

A BAD BADGER BOILER.

An Explosion in a Wisconsin Saw Mill Kills One Man and Injures Three Others.

Fort Dodge, Ia., Has a Sensation—A Prominent Citizen Mailed Some Obscene Letters.

Ex-Congressman Dannel's Daughter Married—A Swede Girl Committed Suicide.

Students Reinstated—The Eau Claire Prohibitionists—Towa Patrons of Husbandry.

Killed by an Explosion.

SUPERIOR, Wis., Dec. 10.—An unfortunate accident occurred this morning about 8 o'clock at the saw mill of John A. Taft, located seven miles east of Superior, on the Northern Pacific railroad. The mill was running as usual when the boiler exploded, killing the fireman and instantly killing the fireman and injuring several others. The following are the killed and wounded: JERRY MURKEL, Minneapolis, killed. JOHN BRYANT, fatally injured. WILLIAM BURGESS, Superior, ankle broken. MR. BARLOW, Superior, arm broken. No cause is assigned for the accident. The mill and outfit were new and had been running but a few days.

Sent Obscene Letters.

FORT DODGE, Ia., Dec. 10.—A decided sensation was caused in this city yesterday by the arrest of Isaac Garnore, a prominent and wealthy citizen and shining light in the Methodist church, charged with sending obscene letters through the mail. At the hearing before United States Commissioner Johnson, most damaging evidence was submitted against the prisoner. He was placed under \$1,000 bonds for appearance in court, but bail was promptly furnished. Garnore is 55 years old, married, and hitherto noted in the highest social circles, being at one time treasurer of this county. The recipient of the letters is Mrs. Beatrice Boyd, a middle-aged but handsome widow, well known and highly respected. Garnore today made a public announcement of withdrawal from membership in the church.

A Notable Wedding.

OWATONNA, Minn., Dec. 10.—A private marriage took place at 3:30 p. m., at the residence of Hon. M. H. Dannel, whose daughter, Mrs. Fannie E. Dannel, was united to Mr. H. R. Moore, Jr., the most successful merchant in this part of the state. Rev. C. H. DeWolf of Iowa performed the ceremony in the presence of a few of the relatives and friends of the family. The presents were elaborate, and all the most after the ceremony luncheon was served in the library, after which the bride and groom took the 4 o'clock train for St. Paul and the South.

Iowa State Grange.

DES MOINES, Ia., Dec. 10.—The Iowa State grange has been in session in this city since Tuesday. The officers elected for the two coming years are: worthy master, J. E. Blackford, Algonquin; overseer, D. B. Clark, Council Bluffs; lecturer, T. S. Cameron, Independence; steward, Robert McCaul, Garden Grove; assistant steward, J. S. Davis, Newton; treasurer, Dr. Jones, Manchester; secretary, J. W. M. Newton, Council Bluffs; C. D. Cadwell, Littleton; gatekeeper, W. Laughton, Ottumwa; pomona, Sister Eleanor Clark, Council Bluffs; flora, Sister A. E. Murphy, Newton; cerea, Sister M. M. Blackford, Algonquin; lady assistant steward, Sister Rachael Clark, Council Bluffs.

Eau Claire Prohibitionists.

EAU CLAIRE, Wis., Dec. 10.—The Prohibitionists of this city and county are bestirring themselves actively for the coming campaign. The clubs organized some months ago are kept up with much enthusiasm, and considerable money has been turned over to the central committee. At a meeting of the club here last night arrangements were made to secure the services of J. B. Finch of Evanston, Ill., for an address to be delivered in the early part of January. The club holds its annual meeting for the election of officers on the first Monday in January.

Sale of Wisconsin Lands.

