

THE NORTHWEST.

William O'Brien Arrested at Fairbank on a Serious Charge—Is It Mistaken Identity?

Robbery of a Man in a Rice's Point Boarding House of Fifteen Hundred Dollars.

Accident at Duluth—The McDonough Will Case Settled, Involving \$100,000.

News from Various Points of the Northwest Gleaned by Globe Correspondents.

Off With the Prisoner.

Special to the Globe. PEMBINA, Dak., Sept. 7.—Detective J. L. Ripley and assistant of Boston, Mass., arrived here Saturday night from Winnipeg with Lawrence Brainerd, ex-president of the St. Albans Trust company, St. Albans, Vt., who is wanted for jumping his bail some time ago.

Is It Mistaken Identity?

Special to the Globe. FAIRBANK, Minn., Sept. 7.—William O'Brien, aged about 22, of this place, was arrested here to-day accused of opening a letter addressed to a man of the same name at Stillwater, last Tuesday, and taking therefrom a check for \$200, getting a hotel keeper of that place to identify him and securing the cash from one of the banks.

Accident at Duluth.

Special to the Globe. DULUTH, Minn., Sept. 7.—George Smith, a teamster, had his leg broken to-day by the new derrick at the granite monument works. A large rock was being lifted and the weight struck the rope. The derrick was pulled over and fell upon Smith. He is about 16 years of age.

To Search for the Body.

Special to the Globe. DULUTH, Minn., Sept. 7.—Engineer Chalk of the fire department was called to Battle Lake by telegraph to search for a man by the name of Peterson, who was drowned at that place Sunday. Chalk left this afternoon with his diving suit.

District Court.

Special to the Globe. DULUTH, Minn., Sept. 7.—The district court convened this morning. Judge Stearns presiding. There are fifty-three civil and five criminal cases on the calendar.

Coming to the Fair.

Special to the Globe. FARGO, Dak., Sept. 7.—A large delegation, in charge of the mayor and sheriff, has gone to the Minnesota state fair.

Lost His Hand.

Special to the Globe. FARGO, Dak., Sept. 7.—William Cochran to-day had a hand amputated, the result of an injury received in threshing near Davenport.

Attempted Jail Delivery.

A well-laid scheme frustrated by a shot that took effect. It will be remembered that sometime in the early part of August, says the Gloucester Register, a young man by the name of Elmore was arrested on a charge of robbing his room-mate in the City hotel of some \$200. A part of the money was found upon his person, and when brought before the justice, he confessed the crime. Since that time the young man has been in the custody of Sheriff Kohler's boarding house.

Red Wing.

A teachers' institute will be held in this city during the week, commencing Sept. 14. A. Benham has sold a 160 acre farm in Belvidere, to K. D. Knutson, and an eighty-acre farm in Belle Crete to John Ryan and Patrick Breslin for \$7,500. The music department will be under the direction of Dr. Parker of Carleton college. The city council held their regular meeting at the city hall yesterday.

Manakota.

The public schools opened yesterday with a good attendance at the school. The Normal is much greater than at the same time last year. Home-grown watermelons are coming in by the wagonload. A new and substantial wall has been laid in front of the City bank. There was a special meeting of the city council last night. The new opera house at the Congregational church have not yet started. The school board meets to-night. Prof. J. T. McLeod was in the city Sunday. He left for Pipestone yesterday. It has not yet been decided whether the Normal will be held in this county. Threshing is rapidly being carried on among the farmers, and the returns so far for wheat indicate a good yield.

Wisconsin.

River Falls. The recent frosts have occasioned considerable damage to the corn crop of this vicinity. The Ellsworth extension of the Chicago, St. Paul, Minneapolis & Omaha road is now ready for track laying. With the exception of the new bridge at the city. Work on this is going on night and day. Prof. Charles Treidel, the new principal of the public schools, is in town preparing for the opening of school. Rev. C. H. Rogers is back from his vacation. A Mrs. John Smith has finished her labors at the National Teachers' association and has returned to this city.

Chippewa Falls.

The Third regiment, Wisconsin State militia, arrived to-day and are in camp on the grounds arranged for them by the county. The city is filling up with strangers and staff are to be here on Wednesday. The Patti-Rosi concert company give an entertainment at the opera house to-night. Farmers report the average wheat yield in this county at less than fifteen bushels. Potatoes are rotting in the season. Extensive logging contracts are being made for the coming winter with increased activity in lumber markets.

