

DAKOTA & MONTANA

Collected and Forwarded by Telegraph to the Daily Globe. Fargo Special Telegrams August 11, to the St. Paul Globe.

Northern Notes. Farm hands are a drug in most sections of Dakota.

The fling court house in Griggs has reached the new.

A new M. E. church at Gary, Duell county, is to be dedicated September 14.

The station agent at Minto, took in \$1,600 on local freight, one day last week, which indicates lively business.

At the Fargo land office the past week, claims were reported filed upon 7,400 acres, and final proof made upon 7,230 acres.

Among the productions of the Porter vegetable gardens at Jamestown are 40,000 heads of cabbage, and corn that would credit to Illinois.

The Fargo Southern the past week bought 172 lots in Fargo at a cost of \$16,000, to provide ample room for buildings and terminal facilities.

One paper in Dakota at least supports the prohibition ticket, the Herald at the town with the historic town of Appleton, in Potter county.

There does not seem to be much eagerness of parties to take advantage of the centennial year. The Republicans elsewhere have more faith.

The local papers claim that Griggs will have the largest yield of wheat per acre of any county in the territory. It will have lively competitors.

North Dakota is believed to be adapted to pop culture, and parties propose to engage in it on a large scale. Fine specimens of wild hops are found along the streams.

The land agent at Lisbon sold \$50,950 of Northern Pacific lands in June, which were paid for in preferred stock, making the cost of the lands from \$3 to \$3.50 an acre.

The county of Cavalier, up in the Turtle mountain region, has recently been organized, and the county seat located and named Langdon. L. G. Woracon is the chairman of the board.

John M. Bennett has shipped a carload of honey to Wahpeton, made by his apiary in Waterloo, Iowa. Some of the susceptible young men think there is no need of additional sweetness at Wahpeton.

Morton & Co., real estate dealers in Fargo, know everywhere, advertise that one of their clients offers \$2,000 worth of real estate in Fargo at bed rock prices, payable upon the election of Cleveland and Hendricks.

Waterbury is to have a band tournament on the 16th and 17th of September. Prizes aggregating \$450 in gold will be offered. It is expected there will be over seventy bands present. All in the entire territory are invited.

In addition to being postmaster at Coopers town, Mr. Barnard has 200 acres of wheat that he is confident will harvest 35 bushels to the acre. His barley is put at 20 bushels and white Russian oats 100 bushels. He evidently only needs the post office for honor.

Col. Lousberry has added to his Bismarck Journal the Leader, by absorption. He intimates that when he gets ready he will start an evening paper unless he concludes to buy back the morning paper he sold some time since. The colonel is not only a veteran but a well known newspaper man.

J. H. Willard at Jamestown, is collecting specimens of grains and grasses for the north Dakota exhibit at New Orleans. He has already thirty-seven varieties of the wild grasses all assorted and labeled; also fine specimens of tame grasses. He has wheat stalks six feet in height. His display will be a fine one.

Valley City has a bachelor syndicate, Stanton, Evans and Bishop, that are trying to evoke sympathy and coalitions with a trio of young ladies. They have given symposiums and dancing parties and hope they will result in matrimony. Marriages of females would do well to visit Valley City as there are none there.

Forest-River Journal: We see the statistics of the territory reports to Washington that the crop in north Dakota will probably average about sixteen bushels to the acre. That figure will never do to apply to Walsh county. There are few very fields in the territory that will yield less than twenty bushels per acre, and many will go as high as forty.

A portion of the Fargo fire department is enroute to the Fargo Southern passenger train by an excursion over its entire length on the 13th. The train, which will be made up of bran new cars, never before used, will leave Fargo at 7 a. m., reaching Wahpeton between 8:30 and 9 o'clock. The excursionists will arrive at Ortonville about noon, returning at 8:30 p. m.

Although Delegate Raymond has recently visited the country west of the Missouri river this is all the support the Mandan Pioneer is able to give: It is an undoubted fact that Mr. Raymond has done some little good and effective work in Washington during the past year in Dakota. But there are signs of a better condition between political elements which will result in his staying on his farm.

Detroit lake has been the summer resort of pleasure seekers in Fargo, as Lake Minnetonka is to St. Paul and Minneapolis. But of late the Manitoba is diverting a good deal of it to Geneva Beach, near Alexandria, Minn., where there are beautiful lakes, fishing, etc., and a nice hotel. It is a little further from Detroit, but the round trip only costs \$8, and some insist that its attractions are above all.

