THE INJUSTICE OF LAW.

Decision by Judge Nelson in a Peculiar Case.

A decision by Judge Nelson was filed yesterday in the case of Guy J. De France, Irena De France and Charles F. Taber vs. Amanda Maria Johnson. The case is a curious one. Amanda Johnson was married to Augustus Johnson in March, 1855, St. Albans, Vt., and lived with him until, 1855, having two children, when he left her to seek a home in the West, promising to return for her. They corresponded until 1859, after which she did not hear from him direct, until his death in 1881, but learned that he was living with another woman. Irena was married to Johnson in October, 1855, and lived with him, supposing herself to be his lawful wife until his death in 1881, bearing to him eleven children. After Johnson's death Amanda laid claim to his mestead, which had been largely procured by the earnings of Irena, and brought suit of ejectment. The present suit was for an injunction to restrain further ejectment proceedings. The homestead is near Fairbault. The judge concludes that Johnson and Irena were unable to contract marriage, and the second marriage is void absolutely and not voidable. Further, "The statutes of Minnesota gave no validity to the claim of Irena although she was ignorant of a former living. She is subject to the harsh rule which declares a record marriage pro facto void and denies to her any right in Johnson's estate." The judge decides that a mortgage given by Irena and her record husband, Dr. France, to off a former mortgage given by her and Johnson, is a prior lien to Amanda's, because the latter allowed her husband, knowingly, to live with his second wife, and innocent parties who loaned the money could not be made to suffer. The amount of Amanda's claim was computed and Irena given an opportunity to pay and retain the homestead.

THE BULL DOG KELLY CASE.

An Unofficial Statement That He Will Be Discharged.

Thomas Ryan, attorney for Bull Dog Kelly, who has been in Washington for the past few days, telegraphed his partner, W. W. Irwin, yesterday that the warrant for extradition was refused and that he should leave last evening for home. The report was the subject of conversation with those who have been interested in the case. No confirmation of the report could be obtained, but it was thought Mr. Ryan would not have telegraphed unless he had learned the decision. Commissioner Spencer heard nothing about the case and did not expect to. In talking over the case he remarked that there was ten times as much evidence against Kelly as that upon which men were held for murder here every day, and smilingly said that there was probably more evidence than law in the case but he would refuse to issue another warrant in the case. Nothing had been heard at the United States marshal's office, the place the official notification will be sent. Sheriff McNeil of British Columbia was interviewed last evening and said he did not know whether the case would be dropped but he had telegraphed to British Columbia to ascertain whether it would be carried any further or abandoned. Mr. McNeil objected to being called an "official bloodhound," as he was designated by the extradition paper, but said the officers at his home had acted the blood-hound for Americans who went to British Columbia to extradite parties. He thought there was something in the case besides law which might come out sometime. There was plenty of evidence against Kelly that had not been produced, but the authorities of British Columbia had only sent down what they deemed enough to hold him. Mr. McNeil said if the case was ever carried any further there would be an array of witnesses and evidence which would surprise every body, as there were plenty of witnesses who had not been brought forward. He thought the present decision at Washington was decidedly prompt as it took six weeks before, and as one is probably been waiting for the argument for the prosecution reached Washington.

PASSING THROUGH THE CITY.

Visitors at the Hotels Who Have Views on Current Affairs.

Col. J. D. Benton, Fargo, was an arrival at the hotels yesterday. He said that Fargo was in a very flourishing condition and its residents expected a continuation of the improvements during the coming summer and fall season. He said that the Fargo Argus was not seriously crippled by the late fire, but the management contemplated the speedy construction of a new building. The early spring, he said, had enabled the farmers in the vicinity of Fargo to push the seeding much earlier than usual, and as a result much of the preliminary farm work was at an end. He remained in the city but a short time and left for home last night.

W. H. Robinson, Mayville, Dak., passed through on his way to Chicago. Although making Mayville his headquarters and home, his business is scattered over a large portion of the territory and he has several elevators in twenty different towns bear his name. His business as a whole is quite extensive and runs up into the thousands every twelve months. His visit to Chicago is for the purpose of buying a goodly portion of the lumber to be used at this stage of the year. He is one of the few Dakota residents who wears a silk tie.

