The Situation in Cuyahoga.

CLEVELAND, O., Oct. 12.--The Republicans brought their campaign in Cuyahoga county to a close last night with a demonstration which consisted of the customary assortment of torches, transparencies, bands, blue fire and rockets. The Democrats had a counter show last night, with all the time honored accompaniments. There were thousands of torch-bearers, etc., and the cannon boomed a noisy welcome to the speakers of the occasion. The Democrats in Cleveland are apparently in high feather over the outlook. They rely on electing Fenton for congress as against C. C. Burnett by an increased majority. The Irish disaffection in the city is said to amount to nothing, while the Germans will support Newman almost to a man. The belongings of the dynamiters, who were brought here by the Republicans, have certainly made votes for the Democracy. The prohibitionists are earnestly supporting their tickets, and one of the best told the Globe correspondent today that the party will poll 900 votes, at least, in this "the Twenty-first" congressional district. They have a good organization, and are working hard through the aid of one of the Protestant churches. The Republicans are working as never before. Their state organization has for some years been defective, and certainly has not improved any. The Republicans are certainly doing the result of Tuesday's election, but the Democrats evince a willingness to back up their faith by the production of money. The Republicans have the appointment of all the judges in some of the wards in this city, and in the heavy Republican wards bands and drum corps will rally forth at 1 o'clock on the morning of election to summon the faithful to the polls. The Republicans are well supplied with money, and have expended \$100,000 in each ward of the city in their canvass. A member of the Republican central committee, who came from Columbus last night, and is busily engaged today in raising money for the state committee, says Dudley had a canvass made of the state, and the returns came to Columbus last night. It showed the state to be Democratic by 11,000 majority, with 9,000 votes doubtful. The result alarmed the committee, and an all night session was held for the purpose of discussing ways and means to overcome the majority. The result of the canvass, as given for publication, gave the state to the Democrats by a few thousand, but the real figures are being carefully kept secret. The Republicans are certainly doing their level best to pull through, and an evidence of the fact one of the largest manufacturers in the city returned from Europe within a few days, and summoning his foreman, ordered him to discharge a dozen or two of the most earnest Democrats in his force of 500 men, saying that he wanted to make an example of them. The foreman said that he would immediately resign his position, and for the purpose of coming to Cleveland. This information comes to a trustworthy source, and the Democrats now propose to vote every man in the shop in question. Within the last few days advice have been received by the Democratic committee to the effect that ex-detective M. K. H. Cox and Charlie Hurdle, of Washington, were en route to Cleveland with a detachment of negroes. McFisher had made his appearance, but went to Ashtabula last night. It was observed that a number of darkies purchased railroad tickets for the same station. Any one who will take the pains to investigate can readily see that this city is at the present time carrying an immense stock of negroes, most of them from the south. The northern darkies, when accosted, try to maintain a reserve of dignity, but the southern Scraghams take off his hat and bows. There is a vast deal of politeness manifested among the negroes to day. There may be considerable trouble before the election is over.

The Battle Growing in Intensity.

COLUMBUS, O., Oct. 12.--The excitement which has prevailed over the approaching political battle is growing in intensity every hour, and the scenes in many quarters are beyond description. The details are being completed, and workers put into line for the final charge. All the general work which could be done has been accomplished. The state headquarters are deserted, the attaches having gone to their homes to vote and assist the local organizations of negroes. Reports of wholesale frauds at the polls are announced in numerous documents issued at frequent intervals, and these seem no reason to doubt that negroes and repeaters are pouring into the cities. Rural Republicans are inclined to concede the state to the Democrats. Strange people are reported present at the big meetings, which were held all over the state on Saturday. A sort of general wind up to the campaign. The Democrats, however, have taken special pains to guard against coolheadedness. They have the majors in all the cities except Toledo and Columbus, and have appointed special policemen, under the name of supervisors, to about double the number of deputy marshals who have been sworn in. The Republican headquarters, Dancy, Filley and Atkins are left in charge with a force of clerks at their command, and they are sending orders to all parts of the state com-

ing arrangements to carry out the programme which was conceived soon after Dudley entered the state.

Chairman Barger, of the Democratic committee, is answering inquiries from all quarters about the movements of strange persons, observed by local committees, and putting them on their guard. Mr. Barger expressed the opinion that, outside of Cleveland and Cincinnati, the Democrats will have 10,000 majority. And if a fair election is had in these two cities, these figures will be doubled. The bluff made by the Republican state committee at its meeting this week in offering \$100 reward for the arrest and conviction of illegal voters, will be answered by the Democratic committee tomorrow in the shape of a flaming poster, giving localities where negroes have been "planted" for use on Tuesday. Also the names of hundreds of repeaters from eastern cities and their seat of operations. A number of persons went down the Hocking Valley yesterday to see the strikers give Blaine a freezing reception. Thieves and robbers are reaping a great harvest by following in the wake of the show. Among the attractions which Blaine met with at Lancaster last night was a huge tent with a painting on the outside of a tattooed man, "as the greatest curiosity on earth," and a man yelling: "Only ten cents to see the punctured man." Another feature was a large traction road-engine, drawing a number of wagons all labeled "Port Smith & Little Rock railway," with men calling out the stations. These counter attractions by the Democrats have aroused great feeling, and the Republicans are fairly goaded to desperation in handling their last legitimate resort.

