

sons for being opposed to high license. He had always been opposed to high license. There was no sense in it. The best man we have is Van Slyke. He walked into the council and he is one of the best men we ever had there. He's done the city lots of good.

THE NATIONAL PULSE

A "Strong, Sweeping and Unmistakable" Boom for Gov. Cleveland.

The "Herald" and "Sun" Speak Favorably of the "Tidal Wave Governor."

No One Seems to Be Entirely Certain That This Is Not Mr. Tilden's Choice Also.

The "Tribune" Seeking to Tarnish the Reputation of the Vermont State, Senator Edmunds.

Col. Donnan's Influence in the Introduction of the Territorial Bill Requiring Two Years' Residence.

[Special Telegram to the Globe] Washington, April 28. But for the war of words occurring between Congressman Hewitt, of New York, and Calkins, of Indiana, growing out of Hewitt's charges that Secretary Chandler had not covered in the treasury the proceeds of the sale of condemned war vessels, to-day would have been the dull and least interesting of this congressional session. It is the general opinion that Hewitt went too far in arraigning Chandler upon charges of disobeying the law respecting covering this money into treasury, because certain expenses were chargeable upon the funds received from the sale of these ships, which, had all monies been so covered in, could not have been liquidated unless by specific re-appropriation by congress. Chandler reserved a certain sum to meet these outlays, which was deposited in his official credit as the treasurer's office, and he covered it by a balance of \$200,000. Hewitt thought he had discovered a man's nest, and without fully ascertaining the facts, attacked Chandler unnecessarily. The trouble with Hewitt is that he goes off at a half cock, and is frequently injured by the recoil. He claimed he had practically demonstrated his charges, but his defense was technical, and it would have been a graceful act had he acknowledged he was worsted at the outset, which really was the case. The result was that Calkins got the best of the argument.

Notwithstanding the lack of congressional interest at the capital, politicians were agitated over the publication in the New York Herald to-day, from its Albany correspondent, an article starting a formidable presidential boom for Gov. Cleveland. By a curious coincidence, the New York Sun publishes a short editorial favorably mentioning Cleveland and his possibility. The Herald correspondent says: "Just now comes in the Cleveland boom, strong, sweeping and unmistakable. It is evidently engineered by Tilden's 'old guard,' men who stood by the 'great freedder' in all his political fights since the fall of 1874. This support looks decidedly significant. Here are some conclusions and arguments thus advanced in favor of the 'tidal wave governor' as a presidential candidate: 'The delegation from this state to Chicago will be composed of Cleveland's friends. If it shall appear that the work of the Republican convention leaves a chance for the Democrats, they will be in a position to easily accomplish his nomination. If, on the other hand, it shall seem a foregone conclusion that the Republicans are to elect their president, they will be able to prevent the sacrifice of their men. Gov. Cleveland is doing little or nothing toward bringing about his nomination. He is hard at work, giving his whole service to the state, and dealing with a mass of matter demanding his attention the same as at the head of his home private business without regard to the consequences to him personally. He has done no trimming for the presidency. It is understood in Albany that he rather shrinks the thing. Still it cannot be doubted that within the past two weeks Democratic sentiment in the state has rapidly centered toward the governor as the most available man.'

CHAMBER OF COMMERCE.

Bill Washburn Lectures the Chamber on the Silver Question.

Funds for the New Building—Canning Factory—Cows, Sewers and the Market House.

At the meeting of the chamber of commerce yesterday, the following lecture in the form of a letter was read:

WASHINGTON, D. C., April 19. C. A. McNeale, Esq., Secretary Chamber of Commerce, St. Paul: I am in receipt of resolutions recently passed by the St. Paul chamber of commerce 'protesting against the suspension of coinage of the silver dollar.' While I shall, of course, present these resolutions to the house, as requested, I cannot fail at this time to express my surprise that a body like the chamber of St. Paul, composed as it is of intelligent business men, should have made an expression of this character. I will not in this letter seek to argue the question, but merely venture the opinion, based upon a study of the subject, that it is a question of a very short time when the business of the country will be reduced to a silver basis alone; gold having become demoted and driven out of circulation and the business of the country again at sea on a depreciated currency, a condition of things to be dreaded by all business men but by all those who sincerely desire the prosperity of the country. Yours truly, W. D. WASHINGTON.

RESOLUTIONS ADOPTED.

Immediately after the gentlemen referred to had left the convention, Mr. Burns' motion in regard to the resolutions was adopted.

CITY TREASURER.

The remainder of the business before the convention was quickly disposed of. For city treasurer Geo. Reis and John F. Lincoln were placed in nomination and Reis was nominated by a vote of 21 to 2.

ALDERMEN AND SCHOOL INSPECTORS.