Iowa.

Le Mars. G. W. Hunt, editor of the Democrat, was on his streets yesterday, the first time in eighteen weeks. The two or three frosts that have been here have hurt the corn very little if at all, unless on the low lands

misshap Mr. Wakefield fell from the top of the stack to the bottom and came down on a corn knife, cutting a gash in his leg over seven inches long and clear to the bone. A match game of ball was played at the fair grounds Saturday afternoon, between the Vikings of Ottawa and the Hospital Rovers of this city. The score was 4 to 1 in favor of the Ottawa nine. The independent military company of this city have new uniforms. Misses Amelia and Bertha Bittner, who have been visiting in the past month, returned to St. Paul Saturday. Miss Ethel Bell left for St. Paul Saturday to attend the training school. Henry Dunkelbeck of Kasota had a fine bay mare stolen from his pasture of the Third evening. Mr. Baxter will open the Third Street rink Oct. 1. Mrs. Arbes of West Newton died on Friday last with an abscess of the liver. She had been a resident of this city for over eighteen years. Rinkel & McCook were awarded the contract to erect the new hospital. They have over twelve thousand yards to put on. Mr. S. H. Baker, who purchased an interest in the mill at Rapidan, will leave for his home Thursday. On Thursday evening a robbery was committed at the farm of M. M. Winters of Kasota. Mr. Frey was engaged in helping one of his neighbors thresh, and about 6 o'clock Mrs. Frey went out to milk and was not gone 20 minutes, but during the time someone entered the house and from a small box took in cash to the amount of \$200 on a Mankato bank and \$1,000 in notes. Misses Ella and Alta Clark, who have been visiting with relatives and friends here the past two months, returned to their home in Hamline Monday morning.

Owamunga.

The many friends of Miss Susie Slevin surprised her on her birthday last Saturday evening, bringing many presents. A very pleasant evening was spent by all. Miss Mattie Banter gave a party to her many friends on Saturday. Many are asking about the alleged robbery of the county commission by the highway robbery. It was proven that no bribes were offered. Rev. F. O. Holman of St. Paul preached morning and evening at the M. E. church. The Woman's Missionary society will meet on Friday evening. Mr. H. R. Moore, Jr., who has been visiting in the East for the past two or three months, returned on Sunday morning. The opening of the public schools is indicated by the increased facilities secured by the erection of the new school, the entire buildings will be taxed to their fullest capacity. Prof. Rankin and the tried corps of teachers have secured an enviable reputation, calling pupils from all over the county to come and pay a tuition for the privilege of attendance. The Globe was the only daily on sale on Sunday morning, supplying a long-felt want. Owing to the grain market, the selection of H. M. H. Dunnell by the waterways convention as one of the delegates from Minnesota to present our claims. The remains of Mrs. E. M. Brooks were taken to Winona Monday. After the burial Mr. Brooks returned to Hayward Wis. Rev. Mr. Mendall of Grand Forks, preached the pulpit at the Presbyterian church on Sunday.

Northfield.

The mean temperature of August, 63.8°, as furnished by D. R. McGinnis of the United States signal service, has been colder than that of any previous August of which there is any record. The highest was 83.0° and the lowest 37.8°. The crops are in a better condition than for some years, but without any serious injury to the crops. The society for the prevention of cruelty to animals got permission Saturday evening to put in a temporary wall on Mill square for the winter. Next spring intend to erect a wall in a fountain and having water on the corners of the most prominent streets. The Young Men's Christian association lecture course will be opened on Thursday evening. The following String and Quartet company. The course will be composed of six entertainments, nearly all of which have been secured. The musical department will be under the direction of Dr. Parker of Carleton college. The city council held their regular meeting at the city hall yesterday. Petitions for two new bridges were made, but no action was taken on them. No other business of importance was brought forward.

Fergus Falls.