The Republicans are still gathering in small bets, but offer no odds, and say nothing about majorities.

The Situation at Toledo.

TOLEDO, Ohio, Oct. 12.--Late yesterday evening a number of dispatches were received by the county Republican committee from the state headquarters at Columbus, urging the local committee to work as never before in the interest of the party, or the state would be lost. There could be no mistake about the tone of the missives. The managers of the g. o. p. were alarmed and howling for help. Every Republican voter in the county received yesterday afternoon by mail the following circular:

COLUMBUS, O., Oct. 7, 1884.--Dear Sir: As a Republican who believes that the success of his party will promote the best interests of the whole country, we desire to make a last appeal to you. For the beneficial influence it will have upon the northern states every Republican should put forth every honorable effort to make the majority for our state ticket on the 14th inst. as large as possible. If Ohio does her duty it will far outweigh the influence of the Democrats in the presidential election. We, therefore, ask you to devote your time from now until the election is over to the work of our party. Use your personal influence with doubtful men to get them to vote early in the day. Try to get some Democratic friend to vote as you do. About all make arrangements which will cause your name to be put on the ticket. Let every Republican put his shoulder to the wheel and give all the assistance in his power and a glorious victory will be assured. Very truly yours, JOSEPH F. O'LEVER, Chairman.

Before the receipt of these dispatches and letters the Republicans were badly enough frightened, and had ceased taking the bets which were freely offered by the Democrats as to the outcome, and to-night are at a standstill, not knowing which way to turn, but by maintaining however, they will have recovered from the temporary shock and resume hostilities. The Globe correspondent has received assurances which are deemed entirely reliable that in Lucas county alone, the Republicans have up to date expended, or rather given to parties to use immediately before and on election day, about \$7,000. Nearly all of this amount has been distributed in amounts from \$50 to \$100. The amount promised \$100 by the Democrats, who not only give the exact figures of the expenditures, but the dates of the payments and the parties by whom received. In one ward, alone, in this city \$800 has been deposited for use on the day of election. The sum of \$500 has been promised an individual who falsely represented to the Republicans that he could deliver the votes of a secret society known as the Knights of Labor. Of the amount promised \$100 has been paid and the remainder is expected to be forthcoming by Monday night. "A consolidation of the coal and iron interests in the Hocking valley was accomplished last week by the incorporation at Columbus, O., of the Standard Coal & Iron company, the land area of the plant is about 140 square miles, or 90,000 acres. Among the representative men who are connected with the new corporation are mentioned by Henry Brooks, John W. Proctor, John L. Lee, George W. Foster, Frederick L. Ames, Oskey A. Ames, Alfred W. Nickerson, Wm. P. Hunt, Cyrus Woodman, John M. Glidden, and George W. Dore, of Boston; Wm. D. Lee, Geo. Chas. Foster, Geo. Samuel Thomas, Wm. Moneypanny, and John C. Laywell, of Ohio; Walter P. Warren, Jr., Geo. Chapman, Wm. Walter Phelps and Joseph H. Lee, of New York, and Secretary Blaine and Gen. Jas. A. Baird, of Canada. A colossal capital has been provided for carrying on the work projected. Since 1875, when attention was first called in that direction, the development of the coal and iron resources of the Hocking valley has been wonderfully rapid. In 1870 only 1,350 tons of iron were mined in the valley, in 1880, according to Mr. Swanik's report, the manufacture was 35,175 tons, and in the same year the coal production was 2,800,000 tons."

Pushing the Negroes into Ohio.

RICHMOND, Va., Oct. 12.--A labor agent advertised for 300 colored coal miners to go to Ohio Monday, the day before the election in that state. The wages offered these men are \$2.50 to \$3 a day. The same agent has advertised for 100 colored miners to go to the same kind of laborers for Ohio counties. They are intended, it is believed, for coal mines of the Hocking valley, where the white miners are on a strike. The Democratic politicians express the opinion that these laborers are being forwarded to Ohio to vote for the Republicans. Many hundreds have already been sent there from different sections of the state. The Democratic managers in Ohio will be kept posted as to the movements of the negroes shipped from here, and the time of their departure from here and their destination.

Enthusiasm in New York City.

