

which God gave her at birth but that she has changed only in the members of that body. As the growth of the church increased in body so have the members enlarged. He explained that the chief of Christ was the body of Christ and that He is at the head. The monsignor continued by stating that Christ gave four powers to Peter more than to any of the others. He was the rock, the pillar of the keys, the head of the ruler and the confessor of his brethren. So it being understood they had a leader and were to be obedient to the Holy Christ, they were to do with him, and that he would be with them even to the consummation of the world.

BOGUS NEWS.

The Pioneer Press Exposed in Its Manufacture of Falschoods.

The Fargo Southern Not a Disturbing Element in Northwest Rates.

The Fargo Southern publisher in St. Paul making the ridiculous in its efforts to bring the Fargo Southern into prominence before the people. This is a new road, just about being started, of no special prominence as far as present indications are concerned.

A meeting was held yesterday of the freight representatives of the Manitoba and Northern Pacific, and the rates to all points between the two roads were reduced from one to two cents lower than the established rate.

The above is a square up and down falsehood. No meeting was held between the freight representatives of the Manitoba and Northern Pacific roads, on Monday. On Monday Mr. Hannaford, general freight agent of the Northern Pacific, left for Chicago, and on Tuesday Mr. Hannaford, general freight agent of the Northern Pacific, left for St. Paul.

E. A. Holbrook Transferred to the Rock Island.

Chicago, July 5.—E. A. Holbrook, late general agent of the Chicago & North Western railroad, has been appointed assistant general passenger agent of the Chicago, Rock Island & Pacific, with headquarters at Chicago. The appointment to take effect the 15th prox.

CORRECTIONS AND CHARITIES.

The Quarterly Meeting of the State Board Held Yesterday.

A quarterly meeting of the state board of corrections and charities was held at the capitol yesterday.

The secretary of the board, Mr. Wells, was appointed temporary chairman, there being present Messrs. Reynolds, Dana, Campbell, Bell and Secretary Hart.

Mr. Campbell offered the following resolution on the matter of a county jail having been finally submitted to the board by the commissioners of Becker county.

Resolved, That the secretary be instructed to advise the commissioners of Becker county in the judgment of this board it would be wiser to defer the building of a jail until the county can afford to build and until the county can separate from the court house, but if it is decided to adopt the general adopted plan, the secretary be instructed to prepare the plans.

The secretary submitted a very interesting report upon the matter of the destruction of the State House, which was read by the president of the board.

Rev. M. G. Dana was elected to present the report for the coming year.

The secretary was instructed to prepare the biennial report to the legislature and present it for the consideration of the board at its next meeting, the president, Dr. Bell, having appointed a committee to supervise the preparation of the report.

A communication was presented from Hon. W. P. Letchworth, president of the tenth national conference of charities and corrections, requesting the board to choose representatives for Minnesota at the conference to be held in St. Paul.

It was voted to refer the matter to the president of the board. Adjourned.

BOARD OF EDUCATION.

Contracts Awarded for Work on Various School Buildings.

The board of education held an adjourned meeting at the high school building last night. Inspectors Schifman, Dreher, Miller, Officer, Athey, Gilbert and Berland were present and heard the report of the various committees.

A large number of bids were opened and referred to the committee on real estate and building for tabulation, the meeting taking a recess to give an opportunity to report.

Following contracts were awarded as follows: Waltersford and Politz, tinning roof of Franklin school, \$196; painting same, \$34.35.

W. E. Frey, whitewashing Jefferson, Rankin, Thore and Lincoln schools, \$332.

CITY COUNCIL.

Street Improvements and More Stone Sidewalks Ordered.

Fuel Bids Received—No Drill Master for the Police.

The following is an abstract of the business transacted by the council last evening:

BOARD OF PUBLIC WORKS. This board was ordered to have the following work done: To construct a sewer on the seventh street to Duke street; to construct a drain on State street from Concord street to Oakdale avenue; to construct a sewer on Valley street from Canal street to Fairview street; to construct a sewer on Temperance street from Eighth street to Ninth street; to grade and gutter Farrington avenue from Dayton street to Washington street; to construct a sewer on Western avenue from Rowley street to Selby avenue.

COUNTY LEGISLATION.

Regular Meeting of the Commissioners Held Yesterday.

