Provisions opened at yesterday's prices, the bulk of sales being made at that, but at the close they were higher. All hog products were firmer, with a fairly active trade in the whole list. It is generally thought that the bulk of the winter's run of hogs is already marketed and any serious depression in products is not very likely to occur from excessive receipts. Pork closed at 20c soon in products is not very fixely to deem from excessive receipts. \$6.27½ for March. Ribs advanced 7½@ | tified with the bull side of the market were absent from the stock exchange, and the opportunity was seized by the bears to again raid values. Selling orders poured in from the opening, and about the only things presenting a solid front against the bear furor were the Vanderbilt stocks, St. Paul, Western Union and Lackawanna. The raid on Texas Pacific and Kansas & Texas was resumed. It was rumored that Gould had been the leading factor in the bear attack on Kansas & Texas. Rumors were again circulated alleging trouble between Gould and his old broker. Conner. but Mr. Gould peremptorily denied all statements to that effect. There was more talk about Texas Pacific going into the hands of a receiver and the stock sold down 1½ points. It was stated, however, that the physical condition of the Texas Pacific

NO WORSE THAN FOR MONTHS. and that the traffic outlook was much better than ever before in the history of the road. The inference from this was that the obto get hold of the stock. Northwestern dropped on an increase of only \$1,600 in earnings during the first week of December.

The sales to noon were 323,705 shares. Late in the day the entire market strengthened on covering by shorts, most of the active stocks being advanced about a point. Rock Island was put up early in the day on a rumor that this company would declare an extra dividend during the coming year. Officials of the road, however, denied that there was any probability of such as a report. there was any probability of such an event. It was given out toward the close that Gould was supporting his Southwestern stock, and the market in these fancies recorded a fractional rally.

The general railway bond list was quiet, but there was active trading in a few of the speculative issues. The total sales were 3,218,000. Texus Pacific firsts, Rio Grande division, coupon off, contributed \$678,000 of this and closed unchanged. Brie seconds, with scales \$423,000, are down 3%. The bears continued to retain control of the the stock market this morning and the first prices were generally from 3% to and the first prices were generally from % to % lower than the closing figures last evening, with exceptional declines for greater amounts. The business of the first hour was very active and during the first thour was very active and during the first thirty minutes there was a further decline of fractions for the general list and over 1 per cent. In a few instances; During this time the lowest prices of the day were generally reached. A rally before 11 o'clock was followed by another effort to depress quotations, which was successful only to a limited extent, and from that time, with only moderate reactions, the market moved slowly but persistently upward, reaching the highest prices late in the afternoon and closing generally within ½ to ½ of the best figures of the day. The bear points in regard to Texas Pacific and other Southwestern securities were widely circulated this afternoon, leading to a decline in Texas Pacific of nearly 2 points and in Missouri, Kansas & Texas of 1½ per cent. The tother net gains are for fractional amounts, and the exceptions to the advance among the active stocks were Missouri, Kansas & Texas, which shows a net loss of ¾, Texas & Pacific, 1½, and Louisville & Nashville and Northern Pacific preferred, each 1. Special to the Glob the discount lines close up to the desired standard, and while the supply of funds is ample for the requirements of borrowers, rates are firm at 5@6 per cent. for call and 6@7 on time paper. The calls from outside points continue to increase as stocks of grain and provisions accumulate, and the outlook for more than average lines of discounts at the close of the year is promising. It is also thought that the demand from country corn dealers will increase as soon as the new crop is sufficiently cured to render it safe to crib. The market opened a little firmer yester-day, and a part of the time during the first part of the session bidding was quite free and somewhat higher for cash hard wheat, but somewhat higher for eash hard wheat, but for the lower grades there was no improvement over yesterday's prices. CHICAGO, Dec. 11.—The catte market was again dull, with the supply much larger than the demand. With the fresh arrivals, which were estimated at 7,000 head, there were at were estimated at 7,000 head, there were at least 11,000 on sale, some 4,000 having been left in the pens unsold at the close last night and the chances were that 3,000 to 4,000 would have to be carried over to-night, unless sold at extremely low prices. The ordinary run of fat cattle are 40650c per 100 lower than a week ago. A few loads of prime holiday steers are selling at fancy prices. Such are no guide whatever, and cut no figure in the regular trade. Estimated receipts of hogs are 35,000. The market is active and a shade higher.
