

BURIED AT REGINA.

The Remains of the Leader of the Rebellion Buried Beneath a Church at Regina.

But Few Present, and a Guard Stationed to See That the Body is Not Stolen.

Fire at St. Charles—Accident at Mankato—Railroad Agents Organize.

News from Various Points of the Northwest Gleaned by Globe Correspondents.

Riel's Funeral.

WINNIPEG, Nov. 19.—A Regina dispatch to-day chronicles the last act in the Riel tragedy as follows:

Riel's remains were quietly removed from police barracks yesterday forenoon and buried in a vault below the Church of the Immaculate Conception. The removal of the body was superintended by Pere Andre, and the strictest precautions were adopted to insure secrecy.

The vault underneath the church is simply an ordinary space below the floor. A hole was dug a few feet in the earth and the remains were lowered into a coffin, painted black, and bore in white letters the inscription:

NO DEMONSTRATION.

MONTREAL, Que., Nov. 19.—The students of McGill University have decided not to participate in any demonstration growing out of the execution of Riel. A dispatch from Terre Bonne says that town is in a state of stupor. Stores are closed and craps hangs on every door.

L'Etendard this evening proposes the formation of a "committee on national claims," to be composed of the most distinguished men in the province, said committee to be divided into four sub-committees, the first to be charged with examining the legal questions involved in the Northwest troubles, the second with examining into what was the mental condition of Riel, the third to raise means to succor the families of Riel, and the fourth to gather the facts and documents to form a reasonable judgment on the question.

DETROIT, Mich., Nov. 19.—A recent order of the treasury department prohibiting the transportation of domestic merchandise in Canadian bottoms has not only affected Canadian steamer lines, which for years have had a monopoly of the lake trade between Duluth and Sarnia, and Sarnia and Georgian Bay, but has also cut off a large portion of the profitable business which the Grand Trunk built between Duluth and New England points.

Waseca; R. H. Allen, Kasson; E. G. Weston, Eyota; C. P. Trucks, Jordan; G. K. Peterson, Janesville. A very pleasant time was had, but there was more business than pleasure on account of limited time allowed for absence, and it was very late when the business was finished up. After tendering Mr. Downing a vote of thanks for his attendance from such a distance, W. P. Osgrove, superintendent of the Winona & St. Peter railroad, a vote of thanks for courtesies extended, and to Mr. C. Tryon, proprietor of the Arnold house, for use of parlor and courtesies extended, the meeting adjourned to meet at St. Paul at 3 p. m., Jan. 11.

Several Men Injured.

MANKATO, Minn., Nov. 19.—A serious accident happened this morning at the building now in course of preparation for the manufacture of fibrel goods, near the Winona & St. Peter depot. The masons were working on a heavy brick cornice on the west end of the main building, at a height of about thirty feet, when the whole cornice gave way and fell to the ground. The injuries to the mason were quite severe, but it is thought not fatal. A young man employed as hod-carrier was about half way up the ladder and directly under the cornice when it fell. It is almost miraculous that he escaped with his life. He received several bad cuts on the head and a bad bruise on the hip. Dr. Warner was called and dressed the wounds and thinks that none of the injuries are fatal. Two other hod-carriers were bruised somewhat by the falling brick. It is said that the fall was occasioned by the lack of backing to the cornice. Quite a length of heavy cornice was laid and not filled sufficiently to give it strength to support the main cornice. The injured men are in good hands and will receive the best of care. The accident occurred at about 11 o'clock a. m.

Leech Lake Indians.

BRainerd, Minn., Nov. 19.—Indian Agent Sheehan of the White Earth reservation arrived here this evening on his annual tour for the purpose of making the annuity payments, having just finished the payment at Leech Lake, where some 1,500 Indians are located. Special Agent Wallace of the department of justice, who is accompanying him on his rounds, reports a very satisfactory state of affairs among the Leech Lake Indians, and says that Agent Sheehan is decidedly the best Indian agent he has ever known, and under his kind and determined efforts to improve the condition of the Indians the very best results may be looked for. His appointment to this agency is considered as peculiarly fortunate, as the Indians under his jurisdiction are just beginning to wake up to the necessity of making a step towards the adoption of a more civilized mode of life, and at the same time in favor of their best interest will tend to greatly encourage them. The party go on from here to complete their payments.