The managers of the Dakota Midland railroad connects with the Milwaukee at Ellendale, have proposed to Wahpeton to make that the eastern terminus and establish their shops there if inducements are offered. Wahpeton now has the Fargo Southern and Northern Pacific besides the Black Hills extension into Sargent county. It promises to be quite a boom town.

The Grand county Review says: Harvesting is full blast in this county. With the exception of the two tractors which were lost, Lost Nation and Golden Drop, the crop is magnificent and puts the lie to the stories in the Pioneer Press to the effect that the crop generally was ruined by smut. Last week Inspector Kessell spent several days traveling over Grand county, and when he left pronounced the above statement.

Howard Frankson, upon the fruit ranch of Mr. Merlan, on the south shore of Lake Madison, may to-day be seen 300 large and tuffly apple trees—perhaps as successful an orchard as can be found in any of the fruit growing states—and something over one-half of these trees, are, this season, as heavily laden with fair and fine looking fruit as any one could reasonably ask for. The fruit-growing problem has been satisfactorily solved in south Dakota.

Fargo will be well represented at the Lake Minnetonka meeting of the county. There are about those who will attend are: Col. C. A. Morton, wife and daughter; Thomas E. B. Elderly; Col. A. D. Thomsen and wife; W. A. Klined and wife; Banker Charles Swartz and wife; Judge I. E. West and wife; Col. J. W. Morrow and wife; Major Fleming and wife; General Austin, General Clark, Colonel Huntington, Major Edwards, General Wilson, Colonel Long and others.

The examination in the case of Dr. De Puy at Jamestown resulted in his being held in \$700 bail to appear at next term of court. There were those who think inquiry is done the doctor and that spite and blackmail have much to do with it. The Capital charges it upon an alleged detective agency and says: "We think Dr. De Puy need have no fear of the most scrutinizing investigation which any court can make. His character has stood the test of the vilest calumny that was ever visited upon man, and he has come

out clear and free from stain. In this case we believe he has already done the same, and in this opinion we are sustained by a large and rapidly growing public sentiment."

The Cooperstown Courier would perhaps forego the position upon him. It says: Theodore Roosevelt laughs at the rumor that he is about to become a citizen of Dakota and run against Delegate Raymond for the nomination for congress. He needn't laugh. Stranger things have happened. We gave Kidder, Bennett and Pettigrew their demits, without cause or provocation, and John Raymond, after two years of faithful service, is packing his grip. Our politicians are too intelligent to dislodge the same officer to the same man twice.

Milbank Review: "Soft wheat must go" is the general opinion of every farmer in Grant county, now that the harvest has developed the fact that no reliance can be placed upon it to grow free from smut. When the territorial grain inspectors, millers and railroad officials were here last spring they strongly urged upon farmers the importance of banding soft wheat for smut only hard.

Those who took the advice find that it has paid them, while those who clung to the soft discover to their sorrow that in many instances they have badly smutted fields of wheat.

The Argus has reports, a few estimated, but mostly from the returns of the county assessors, that show in twelve counties in north Dakota a low estimate of 880,172 bushels of wheat. The whole territory has been put by Statistical Agent Baynes at 26,500,000 bushels. His figures are evidently much too small, as the record of the past year in 100 counties of the south yielded nearly as much as the north.

The signal service stations in Dakota show a wide difference in the rain fall for July. At Fargo on the Red river at 7.3; at Bismarck on the Missouri river, at 3.5; at Huron on the James, 5.1; at St. Vincent, in the extreme north, 3.5. The fall was larger than usual at these points. For instance, at Fargo in 1883, the rainfall was 4.5; in 1881, only 1.67. Also at Fargo it was the coldest July in four years, the mean temperature being 72.

At Bismarck the mean temperature was 69.2; at 71.2. The highest temperature was 83.4; the lowest 43. The mean temperature at Bismarck was also 64; at Huron 67; at St. Vincent 61. It will be seen that it was a comfortable month in Dakota.