MADISON, Wis., Dec. 10.—The sale of state lands commenced at the capital today. All school, university, agricultural, college, forfeited, mortgaged and swamp lands in the state which have been forfeited by reason of non-payment of interest for the year 1888 are offered for sale. There is a slim attendance. The buyers are George Dahlwin of Chilton, George Davis of Neenah, S. A. Gnyale of Eau Claire, and G. B. Burrows of Madison. The lowest bid had to be \$100 per forty acres. No bid could be below this amount. All lands are subject to redemption by the owner of the certificate up to June 1, 1889.

Stabbed With a Knife.

RED WING, Minn., Dec. 10.—Tuesday evening Isaac Martin, a fireman working on the Burlington & Northern railroad along the river, got into a quarrel with another man, Alex. Nilander, at a dance, and attempted to stop the quarrel when Martin drew a big jack-knife and stabbed Nilander in the arm, cutting a terrible gash. Mr. Nilander came to this city yesterday afternoon and had the wound dressed by Dr. Sandberg. With proper care he will pull through all right. No arrests as yet.

The Yellowstone Park.

WASHINGTON, Dec. 10.—Senator Vest's bill for the government of the Yellowstone provides for the location of its boundaries, preservation of game, for leases not exceeding ten acres for hotels, but not including any geysers, cases to be approved by the president, for commissioners, their appointment to be with the advise of the senate, to hear complaints for violation of park rules, for the building of a jail, for a superintendent at \$2,000 and first assessment of detail of army engineers to lay out roads.

Northwestern District Attorneys.

WASHINGTON, Dec. 10.—Mr. Vest's bill offering salaries to assistant attorneys general was followed by Dakota, \$3,000; assistant \$1,000; Wisconsin, Western district, \$2,000; Eastern \$1,000; assistant, Western, \$1,500; Eastern, \$1,000.

Graceville.

Following are the arrivals at the Emerson house: Mr. Rev. J. Ireland of St. Paul, Rev. James McGorrick of Minneapolis, Prof. H. C. Doble of St. Paul, Hon. E. W. Kingsley of St. Paul and Prof. S. W. Robinson of Chicago, Ill.

Enough of Life.

SUPERIOR, Wis., Dec. 10.—A Swedish girl who has been living with Mr. Peterson, the section boss at Douglas, committed suicide yesterday. Cause unknown. She was about 25 years old and has no relatives in this section.

Students Reinstated.

MADISON, Dec. 10.—The students suspended from the Wisconsin university Wednesday on account of non-attendance at military drill have been reinstated.

THE QUEEN CITY.

St. Cloud's Rapid Growth—Inducements to Capital and Energy. ST. CLOUD, Minn., Dec. 10.—Many readers of your paper are aware of the thriving city of St. Cloud, but they may not be conversant with its surroundings, natural advantages, beauty and its wonderful growth. St. Cloud is located in the heart of a well-cultivated, prosperous and productive agricultural district; has a population of 6,000,

having gained 1,000 during the last year, while its taxable valuation has increased \$132,000, making a taxable valuation of \$3,500,000. During this time the growth of the city has not only been marvelous, but healthful and substantial. The appearance of the surrounding country is that of a new England. St. Cloud can boast of having one of the finest water-powers in the state, its citizens realizing this, as they voted \$100,000 toward the construction of a dam, which is now being built, and to be completed next year, at a probable cost of \$1,000,000. It is located at the southern limit of the city.

RAILROAD ENTERPRISE. The St. Cloud, Mankato & Austin railway is under control and is now being built. Season and the remainder of the road will be completed next year. This will give St. Cloud four railroads with a line on either side of the river to St. Paul and Minneapolis and two each to Duluth and Fargo. To the gaining of an agricultural knowledge the counties of Stearns, Sherburne and Benton united in organizing a district fair and held their first meeting on their grounds west of the city last September, which proved to be a successful beginning. Among the many fine structures erected here this year stands a fine three-story brick normal home, a fine three-story brick overlooking the Mississippi. A cathedral has also lately been erected at a cost of about \$40,000. The city council has been generous in improving the appearance of the streets and bridges, having expended \$1,100 in building foot bridges on the carriage bridge and three times that amount in building culverts, excavating and filling, while smaller amounts have been used in other improvements. There are two public schools in the city, being the normal school, which is prospering finely under the present management. There will be a public hospital here under the management of the sisters of St. Benedict, which will be in operation in charge. The Reading Room society has over \$1,000 and several hundred volumes of books which will be used for a public library and reading room, to be opened in the spring.