American Steamers to Be Used.

DETROIT, Mich., Nov. 19.—A recent order of the treasury department prohibiting the transportation of domestic merchandise in Canadian bottoms has not only affected Canadian steamer lines, which for years have had a monopoly of the lake trade between Duluth and Sarnia, and Sarnia and Georgian Bay, but has also cut off a large portion of the profitable business which the Grand Trunk built between Duluth and New England points. The attorney of the road visited Washington a short time ago to see what he could do in the way of modification of the order, but he was told that nothing could be done. Now it is stated that arrangements are being made to purchase the Grand Trunk to replace the Canadian steamers that have been running in connection with a line of American boats. It is almost certain that a new line will be equipped and ready for business by the opening of navigation next year.

Doubt the Strangers' Story.

LAKE CITY, Minn., Nov. 19.—A few days ago a man giving the name of James Hamilton arrived in this city in a very bad plight. He has a severe gunshot wound in the left side, just above the hip, which he says was accidentally inflicted by a companion near Morris, Minn., about three weeks ago. He walks with difficulty, and his constitution is considerably impaired. He claims to be a common laborer, and is being cared for by the city authorities. Many persons believe that the man does not tell the truth as to the manner in which he received the wound. He is about 30 or 35 years of age, nearly six feet in height, has blue eyes, dark hair and eyes, and sharp features.

A Crazy Man in Limbo.

MORRIS, Minn., Nov. 19.—A crazy man named Anthony Hueste got off the East-bound train at Morris, Minn., last night, and was arrested and held by the sheriff, hoping that his friends may be heard from. When arrested he had a ticket for passage from Wahpeton, Dak., to Prairie du Chien, Wis. This is the same man who created such a commotion by his crazy antics at Ortonville a short time ago, and the prominent figure in a lively shooting bee on a railroad train there, and afterwards the supposed victim to the flames when the court house was destroyed at that place.

A Farmer Killed.

FERGUS FALLS, Minn., Nov. 19.—While R. F. Adley, a farmer of the town of Maine, was driving to this city to-day with a load of wheat one wheel entered a rut and overturned the wagon. As Mr. Adley fell the entire load of grain was thrown upon him. He was unconscious when rescued and soon died.

Drowned in a Mill Pond.

MELROSE, Minn., Nov. 19.—The dead body of Michael Kelly was found in the mill pond this morning. It was supposed he fell into the pond and was drowned while intoxicated. An inquest was held to-day, which returned a verdict of accidental drowning in accordance with the above facts.

Swindled by Eastern Speculators.

BRainerd, Minn., Nov. 19.—Real estate men are indignant over the wholesale sale of lots in an alleged "Spring Brook" addition to the city of Brainerd, by Eastern speculators. There is no such addition to the city, and the purchasers of the lots come to take possession of them and find them four miles from town they realize that they have been badly swindled.

Acquitted of Murder.

MORRIS, Nov. 19.—In the case of the State vs. John Bucklin, on trial for the murder of Benjamin Baxter last May, after the chief evidence for the state was in the prosecution moved the case be dismissed. Action as evidence was sufficient and granted by the court.

Diphtheria Prevailed.

ST. CHARLES, Minn., Nov. 19.—Diphtheria has prevailed in this city for about three weeks, and every few days some new cases appear. The schools have been closed twice on account of this dreadful disease.

One Postoffice Change.

WASHINGTON, Nov. 19.—Mrs. Sarah A. Southwell was today appointed postmistress at Slayton, Minn.

A very pleasant reception, in the interest of the Young Men's Christian association movement in this city, was given by Mr. and Mrs. M. G. Norton at their residence on Wednesday. About fifty of the representatives of the National Young Men's Christian association were present, together with several business men from St. Paul, Minneapolis and La Crosse, who kindly came here to render such aid in the way of information and suggestions as was required. After about an hour spent in social and informal discussion, Mr. H. G. Goss, W. Woodley, M. E. Turner, J. F. Plante, Winona; J. F. Prior, Northfield; W. N. Hamilton, Minnesota City; C. E. Johnson and C. L. Stewart, Jr., Zumbrota; W. A. Thomson, Plainview; E. A. White,