Jim Was Hopp. The Grand Forks Plaindealer has this about President Hill and his excursion: "Yesterday Jim Hill was happy. He got the excursion through this country just in the right time. The wheat showed off to the best advantage and the weather was everything that could be wished for. There is little doubt but what Mr. Hill was proud to show his many St. Paul friends the magnificent country through which his road runs; let them see the splendid wheat fields, and also the kind of people who are to be met in the City Treasury before the contract is let; that real estate to be assessed therefor can be found benefited to the extent of the costs and expenses necessary to be incurred thereby; that said improvement is not asked for by a petition of a majority of the owners of property to be assessed therefor, but we herewith send a plan and profile of said improvement, and an order for your adoption, if you desire us to make the improvement. Yeas, 5; nays, 0."

Mention was made some time since of the organization of a company, called the Fargo, Missouri River & Pacific Railroad company, to build a road from Fargo north-west, crossing the Missouri river near Fort Stevenson, and thence to the Pacific coast at Washington territory. The Argus states that the board of directors recently met and organized by the election of C. A. Roberts, president; Hugh Moore, vice president; W. A. Klined, treasurer, and E. S. Tyler, secretary. A portion of the right of way through Cass county has already been obtained, and President Roberts expects to do the grading and put down some fifteen or twenty miles of iron this year. President Roberts and Vice President Moore have been in correspondence with eastern capitalists, and expect to close arrangements for the necessary funds soon. A preliminary line takes a route through the north side of the Missouri river, crossing the State of Montana about five miles southeast of that point.

It has been stated in the GLOBE that S. T. Church, former circulator of the Fargo Republican, claimed that the company should pay him some \$1,100 for breach of contract in discharging him, and had filed in court an application for the appointment of a receiver on the ground of insolvency alleging his statements in said Valley City. The matter was argued before Judge Hudson Saturday, and denied. His words were: "In this case counsel for the defense objects to the competency of the affidavits, and second that the court has no power to appoint a receiver in this case. In one sense it is similar to a demurrer, but I think I never have been called upon to appoint a receiver where the facts alleged were 'information and belief.' I have always had presented some facts that were within the knowledge of some persons. I could not think of granting a receiver or an injunction on affidavits of 'information and belief.' Admitting what is stated to be true, it seems to me to be improper to appoint a receiver upon a claim for unliquidated damages on a breach of contract, and where you may recover or may not recover on a claim for appointing a receiver in this case as that."

The other question is whether the court has power to appoint a receiver under the statute in a case of this character is an interesting one. It occurs to me that the statute has not attempted to give parties any greater rights against a corporation than against an individual. Certainly you could have no such remedy against an individual. Why such remedy against a corporation? I do not think it can be had. The construction upon this statute by counsel for defense I think is correct.

The Murders of Mr. Hackett. The Valley City Times has this additional information acquired from parties in pursuit of the murderers of the man Hackett, whose remains were found near Ellendale: "A man named Delle and a woman who lived with him as his wife, were in Hackett's employ. The party were travelling overland from a point south of Ellendale. While near Ellendale, Hackett was missed by friends and a search revealed—four or five days later—his dead body in a slough about a mile and a half from the place the party camped for the night. The remains had been robbed, and Delle and companion departed with the team. Their guilt and apprehension is considered certain. One of the pursuers is the clerk of the town west and the other east of Valley City. The murdered man is a cousin of Charles Hackett, of Hackettsville, this county, well known in Valley City."

Sheffield Landon, of Dickey county, offers a reward of \$250 for their arrest. They are described as follows: John Dilley is reddish complexion, stout build, reddish complexion, but is in the habit of dying his hair and moustache black, roman nose, large white eyes, when last seen had on a light gray suit. Hattie Dilley is a raw-boned woman, weighing 150 or 160 pounds, eyes dark and set back into her head, narrow, peaked face, dark hair sprinkled with gray; a light growth of hair on her face, and she is addicted to strong drink, and the woman is a dissolute character. They are traveling with a light spring wagon, drawn by a span of ponies—one sorrel and one gray. Sheriff Larson was at Fargo Saturday.

Prairie Chicken Shot. (Special Telegram to the Globe.) MILES CITY, Mont., Aug. 11.—One of the Crow Indians imprisoned here for cattle killing, was shot by the sheriff here this morning in an attempt to escape. His name is Prairie Chicken. He is dead.

OFFICIAL.

Proceedings of the Board of Public Works

Regular Meeting. ST. PAUL, June 10, 1884. Board met at 9 p. m. Present—Messrs. Barrett, Hoyt, Koch, Terry and Mr. President.