The grain stacks of Hugh Hunter of Maine were destroyed by fire last Wednesday night. Loss about 700 bushels of wheat and fifteen tons of timothy hay. Cause incendiary. Mr. Hunter is a poor man and totally blind and left in destitute circumstances. The railroad of San Jose, Cal., was in the city last week for the purpose, if possible, of organizing a company to manufacture the Shupe combined harvester, header and separator in this city. The machine is already in successful operation on the Pacific coast, at large works at Stockton, Cal. Mr. Prather proposes to sell the right to manufacture for Minnesota and Dakota to a stock company of from \$12,000 to \$20,000 as a starter.

South Dakota Convention.

According to the provisions of the law enacted by the late territorial legislature at Bismarck the several delegates elected will assemble at Sioux Falls and be called to order on Tuesday, Sept. 8, at 12 o'clock noon, to carry into effect this act. An act providing for a constitutional convention, which is to be held at the city of Pierre, S. D., on the 15th of September, 1885. The apportionment of representation to this convention provides for the election by the people in the several counties south of the forty-sixth parallel of 140 delegates from forty counties, and 45 delegates from the counties north of this parallel not mentioned in the apportionment section shall be entitled to one delegate additional to the number mentioned. These delegates were elected on Tuesday, June 31, as provided for, and so far as the action of the voters responded and elected delegates, with possible exceptions, though in most cases the vote polled was light. Section 6 of this act provides the duties of the convention to be to draft a constitution for all of Dakota south of the 45th parallel, and to report in form, in which the boundaries of the new state shall be defined. It shall provide for an election by the people of the new state, at which election the proposed constitution shall be submitted for ratification, and at which election the delegates to the convention, members of congress, members of the legislature and all other officers provided for in said constitution, and the convention shall forthwith provide the necessary means for holding the election. The provisions of this act are full and complete, especially in the arrangements of the pay of its participants and the conduct of this august body, and how the provisions will be carried out, and the duties of its members are yet hidden mysteries that will be revealed to the readers of the GLOBE as soon as practical after they are brought to light during each day's session in the city named.

Fargo.

Sheriff Hanzart suggests that the Globe Sunday had one cipher too much in the amount of its loss by fire, making it \$75,000. The loss is greater than at the same time last year. Home-grown watermelons are coming in by the wagonload. A new and substantial wall has been laid in front of the City bank. There was a special meeting of the city council last night. The new opera house at the Congregational church have not yet started. The school board meets to-night. Prof. J. T. McLeod was in the city Sunday. He left for Pipestone yesterday. It has not yet been decided whether the Normal will be held in this county. Threshing is rapidly being carried on among the farmers, and the returns so far for wheat indicate a good yield.

Manakota.

The public schools opened yesterday with a good attendance at the school. The Normal is much greater than at the same time last year. Home-grown watermelons are coming in by the wagonload. Farmers report the average wheat yield in this county at less than fifteen bushels. Potatoes are rotting in the season. Extensive logging contracts are being made for the coming winter with increased activity in lumber markets.

Iowa.

Le Mars. G. W. Hunt, editor of the Democrat, was on his streets yesterday, the first time in eighteen weeks. The two or three frosts that have been here have hurt the corn very little if at all, unless on the low lands

Cabbages and sweet potato vines have been tipped. Quite an amount of the wheat this year thrashed rates No. 4, and is very thin in appearance. Dr. A. M. Collins, associate editor of the Chicago Lever, began a series of temperance lectures on Wednesday night last. The speaker is very fluent, but inflicts odd gags on his hearers. The Oaks Bros. give an entertainment here next Saturday night. Mr. Chris. Koehler, aged 65 years, and a prominent citizen of this city, died on the 5th inst. He was buried Sunday. Company G, I. N. G., left for the Clear Lake encampment last night. They went by the way of Sheldon. A number of our citizens have been summoned to Logan as witnesses in the forestry and arson cases against James Hopkins.

Mason City.

