

GOSSIP ABOUT 'CHANGE. Favorable Crop Advances and Strong Consols Cause a General Feeling of Weakness.

But Later the Market Advances Under Some Heavy Bidding, Closing Firm and Higher.

Wheat, Corn and Oats Profit by the Advance, But Provisions Close Weak and Lower.

White Getting Ready to Milk the Street on Northwestern Talk of Boy-cotting His Stocks.

Chicago. Special to the Globe.

CHICAGO, April 2.—It has been the rule of the board for some years to adjourn on Good Friday. The matter seems to have been overlooked until to-day, when a petition was presented to the directors, asking that a ballot be taken on the proposition to have no session to-morrow. This required the unanimous consent of the board.

President Blake called the board to order, but a number of members objected to the ballot being taken, the proposition was killed, and a session will be held to-morrow.

The London, Liverpool and New York exchanges will be closed, so there will be no outside quotations to-morrow. The hold decided, by a large majority, to hold no session on election day, Tuesday, April 7.

Considerable indignation was expressed this morning over the manner in which a lot of WAR NEWS WAS RUN IN just before yesterday's close, and a repetition of the trick is liable to call for official investigation.

The natural consequence, aided by an advance of 5-16 in consols, was to cause a decline, particularly in May wheat, which opened off.

Corn was firm but inactive, and provisions opened heavy and dull. "We never" said a bear who had been hammering away and pouring freely as he crawled out of the pit.

"Just as we are going to have it our own way, along comes a lot of news and stiffens up the props and keeps the blanked stuff at 80c or thereabouts, when there isn't a bit of it to be had in Chicago this month more than May. First it's war news, and now it's crop advices, and

AFTER GOOD FRIDAY the Lord only knows what it will be." The steady and apparently well authenticated reports of the general condition of growing crops certainly have the effects referred to by the man who would be happy if he could be assured every bushel of wheat would be sold at the price three months hence.

The Colorado reports are far more unfavorable than those from any other section of the country, the acreage being light and the damage being heavy, and later Kansas advices continue to furnish a poor outlook.

The bears had taken heart with the subsidence of the wheat price, and the persistence of the reports of the condition of the crop is very wearing.

BOTH ON PATIENCE AND PURSE. The whole list displayed signs of dullness, though prices held firm. There was no special war rumors or well authenticated crop scare reports, and there was also an absence of outside news. The only set-back of war which displayed itself was a report that Russia was preparing her navy for war. This added what little strength was shown in prices. The day throughout belonged to the traders only and there were few features of interest.

Early in the morning the Leppold Bloomer came into the wheat pit with a report for 1,000,000 bushels of June wheat. This created an advance movement. When the option touched 81 1/2c Robert Laddibid bid for 100,000 bushels and got it. He then bid for 250,000 bushels, but did not get it. The market opened weak with

MORE DISPOSITION TO SELL. May wheat, it being 79 1/2c to 79c in different places at the same time, called off to 79c. The market was called, and, evidently having sold all they came in, but having no disposition to be carried, the market hung around 79 1/2c to 79c the greater part of the day. Towards the close a combination of reports of lower consols and crop news, with the general feeling for a large lot of wheat from the Liverpool market, led to a little, May wheat selling at 80 1/2c and closing at 80c. There is just a little

TINGE OF SUPERSTITION among the majority of the boys in the pit, and they no doubt remembered this day last year and thought that they could make history repeat itself, but they, as on this time, went clean back on them, as on the same day last year wheat broke 4c, corn, oats and rye 2c, pork 85c per barrel and meats and lard 40c per 100 lbs, and they thought no doubt they could make a similar raid to-day, hence the eagerness to sell early and the unwillingness to put it back again, but despite all history and superstition, and the wishes of the boys, the market not only refused to go down, but stubbornly advanced a trifle, closing at 75 1/2c for April, 82 1/2c for June and 84c for July. There was very a little

LITTLE LIFE IN CORN FUTURES. The market was void of interest or excitement, and trading was exceptionally light, dealers having generally deserted it in favor of wheat. May corn opened at 41 1/2c, declining to 41c, and closing at 41 1/2c. Cash demand closed at the opening price. Cash demand continues good, the demand absorbing about all the receipts, and prices being about the same as yesterday. April closed at 37 1/2c, June, 42 1/2c, and July, 43 1/2c—all seller. Oats were firmer and a shade higher, with the trading on a moderate scale, and of a local character. No. 2 for May sold at 31 1/2c, 31 1/2c, and closing at 31 1/2c. Sales for April were at 27 1/2c, 27 1/2c, and closing at 27 1/2c. Provisions showed

PRACTICALLY THE SAME FEATURES that other articles on the list did. May opened at 111 1/2c, which was 7 1/2c above the close of the previous night. It sold down to 111 1/2c, then ran to 111 7/8c, and closed at 111 7/8c. There was a large line of shorts out and the traders covered freely. George Baldwin was said to have been active in covering. The trade was purely of a speculative nature. One large lot of wheat, 400,000 bushels, was sold at 111 7/8c, and the receipts of hops fell off to 111 7/8c, and closed at 111 7/8c. THE QUOTATIONS. CHICAGO, April 2.—The markets were generally weak and lower at the opening, but gathered strength as the day advanced and with the exception of provisions closed at about the best figures of the day. The wheat market, which was opened yesterday afternoon at 80 1/2c, declined to 80c, and closed at 80 1/2c. The market was generally weak and lower at the opening, but gathered strength as the day advanced and with the exception of provisions closed at about the best figures of the day.