MANUFACTURING has not been extensively carried on in the past, though now the Roseberry Manufacturing company is manufacturing and exporting their North Star seeder, while J. F. Stevenson & Co. are manufacturing stoves, plows and machinery in connection with their large foundry, which is the usual number of wagon shops, sash, door and blind factories, all doing well. Three large breweries are located here. Pressed brick is now being manufactured here, fine material having been found in abundance. The winter season the exportation of brick will begin. The field of operation for manufactures at this point is not surpassed by any city in the West, having direct connection with the lakes and railroads, wood of all kinds, yellow and blue clay of the finest variety, gray and brown granite, straw and poplar for paper. We also have beautiful lakes and rivers, public resorts, hunting and fishing grounds, all in and about the Queen City. The means of making this the commercial and manufacturing center of Northern Minnesota are only surpassed by the energy of its citizens. With our resources and productions the future prosperity and stability of St. Cloud is assured. We invite capital, energy and labor to come and co-operate with a generous and prosperous people.

Mankato.

Invitations are out for a select dance at the skating pavilion on Christmas eve. It is to be the dance of the season. An infant child of Mr. and Mrs. H. E. Baker died at the residence of Mrs. Baker on Wednesday. The child was a daughter of Dr. Warner. The jury in the case of the Keenan brothers brought in a verdict of acquittal on Wednesday evening. The case of the most unfortunate affairs that our courts have ever had to deal with is ended. The facts of the case were that on the 10th of November, 1888, a number of the neighboring boys were suspected of having fired a shot at the residence of Mr. and Mrs. Herbert, a young man with several others, appeared upon the scene from the shock of corn and fired, as they testified, several shots in the air, with the intent of frightening the intruders away. Unfortunately one of the shots struck young Herbert, of which wound he died. The respective families had been on the best of terms, and the incident occasioned much sympathy for them. While it is expected only a light penalty would be inflicted, yet an acquittal was hardly expected.

Red Wing.

Arcturus lodge, A. F. and A. M., elected the following officers Tuesday evening for the ensuing term: W. M., F. S. McMorris; S. W., A. H. Allen; J. W., J. E. Graves; secretary, E. F. Grow; treasurer, William Daniels. Installation and work Dec. 22. A special to the Pioneer Press from Davenport, Ia., Tuesday says that one of the men of this city was arrested there on that day for passing counterfeit money. Diligent inquiry here fails to develop any one of that name. Thomas J. McManus, for threatening to do great bodily harm to his wife, has been placed under \$300 bonds to keep the peace. The vestry men of St. Paul's church will meet at the residence of Judge E. T. Wilder, on Third street, tomorrow (Saturday) evening. Mr. and Mrs. W. B. Williams gave a progressive euchre party Wednesday evening at their new residence, George Williams of New York. Red Wing lodge, No. 8, A. F. and A. M., has elected the following officers for the ensuing term: W. M., M. W. Allen; S. W., E. B. Howe; J. W., George Diepenbrock; secretary, Charles L. Davis; treasurer, L. C. Smith. The city ordinance, requiring people to clean their sidewalks, under \$2 penalty for every neglect, is to be enforced. As the law in regard to the time of tax levy has been amended, all taxes due on the 1st of January, and all quit claims can have them placed on record until Jan. 7, 1889, without paying taxes for 1888.

Shakopee.