The following candidates were placed in nomination for aldermen and school inspectors: First Precinct, Second Ward—R. T. O'Connor, alderman.

First Precinct, Third Ward—O. L. Cullen, alderman.

First Precinct, Fourth Ward—P. Thauwald, alderman.

Third Precinct, Fourth Ward—Gates A. Johnson, alderman.

First and Third Precincts, Fifth Ward—W. A. Van Slyke, alderman.

Second Precinct, First Ward—J. M. Miner, school inspector.

First Precinct, Second Ward—A. J. Wampler, school inspector.

First Precinct, Third Ward—C. J. Montfort, school inspector.

Fourth Precinct, Fourth Ward—H. J. Horn, school inspector.

Third and Fifth Precincts, Fourth Ward—H. H. Athly, school inspector.

First and Third Precincts, Fifth Ward—G. A. Hamilton, school inspector.

First Precinct, First Ward—J. T. Hayne, school inspector.

This closed up the business of the convention, and an adjournment was immediately voted.

REPUBLICAN DELEGATES.

Fourth District Convention To-Day—A Warm Time Anticipated.

"One thing can be relied upon," said a prominent local politician at the Merchants hotel last night referring to the Republican district convention which meets in the city to-day, "and that is, that the way combinations are working now it will not be a walk over for anyone."

The speakers are well posted in state politics, and know where the shoe pinches. The indications are indeed, that to-day's gathering will be known as red-hot, and music may be expected by the full band.

The convention will assemble in Market hall at twelve o'clock m., for the purpose of selecting two delegates and two alternatives to represent the Fourth Congressional district in the Republican national convention to be held in Chicago on June 3. The county is entitled to two delegates in the convention, and the number of delegates from each county are as follows:

DELEGATES. DELEGATES. Wright,..... 7. Hancock,..... 1. Throckmold,..... 7. Ramsey,..... 15. Hennepin,..... 17. Sherburne,..... 1. Isanti,..... 7. The names of the delegates have been quite fully given from time to time in the Globe, but odd as it may seem, not over a half dozen of the nearly three score list had arrived in the city up to last night. This is explained on the theory that nearly all the delegates can be reached this morning and reach the city before noon.

Among the delegates registered at the Merchants last night were L. H. McCusick, of Pine County, Messrs. Barker and Clough, of Isanti, and W. H. Wynkoop, of Chicago, who represents the delegates from Messrs. Oscar Bond and F. S. Christensen.

Each of the counties named have their peculiar candidate ready to engage in the agreeable task of presiding making and for this reason it would be foolish to hazard a prediction as to the chances of over one man.

try believe that Mr. Edmunds is only another Blaine?" This matter was freely criticized at the capital to-day by gentlemen of both parties with conclusions agreeing with the Herald's strictures.

BLAINE'S VOTE.

The Tribune claims 358 Blaine votes out of 820 at the Chicago convention, lacking only 53 of a nomination on the first ballot. Blaine received 20 in 1876 and in 1880.

TILDEN LAYS NO CHARGES. Mr. Parmenter, editor of the Troy Daily Press, replying to inquiries by the Herald correspondent concerning Tilden's charges, says: "I don't understand that Tilden wants any chances. I suppose he would not accept if he could be nominated by acclamation. Mr. Flower and Mr. Flower's friends would gladly turn in for him, as perhaps would all factions of the Democratic party. I think he will be nominated almost unanimously unless he writes a letter of stronger protest than any I have yet seen. If he lets the matter go as far as that he will of course accept, and of course be elected with a good vice president—Mr. Hendricks or some other."

CHIEF MAG RULS IN THE TERRITORIES.

There is a little inside history, not generally known, connected with a pending bill requiring congress to appoint territorial officers to have been two years residents of the territories to which they are appointed. It seems the bill originated with Col. Pat. Donnan, of Dakota. He has been, it appears, urging some such measure on his congressional friends for two or three years past. In his speech before the house committee on territories about the middle of last February, he made a strong appeal to the southern members of the committee to abolish the antiquated carpet-bag rule in the territories. He declared that every one of them knew he had done as much as any other man that ever lived in the south to wipe out carpet-bagism down there, and yet southern senators and congressmen were voting year after year to maintain the vilest form of corrupt government, not only over him and his territory, but over several other territories of the Union, with over 1,000,000 people. He called on them, in the name of common right and decency, to put an end to this infamous rule of imported aliens, with no knowledge of the regions and people they are sent to govern, and no interests or sentiments in common with them. The speech is said to have produced a decided sensation in the committee room, and it was hardly two weeks afterwards till Tillman, of South Carolina, introduced the bill now pending, which requires appointments to be made of persons who have resided two years in the territory where they are to hold office.

