

DAKOTA & MONTANA

Collected and Forwarded by Telegraph to the Daily Globe.

Fargo Special Telegrams September 16, to the St. Paul Globe.

Northwestern Notes.

It is believed that a sunken river runs under Helena.

The Cooper farm, in Griggs, has threshed 120,000 bushels of wheat.

The First National bank of Aberdeen has paid out \$100,000 for wheat.

The corn crop in Hughes county was immense and is out of the way of frost.

The farmers of Aberdeen have resolved to shelve no more on Sunday. They want to go to church.

Chicago parties have recently purchased several sections of land near Hope, in Griggs county, and will improve them.

Outs are being hunted from Pierre to the Black Hills and retail at Deadwood at \$2.50 per 100 and \$3.50 at Custer City.

The machine men at Cooperstown this year sold 150 binders against 50 last year, which shows the increased acreage in Griggs county.

The new penitentiary at Bismarck is to be turned over by the contractors to-day. It is large enough to accommodate the entire legislature.

An association of the old timers has been organized at Helena. There are some hundreds of them who came to the territory from 1852 to 1854.

A buffalo killed near Steele, by David Russell, is said to be the only one ever known to be shot in that county since its settlement.

J. F. Berry, a farmer in Pembina county, claims that the frozen wheat sown in that section matured as good a crop as the most carefully selected seed.

The North Dakota Democrat is announced to appear at Grand Forks this week. It will be the only straight out Democratic paper north of the Union Pacific.

The first wheat threshed in Pembina county is reported to yield 34 bushels to the acre. With a yield like that farmers can afford even the present prices.

The Montana fair at Helena last week was quite a success so far as attendance was concerned. Not much interest was excited in any department but horse racing.

It is estimated that 2,000,000 bushels of flax seed will be harvested in Dakota this season and sold at from \$1.00 to \$1.10 per bushel. It will be a handsome item.

Supt. Graham, of the Northern Pacific, with a friend or two, went out before breakfast in Griggs county and shot forty chickens, which are plenty in that section.

Hon. Martin Maginnis represented Montana in congress ten years or more, and others now think they ought to have a chance. Martin don't care to go to Washington any more.

Rev. A. P. Graves, an evangelist from New York City, is conducting revival meetings in Brookings with such effect that at times even the saloon keepers closed their shops to attend his meetings.

The number of cattle on the ranches of South Dakota are greatly in excess of what is needed to supply the home demands and the quantity shipped to the eastern markets this fall will be a considerable item in their export trade.

Senators Dawes, of Massachusetts; Morgan of Alabama; Cameron, of Wisconsin; and possibly Vest, of Missouri, are expected at the new Crow agency, in Montana, some time this week, where they will hold a conference with the Indians in regard to the opening of a portion of the reservation.

Col. Ziebach, the boss Democrat of the south, receives the convert in this way: J. E. Hall, formerly of the Fargo Republican, has seen the error of his political ways, joined the Democratic forces and taken editorial charge of the Democratic Broadside. He gives good reasons for his change of faith.

Mitchell Republican: Deacon Simeon Bidwell has begun his eighty-seventh year by making a tour of Mitchell with his horse and carriage and counting the houses. He reports 748 houses, not including those in process of construction. He regards this as a wonderful showing for a four-year old town.

It is reported that the party of Chicago, Milwaukee & St. Paul railroad men, ostensibly merely a party to the Black Hills, is now actually at work with a party of surveyors in the valley of the Morcan river. It is supposed their road means to be among the first to get to the Hills.

The Dakota Republican says: Bishop Marty has ordered a Catholic church to be built in Vermillion, and steps will soon be taken to see that it is done. In connection with the church there will be a parochial school. This is the result of having the university of Dakota here, and will be a grand step in making Vermillion the educational town of Dakota.

Chamberlain Register: Mrs. Abigail Sharp, formerly Miss Abigail Gordon, the only survivor of the Spirit Lake massacre in 1856, was in Chamberlain Saturday. She was looking for further information relative to the history of that memorable tragedy. Walter H. Hand of the Spirit Lake massacre, the chief of the tribe, Me-la-wa-ka, says he has a war cup of fine cast and manufacture.

Mitchell Republican: General Emigrant Agent Powell sent word to the Republican that he will be in Mitchell in a few days. His special car will be filled with a party of English and Holland capitalists who will look through the adjacent country with a view to settlement and investments. They are preparing the way for a large emigration from those countries to Dakota next season.

