Faribault Facts. Special to the Globe.

FARIBAULT, March 9.--At the meeting of the common council last night electric light franchise was granted to Charles T. Leonard and his associates. The franchise, provided they shall put the same in full operation within a period of ninety days. It looks as if this was a clear case of freeze-out on the part of these Minneapolis capitalists who own C. W. Merrain, an electrician of this city. The facts of the case are as follows: In December last Leonard and Dennis sent Mr. Merrain and agreed to build a power plant on the Merrain stock and a bonus of \$100 if he would place an electric light plant in Faribault. On Feb. 15, 1886, Leonard and Dennis came to town and if that if Merrain stated the plant in operation they would organize a stock company forthwith and issue to him to the value of \$1,000 in stock, and also give him a bonus of \$100, and to give him steady employment at \$100 per month. They have not fulfilled any part of the contract, but have proceeded to franchise and to force him out of town. Merrain knew nothing of their operations in this direction until he heard the ordinance read at the council meeting last night. On Jan. 5, Merrain brought the machinery went at once to work, put it in running order, strung the wires and started ten lamps. He has since advanced and kept them all running up to this time. Indignation is freely expressed at the action taken by certain members of the council in this matter...