Mason City is a beautiful town of 4,000 inhabitants, situated at the junction of Willow and Lime creeks, in the northern part of Cerro Gordo county and within ten miles of Clear Lake. The country surrounding Mason City is one of the finest agricultural sections in the whole state of Iowa. The land is well adapted for all kinds of grain. Some thirty years ago the first settlement was made by a few Eastern men, who foresaw that the then mighty wilderness would one day be turned and transformed into a prosperous and rich country, full of life and civilization. Many a sturdy pioneer no doubt regretted the day when he crossed a city expanding its borders on either side of the streams above mentioned. Who knows but many a prophecy was made at the neighborhood gathering in the circle of the little log cabin about a great city being built here. If any of the old settlers can call to mind such anticipations or forebodings, it will certainly cheer his declining years to see his wildest dreams fast approaching realization. Every one knows that live and alert energetic men are the backbone of any city or town. If you have men of enterprise, men of energy in a town with any of nature's advantages, there is nothing to prevent you from having a town that will be the envy of all who live within its borders. That Mason City has men of such characteristics there is ample proof. While the town has not advanced with that rapidity which has been noted in other cities, its development of Dakota towns yet its growth has been steady and substantial. In speaking of the people of our town it is proper to say that they are not only endowed with the qualities referred to, but as a people, are highly educated, and well outdone for hospitalities. Their willingness to see one another prosper and do well. No such thing as jealousy and bigotry finds a lurking place in Mason City, either religiously or otherwise. There is a feeling of brotherhood and sympathy existing among the people of Mason City which is indeed commendable. There is at present three railroads running into the town. The main line of the Chicago, Milwaukee & St. Paul, the Austin branch (which is to be built) and the Great Northern of Iowa. The Chicago, Milwaukee & St. Paul have their shops and roundhouse here, it being a division of that line. No little credit is due the last named company and its worthy officers for the aid they have given to Mason City, and the establishing of their shops here is a great help to the city. Some \$25,000 a month are paid by the company to employ who live at this place. There could be better points in this state for manufacturing and for other industries. A couple of visitors from Springfield, Ill., named Britton, spent the summer at Devil's Lake and gained in weight five pounds a month. They fear to move there again, as they should become too corpulent. This seems to be one of the perils of our Dakota climate—it is too fertilizing for some systems.

South Dakota Convention.

According to the provisions of the law enacted by the late territorial legislature at Bismarck the several delegates elected will assemble at Sioux Falls and be called to order on Tuesday, Sept. 8, at 12 o'clock noon, to carry into effect this act. furnish a nice house in Island park and will on Monday in Half-a-dozen other notable weddings are in early prospect.

Ellendale.

George White, the assailant arrested Thursday for assault and battery with intent to kill, was on Saturday bound over to await the action of the next grand jury. Wheat is scarce in the market quite readily now. It seems quite generally understood here that the James River Valley railroad will not build south of La Moure this season. In this event our town will enjoy a great advantage. Farmers living in the east part of this county. Some time since the Ipswich citizens endeavored to appropriate the Hoskins Lake, McIntosh county, traffic of this town by offering inducements which they considered to be a violation of the law, but their efforts seem to have been nipped in the bud, as Mr. Whitley and others interested in McIntosh county have recently established headquarters here, and bringing all their immigration here, endeavoring to break up the settlement for two more large store buildings on Main street the first of next week. Vice President Flemington of the board of agriculture says that Gov. Pierce of Dakota will deliver the annual address at the Huron Territorial fair.

Dakota Newslets.

The Tower City Herald has been regarded as a Republican paper, but it says in its commendation of the territorial convention: "We have men in the territory who are better acquainted—by actual residence—with the customs and needs of Dakota and her citizens, and as a natural result are better able to represent the territory far better than those political servants from other climes. The move to secure the appointment as governor for Mr. Ziebach of Scotland, Bon Homme county, is a step in the right direction. Ziebach is capable, a resident of the territory, and well known. He cannot afford to represent any narrow or sectional feeling against St. Paul. We must be just, as well as generous."

THE JUDGE INDORSER.

J. B. Barrett moved it be expressed as the sense of the court that the action of Judge Atwater, as chairman of the Minneapolis delegation, be approved in its entirety. Mayor Pillsbury offered, as an addition, that this board express its approval of the course of the delegations, both of Minneapolis and St. Paul. It was moved that it was amply demonstrated, that the members of the St. Paul delegation were liberal and broad-minded men, and deserved this recognition. John De Laitre said Judge Atwater had not his peer in the city for loyalty to the territory, and he heartily believed the Tribune's statements, which were mere reportorial vapors. The resolution was then unanimously adopted, and a member remarked that he hoped the waterways convention would mark a new era of perfect understanding and better feeling between the twin cities.

MORE WATERWAYS.