There is probably no section in Dakota where there is finer hunting than in McLean county, north of Bismarck. The Washburn Times states that the flocks of ducks and geese near the lakes darken the sun as they fly, and prairie chickens, deer and antelope are plenty. Hunting parties are unable to bring in all they kill. The editor of the Times took in eighty ducks in a few hours.

The Keystone Commercial says: "The secret cause of the failure of R. E. Wallace, the Jameson banker, was because he invested \$30,000 in the streak of dirt property known as the James River Valley railway. Involved by his friends, he was induced to contribute towards the enterprise, and had the company been able to realize on their bonds all would have been well, but with the collapse of the railroad scheme, came the financial embarrassment of all concerned in it."

This is given by the Pierre Press to show how rapidly the Indians are learning Christian methods: At the show in Bismarck yesterday the Sioux Indians were down from the Winnebago reservation in force to attend. An old chief and interpreter went to the business manager of the show to get reduced rates for the entire tribe, about 250 in number. The manager first asked full price of \$1, but being importuned finally agreed to let the tribe in at 25 cents each. The chief and interpreter then left to get the remainder, soon returned, saying the rest would be soon come and get their tickets, but that they would go on in. Under this arrangement they got the two tickets at 25 cents each and went in, but no other Indians put in an appearance during the afternoon, which fact led the manager to believe that a shrewd game had been played on him by the two to get in at a low price. Poor Leo is rapidly learning the ways of his white brethren.

A writer in the Lisbon Star proposes this method of elevating the price of No. 1 hard: If the farmers only knew it, they have the remedy in their own hands. If by a concentrated action the farmers of North Dakota would hold their wheat for say one month, the prices would soon take an upward tendency. The millers of Minneapolis depend upon No. 1 hard almost exclusively, they have worked up a reputation for their flour

and they must have No. 1 hard wheat. The stock on hand is barely more than would be used up in one week by the enormous capacity of the combined flour in Minneapolis. The price of flour in that market is the same to day as when it cost them \$1 per bushel for their wheat consequently they can afford to pay \$1 just as well now as they could three months ago, and they soon would pay it if forced to do so. They could not afford to let the mills shut down for a single day, and although they are not so dependent upon the flour shipments at one month, I would not be surprised if one week would have the same effect.

The Chamberlain Register says of the recent convention of the Woman's Christian Temperance union at Mitchell: The convention showed that the women of Dakota are abreast of the times in Christian and philanthropic work. The ladies that made up the convention were second to none in refinement, intelligence and culture. Mrs. E. J. Coggins, of Rankin, the president, is a rare woman, and won the hearts of all present by her modest, gentle and ladylike manner. The reports that came up from all parts of the territory showed grand results. The great demand for the last two years has been a territorial organizer, and they seized upon Mrs. M. Barker of this city, who had been state organizer of New York for a number of years, and pressed her into the service. They voted to hold their next annual meeting with the ladies of Chamberlain.

The International at Emerson has this in regard to matters in the Turtle mountain and smuggling operations: "Ald. J. F. Tennant arrived home Saturday from a trip to St. John, Turtle mountain, Dakota. Mr. Tennant states that there is a good deal of excitement in northwestern Dakota over the operations of horse thieves. A short time before his arrival at St. John the horse thieves had been hung some distance south of there. St. John is reported as in a flourishing condition. Owing to the fact that so many Manitoba store keepers and business men had skipped over the line and opened branches here, the place has been given the sobriquet name of Convict Town. The stores there do a good business with the people adjacent to the line in Manitoba, as there is nothing to prevent open smuggling, there being no Canadian customs officers west of Great Bear. Mr. Tennant states that Mr. Revere, at Wopoka, has had his store closed for days, it being no use to keep open as the settlers go across to St. John to do their trading. Canned goods and sugar are sold as cheap at St. John as at Pembina."

Receiver Lowry's Statement.

Hon. Robt. Lowry, receiver of the land office, gives this statement of land matters in his district, which is of interest to many: "When I opened the Huron land office on the 9th of October, 1882, less than two years ago, that district comprised about 5,500,000 acres of public land which had been declared open to settlement. It was included in the counties of Beadle, Spink, Hand, Hyde, Hughes, Sully, Potter and Faulk—eight counties—and on the 1st of this month every acre was sold, except about 600,000 acres, mostly in sections, and in Sully county. The total receipts from cash and commissions to \$1,553,037.52, from fees and commissions to \$236,030.69, and the amount of surveys scrip \$268,622.71—making a grand total of \$2,057,690.89, which has been received in that office in two years—and only 600,000 acres left for sale."