Chas. E. Smith submitted a communication, accompanied by a map, showing the elevation and direction of a contemplated sewer connection from his house on Olive street, between Tenth and Eleventh streets, to the early end of the Tenth street sewer, and asks permission to make said improvement under direction of the proper authorities. Prayer of petitioner granted and matter referred to Engineer to see that the ordinance is complied with in all particulars.

A communication was received from the City Engineer requesting that the Common Council be asked to appropriate \$2,000 for the completion of the Jefferson avenue sewer. Considered and ordered transmitted to the Council with recommendation that the appropriation be made.

The Engineer submitted a communication in the matter of the sidewalk ordered on Fifth street, between Maria and Bates avenues, stating that this should be a six-foot walk, and that the present sidewalk, owned by one half block between said Maria and Bates avenues, have built their walks eight feet wide, and therefore asks instruction as to the balance of the walk to be built. Considered, and the Engineer instructed to make the walk conform to the width of the other sidewalks.

Bill of G. W. Merrill of \$10.00, estimate on moving houses on Pleasant avenue (Oakland street and Pleasant avenue improvements). Estimated No. 2, Marion street grading, Thornton & Moran, contractors, amount due \$1,105.00.

Bill of G. W. Merrill of \$3.00, estimating cost of moving building in line of the proposed widening of Oak street, estimated on moving houses on Pleasant avenue (Oakland street and Pleasant avenue improvements). Estimated No. 2, Marion street grading, Thornton & Moran, contractors, amount due \$1,105.00.

Bill of K. P. Cullen of \$4.00 livery for Board of Public Works, May 30, 1884. Bill of W. B. Cullen of \$2.50, one lurch for office of Board of Public Works, March 1, 1884.

Bill of Wilcken & Roemer of \$25.00, for estimating cost of moving houses in line of the opening Oakland street and altering of Pleasant avenue. Adjusted.

R. L. GORMAN, Clerk Board of Public Works. Special Meeting. ST. PAUL, June 17, 1884. Board met at 7:30 p. m. pursuant to call. Present: Messrs. Barrett, Hoyt, Koch and Mr. President.

The Engineer having submitted plan and estimate of cost the following report was ordered sent to the Council, to-wit: To the Common Council of the City of St. Paul:

The Board of Public Works had under consideration the resolution or order of the Common Council, approved April 17, 1884, relative to the grading of Can street, from Third to Ninth street to Valley street, and having investigated the proposed improvements, respectfully report that said improvement is necessary and proper, that the estimated expense thereof is \$10,000, one-half of which should be paid into the City Treasury before the contract is let; that real estate to be assessed therefor can be found benefited to the extent of the costs and expenses necessary to be incurred thereby; that said improvement is not asked for by a petition of a majority of the owners of property to be assessed therefor, but we herewith send a plan and profile of said improvement, and an order for your adoption, if you desire us to make the improvement. Yeas, 5; nays, 0.

The Engineer having reported in the matter of the proposed grading of Valley street the following report was ordered sent to the Council, to-wit: To the Common Council of the City of St. Paul:

The Board of Public Works had under consideration the resolution or order of the Common Council, approved May 10, 1884, relative to the construction of a sewer on Western avenue, from Rondot street to Selby avenue; on Arundel street from Iglehart street to the city limits; on Oakland street from Western avenue to Arundel street; on Marshall street, from Mackubin street to Western avenue; on Nelson avenue, from Western avenue to Virginia avenue; on Dayton avenue, from a point half way between Mackubin street and Selby street to Farrington avenue, and on Selby avenue, from Virginia avenue to Mackubin street, and having investigated the proposed improvements respectfully report that said improvement is necessary and proper; that the estimated expense thereof is \$33,360, one-half of which should be paid into the City Treasury before the contract is let; that real estate to be assessed therefor can be found benefited to the extent of \$21,385 of the cost and expense necessary to be incurred thereby; that said improvement is not asked for by a petition of a majority of the owners of property to be assessed therefor, but we herewith send a plan and profile of said improvement, and an order for your adoption, if you desire us to make the improvement. Yeas, 4; nays, 0.

The Engineer having submitted plan and estimate of cost, the following report was ordered sent to the Council, to-wit: To the Common Council of the City of St. Paul:

The Board of Public Works had under consideration the resolution or order of the Common Council, approved June 14, 1884, relative to the grading and paving of Fifth street from Jackson street to Sibley street, and having investigated the proposed improvements, respectfully report that said improvement is necessary and proper, with cedar blocks and stone curbs, except east 150 feet; that the estimated expense thereof is \$2,000, one-half of which need not be paid into the City Treasury before the contract is let; that real estate to be assessed therefor can be found benefited to the extent of the costs and expenses necessary to be incurred thereby; that said improvement is not asked for by a petition of a majority of the owners of property to be assessed therefor, but we herewith send a plan and profile of said improvement, and an order for your adoption, if you desire us to make the improvement. Yeas, 4; nays, 0.