Col. Guy Wells, Duluth, was visible about the hotel corridors. He is a great admirer of Duluth and firmly believes that it will speedily develop into a great city. He is a resident of Keokuk, Ia., where he settled in 1859, and where he was extensively interested in railroad and other enterprises that made the "gate-city" of Iowa a promising point before the war. He gave up his old home and friends and started for Duluth a few years ago. He is financially interested in many enterprises in and about Duluth and expects to see a second town grow from a village to a city.

Hon. George P. Wilson, Fargo, came down during the day and met many old friends and acquaintances. He is a practicing attorney at Fargo and is regarded as one of the best read lawyers in the territory. His practice is quite extensive. Years ago Mr. Wilson was a resident of Minnesota. From the year 1874 to 1880 he served as Minnesota's attorney general. He is a Republican.

R. C. Judson, Farmington, registered at the Ryan. He signed his name as if he was tired of the manual labor attached to it. As secretary of the State Agricultural society he has written his signature many times during the past few years, hence his apparent business. He is interested at the present time in the formation of a Gentlemen's Driving club in this and other cities throughout the state and has called a meeting of those interested in such a move at the Ryan Monday afternoon.

E. W. Durant of Stillwater, who represents his district in the lower house of the state legislature, was in the city yesterday and, as usual, endangered the sides of his friends with comical stories. He is an old friend of Capt. Hayes, steamboat inspector, and was busy planning a vacation trip with that gentleman during the afternoon. They propose to make a trip in the upper St. Croix and the tributary creeks with appro-

nonceable Indian names, in a wamegan, a sort of log boat used by lumbermen. Mr. Durant is to act as engineer, provided he can pass examination before Capt. Hayes. If he fails through in the examination Capt. Hayes will probably engineer the job himself, as well as inspect the boiler. The two are old cronies, and if they can't put up some kind of a job to get fun out of it, then the boiler is not properly inspected before they begin.

STREET SAYINGS.

Municipal Clerk Ahern was dispensing a brand of cigars yesterday which a manufacturing friend named "Slim Jim" in his honor. The term was tacked upon the suave clerk when he was pitcher of the old St. Paul ball club, and has since stuck.

"Is this a meeting of the Law and Order league?" asked a reporter as he stuck his nose into City Attorney Murray's office in search of news and found the attorney and President Barrett of the board of public works in close conversation. "Yes," quickly replied Murray, "I'm the law and Barrett is the order part of the league—I dispense law to the city and he orders the board of public works." The attorney's little joke will be appreciated by those who are posted.

"When John Patterson was health inspector," said a gentleman yesterday, "some one made complaint that a nuisance was maintained on certain premises. John was sent to the place and seeing an old sign on the house reading 'John Brown,' he swore out a warrant in that name. An officer was ordered to serve it and have Brown in court next morning. Patterson approached the officer in the court room and asked if he had secured Brown. 'No,' said the bluecoat. 'Why in h—l didn't you bring him?' demanded John. 'He's out of my reach,' replied the cop. 'Out of your reach?' contemptuously roared John, 'go and bring him in to court with.' 'I can't,' said the officer plaintively, 'he's been dead two years.' John wilted and set up the cabbageers to the crowd."

SUMMIT AVENUE LOOKOUT.

Who Are the Proper Ones to Pay for the Proposed Park?

I noticed in your paper this morning that a number of gentlemen residing on Summit avenue, in the vicinity of the Carpenter's lookout, met before the board of public works last night for the purpose of urging the condemnation of the lookout grounds for a park. These gentlemen were all enthusiastically favorable to the "improvement," and expressed themselves in one accord as being willing to stand their share of the cost, whatever it might be. It cropped out at the meeting that these gentlemen expect that the assessment for this "improvement" shall be spread all over Woodland Park addition, which would be a very nice scheme indeed. The talk of condemning this property at a cost of \$20,000 or \$25,000 for "park" purposes is simply ridiculous. Why don't they call it by its right name and say it is for the purpose of building a sewer, which they call "improvement"? These gentlemen, who have nice houses in that vicinity, want to get rid of that nuisance, and I don't blame them. They are abundantly able to buy that little piece of ground and dedicate it to the city, which they should be willing to do. But when they undertake to get it under the guise of a "park," and expect the residents on other streets, who are in no wise interested, to help them pay for it, they will run against a snag of no small proportions.

