Pennsylvania state convention was numerous attended, and Blaine and Lincoln were the choice, their delegates being instructed to vote for them as long as their names were before the convention. This was carried by 200 to 37.

The Second district Wisconsin send delegates divided to Chicago, one for Logan, and one for Fairchild, with Blaine his second choice.

The Thirty-first district New York, delegates to Chicago are divided one for Edmunds and one for Blaine.

The Illinois state convention yesterday nominated the following state officers: For governor, Ex-Governor Oglesby; for lieutenant-governor, Gen. Smith of Cook county; secretary state, H. D. Demery; auditor, Chas. P. Swigert; treasurer, Jacob Gross, and attorney general, George Hunt. Ex-Governor Oglesby made a strong speech. Logan was the choice of the convention for the presidential chair.