The town of Huron was founded in 1880, and when I went there its population numbered about 1,000—now it is claimed that it has between 2,500 and 3,000 people. It is the land district was very sparsely populated—hardly settled at all. Now there are 15,000 to 20,000 people in the eight counties. The lightest population is in Sully, Potter and Faulk counties, in which there is some good land yet.

"How much of the land in your district is owned by speculators?"

"Why, none! Speculators can't get it. The most any man can get of it is 480 acres—160 for homestead, and the only way in which a speculator can get possession of the land is to purchase it of a settler, who must spend \$200 or \$400 upon it before he can get the patent for it. In the case of a homestead a man must live upon it for five years before he can get the patent, and the cost him but \$28. A great many settlers, however, 'commute'—that is the settler himself comes to the office and pays for his claim at the rate of \$1.25 per acre, and owns it, without waiting to carry out the government conditions."

CURE FOR PILES.

The first symptom of Piles is an intense itching at night after getting warm. This unpleasant sensation is immediately relieved by an application of Dr. Bosanko's Pile Remedy. Piles in all forms, Itch, Salt Rheum and Ringworm can be permanently cured by the use of this great remedy. Price 50 cents. Manufactured by Dr. Bosanko Medicine Co., Piqua, O. Sold by A. P. Wilkes, Seven Corners, P. H. Hart, and J. H. Hart, and John Boyden, 323 East Seventh street, and P. C. Lutz, Wabasha St., opposite postoffice.

Dastardly Murder.

FOUR DODGE, Ill., Sept. 16.—About 2 o'clock yesterday masked men entered the house of John J. Johnson, school treasurer of Washington township, demanding money. Mr. Johnson said it was in the bank, whereupon one of the intruders drew a revolver and shot her dead. Another woman was in the house, and when she appeared the robbers fled. A large posse is in pursuit. Four persons are arrested who, in part, answer to the description of the murderers.

A Bursted Boiler.

PEORIA, Ill., Sept. 16.—The steam boiler in the wagon manufactory at Norton, Ill., exploded yesterday, killing two men instantly and injuring two others so severely that they are expected to die. A number of other persons were more or less injured.

"I Have Suffered."

With every disease imaginable for the last three years. Our Druggist, T. J. Anderson, recommending "Hop Bitters" to me, I used two bottles.

Am entirely cured, and heartily recommend Hop Bitters to every one. J. D. Walker, Buckner, Mo.

I write this as a Token of the great appreciation I have of your Hop Bitters. I was afflicted with inflammatory rheumatism!!! Seven years, and no medicine seemed to do me any Good!!!

Until I tried two bottles of your Hop Bitters, and to my surprise I am as well to-day as I was two bottles ago.

"You may have abundant success!"

"In this great and Valuable medicine. Anyone wishing to know more about my cure, will please call on me. Call upon by addressing me, E. M. Williams, 1103 16th street, Washington, D. C.

Remedy the best ever in existence For Indigestion, kidney Complaint and Nervous debility. I have just returned from the south in fruitless search for health, and find that your Bitters are doing me Good!

And scarcely able to walk. Now I am Gaining strength and Health!

And hardly a day passes but what I am complimented on my improved appearance, and it is all due to Hop Bitters! J. Wickliffe Jackson,

SOUTHERN MINNESOTA.

Gleanings of News and Items of Material Interest.

A Daily Globe Department at Mankato Devoted to Developing and Advancing the Southern Portion of the State.

The office of the Southern Minnesota department of THE GLOBE is in charge of Mr. E. F. Barrett, with headquarters at Mankato, the business and editorial rooms being on the second floor of First National bank building formerly occupied as the telephone exchange. Personal calls or communication addressed to Mr. Barrett on matters pertaining to this department will receive prompt attention.

Special Reports from the Globe Mankato office September 16.

Mankato Dots.

The weather is particularly fine.

John F. Meagher is sadly in need of a good dinner.

The Mankato canning factory is in full blast, and the vegetables are going into cans like cake.

The civil case of Swan Johnson vs. the board of education of the city of Mankato, will be tried in the municipal court before Judge Porter. The suit is for about \$50, work done by Johnson for which he has received no pay.

The Mankato Dairy and Produce exchange meets this morning at Straight's cold storage rooms at 11 o'clock. At the last sales there was little butter offered and no buyers, and it is hoped that a larger number will attend this week.