The White Bear—Minneapolis Road—The Lemon Printing Contract.

A regular meeting of the county board was held in the auditor's office yesterday morning. Mayor Davidson presided at the first part of the meeting and all the members were present but Commissioner Schurmeier.

A communication from the state treasurer, calling attention to an old bill of \$308 for text books, was referred to the committee on education.

The application of E. F. Blase, to send his daughter to an outside school district, was granted.

The county auditor reported in favor of allowing a rebate of taxes to S. D. Lord.

The committee on roads and bridges reported that they had called on Gen. Terry with reference to the Fort Snelling bridge, and that an inspection of the same had been made.

The committee on public buildings reported that office room had been rented for the probate court in Davidson's block, fourth and Cedar streets.

A report was referred back to the committee with instructions to employ an expert to examine the vault with reference to its fire proof qualities.

A numerous signed petition was read, asking for the location of a portion of the White Bear, Minneapolis & Mound's View road. A remonstrance to the same was also read, both being referred to the committee on roads and bridges.

The committee were instructed to vacate the road, pro and con. The reasons for vacating the road, pro and con, were read.

A claim for \$40, caused by the poisoning of a cow by eating grass green on the poor farm, was sent to the committee on claims.

Reports of county officials for July were read as follows: Abstract Office—Working during the month—\$933.10; Bank charges collected—131.60; Clerk of the Court—\$254.10; Uncollected—311.80; Expenses—200.00; Cash—\$97.01; Paid out—322.90.

During July the sheriff received \$773.17 and \$146.00. The committee on claims reported in favor of paying a large number of bills. Approved.

A lengthy report was read from the special committee to whom was referred a petition for the location of a portion of the White Bear road. The committee called attention to the loose manner in which contracts were gotten up and to the heavy charges made by Mr. Lemmon for the same.

A minority report was read from Mr. Ames which called attention to the opinion of Mr. Ramsey, the expert, who had examined the road. The committee were instructed to refer the matter to the board of public works.

Mr. Lemmon was living up to his contract. The committee were instructed to refer the matter to the board of public works.

An ordinance was passed prohibiting the sale of liquor in wholesale, unadulterated or diluted milk.

The request of L. K. Stone and others for a license to sell beer in the city of St. Paul was referred to the engineer to see what streets should be graded so as to make good streets from the water to the street.

The council decided that it was not necessary to put in a box drain on Starkey street. The contractor was ordered to remove the box drain on West St. Paul.

An ordinance was passed prohibiting the sale of liquor in wholesale, unadulterated or diluted milk.

The request of L. K. Stone and others for a license to sell beer in the city of St. Paul was referred to the engineer to see what streets should be graded so as to make good streets from the water to the street.

MINNESOTA CROPS FOR 1884.

Cheerful Outlook All Around—42,250,000 Bushels of Wheat.

The weather of the past month has been favorable for crops generally. The average temperature was somewhat lower than that of our ordinary crop year, but the season has been unusually warm intervals of short duration. There have been frequent local storms, but for the most part the rainfall was light, and in some neighborhoods of limited extent, hardly sufficient to start the grain. The season has been unusually warm intervals of short duration. There have been frequent local storms, but for the most part the rainfall was light, and in some neighborhoods of limited extent, hardly sufficient to start the grain.

SOUTHERN MINNESOTA.

Gleanings of News and Items of Marginal Interest.

A Daily Globe Department at Mankato Devoted to Developing and Advancing the Southern Portion of the State.

The office of the Southern Minnesota Department of the Globe is in charge of Mr. E. F. Barrett, with headquarters at Mankato, the business and editorial rooms being on the second floor of the First National bank building.

Henry Cramer, in Ransom county, sowed barley April 15 and cut it July 11. He was the first in the county.

Steele, the county seat of Kildler county, will give a handsome bonfire for Mill. It is forty miles from Mankato, and there is no mill in the county.

In Grant county the farmers sowed about equally of soft and hard wheat, and the result shows that the soft wheat is the better.

The kind of wheat sown in Grant county, lately bought by D. Neston consists of 500 acres, one third of which is in crop. It has the finest farm buildings in north Dakota, and fifty head of stock. It is but two miles from the pretty town.