When the property owners on Portland avenue purchased by condemnation the triangular piece of ground at the junction of Portland and Summit avenues, and dedicated the same for a park, they did not ask the property owners all over Woodland park to help them pay for it, but went down into their own pockets to the extent of \$50 per lot. Now, why can't these Summit avenue millionaires be a little bit generous and buy this ground, or have it condemned if need be, and say to the board "We will foot the bill." There is not a man, so far as I can learn, off of the line of Summit avenue who is asking for this condemnation, or who is willing to be assessed 1 cent to pay for it. I cannot understand how the board can consider this a necessary improvement. It may be desirable but it is unnecessary.

Preparing to Parade.

The Old Fellows of St. Paul, numbering now nearly 1,000 members, are quite busily engaged in completing arrangements for joining the grand parade of the order at Minneapolis on April 26, the anniversary of Old Fellowship in the United States. They thought that the members will go up to that city on the day named. The regalia are being purchased, banners and decorations prepared, and the "busy note of preparation" sounded all along the line. The members of St. Paul will assemble Monday at 9 o'clock at a m., at Odd Fellows' hall, parade through the city streets in command of Col. W. S. Shank, and take a train at the union depot at 10 o'clock for Minneapolis, where the state parade commences at 1 o'clock. This will be followed by a dinner at the West hotel, and in the afternoon there will be a dress and music at the rink, and a grand ball at night. The "Patriarchs Militant," the new uniformed degree, are putting forth earnest exertions to make a creditable display.

For a Press Club.

A call for a meeting of newspaper men at the Merchants hotel at 4 o'clock this afternoon to discuss the advisability of forming a press club has been in circulation two days and bears thirty-four names. It is believed that about every newspaper man in the city, some of whom the paper has not reached for lack of time on the part of the circulator, are favorable to the organization of a club. The meeting will canvass the question thoroughly, and there is little doubt that an organization will be perfected. An invitation is extended to the editors and reporters of all papers in the city to attend, as the meeting is of importance. Those present will be the guests of Ehle Allen, who has courteously extended the members of the press an invitation to make themselves at home at the Merchants.

Some Bad Boys Arrested.

Officer Hayes yesterday arrested five precious youths, who called each other by such high-sounding titles as "Indianapolis Kid," "Kansas Tough," etc. At the station they gave the names of William Rice, Walter Winifred, James Downey, Frank McKinley and James Callahan. They broke into a laundry on Klitson street and had on the shirts taken from the place when arrested. They were in jail in Milwaukee before coming here, and are considered by the police as a bad lot.

In Separate Coffins.

Dr. Ancker said yesterday that he had learned that the medical college of this city had never made requisites for two bodies and both of them were got at the undertaking establishment. An extra box or coffin was sent to the cemetery yesterday and the bodies of Stewart and Olson were buried in separate graves. The health officer refers to the books found that he had issued two permits March

18, one for H. W. Stewart and the other for Gustava Olson. When the bodies were taken to the cemetery in one box only one of these permits was used.

The Exposition Pops.

The testimony of the Eastern press concerning the Lillie Lehmann troupe can be depended upon, the last Philharmonic popular will be the most brilliant of the series or of the season. The troupe is creating a sensation wherever it appears. The concert will occur on the first Tuesday after Easter at the Leland rink. Lillie Lehmann is one of the first opera artists in Europe, as are Rummel, pianist, and Musin, instrumentalist, who will assist her. The concert will occur on the Tuesday after Easter, April 27.

A Sixth Ward Candidate.

Another candidate for aldermanic honors has come to light in the Sixth ward in the person of Frank A. Gies, who announces that he is in the field to stay. He is a Democrat, 27 years old, and has always lived in St. Paul. His family is well known and it is said that he has a considerable backing, who will work to secure for him the nomination.
