Chicago.

Special to the Globe. CHICAGO, July 9 .- The average trader on 'change is getting in the habit of looking upon himself as a particularly lucky dog if he gets home with \$6.25 ahead as the result of the day's work, while brokers which depend largely on a sort of overflow busi-ness, or get their orders from houses, who, for obvious reasons, wish to cover up their tracks, are having a particularly hard time of it. Outside orders are getting so scarce that the receipt of one attracts general at tention. Home business is so small and so unimportant that no necessity exists for doing it in a very quiet manner. Members say the market must show signs of a good deal more life than it exhibits at present before "the country" will come in to any great extent. Talmage's crop reports cut a figure at the opening to-day, which was very strong. It is claimed by that statistician that there has been no improvement anywhere within the past ten days, and that the yield cannot exceed the estimate previously given. In many sections of Minnesota serious damage is reported, and the Wisconsin thresh-out will not be more than 75 per cent. of that of last year. In Kansas the rains are

in order to affect the options. This, how-ever, is undoubtedly a mistake, as millers assert an error has occurred in the statement of flour on hand and the grain is wanted for legitimate milling purposes. The close, at 1 o'clock, for July and August deliveries was about ½c below that of yesterday afternoon, while for September and later deliveries prices were relatively somewhat better sustained. July wheat ruled at about 21/4c below August, which is noticeable inasmuch as a third of the month has nearly passed without proportionate reduction in the carrying charge, which remains fully as high as at its commencement. Foreign advices were rather unfavorable, the feeling being represented as weak, with no demand. New York was dull, only one boat load having been sold

TENDED TO WEAKEN the tone there, and, to some extent here This afternoon there was continued disposition to sell, and the market further declined 1/2c, closing 881/8c August, 90%c, September, 92½c October. The decline for the day has been %c, with an unsettled and nervous feeling at close. Nothing definite is known concerning the regular monthly government report to be announced to-morrow, and the general expectation here is that it will show no important change from that of a month ago.

The opening was slightly weaker, with more liberal selling holders, and for current month delivery. The market fell off 1/6c as compared with that of yesterday afternoon. All deliveries

THE SAME DECLINE. and the feeling at the close of the morning session was tame, at about the inside prices touched. This weakness was carried into the afternoon session, prices at the close of which were again fractionally lower and at the inside of the day, closing at 47c July, 46%c August and September, 46%c October. Reports of the growing crop are fa vorable in all directions, and it is only a question of time when present prices will soon give way before the desire to realize on the part of holders, unless there is no old corn in the country to be sent forward, which contingency is not accepted as prob-

Oats were held firmer, but the volume of business transacted was light. Prices were a shade higher for the near future, but unchanged for the long futures. No. 2 closed at 32c for July, 26% c for August, and 25%c for September.

Provisions opened at a fraction above yesterday's closing for the long futures, but broke early on a sensational report of three cases of cholera in Paris. The decline was only for a short time, however, and the lowest point reached was \$9.90 for August, or only 5c below the opening. September pork also declined 5c, but the October future did not seem to be much affected and closed at the opening. The general tendency in the provision pit was downward, whether this effect could be attributed to natural causes or to Peter McGeoch's but-ton-hole bouquet it would be difficult to say. At any rate Peter circulated among the boys pretty freely during the morning session and they all appeared to be glad to see him, as he had not been on the board before in many a week. Pork closed \$9.921/2 August, \$10 September, \$10.10 October. The trade in lard and ribs was almost enlocal and the market dull, the close for August and September being: Lard \$5.52\(\frac{1}{2}\) @6.62\(\frac{1}{2}\); short ribs \$5.27\(\tilde{0}\)5.35.

As if this were not enough, prices abroad were reported firm. August wheat started at 89½c, an advance of ½c, and quickly advanced to ½c, with September 2c higher. During the forenoon quite a large outside support was received, the granger having apparently become satisfied that the prevailing rains were liable to cause great injury, and he made his appearance by wire in quite large numbers in his natural character as a rampant bull. The change of tactics of some of the heavier dealers was: somewhat remarkable. Bliss, who yesterday was a bear with blood in both eyes, appeared as a bull with tail crect and pawing the earth, and in his new role was ably supported by Driver. Lester & Co. and Roche sold heavily through brokers, and Eldridge & Co. were reported quiet purchasers. Toward the close quite a weakening took place, occasioned principally by reports of cholera in France, though it was more on account of the belief that the market

HAD BEEN OVERSOLD.

The fear of the little fellows to hold over night is nearly as apparents as at the old board during the Russia war excitement, and like a drove of sheep they all wanted to get under cover at once, with the usual result of a break. Cash wheat was in exceedingly active demand at 99½c bid, and there was a rumnor afloat that it was being crowded up in order to affect the options. This, however, is undoubtedly a mistake, as millers assert an error has occurred in the statement of flour on hand and the grain is

FINANCIAL.

New York. Special to the Globe. CHICAGO, July 9 .- At the stock exchange the market opened 1/6 % higher, with the exception of Lackawanna, which was % lower at first prices, halted, hesitated, sold off a little, then recovered, and at the noon Corn kept up its reputation for stability by continuing to hug the figures 47 through most of the early session. At the opening it was above that point, but soon sank back to its old, well-worn rut. Liver-had got back from their fishing excursions hour was nearly at the highest point of advance at this time are not apparent. Still, in the stocks speculation was now car-ried on, and reason or no reasons do not cut much of a figure. Texas Pacific awoke from its long sleep and gained ¼ during the forenoon. West Shore bonds sold up to 37¼, New York Central to 87¾ and Lake Shore, which was unusually active, to 581/2. Both Presidents Depew and Roberts of the New York Central and Pennsylvania roads, respectively, deny that there are any special negotiations going on for the settlement of all difficulties, but semebody keeps

The Grangers were well held, Northwestern advancing to 93%, and St. Paul to 72%. Receiver Green of the North River Construction company, which built the West Shore road, has filed an answer to a petition of the bouldedge for the first force of the bouldedge. of the bondholders for a foreclosure, in which he states that the road cost that company \$7,000,000 more than the contract price, and he asks that this sum be regarded as a prior lien upon the road. General Wall street gossip was wanting on account of a derangement of wires by the The two stocks that seemed most reluctant to ascend with the rest of the list were Pacific Mail and Union Pacific. The close was steady and the majority of operators appear to be still arrayed on the bull side, at least there was any amount of predictions at the finish that better prices would be the order of the day for some time to come, and but few seemed inclined

The total sales for the day were 270,300 shares, an increase over yesterday of 125,900 shares. Three stocks, St. Paul, Lackawanna and Lake Shore contributed nearly half of to-day's business. The transactions in St. Paul alone aggregated 66,000 shares. The afternoon reaction is not generally regarded on the street as more than the natural course of a healthy market, follownatural course of a healthy market, following the decided advance of yesterday and this afternoon. The weakness in Pacific Mail is ascribed to the circulation of a rumor that an opposition turn was about to be started. Investigation proves that there was no foundation in fact for such statements. Special to the Globe.
CHICAGO, July 9.—At the stock yards the supply of fat cattle was liberal and prices rather easier. Receipts of hogs were light,

and the market in general was quoted higher. Receipts of hogs at the three leading points were about 33,000, of which Chicago gets about 18,000. NEW YORK, July 9.—With a very high temperature, too much for the large majority of buyers to undergo, except under unusual circumstances, the demand to-day has been very

light and movement almost entirely compose
