Creery Dufferin Asks Leave to Throw British Troops Immediately Into Afghanistan.

Advices That the Penjdeh Fight was Ordered by the Russian War Minister.

Militia and Naval Preparations at London and Elsewhere Under the Afghan War Council Called.

Peace Negotiations Between France and China—State Ball to the Prince of Wales at Dublin.

LONDON, April 10.—Prof. Max Müller of Oxford, a good authority on all political Eastern affairs, says the Indian troops will be true to England as long as a punctual paymaster. Money will not entirely influence the native troops, as they have strong religious and political feelings, which will influence them in siding with either Russia or England.

THE RASTAN TO BUY STEAMSHIPS. The Russian agents in London have visited the offices of a number of steamship companies and made heavy bids for the purchase of their fast going vessels. The extraordinary offers of the Russian agents to the officers of the companies, who upon inquiry became convinced that if the vessels were sold they would be used by the Russian government for war purposes, and reported the facts to the British admiralty.

IN THE HOUSE OF COMMONS TO-DAY Mr. Gladstone said that a reply was received from Russia last night. This stated that the Russian government would not explain its conduct in attacking the Afghans at Penjdeh, but had not yet received his reply. The Russians do not occupy Penjdeh, but have retired to the position occupied by them before the attack on the Afghans.

THE LEADING OFFICIALS at Woolwich arsenal have been summoned to the war office to attend a conference upon the question of the dispatch of war material to India. The Sir William Armstrong and Co. manufacturing company have received orders from the government for the immediate construction of ninety field guns. The employees in this company's establishment are already working double time to meet their orders.

A RUSSIAN VIEW OF IT. The Journal, St. Petersburg, states that Gen. Komaroff's return within his lines after driving off the Afghans, indicates that the Russian attack was caused by a hostile attack on the Afghans.

THE MORNING NEWSPAPERS throughout Russia, in commenting on the collision between the Russians and the Afghans, are very bellicose in their utterances and charge the Earl of Dufferin, viceroy of India, and Sir Peter Lumsden, British commissioner, with provoking the war by advising the Afghans to advance their claims on the British officials' knew was part of the Russian territory. The Afghans understood that Pul-Khat was a Russian territory and would have no objection to the British officials' taking that point unless strongly urged by British officials. The war party fully believes the assertions of these newspapers and is very pugnacious.

THE NOTES MORE INTERESTING. LONDON, April 10.—In London and on the continent the bores developed a more cheerful tone and prices recovered owing to the belief that Russia would succeed in making an explanation of the Penjdeh affair that would be satisfactory to England.

LOOKS MORE LIKE FIGHTING. LONDON, April 10.—Lord Dufferin, after a consultation with the viceroy, gave the government to order an immediate advance of troops into Afghanistan. The viceroy has sent out orders to the viceroy to meet him at Kabul for the purpose of holding a war council.

LETTERS FROM ST. PETERSBURG mailed at Berlin in order to escape the Russian censorship, state that the Russian government has issued orders to Gen. Komaroff at the end of February to bring on a conflict with the Afghans, and states that Gen. Komaroff, after the Russian attack on Penjdeh, had a favorable opportunity to make an attack on the Afghans at the latter place.

RUSSIA TRYING TO GAIN TIME. LONDON, April 10.—The Tories ridiculed the Russian reply to the demand for an explanation of Gen. Komaroff's attack on the Afghans. They argue that it will be impossible to receive Gen. Komaroff's defense within less than six weeks, and that he would occupy the position which he has occupied the past seven months, in an attempt to strengthen his position on the Afghan frontier. The wing section of the Liberal party is joining the Tories in demanding more vigorous measures.

THE ENGLISH GOVERNMENT has, however, decided to prepare for war with increased energy. In an article on the situation, the News says: If Gen. Komaroff's action was part of the Russian policy, it is an attempt to gain time to think of delaying war. It will be difficult to deal with a government whose generals have a trick of ignoring instructions. While hoping for the best it is necessary to prepare for the worst.

THE TURKISH PROVOKED THE FIGHT. YENNA, April 10.—Believable advices from St. Petersburg state that Russia considers the excuse of M. Degiers for the attack upon the Afghans sufficient, and that the government will not consider the blame Gen. Komaroff, but it considers, did his duty. Prof. Vamberger thinks the Turcomans probably provoked the Afghans to cross the river.

WALLING PREPARATIONS AT VICTORIA. B. C. VICTORIA, B. C., April 10.—Batteries are being placed in position in anticipation of war. It is said that a large number of torpedoes in the navy yard will shortly be placed in the outer harbor and that the construction of torpedo boats will be commenced immediately.

THE TIMES THUNDERING. LONDON, April 11.—The Times says that subsequent developments have not lessened

THE INDIAN REBELS FOR MITCHELL. OTTAWA, April 10.—The press in Parliament block this morning was full of rumors of the movements of Indians and half-breeds, the coming grapple between England and Russia and about the possible dangers threatening the Prince and Princess of Wales during their tour of Ireland. As for the Indians, it was stated that the Gros Ventres, the Kootenays and the Crows were in arms on the other side of the boundary line, that a large fighting party had moved north on the Bear's Paw mountains and encamped near the Gros Ventres, and that the Indians had dashed down to the boundary and take charge of the Indians and half-breeds. It is hard to trace the reports. Sir John McDonald stated to-day that the government had no confirmation of the rumors respecting the Indians to the south. The Bloods and Piegiens had been visited by government agents and the report from them was that affairs are looking well.

THE INDIAN REBELS FOR MITCHELL. OTTAWA, April 10.—The press in Parliament block this morning was full of rumors of the movements of Indians and half-breeds, the coming grapple between England and Russia and about the possible dangers threatening the Prince and Princess of Wales during their tour of Ireland. As for the Indians, it was stated that the Gros Ventres, the Kootenays and the Crows were in arms on the other side of the boundary line, that a large fighting party had moved north on the Bear's Paw mountains and encamped near the Gros Ventres, and that the Indians had dashed down to the boundary and take charge of the Indians and half-breeds. It is hard to trace the reports. Sir John McDonald stated to-day that the government had no confirmation of the rumors respecting the Indians to the south. The Bloods and Piegiens had been visited by government agents and the report from them was that affairs are looking well.