NEW YORK, Oct. 12.--The movement of the solid business men of New York in favor of Cleveland and Hendricks is assuming vast proportions. The enthusiasm is spreading from the exchanges, where the movement began, to the large wholesale houses. All through the business districts merchants generally begin to realize that the election of Blaine would jeopardize the commercial interests of the country, and the bells are ringing into the utmost activity to prevent, if possible, the consummation of such a disastrous event. The tremendous protest given by the down town meeting last Thursday afternoon has opened the eyes of hundreds of substantial men of the city, and they are ranging into line with no uncertain or sluggish movement. At a meeting held yesterday afternoon by the executive committee of the Produce and Mercantile Exchange, which it was decided to hold a merchants' meeting next Wednesday evening in the Academy of Music. The Rev. Henry Ward Beecher has promised to be present, but it is not certain whether he will speak. The meeting will be called to order by the president of the Produce Exchange club, who will introduce ex-Mayor Grace as chairman of the meeting. It is expected that Senator Bayard, Carl Schurz, George W. Williams, George F. Hooper, J. C. Hendon, and others who have taken an active part in organizing this meeting to secure the attendance of Gov. Cleveland. He will arrive in this city on the 17th, and will go at once to the Fifth avenue hotel. He has sent word to the committee that he cannot determine whether he will attend the meeting until he arrives here. If he decides to accept the committee's invitation, an escort, consisting of a delegation from each of the down town exchanges will accompany him from the hotel to the place of the meeting. If he does not attend the meeting a serenade will be given him, and he will be invited to view the torch light procession of the exchange clubs.

On Thursday Gov. Cleveland will pass the day and evening in Brooklyn. He will be the guest of the Democratic exchange club, which has arranged for a barbecue at Ridgewood park in the afternoon, and for a public reception in the evening. On the arrival of Gov. Cleveland and his party at the park, exercises will be held in a large tent, and will consist of a national salute, vocal music by a select choir from the Hayden Macneehor, and other singing societies, and a display of fireworks.

After the address of welcome. During the afternoon there will be a grand display from five or six stands, in different parts of the park, by Gov. Leon Abbott, of New Jersey; Robert McLane, of Maryland; Gov. Pattison, of Pennsylvania; Gov. Waller, of Connecticut; Attorney General Stockton, of New Jersey; United States Senator, B. F. Jonas, of Louisiana; Congressman Hewitt and others. Many of the members of the exchange clubs in the city will be present at the barbecue, and will take part in the parade in the reception to Gov. Cleveland in the evening. Not less than 100,000 will assist in welcoming to the metropolis the great reform governor of the state, and it is confidently predicted that the occasion will result in the greatest ovation of modern times.

Originated with the New York Tribune.

NEW YORK, Sept. 12.--It is discovered that the first public reference made to the Standard Coal & Iron Company was by the New York Tribune, in its issue of August 31, 1881. It will be observed that the following announcement, cut from the Tribune of that date, attracted the attention to Secretary Blaine's membership in the new corporation:

"A consolidation of the coal and iron interests in the Hocking valley was accomplished last week by the incorporation at Columbus, O., of the Standard Coal & Iron company, the land area of the plant is about 140 square miles, or 90,000 acres. Among the representative men who are connected with the new corporation are mentioned by Henry Brooks, John W. Proctor, John L. Lee, George W. Foster, Frederick L. Ames, Oskey A. Ames, Alfred W. Warren, Jr., Geo. Chapman, Wm. Walter Phelps and Joseph H. Lee, of New York, and Secretary Blaine and Gen. Jas. A. Baird, of Canada. A colossal capital has been provided for carrying on the work projected. Since 1875, when attention was first called in that direction, the development of the coal and iron resources of the Hocking valley has been wonderfully rapid. Who will look over the books of the treasury.

Who will be diligent about making star route corrections.

Who will see that his commissioner of pensions has time to attend to the claims of honest pensioners, instead of spending his time in holding his office.

Who will discharge all needless office holders.

Who will see that the departments in Washington are not bloated.

In short, we want to elect an honest and efficient executive. Such a one our candidate, Grover Cleveland, is.

Let us elect and inaugurate him. (Cries of "He! he! he!" and long applause.)

Let Gov. Dorsheimer followed with an able speech upon the necessity of honesty in the administration of the government.

One of the speakers was Ex-Gov. Solomon, of Wisconsin. He said:

To-day Blaine stands convicted of having prostituted his high office as speaker of the House for the purpose of obtaining a pecuniary interest in the money to be expended in the election of a candidate for the Presidency. (Applause.)

He has uttered false statements regarding his interest in questionable transactions for the purpose of deceiving the people. (Applause.)

He has shown himself to be a man of dishonesty, and a man who is not fit to be a candidate for the Presidency. (Applause.)

We think that we have the opportunity of putting a man who is a fit and proper person to be President. We propose to cast our votes for him. If it be to defeat the Republican party we say it is the duty of every citizen to do so. We propose to cast our votes for Grover Cleveland. (Great applause.)