Jacob Simmer, an old citizen of this county and father of Jacob Simmer, a St. Paul merchant, died in this city on Wednesday morning. For some time past, owing to some misunderstanding, the price of wheat in this city was somewhat lower than at surrounding points. The matter has, however, been satisfactorily arranged and hereafter the Shakopee market will meet any price paid at surrounding points. J. A. Wielder will open a wood yard and combine in purchasing oak and elm woods. This, in connection with the vast amount of hardwood used in this city, places Shakopee in the front rank as a wood market. The city is well supplied with nearly all of the valuable government lands open for settlement are only to be reached by way of Ipswich, it becomes evident that Ipswich will boom as no other Dakota town has before, when emigration commences its westward course in the early spring.

St. Cloud Sittings.

The city council met on Monday and had their regular monthly meeting, and a large amount of business was transacted. Court was in session, and the case of Lavensler vs. Peterson attracted considerable attention. Hon. Ignatius Donnelly delivered a lecture at the Opera house Tuesday evening on "What the People of the United States are entitled to." The ladies of the Congregational church will provide an entertainment at the opening of the new vestry, which takes place on Friday evening next. The vestry has about \$10,000, and is a valuable addition to the church. The adjusters of the insurance on the Washington house have fixed on the sum of \$1,500. Don J. H. was arrested for stealing an overcoat and given his option of \$5 and costs or twenty days in the county jail.

Owatonna Items.

The Messrs. Schutte who live on the Frebourn county line were in this city yesterday, asking for information about a horse stolen from a Dane in their neighborhood who was working for them. No traces can be found. It is a mystery, as the horse and buggy were leaving a trace. It is considered that horse thieves have organized rendezvous. There, during night stages they run them off to the west or into the mountains. A horse there would do good service now in ferreting out the whereabouts of the abductors. Mrs. Mary G. Merser of this city, who is teaching school at Mendota, is giving good satisfaction. The jury in the case of Peter Christianson, for assault, found him not guilty.

Winona.

C. H. Wagner was brought before the municipal court charging with keeping open bars after 11 o'clock in the evening. He pleaded guilty and was fined \$30 and costs. City Marshal L. K. Eastey was presented with a handsome robe on Wednesday evening by the ladies of the city. The city is prospering in the way which the officers expressed their regard to Mr. Eastey was not undervaluing to the officials. It is considered that an arrangement for its annual reunion, which will take place at Armory hall on Dec. 28.

AMONG THE DAKOTANS

Barney Caulfield Looms Up Prominently as a Candidate for Gov. Gil Pierce's Shoes.

Judge Seward Smith Rushes Into the Race for a Senatorship in the South State.

A Minister Killed by a Falling Chimney—The Good Templars—A Suicide.

Matters of General Interest Pertaining to the Great Territory.

Barney Caulfield's Boom.

SPECIAL TO THE GLOBE. WASHINGTON, Dec. 10.—Since the departure of Messrs. Day and Ziebach, Smith and McCarty declare that Barney Caulfield is to be Dakota's governor, and that trouble about concentrating on him the stores has been due to Boynton's demand for Martin Sheep.

New Senatorial Candidate.

SPECIAL TO THE GLOBE. HURON, Dak., Dec. 10.—Surprise is manifested here to-night by the announcement that Judge Seward Smith is a candidate for United States senator. He arrived here from Des Moines on the noon train, and will enter the contest against Campbell, Moody and Edgerton with good backing. For a number of years Smith was prominent in Iowa politics, and thoroughly understands the management of a canvass in his own behalf. His fitness for the position cannot be denied, and if he does not win, will give his fellows a close race. Members of the legislature are beginning to arrive. Hugh J. Campbell, chairman of the joint executive committee, with Fisher, Reed and Cain, are maturing arrangements for the meeting on Monday. Many visitors will also be there.

Made a Failure of It.

SPECIAL TO THE GLOBE. SALEM, Dak., Dec. 10.—Yesterday morning Mrs. Charles Nopens, wife of the landlord of the Salem house, attempted to commit suicide by swallowing a quantity of arsenic. Her plans were frustrated by Dr. Kendall, who administered an emetic. The cause of her attempt to destroy her life is not known, as she will give no reason at present.