dresses were delivered successively by M. B. Williams, general secretary at La Crosse; E. B. Benson, at La Crosse; L. Tolley, La Crosse; Dyer, Minneapolis; O. E. Briggs, Minneapolis, and Thomas Cochran, Jr., of St. Paul. These speeches received the closest attention, and were listened to with much interest, and the expenses and workings of the association in the neighboring cities. A motion was finally put and carried that it was the sense of the business men present that an organization should be started in Winona. On motion an advisory committee, composed of the following gentlemen, was appointed: M. G. Norton, president; J. F. Plante, Vice-President; W. H. Laird, H. Borth and E. T. Mues. The temporary organization is a Christian association, and the committee was unanimously indorsed. It was stated that Winona had attempted to establish a Young Men's Christian association some time past and had failed, but Secretary Williams remarked that he always found it took two or three failures before a final and grand success was won for an organization to obtain a firm foothold and have a successful existence in Winona. The advisory committee will no doubt proceed at once in a performance of their duties, and the possibilities for the early establishment of an association in suitable quarters in this city are very flattering.

Fergus Falls.

The trial of August over, indicted for killing Paul Klink, will be continued until the next term of court. It is expected he will procure bail. On Monday and Tuesday of this week the largest amount of wheat marketed in Fergus Falls was received. The Fergus Falls mill received 12,000 bushels and the Fergus Falls mill 12,000 bushels. A meeting was held this week with a view to organizing a series of entertainments for the winter, the proceeds to be used for the benefit of the Relief association for the wants of the poor. George Boyington has just purchased a \$1,000 overcoat, and under his kind and determined efforts to improve the condition of the Indians the very best results may be looked for. His appointment to this agency is considered as peculiarly fortunate, as the Indians under his jurisdiction are just beginning to wake up to the necessity of making a step towards the adoption of a more civilized mode of life, and at the same time in favor of their best interest will tend to greatly encourage them. The party go on from here to complete their payments.

Accidentally Killed.

BISMARCK, Dak., Nov. 19.—A Rittenhouse, son of D. W. Rittenhouse, late from Iowa, now living ten miles southeast from Bismarck, was accidentally shot yesterday and died last evening. Three boys were standing by a stove waiting for a hired man, who had gone up stairs to put away his gun. In slipping the gun into the case it was discharged muzzle downward, and the ball, passing through the floor and glancing from the stovepipe, struck the left shoulder of the oldest boy and penetrated his heart. The boy will be buried on his father's claim Saturday.

Finally Captured.

BISMARCK, Dak., Nov. 19.—C. M. King, chief of police of Muskegon, Mich., arrived here to-day, and four hours later started for home having in custody Ed Yandelino, who on Oct. 17 last killed an Indian named King in the Redfield on the 11th inst., passing by the name of James Russell, and was employed as watchman at the athenaeum. King knew his assumed name, soon found where he was and had him arrested by Deputy Sheriff Griffin. King was taken to the jail, where he extended his hand and said, "Well, Cash, you've had a long chase for me." He admitted killing Hock, and looked very dejected after the excitement of his arrest was over.

Cowboy Stories.

BISMARCK, Dak., Nov. 19.—Victor and Frank Smith, hunters and cowboys for the past fifteen years, having spent this season hunting in Northern Wyoming, arrived here to-day, and are engaged to sell, after which they will go to the Buffalo Bill. Their score of game since they left here four months ago includes 93 elk, 35 mountain sheep, 29 bear and 1 buffalo. They talk of an encounter with a grizzly bear, which they met, and which they threw a gun forward as a guard and was thrown down, the bear on top. Frank attacked the bear with his knife and had to jump behind a tree, which the bear hugged in his blind rage, when Victor jumped to his feet and shot the great brute dead.

Thinking Out the Deer.

BISMARCK, Dak., Nov. 19.—M. L. Frost and his party returned from hunting on the White Earth river, about two hundred miles northwest from here. They were there four days and brought back a large load of deer, mostly bucks. Indians of that region are supplied with fawn calves and venison, and the deer and fawns, leaving the bucks for more industrious hunters.

A Short Crop.

MILWAUKEE, Nov. 19.—Charles F. Freeman, who returned to-day from a visit to his Dakota farm, says that farmers in Central Dakota are about two-thirds through with their threshing. Most of the grain is in good condition. Mr. Freeman is inclined to believe from observations made on his trip that light receipts, which are reported on Northwestern lines, are to be attributed to a short crop.