Business for undertakers at Sioux Falls is said to be very discouraging. One of the preachers, Rev. Livingston states that he has been excluded at a funeral once a week on an average, at Sioux Falls he has helped bury but two persons in a year and he both died of accident.

Judge and Smith, the new official of the central district at Sioux Falls, has been promoted from Pierre to Huron to select a central and convenient place of residence. The towns are so pleasant and the people so cordial and inviting that he is unable to choose. Huron seems the most convenient.

Unfortunately, every paper published in Minneapolis and St. Paul, except the St. Paul Globe, appears to be looking for a place to locate in the prominence to south Dakota matters, and at north Dakota occurrences with a foolish flippancy.

Col. Charles Richardson, of Valley City, is the prominent candidate for the legislature from Barnes. He has all the brainwork needed as well as virtues in excess of the average of Dakota. He is a man of high honor and acquirements if elected, as he should be.

In the recent hail storm at Grandin there were about 5,000 acres of wheat destroyed, and the loss is estimated at \$75,000. The largest sufferers were the farmers of Grandin, who lost about 500 acres, and the loss was about \$75,000.

One of the visiting companies that recently came to Grandin for a week, and which was composed of a small lake near the town bagged a flock of ducks. Their enthusiasm was somewhat dampened when the station master, Barlow, invited them to a dinner at the hotel for the slaughter of his lot of domestic ducks.

Harvest has commenced this week in many of the north counties, and the indications are that the usual successions of showers of rain will be of great benefit to the crops. The harvest is a fine prospect. Trail county alone counts on 3,000,000 bushels of wheat, after making allowance for the losses by the hail.

Since the first of May the insurance agents have met and advanced the premium rates two and one-half per cent. The rate now in the business portion of the town is six per cent, and in the country eight per cent. Buildings of concrete are being built, but the place will have to stand it for a time.

The Cassell case claims for Cass county one of the best representatives, or one-half of the delegation to the legislature from Cass county. Col. Spear, the editor, has modestly declined to run for office, but the other county is likely to see modestly in the claim of one of the best representatives of the county.

It is the custom of Dakota towns on a birth in the family to pass around a box of cigars. The frequency of these events makes up a big trade for the cigar business. It is the custom of the people of the state to give a box of cigars to the family of a new-born child. It is the custom of the people of the state to give a box of cigars to the family of a new-born child.

Al. Annis, a saloon man of Fargo, while going to his home early Sunday morning, was halted, and started to shoot at a man who was following him. He was holding a pistol shot to save over him. He drew his pistol and both parties quickly unloaded their weapons with no known damage.

It is not known whether the man who was following him was a burglar or a thief. He had a good many hundred dollars in his pocket, which was probably the cause of the shooting.

The Portland Inter Ocean relates the method of closing a saloon in Ransom county: "A lady living a few miles outside of Sheldon, came into town the other day very much worked up on account of a man who had been following her. Her husband, she marched up to the saloon, and at the point of a seven-shooter, ordered the keeper to close his saloon," saying she had the man in her power. It was certainly a miracle. She is a fit subject for a box and picket fence. He closed up his place p. 4.

Engagers in Grand Forks county and finds this diversity: "He has several hundred acres of Scotch fire which will average nearly twenty-five bushels. About forty horns of Scotch fire were raised in the county. He has raised successful variety of corn, and says there is no variety but will do well here. The times noted fifteen varieties of Scotch fire in thirty state of cultivation, besides a variety of apple, cherry and plum trees. He has also about two acres of carrots, which highly recommends as a good feed for horses."

This is a north Dakota view taken by the Mandan Pioneer. It is induced to ask some questions which such papers as the St. Paul Pioneer and the Minneapolis Pioneer, ever publish Dakota news. These journals give prominence to the most important matters and always report news of the state. Here, for instance, is a specimen paragraph from the Minneapolis Tribune: "Bismarck Journalists have gone to St. Louis, floating down the Mississippi river in boats."

Advertising Cheats!! "It has become so common to begin an article in an elegant, interesting style, and then to drop it into some advertisement that we avoid all such."

"An advertisement in attention to the merits of Hop Bitters in its plain, honest terms as possible."

"To induce people to give them one trial, which so proves their value that they will never use anything else."

"The remedy so favorably noticed in all the papers. Religious and secular, is and is supplanting all other medicines."

"