Dakota Real Estate Exchange.

SPECIAL TO THE GLOBE. HURON, Dak., Dec. 10.—A Dakota real estate exchange was organized here today, with W. T. Love, attorney of the Dakota Central railway, and N. H. Morrill, land agent of the same road, managers. They have in view the securing of settlers and capital for lands in this locality.

A Minister Killed.

SPECIAL TO THE GLOBE. YANKTON, Dak., Dec. 10.—Rev. John Blinquet, pastor of the Lutheran church at Menno, was killed Tuesday by a falling chimney.

Dakota Good Templars.

SPECIAL TO THE GLOBE. WOONSOCKET, Dak., Dec. 10.—To-day's session of the grand lodge of Good Templars was full of interest. More delegates arrived. Fifty are in attendance. Theo. Kanous was elected grand chief temple; J. T. Keane, grand counselor; Woonsocket; Mrs. B. Barnes, G. V. T. Ordway; A. C. Folsom, G. S. Dell Rapids; E. E. Belymer, G. F. Highmore; Mrs. A. C. Stowe, superintendent. The committee to publish an official organ the ensuing year, Aberdeen was selected as the place for the session Dec. 9, 1888. The lodge adjourned to-night.

ON THE BOOM.

Ipswich a Place for the Capitalist and the Immigrant.

IPSWICH, Dak., Dec. 10.—Ipswich is a busy, growing town in Dakota, the county seat of Edmunds county. It was platted in October, 1888, has had a steady growth since its birth, and to-day contains about 1,000 inhabitants. Ipswich has the largest trade territory of any town in that territory, being the distributing point for Edmunds, Faulk, McPherson, McIntosh, Campbell, Walworth, and portions of Edmunds and Potter counties, for a distance of 100 miles in each direction. Supplies are furnished these counties entirely from Ipswich. Being a distributing point for wheat, corn, and other products, the price paid is from 3 to 5 cents higher than at other towns on the Chicago, Milwaukee & St. Paul, west of Minneapolis, making it advantageous for farmers in selling as well as buying. The city is highly favored as a place of residence, and for business prospects. It is situated on a level plat of ground sufficiently elevated to be healthy. The country around is unsurpassed for its beauty and fertility and furnished in all directions the most charming views. With well regulated schools, churches, social, literary and benevolent societies, good hotel accommodations, and a salubrious climate, and LARGE RESOURCES awaiting only to be developed, what more can be required to make it an inviting place for the capitalist, the settler or the general home-seeker? The soil in this locality is of a rich, black loam, with a light tincture of sand, making a warm and yet substantial soil. Water is found at a depth of from ten to fifty feet and is equal to any in the United States. Ipswich has an artesian well which furnishes a water supply for the city and fire protection. Seventy per cent. of all the valuable lands in Dakota are open for settlement are reached via Ipswich, the nearest railroad point and the only railroad station south of the Northern Pacific railroad, near which homesteads, pre-emptions and tree claims can be obtained from the government. What, then, is considered a route nearly all of the valuable government lands open for settlement are only to be reached by way of Ipswich, it becomes evident that Ipswich will boom as no other Dakota town has before, when emigration commences its westward course in the early spring.

Steele County Muss.

There are peculiarities in the official and political situation at Steele, the county seat of Kiddier county, and if the high muckers are all strictly veracious one of the newer territorial institutions at Bismarck should have met with a similar fate. It is considered that the coroner lately had some papers to serve upon Sheriff Smith, and the latter trying to dodge him locked himself into the jail. The coroner discovered the fact and also discovered that the coal dump was not locked or barricaded, and being a small man, he could squeeze through, which he did, and found the sheriff secreted in a cell. He got service on him. It does not follow that the sheriff is a bad man.