The G. A. R. of this vicinity are invited to a rousing camp fire at Eagle lake on Friday, September 19. Speeches are to be made by Comrade M. J. Lawrence and others, and a fine time and joyful reunion is expected. Alexander Wilkin Post No. 19 will turn out en masse for the occasion.

Mr. M. Merrill, of Milwaukee, father of F. N. Merrill, superintendent of the Standard Cement company's works here, is visiting at Mankato, having accompanied his son on his return from a recent visit to the cream city. Like many other practical business men he is much pleased with Mankato.

But one arrest has been made in the last ten days,—that of Rosenberg, the "deaf and dumb" mute who got holling full and was taken before Judge Porter and reprimanded. He afterwards proved to be as talkative as anyone. He makes begging his calling and should be shown no mercy. He wears spectacles constantly.

The dates of the Southern Minnesota Live Stock and Fair association's fair, are Oct. 8, 9, 10 and 11. Six thousand dollars in purses are offered, and as the Minnesota circuit will be concluded about that time, a large attendance of horses may be looked for. Every citizen of Mankato is interested in this fair, and there is no doubt of its being a success.

Mr. J. A. Lewis, who has just completed a fine brick block at the corner of Front and Cherry streets, has received and is putting in stock a fine hardware outfit. Mr. Lewis has a splendid location, and will no doubt build up a good trade. The second story of his block is occupied as a tin shop in the rear, while the office of Dr. Snow and the library association occupy a suite of rooms in the front part.

Mr. J. P. Christensen and wife left last evening for Los Angeles, California, to remain during the winter. The occasion is the weak state of Mrs. Christensen's lungs, who has recently had a very severe attack of consumption. Her condition is such that a physician deems a winter in this climate positively dangerous. The well wishes of this city will follow Mr. and Mrs. Christensen and a hope for the lady's ultimate recovery will be the prayer of all.

OWATONNA.

OWATONNA, Sept. 15.—Some men take pride in one thing and some in another, but the man who is proud of his horses, is the kind of a man I like to meet. I met that sort of an individual recently in the person of M. Toher, Esq., of Owatonna. Driving up to the curb, where I was standing, he said, "Ed, don't you want to drive?" Now that was just exactly what I did want to do, so I stepped into the carriage and away we went.

Owatonna, by the way, is a fine city to drive in, and as we leisurely rolled along its pleasant shaded drives (Mike is not a fast driver), I felt like enjoying it and I most certainly did. Of course we had more or less talk about the horses. They were a noble pair of blacks, full brothers, and as like as two peas, eighteen hands high and weigh 2,960 pounds. They are Black Hawk and Messenger and were raised from sucking colts by Mr. Toher on his large farm about five miles east of Owatonna.

They are not looking very well, said Mr. Toher, having just come from the plow, but I thought they looked as if grief was foreign to their nature and I am sure they are well treated, if they are farm horses, and if I owned the lot, I would be proud of the great black, powerful fellows. I am sure I am not much of a granger but I do think if I were going to "farm it" I would try to get such horses as these. It doesn't cost any more to keep a good horse than it does a poor one, and the more you are satisfied with the horse, the more you are satisfied with the man who has him.

MONTGOMERY, MINN.

MONTGOMERY, Minn., Sept. 15.—Mr. John J. Costello, of St. Paul, has spent a few days visiting here.

Mr. T. W. Sheehy, accompanied by his wife and son, Richard, left for Chicago Sunday night last. Mr. S. goes east to purchase new goods and see his son Richard off for his college course at the American college at Lorain. Richard will have a traveling companion and class mate Mr. Chas. Corkran, of St. Paul.

On Monday eve last John McDonald, a section foreman, formerly of Montreal, Canada, fell from his hand car two miles south of Kilkenny on the Minneapolis & St. Louis railroad, the car loaded with its crew and tools passing over him, fracturing two ribs and otherwise severely injuring him.

Dr. Keeley, of this place, in response to a telegram to visit a patient near Kilkenny last Monday night, by some means received a blow from the lever of the hand car on which he was being conveyed. The doctor was sufficiently to bless the gentle hand car as a mode of conveyance.

Our railroad agent here, Mr. L. M. Carroll, leaves to-day for a trip to St. Louis and Illinois, where he will spend some time visiting relatives and friends. We wish him bon voyage, and hope he will return a convert to Democracy.

A little child of our fellow townsman, Joseph Stannack, was buried here last Sunday. "MACK."