The Engineer having submitted plan and estimate of cost the following report was ordered sent to the Council, to-wit: To the Common Council of the City of St. Paul:

The Board of Public Works had under consideration the resolution or order of the Common Council, approved June 2, 1884, relative to the grading and paving of Third street from St. Peter street to Third street, and having investigated the proposed improvements, respectfully report that said improvement is necessary and proper; with cedar blocks and stone curbs, except east 150 feet; that the estimated expense thereof is \$2,000, one-half of which need not be paid into the City Treasury before the contract is let; that real estate to be assessed therefor can be found benefited to the extent of the costs and expenses necessary to be incurred thereby; that said improvement is not asked for by a petition of a majority of the owners of property to be assessed therefor, but we herewith send a plan and profile of said improvement, and an order for your adoption, if you desire us to make the improvement. Yeas, 4; nays, 0.

The following estimates were examined and approved, to-wit: Estimate No. 3 and final, Bandl street grading; James McDonald, contractor; amount due \$405.00. Estimate No. 2, Forest street grading, H. R. Smith, contractor; amount due \$8,400.00. Adjusted.

JOHN FARRINGTON, President. R. L. GORMAN, Clerk Board of Public Works. Special Meeting. ST. PAUL, June 18, 1884. Board met at 7:30 p. m. pursuant to call. Present—Messrs. Barrett, Hoyt, Koch, Terry and Mr. President.

On motion the assessment notice for the grading of Oak street, between Pleasant street and altering Pleasant avenue was annulled, and the Clerk was directed to give a new first assessment notice.

It having been made to appear to the Board that the assessment for the so-called Selby street, between Exchange street and to block 54, Lyman Dayton's addition, it was ordered that the assessment against said property be reduced \$60 so as to conform to the facts and rights of the case as intended. Adjusted.

Official: R. L. GORMAN, Clerk Board of Public Works. Forger Captured. PITTSBURG, Aug. 11.—Marcus McLean, of Montana, has been arrested in this city on the charge of forgery preferred by Gen. Supt. Footner of the Northern Pacific Express company. The forgery was committed several months ago while McLean was in the express company's employ. The officers of the company with the prisoner as soon as the requisition is obtained.

street, Beyer & Lux, contractors; amount due \$3,400.00. Estimate No. 3, Carroll street grading, J. H. and T. Palmer, contractors; amount due, \$570.00. Estimate No. 3, Fifth street grading, Hays & Moline, contractors; amount due, \$238.00.

Estimate No. 6, St. Paul & Duluth railroad viaduct, M. O'Brien, contractor; amount due, \$8,500.00. Estimate No. 1, Rondot street sewer, A. Mullen, contractor; amount due, \$723.50.

Estimate No. 1, Exchange street grading, Jas. Murman, contractor; amount due, \$340.00. Estimate No. 7, and final George street grading, Beyer & Lux, contractors; amount due, \$2,215.10.

Estimate No. 2, Seventh street improvements, McArthur Bros., contractors; amount due, \$8,800.00. Estimate No. 7, Rice street grading, Morton & Terry, contractors; amount due \$3,400.00.

Estimate No. 1, Fourth street grading, J. McDonald, contractor; amount due, \$995.00. Estimate No. 8, Seventh street sewer, Warne & Stockton, contractors; amount due, \$680.00.

Estimate No. 5, Pleasant avenue grading, James Murman, contractor, amount due \$850.00. Estimate No. 1, Cherry street grading, Huebner & Zollmann, contractors, amount due \$1,100.

Estimate No. 4, Exchange street grading (Street to Engle street), Thornton & Moran, contractors, amount due \$3,010.00. Estimate No. 2, Payne avenue grading, Thornton & Moran, contractors, amount due \$9,060.00.

Estimate No. 2, Marion street grading, Thornton & Moran, contractors, amount due \$1,105.00. Estimate No. 2, Third street paving, A. Jaicks, contractor, amount due \$16,150.00.