Canal From Big Stone to Traverse.

There is a good deal of interest felt in the proposition to dig a canal across the peninsula dividing Lakes Big Stone and Traverse, with the improvement of the navigation of the Big Stone river, extending a route from Big Stone to Huron bay. The towns along the route will probably bring a strong pressure to bear upon congress to appropriate a liberal sum for the purpose. It is hardly expected that the full amount of the estimated cost, \$200,000, will be obtained.

Hawks' Danger.

If Stephens, who was shot by the sheriff of Cavalier county, had been a man, as there is little doubt he will, it will probably go hard with the sheriff, as the evidence all agrees that it was an unwarranted shooting. The fact that it was the second shot does not support Hanson's view that it was accidental. The trial will be held in Pembina county and attract much interest.

Brainerd.

Dr. D. P. Bigger leaves in a day or two for Chicago, to be operated upon for an old tumor.

ble resulting from an injury received while in the army. The new officers of the Crow Wing County Agricultural society are as follows: J. J. Howe, president; Elijah Adams, secretary; H. H. Hest, secretary; H. J. Spencer, treasurer. H. Hon. C. F. Kindred has gone to Washington city to look after the interests of the dam company. The Hartley tract and tract together with the Hartley farm, were sold under a foreclosed mortgage to the mortgagees, Messrs. H. G. Harrison & Co. of Minneapolis, for \$24,487. The balance of \$10,000, were placed with S. A. Keen & Co. of Chicago at 6 per cent., they paying a premium of \$9,000. Jesse Kindred, who had a paralytic stroke a few days ago, died from a paralytic stroke a few days ago. St. Paul's Guild met, with Mrs. C. M. Shaw, on Thursday afternoon. Brainerd Chamber of Commerce banqueted the Villars on Monday night, after conferring the R. A. M. degree upon Dr. H. Ribbel, F. D. Stanley and George Royal. The annual election of officers was held on Tuesday evening. Among the new officers are J. E. Wilson, H. P.; George Forsythe, king, and C. J. Wilson, scribe.

Woonsocket.

A dancing club has been organized. The fetes will take place in the court house hall. With the appointment of Bartlett Tripp to the chief justice the question of a new clerk of the district court for this county is being agitated. Several candidates are mentioned, but the majority have not selected. On Tuesday evening Badger lodge, I. O. O. F., gave a reception in their hall in honor of delegates to the grand lodge. The grand lodge has fallen through the gentlemen receiving superior inducements elsewhere. Woonsocket's roller mills are being built. A much larger number will be necessary more seating room for pupils. The James Tapley general merchandise stock is in the hands of the sheriff, having been attached by Eastern creditors.

Fargo Fancies.

Most of the cargo attended the banquet of the Y. M. C. A. of this county, and report that they did not see a drop of liquor. They did not dance, however. It is believed the fair grounds and a tract adjoining can be secured for the Congregational college, with a handsome sum of money. The Biller have their dance Dec. 16. It is one of the most recherche and to the social gatherings, and the dress parade is always gorgeous. The city reports a cold, and the weather is not so good as in former years. The merchants are all preparing for a booming holiday trade. The municipal authorities have instructed the police to employ only those of incorrigible virtue must be employed. Especially are those who have lived under the bill extended to Washington to explain the land laws to Commissioner Sparks. Rev. Mr. Beard is said to be the champion of the city at chess, and look far behind with the gun.

Mandan Mention.

The Y. M. C. A. of Mandan, a well known association will give a ball at the Inter-Ocean hotel on New Year's eve. A ball will be given by the trustees of the Emerson institute on New Year's eve for the benefit of the institute. The proceeds of the ball will be used to purchase a new stove for the school. The Stark avenue roller rink will give a ball on Christmas eve. The soldiers at Fort Lincoln will give a ball at People's hall in Mandan, on the evening of the 17th inst.

DAKOTA DOTTLETS.