The committee on legislation, through Judge Atwater, reported back a number of resolutions which explain themselves as follows: Resolved, That our senators and representatives in congress be earnestly requested to favor the improvement of the waterways of the Northwest, and especially that of St. Mary's river and the main and nearly all the Hay Lake channel, to the end that the cheapest transportation possible may be had between the producer of the West and the Eastern market. Resolved, That our senators and representatives in congress be earnestly requested to favor the improvement of the waterways of the Northwest, and especially that of St. Mary's river and the main and nearly all the Hay Lake channel, to the end that the cheapest transportation possible may be had between the producer of the West and the Eastern market.

THE HOWL IS OVER.

The railroad committee, through its chairman, J. C. Whitney, reported back, without comment, the papers in relation to the alleged railroad discrimination against certain Minneapolis papers. He said a copy of the committee's report had been sent to the publishers of the papers, and that he alone was present, and as he did not know what was wanted, he returned the papers without action. Mr. Blenheim had professed himself satisfied, and Mr. Nimocks did the same, whereupon the matter was dropped, and presumably the howl is over.

Butler, the Cattle Baron.

St. Louis Post-Dispatch. Max Frost, secretary of the Territorial Cattle association of New Mexico, speaking to a Post-Dispatch reporter this morning, said: "The lands in New Mexico are being rapidly taken up by Eastern capitalists. Among others who have made large purchases of late is Ben Butler of Massachusetts. He has bought a large tract of land in the negotiations for the transfer of some 200,000 acres of land known as the Mora grant to the redoubtable Ben's holdings. Most of the property is bought from Stephen B. Elkins, who figured so prominently in the trial of the late General Greig, lieutenant, and the price paid I estimate at 65 cents per acre. That's quite a stiff price, but then, unoccupied land is not nearly so plentiful out there as is generally supposed."

MISCELLANEOUS BUSINESS.

A general protest had been entered against the report of the census of the twin cities sent out from St. Paul to the Associated Press, and Secretary Hale had written to J. H. Brinson on the subject. He had waited until all the returns were in for the purpose of giving the percentage of gain and of making comparisons. He enclosed a clipping of a report he had sent out after the publication of Minneapolis, but only gave the increase in St. Paul, without showing the population of that city. The matter was referred to the committee on city affairs and the secretary was instructed to ask the committee to say in his reply whether it was satisfactory.

He Wore Seersucker Suit.

Young Featherston, a youngster of '87, who has been noted as the sweetest man in his class all through the years already behind him at Harvard, says the Boston Herald, was driven by the heat into the purchase of a seersucker coat; but he will never put it on again. He wore it out to Cambridge on the 21st of last week, and he had to wait five minutes at Harvard square for a car. He saw two very attractive young female inhabitants standing near, who seemed to be furiously regarding him. He fancied he had been the subject of considerable attention when one of them approached him and began to speak. But this is what she said: "Say, are you the feller that starts the cars? I want a check for Park square?" Young Featherston's indignation went home a heart-broken man.

Free Distribution.

"What causes the great rush at F. H. Heine's, 37 E. W. Fifth street, for 'Boyd's drug store?' The free distribution of sample bottles of Dr. Bosanko's Cough and Lung Syrup, the most popular remedy for coughs, colds, consumption and bronchitis now on the market. Regular size 50 cents and 81.

Money in Western Cattle.

At the Portland (Or.) Savings bank can be seen the \$30 piece found in the stomach of a cow slain near the town of Ozar, which has been the subject of considerable comment. It was sent down by the McMinnville bank to be sold, and it was found to be worth \$16.25. It bears date of 1879, but of course it is impossible to say how long it has taken the animal, which swallowed it to digest it. The milk is all gone, and the head of Liberty is worn away but little more than the flat space around it, and the design on the obverse is also quite distinct.

Men are often heard saying that their aspirations are high, but every time they cough their noses go toward the earth, with indications that they wish to get down to earth. The milk is all gone, and the head of Liberty is worn away but little more than the flat space around it, and the design on the obverse is also quite distinct.

The milk is all gone, and the head of Liberty is worn away but little more than the flat space around it, and the design on the obverse is also quite distinct.

Men are often heard saying that their aspirations are high, but every time they cough their noses go toward the earth, with indications that they wish to get down to earth. The milk is all gone, and the head of Liberty is worn away but little more than the flat space around it, and the design on the obverse is also quite distinct.