Bill of G. W. Merrill of \$3.00, estimating cost of moving building in line of the proposed widening of Oak street, estimated on moving houses on Pleasant avenue (Oakland street and Pleasant avenue improvements). Estimated No. 2, Marion street grading, Thornton & Moran, contractors, amount due \$1,105.00.

Bill of K. P. Cullen of \$4.00 livery for Board of Public Works, May 30, 1884. Bill of W. B. Cullen of \$2.50, one lurch for office of Board of Public Works, March 1, 1884.

Bill of Wilcken & Roemer of \$25.00, for estimating cost of moving houses in line of the opening Oakland street and altering of Pleasant avenue. Adjusted.

R. L. GORMAN, Clerk Board of Public Works. Special Meeting. ST. PAUL, June 17, 1884. Board met at 7:30 p. m. pursuant to call. Present: Messrs. Barrett, Hoyt, Koch and Mr. President.

The Engineer having submitted plan and estimate of cost the following report was ordered sent to the Council, to-wit: To the Common Council of the City of St. Paul:

Adjusted.

Official: R. L. GORMAN, Clerk Board of Public Works. Disposition of the Relief Ships. WASHINGTON, Aug. 11.—While no orders have been issued on the subject, it is pretty well understood at the navy department that the vessels of the Greely relief expedition will be put out on commission in a few days and the officers and crews detached and placed on waiting orders. The supply ship Alert will probably be ordered to the English government, as the object for which she was donated has been accomplished. It is desired to retain the Thetis and Bear in the naval service for surveying purposes, and they will be kept until the meeting of congress with that end in view. If adverse action is taken on this proposition the vessels will be sold at public auction to the highest bidder.

The Amsterdam Passengers. NEW YORK, Aug. 11.—Two hundred passengers of the wrecked steamer Amsterdam, arrived here this morning. F. Jetter, of La Crosse, Wisconsin, said he was among the first to leave the steamer after she stranded. He heard complaints from the cabin passengers in regard to having lost articles, but he did not see any cases of thieving or looting. The Islanders treated them well and shared with them what they had. Other passengers say the sailors helped themselves to cigars and wine and did not seem to care for anybody. They treated the steamer passengers a great deal worse than the natives on the island. The captain had no command over his men. The agents of the Rotterdam line caring for Amsterdam passengers.

The Burial of Sergt. Israel. KALAMAZOO, Mich., Aug. 11.—The remains of Sergt. Edward Israel, the meteorologist of the Greely Arctic expedition, arrived this afternoon and were met at the depot by the city authorities, the Hebrew and German societies and a great concourse of citizens. Places of business were closed in respect for the deceased, who was a native of Kalamazoo and honored for his unusually brilliant talents. The funeral takes place at 5 o'clock from the residence of young Israel's widowed mother. There is deep sympathy here among all classes in the great affliction which ends three years of heavy hearted suspense.

Terrible Boiler Explosion. MADISON, Ind., Aug. 11.—The propeller Mamie Glass exploded her boiler this morning in front of this city. Engineer George Keller was instantly killed, being frightfully mangled and blown to the raft of logs which the Glass was towing. He leaves a wife and two young boys. Joe Liehtyer was on the raft a considerable distance from the boat and was knocked into the river and lost. He was married and leaves four little children. Commodore Wolf was blown with the pilot boiler and nearly killed for a while. He was out of the debris of the water. He is bruised but not seriously hurt. Two young men were on the raft but escaped injury.

The Earthquake on Long Island. LONG ISLAND CITY, Aug. 11.—The earthquake yesterday caused the brick chimneys of two houses to fall at East Norwich. The Presbyterian parsonage school at Norwich had the chimney cracked from one to two inches in width, extending from the roof to the foundation. A colored camp meeting in Fleet's woods was broken up by the shock, all in attendance being on their knees at the time jumped up shouting and ran from the woods to their homes.

Assessment for Grading Winifred and Starkey Streets. OFFICE OF THE BOARD OF PUBLIC WORKS, CITY OF ST. PAUL, MINN., AUG. 9, 1884. The Board of Public Works in and for the corporation of the City of St. Paul, Minnesota, will meet at their office in said city at 2 p. m. on the 18th day of August, A. D. 1884, to make an assessment of benefits, costs and expenses arising from the grading of Winifred street, from Ohio street to Starkey street to a partial grade from East Deios street to the street opened for levee in the Sixth (17th) Ward of said city, on the property of the said city, to-wit: Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243,