News Notes of All Sorts From the Land of No. 1 Hard.

One of the leading politicians in the North, who has been active in the general conventions, in a recent interview, states that he opposes division chiefly because he enjoys association with the men of the South, and that he is a man of the South. He does not believe there is the least ill feeling anywhere in the North toward the other section, and he wishes warm friendship between the two sections. He is in favor of division, in his view, is in the largeness of area, and that he believes will intensify the feeling between the two sections. The coal reported found north of Campbell county proves to be so far as developed only for a few miles. It is probably that good coal may be found in the territory in paying veins, but so far they have been like the milkweed in the heart of the states. In West Dakota there is no doubt an abundance of lignite, but it requires familiarity and local pride to appreciate it.

The anti-division papers are generally very censorious of Lauren Dunlap, the commissioner of the land office. They insist that it is not the object for which the land was created. It is conceded, however, that his map of the territory is a neat and consistent thing.

An effort is being made by prominent citizens of Fargo to secure the location of the next territorial fair at that place. If it is open to competition Fargo will be likely to outbid other towns for it, as it did with the encampment. As it was held in the South last year it might be given to it to the North this time.

N. G. Myers, after a visit to Dakota, has gone back to try to sell his large farm in Central Illinois and to the territory to live. He is both a farmer and a trader, and he likes Dakota climate. That is one of the strong points in favor of the territory, its climate is remarkably healthy.

One of the best devices that is popular at the church societies is the wristler. The gals buy a wristler, and then search for its mate on the wrist of one of the fair ones.

The committee from Aberdeen that went to St. Paul to interview the syndicate that owns the James River Valley railroad in regard to propositions to extend the line to their city, returned yesterday with their list, and are encouraged to work for the extension.

A ship containing a lot of blooded stock for farmers in Hughes county, sailed from England for the coast of America, but was wrecked but reached Baltimore last week, and the cargo will soon arrive in Dakota.

Col. Woods, the founder of the museum building in Dakota, is so popular in Chicago before the great fire, is arranging to open a theater at Deadwood. It is believed he will strike a good thing there.

The office of the land office was in Fargo this week, and claimed that he knew nothing of Gen. Harris of Mississippi being appointed in his place, and was not displeased to see him go.

The amount paid out for wheat and flax at Plankinton this summer is said to exceed \$175,000. That place could hardly help being prosperous with such a productive country about it.

A little daughter of D. F. Brown, at Redfield, one day recently got hold of a bottle of carbolic acid, and drank some of it, causing her death in a few hours after intense suffering.

The editor of the Estelline Bell is enthusiastic over his experience in crossing the state by rail. He says the cross is superior both for milk and meat.

The sheriff of Brown county has been to Wisconsin and captured B. M. Anderson, who was arrested by the sheriff of Brown county, and left his bondsman to pay the money.

It is reported that the Democracy in the Huron legislature will vote as a unit for Judge Edgerton for United States senator, although he is a Republican.

MINNEAPOLIS REAL ESTATE.

YESTERDAY'S TRANSACTIONS.

Deeds were yesterday filed with the register of deeds as follows:

Lts 29 and 30, blk 1, Saunders' Park add; J. L. Clark to Rozannah Willey, \$1,000

Lt 5, blk 2, Remington's add; L. A. Dunn to Nancy Gruff, \$1,000

Lts 1 to 8, Gorton's supp to Monroe St add; H. W. Gorton to Leander Gorton, 1,000

Lt 5, blk 3, Ra. d's add; C. F. Frenner to Carl C. Wilson, \$2,000

Part of government lot 4, 5 and 6, sec 20, town 117, range 23; C. W. Griggs et al to C. A. Winslow, \$1,000

Part of sec 10, T. 117, R. 23, S. 23, to C. W. Griggs et al, \$1,000

Part of 18, blk 142, Minneapolis; Chas. H. Hest to J. H. Hest, \$4,000

Lts 23 and 24, blk 2, Home add; Chas. Peterson to J. E. Stevens, Jr. et al., 4,000

