

## THE CITY.

## CITY GLOBULES.

Preparations are being made for a grand rally of the new Cleveland and Hendrick clubs.

The mortality among children during July was greater than for any corresponding period for years.

The city treasurer disbursed the sum of \$17,000 yesterday in payment of the police and fire departments and city officials.

Edward Delaney was appointed on the police force yesterday by E. F. Walsh whose appointment was withdrawn.

The carpets in the hall of representatives in the state capitol have been taken up and carpenters are repairing the sagged ceiling thereof.

A petition for letters of administration was filed in the probate court yesterday in the estate of John Grace who is thought to have left a property of about \$60,000.

A. W. Peters, clerk in the secretary of state's office, has the secretary's report for 1884 in readiness for the printers, yesterday being the close of the state fiscal year.

In conversation yesterday an eminent physician was heard to remark that St. Paul could be rated as having almost absolute immunity in case of a cholera epidemic.

Deputy Sheriff Clewett has lost a \$35 calibre New Smith & Wesson revolver in a rubber case. Whoever will return the same to the Sheriff's office will be rewarded for their trouble.

Two increase pensions were received at the adjutant general's office yesterday, one being for St. Paul and the other for Anoka, as also an original pension for a veteran at Dundas.

The month of July was the busiest month since the establishment of the police court. During the month Judge Burr disposed of 527 cases, and criminal fines were collected amounting to \$1,600.

Louis Canon, an expressman, while moving the household furniture of a lady yesterday, robbed her of her gold watch. He was arrested by Detective D. J. O'Connor, the watch recovered, and was locked up in the city jail.

There were 388 articles of incorporation filed in the office of the secretary of state, for the year ending July 31, being an increase of sixty-six over last year. During the same period there were 165 affidavits of publication filed, being an increase of ninety-two over last year.

Bell's hotel, at Fergus Falls, one of the largest and best hotels in the Northern country, has changed hands, and has a new landlord in the person of Peter Clare who formerly published the Independent at that place. Mr. Clare is an agreeable gentleman possessing the requisites of a model landlord, and if he runs the hotel as well as he did the newspaper will more than give satisfaction.

Mr. J. S. Robertson, administrator of the estate of the late B. Presley, qualified yesterday in the sum of \$250,000. Mr. Robertson has been a member of the firm of B. Presley & Co., for several years for the greater part of which he attended to the personal affairs of the deceased. The fact of his procuring a bond in so great a sum is of itself, the best recognition of his business capacity.

A complimentary reception was tendered by the Turner Verin society at Turner hall last night to Prof. Bosio, a prominent member of the Turner society and instructor of calisthenics in the public schools of Milwaukee. The occasion was honored by many prominent members of the order and an evening of delightful social pastime was enjoyed.

John B. Brinslee, Esq., of this city, is in receipt of a letter from a prominent member of Tammany hall, New York, in which the political situation in the east is canvassed. Among other things the writer refers to a communication from C. L. Mott, private secretary of Gov. Cleveland, in which he said the country would be astonished at the strength of the Independents who were wheeling into line for Cleveland.

Yonk, Pa.—Mr. E. W. Spangler, publisher, York, Pa., daily states that in a severe attack of neuralgia, by rubbing the parts affected and saturating a piece of flannel with St. Jacobs Oil, the great pain-cure, once only, he was permanently cured.

## AMUSEMENTS.

"Moths" Last Night.

The management of the Grand and the ladies and gentlemen composing the Wal-lack company must have felt gratified last night at the cordial reception extended the performance of "Moths," the audience being larger than the night preceding, while the palpable excellencies of the representation were greeted with spontaneous and hearty enthusiasm.

As anticipated yesterday, the drama is a fair reflection of the charming novel on which it is based, and happily whatever may be regarded in the latter as offensive to English or American manners or taste has been either eliminated or modified by the playwright. The spectacle, it is true, of a mother contracting a titled marriage for her daughter on a purely selfish and mercenary basis, and against the wishes of the latter, is not edifying to American audiences and besides the favor of inuendo may perhaps grate on the fine sense of propriety, but it should be remembered that the aim of both the book and the play is to hold these characters up

for detestation and when considered in this light the mission of art is subverted. "Moths" is a captivating drama, superbly mounted and costumed and finely enacted. The company is an exceptionally strong one and they have given St. Paul a rare dramatic treat. "Moths" will be presented at the matinee performance to-day and the engagement closes to-night.

On both of these occasions a pleasant surprise and treat is in store for the amusement patrons of St. Paul in the appearance of Miss Etta Hawkins, who is billed for the role of Paschla Leach, the dashing American heiress. Miss Hawkins will take the place of Miss Leslie in the cast, the latter having gracefully consented to retire for the occasion named.

The celebrated Anderbach echo has at last been eclipsed by a seventeen-tongued one in Silesia. If the traveler sounds his horn at a point called Garves Rub, near Charlottenbrunn, he will hear, after the lapse of a few seconds, a succession of sweet, clear notes, coming back to him at brief intervals until seventeen in all have answered.

MONTANA.

We have just plotted and now offer for sale  
lots in the Minnesota Addition. This addition  
lies adjoining the great machine shops of the  
Northern Pacific Railroad Company, which are  
the largest and most extensive on the line of the  
road, those at Brainerd alone excepted. The lots  
are started at very low prices \$25 to \$75 a piece  
and will show a very handsome advance by fall.  
Livingston is less than two years old, with a  
population of over 3,000 people, is the brightest  
town on the Northern Pacific Railroad, has many  
brick and stone buildings, is growing very rapidly  
and has her claims for making a large city on  
the following grounds:

It is the gateway to the National Park.

It is the terminal point of the National Park  
R. R.

It is the headquarters of three divisions of the  
R. R.

It is the geographical center of the R. R.

It has immense machine shops, with capacity  
or several hundred.

It is in the center of a very rich agricultural  
country.

It is the headquarters for an immense grazing  
interest.

It is surrounded by coal, iron, copper, silver  
and gold mines.

It has a splendid water power.

It has plenty of pine and fir timber.

on the road from Duluth west. Some six  
or seven line kilns are now in operation, also  
plenty of brick and fire brick clay. Hot springs  
exit (170° temperature) within twelve miles of  
town, which excels those of Arkansas. The Union