FIRE DEPARTMENT.

Annual Reports of Commissioners, Chief and Other Officers.

Total Cost One Year \$146,000; Total Loss of Year \$290,000.

At the regular meeting of the fire commissioners last evening Messrs. Delano, Parker and Prendergast were present, and the following business was transacted:

Chief Black reported the Capt. A. Francis matter settled, the latter having satisfied a private claim brought against him; the city treasurer receipted \$54 for condemned hose; the application of Mayor O'Brien for the department to sprinkle the streets around Rice park was decided could not be granted as all the horses of the department were in service or on the sick list; the matter of the Duren blacksmith shed on No. 2 St. was referred to Mr. Deano to decide whether it should be sold to the city; the pay roll for April, \$6,569.81, was approved.

Superintendent Jenkins, of the fire alarm reported the district telegraph connections in readiness and ready for operation direct with the fire department, and the contract to furnish fifty fire alarm box guides to keys was awarded to Krohmer Bros. to furnish at twenty-five cents each.

The president and chief reported on cisterns in the Sixth ward that there was but one there which is located at the junction of Concord and Isabel streets, and which is fed from a pool. At fires the department had to depend on river and slough water and several pools at the base of the bluff which in summer were difficult to get at and in winter were frozen over. Consultation with Hon. C. D. Gillilan and Engineer Romdelt had convinced them that it was impracticable to pipe water into the ward until grades were established, and as it would be a long time before water works could be built, they recommended the immediate construction of cisterns, as due to the people of the ward, for fire department use as follows.

At corner of Delos and Clinton streets, near crossing of Kate and Water, corner of Kate and Lucas, junction of Concord, George, Bertha and Greenwood streets, crossing of Winnifred and Cambridge or Brown streets, near Garfield school house, each cistern to hold 500 to 1,000 barrels, to be supplied by small pipes to the street springs, to be constructed first-class by contract work. They also recommend that wells six feet square be built in at certain points where grading is to be done, to be supplied with water from piping springs, and for the exclusive use of the fire department. The report was unanimously adopted, and referred to the common council.

SOUTHERN MINNESOTA.

Gleanings of News and Items of Material Interest.

A Daily Globe Department at Mankato Devoted to Developing and Advancing the Southern Portion of the State.

The office of the Southern Minnesota department of The Globe is in charge of Mr. E. F. Barrett, with headquarters at Mankato, the business and editorial rooms being on the second floor of the First national bank building formerly occupied as the telephone exchange. Personal calls or communication addressed to Mr. Barrett on matters pertaining to this department will receive prompt attention.

MANKATO.

H. C. Chase, one of the substantial men of Janesville, was in Mankato on yesterday.

Tree-planting season being on each citizen seems desirous of doing something in that line.

M. M. Crulshank, representing Antony Kelly, and a typical Minnesopolitan, went the grand rounds on Monday among our merchants.

The train going east on the Milwaukee road will hereafter leave at 9:10 instead of 8:50 a. m., as formerly. The mixed train arrives at 8 and leaves at 4 p. m.

A most important social event is reported near at hand, which will be the event of the season in Mankato. The full details will be given when it occurs in the GLOBE.

A train on the Blue Earth branch on last Thursday, ran over and killed three head of stock of an aggregate value of \$125, belonging to Joseph Dalry, near Garden City.

It is reported that Shaanert and O'Connor are to give a free performance upon roller skates at the rink on to-morrow night. They have been experimenting on the duck act till they have got it down fine.

The telephone exchange move to-day into the same office as that occupied by the district telegraph company and a temporary suspension of business will probably occur, which the public will understand the reason of by this announcement.

The towering form of the Hon. R. A. Jones of Rochester was to be seen upon our streets on Monday, he having some legal business here which demanded his attention. A citizen of this place suggests that Mr. Jones would be a fitting person to head the Minnesota delegation for Tilden at Chicago.

A most praiseworthy state of affairs, and one that reflects great credit upon our new mayor and the whole police force as well as upon liquor dealers throughout the city was the fact that not a single intoxicated individual was to be seen upon the streets of this city on Sunday. It was well.

The place formerly occupied by Charles D. Kiecher, opposite the city hall, is undergoing a thorough and complete renovation. A new floor is being laid, the walls are being papered, the ceiling decorated and things are being fixed up in elegant style. A change of proprietorship will follow, Mr. Kiecher taking up the business of carpentering and building.

CLUBBED.