Lts 1 and 2, blk 2, Lyndale Avenue add; C. W. Griggs to J. H. Hest, 4,500

Lts 1 and 2, rear of 1st 8 and 9, blk 31, Highland Park add; J. W. Cochran to Harry S. Sawbridge, \$9,000

Lts 4 and 5, blk 1, 1st 8 and 9, blk 31, Carson's add; S. H. Baxter to W. H. Baxter, \$4,800

Lt 1, blk 1, 1st 8 and 9, blk 31, Carter to F. C. Hartman, \$2,500

Lts 5, 7, 111, 112, 138 and 137, in Spring Park, Lake Minnetonka; C. W. Griggs to J. H. Hest, \$1,750

Thirteen miscellaneous deeds, the considerations of which are less than \$1,000, \$69

Total number of deeds, 28, \$54,197

OUR FIRE PROTECTION.

A Comprehensive Review of the Work Done by the Fire Department the Past Year.

Losses Much Less Than Last Year, and Millions of Dollars' Worth of Property Saved.

Some of the Improvements in the Department Have Been Made Since Jan. 1, 1885.

In a little more than three weeks Chief Black will be out with an official annual report of the fire department. The GLOBE this morning places before its readers a brief and comprehensive review of the work done by the department from Jan. 1, 1885, to Dec. 1. The department has now been brought up to such a degree of perfection that the citizens of St. Paul may well point to it with pride and defy any other city of the same size in the United States to excel it. The amount of property saved from the flames by the prompt action of the department is not easily computed, but it surely runs up into the millions. As the facilities for fire protection have increased the damage caused by this stubborn element has grown correspondingly less, and a careful computation shows the losses to be \$322,150 less this year than they were last. Below is given a table showing each month, with its losses and the amount of insurance: January.....Loss, \$14,220 Insur'd \$14,220 February....." 11,050 " 11,050 March....." 7,290 " 7,290 April....." 12,443 " 12,443 May....." 4,420 " 4,420 June....." 7,320 " 7,320 July....." 2,340 " 2,340 August....." 4,350 " 4,350 September....." 11,050 " 11,050 October....." 5,640 " 5,640 November....." 2,195 " 2,195 Total.....\$121,854 \$385,703

THE DEPARTMENT.

The fire department to-day consists of 125 men, exclusive of the fire-alarm system, which is an auxiliary to the department and in which are five men, making 130 men in all. The officers are: Chief, J. H. Kelleher; John Jackson, assistant chief; M. F. Kelleher, acting assistant chief; and J. R. Jenkins, superintendent of fire alarm. There are now 8 engine companies, 2 truck companies and 5 chemical. The department has 83 horses, 22,000 feet of hose, 80 alarm boxes and 45 hydrants, and 1 Hayes truck, with an eighty-five-foot extension ladder. During the past eleven months 249 runs have been made, and in seven cases there has been no work. For losses under the circumstances the department cannot be held responsible. It may be of interest to the general reader to know the most common cause of these fires, and by careful search among the records the following were discovered: Unknown.....21 Chimneys.....35 Carelessness.....35 Spontaneous combustion.....15 False alarms.....15 Stovepipes.....12 Spontaneous combustion.....15 Miscellaneous causes.....16 Total.....249

THE FIRES AT WHICH WATER WAS UNOBTAINABLE generally occurred in the outskirt of the city, towards which the water mains are now aiming, and many of these same localities will probably be supplied before this time next year. The strictest discipline is maintained in the department, and no man is allowed to be held in the line a day throughout the year. The chief has offered an incentive to his men to do effective work by promoting members of the department for meritorious work. At No. 5 engine house a hospital has been established for the care of the fire department horses, which are taken there as soon as they show the slightest signs of indisposition. All the houses have been supplied with brass sliding-poles and telephones