LAC QUI PARLE, MINN.

[Special Correspondence of the Globe.]

LAC QUI PARLE, Sept. 14.—A hard wind struck Dawson, a new town on the Minneapolis & St. Louis railroad, and did considerable damage to buildings. The plastering was shook down in two or three stores so that they will have to be replastered, and other damage done.

The track on the new road is now finished beyond Madison. Several elevators will be erected along the line, and a roundhouse is going to be built at Dawson this fall.

A few bushes of the Lac Qui Parle variety have been moved to Dawson, and Dawson will undoubtedly be one of the leading business towns in this county. It has a good water power, the only one along the line in the county. The mileage of railroads in this county is about 100 miles, but it now seems to be a center for business. The Minneapolis & St. Louis road cuts through the very center of Lac Qui Parle

county, and the Fargo Southern will cross M. S. somewhere in this county.

ROCHESTER.

ROCHESTER, Sept. 15.—At a meeting of the Greenback executive committee at Spring Valley last week, Prof. C. H. Roberts, of this city, was nominated for congress. The professor has taken the matter under advisement and will soon announce to the public either his acceptance or declination.

At the county convention held in this city, on Saturday last, C. A. Whitte was nominated for auditor, F. D. Cook, for superintendent of schools, and S. W. Eaton for judge of probate. At the district convention held in this city, J. B. Daniels was nominated for representative.

Dr. Eaton, of this city, died on Thursday last of heart disease.

Mr. Chandler, surveyor general of Minnesota, was in the city yesterday.

TO IRISH-AMERICANS.

Has Blaine Any Claims Upon You?—Strong Letter from An Irish-American.

[From the Dubuque Herald.]

The Republican party through their press are making the boastful claim that they have at last presented to the people a national ticket that will capture the Irish and Irish-American vote from the Democratic party.

The Greenback party is not so good to those patriotic politicians of the Republican party, but the negro vote. Nothing this year but the Irish vote. Well, it seems to me that it is about time that the "grand old party" should make a desperate effort for the Irish. They never before thought about their being 15,000,000 Irish and Irish-Americans in the United States.

It took the Republican party twenty-five years to recognize the Irish vote. You know that the swindler cannot rope in the same victim twice. He must seek innocent persons, who can be deluded by his sweet-scented words of deception! Of course, the Republican party has no use for the German vote now, but it is about time that they come into the state of Iowa and other states and invest his millions of dollars in an enterprise. Then, when they got a little tired of him, passed a law making it a crime to engage in the same business, and then they turned their backs to drink his national beverage. They have destroyed their infamously laws his property. They are sick of the negro likewise.

Of course the German and negro are finding their way, and this has driven the party to work desperately for the Irish. "Consistency, thou art a jewel!"

Are the Irish American voters to be deluded and deceived by this party of deceptions? I hope not. I do not believe that they will. They have the Irish Republican party, and need not James G. Blaine on the Irish vote? What have they done that should entitle them to the Irish American support? Has Mr. Blaine ever advocated the cause of the Irish people? Has he ever declared himself a tyrannical enemy? There is no record that he ever has. What party was in power while Irish American citizens were being arrested over in England, without cause, thrown into dungeons, deprived of their liberty, deprived of their property, and their property, convicted on flimsy charges, and sentenced to the most inhuman punishment, when the claim of an American citizen was treated with contempt, and only intensified the bitterness against them? What party has kept at the curb the Jews for the last twenty years men who were hostile toward the Irish and their cause, and who were in direct sympathy with the English policy? Was it not the Republican party?

Where are the followers of the knowledge party who the Democrats have opposed and annihilated? Are they not with the Republican party? Is not the charge made against Blaine that he was a know nothing? Has it ever been denied? I think not. Am I not right in making the assertion that the element who are now in power in this country are to be found in the vanguard of the Republican party?

What is it, then, that entitles the Republican party to the so-called American support? Is it because there are a few sore heads, who are not worthy of the name of Americans, that have been taught a lesson by the Democrats? Is it because the great convention which nominated Cleveland and Hendricks had the independence, the wisdom and the courage to sit down on a few political machines who had been the Democrats at the convention's duty? Is it because that same convention, in spite of the threats of a few personal enemies of Mr. Cleveland, nominated him? It certainly cannot be these reasons that give them the right to seize by wholesale the Irish American voters. Perhaps it is Blaine's "vigorous foreign policy." The Republican party has waited till this late day to uphold