About 9:30 on Saturday night a cigar maker by the name of Kline, who was in company with two other chaps by the name of Mahoney and Carter, who were all feeling in a rather exhilarated state of mind, fell out with the others and began to enforce his arguments with certain pieces of rock that fell in his way. To this one of the others responded with a piece of board which fell upon the cranium of Kline with such force and effect as to fire him bodily into the excavation for the new bank building, from the depths of which arose such infernal cries as to warrant the belief that a whole band of Sioux Indians were on the war path. The cries brought two of the police to the spot, who succeeded in extracting Kline from his uncomfortable position, when it was ascertained that he was more scared than hurt, and just drunk enough to be a fit subject for the police court. Yesterday morning he appeared before Judge Porter and assisted in defraying the current expenses of the city government to the amount of three dollars and fifty cents.

If the young man would brace up and quit drinking and devote himself to the care of his widowed mother, he would earn the respect of people. The other two of the party (Carter and Mahoney), who fled before the arrival of the officers, will not be caught, but will be captured as soon as they show up.

ACCUSED OF FOUL MURDER.

On Saturday afternoon Sheriff Barlow, of Windom, Cottonwood county, brought to Blue Earth county jail one Ole Frenge, of Justice, who, upon examination before Justice Huntington, of that village, was committed to await the action of the grand jury at its next session on the charge of murder. It seems that his victim, one Jodini Hanson of Windom, had loved Ole not wisely but too well, and the result of their love being likely soon to become apparent to the world, Ole induced her to take some medicinal preparation which he bought her for the purpose of relieving her of her embarrassing condition, but which caused her death. Frenge claims that what he gave her was a Norwegian of about twenty-two years of age, who has only been in this country about one year, and seems to feel the unhappy result of his course. He says the girl gave him the money and desired him to procure the medicine which she died from. Frenge was sent here for safe keeping, as the jail at Windom is deemed insecure.

HORSE THIEF CAPTURED.

On Saturday night Sheriff Ideo Cook, of Eau Claire county, Wisconsin, arrived in this city from Wells, Fairbault county, having in charge one Big Moun, about 15 or 19 years of age, smooth red face, 5 feet 4 inches high, dark hair, blue eyes, and a scar on his breast answering to a T, the description of one of a pair of horse thieves who have been wanted since April 21 on a charge of stealing a pair of horses from the farm of one J. S. large and wanted. The sheriff left with his prisoner on Sunday morning for Eau Claire.

THE CEMENT WORKS.

Business began yesterday at the cement works yesterday and they will be run at the rate of 1,000 barrels per day during the season. A large amount of new machinery has been put in this season and everything about the concern is now in the finest order. Under the energetic and efficient management of Mr. F. N. Merrill, superintendent, the works have never equalled in the United States in point of construction or in regard to the quality of the rock they manufacture, cannot fail to prove a source of revenue to their owners.

BOARD OF TRADE.

The meeting of the Mankato Board of Trade yesterday was well attended and developed a great amount of interest. The routine business was transacted and considerable interest developed in the consideration of matters which are of great importance to the city. The reports of the several committees developed nothing new of importance. The matter of obtaining a more equitable freight tariff on that our citizens can find it possible to compete with other points was discussed at length.

The committee on streets were directed to bring before the city council the urgent necessity of repairing Forest street.

The committee on streets were instructed to provide a place for the Farmers' Alliance which holds its state convention on June 10 and 11 to meet in.

No other important business was transacted.

The Adrian, Mich., band, Knights of Pythias, won the prize at the contest in New Orleans.

STILLWATER.

The tugs are busy, and the large number of logs now in the lake will keep them fully employed until the new drives come down.

The extension of the Wisconsin Central from Chipewaga Falls to St. Paul, is making things lively in Stillwater, as much of the supplies of material etc., is being purchased from the merchants and timber dealers here.

The carpenters and others engaged in the erection of Clark's new saw mill in south Stillwater, are getting on well with their work, and the mill will be finished at an early date. The workmanship is the best, and all the machinery is of the very latest and approved patterns.

The run on the Chicago, St. Paul, Minneapolis & Omaha, between Stillwater and St. Paul is shortened by ten fifteen minutes, according to which train you take. The local time cards are very convenient to have, and those wishing to travel should call at the station ticket office, where they will be pleasantly supplied by the obliging agent.

Mr. A. H. Comfort has been appointed settler for the right of way for the extension of the Wisconsin Central from Chipewaga Falls to St. Paul. A better appointment could not have been made, as Mr. Comfort has a winning way with him, so that he will take with the farmers and other whose property may be required for the road.

The body of little Wesley Keen, the boy who has been so long missing from home, was found in the St. Croix yesterday morning by some workmen engaged in repairing a barn, having been in the water twenty-one days. Funeral services were held at 3 o'clock at the home. The school children of Miss Williams and Miss Child's roomed a beautiful floral tribute to the house to be laid on the coffin of this ill-fated school-mate.

On Saturday evening last the roller skating rink was crowded, 245 skaters
