Her Father Handy With Firearms. Special to the Globe. BAYFIELD, Wis., May 12.—A great sensation was caused here last night by Joseph Boutin attempting to kill Henry Conlin by shooting. Boutin is one of the oldest residents and is a brother of Postmaster Boutin. Boutin forbade his daughter Louisa going with Conlin and desired her to marry a young Frenchman named Alie. She loved Conlin and left home going to her aunt's by appointment. Conlin visited her last night. When he had been there about an hour Boutin put in an appearance and commenced blazing away with a .32-caliber self-cocking Smith & Wesson. Three shots were fired before Conlin succeeded in securing the pistol. Only one of the shots took effect, the ball entering his leg. Boutin was arrested on the charge of assault with intent to kill, but is on out on bail. He threatened to not allow Conlin to get out of town alive. DULUTH, May 12.—The removal of Howes & Davis' roller mill from Brainerd to Duluth is now an assured fact. The plant will be brought to Duluth immediately, and the capacity of the mill will be increased to 500 barrels per day, and the plans are such that they can double its capacity if found necessary. The mill will be placed at the end of Slip No. 2 and will be in running order in a few days. The company that will run it is preparing articles of incorporation, and its stockholders are about twenty to thirty of Duluth's most prominent business men, among whom might be mentioned the following: J. CONGRESSMAN DINGLEY'S OPINION OF THE CASE. Special to the Globe.

WASHINGTON, May 13.—Congressman Dingley publishes a letter on the fisheries question this morning in which he says: There is no law in Nova Scotia or any other province of Canada forbidding the sale of bait. The law is, however, enacted in 1868, which prohibits an American vessel from entering a Canadian harbor for any other purpose except shelter, repairs, purchase of food and obtaining of water. A proclamation of the Dominion minister of marine, dated March 18, 1886, declares that on and after that date this act shall be enforced, and it is under this act that the Dominion authorities have seized the American fishing schooner, D. J. Adams for entering the harbor of Digby, N. S., and purchasing bait. The object of the law and its enforcement is to prevent American fishing vessels from buying fresh bait in Dominion ports, not to be used in Canadian waters, but to be used in the waters of the Dominion. The law is intended to protect the Dominion privilege of selling bait in Canadian ports.

Hounded His Mother. Special to the Globe.

PORTLAND, Me., May 12.—All day Frank Berry, a young man of 23 who resides in Deering, was in this city and spent his time in going from saloon to saloon, drinking freely, going home at night wildly drunk. His parents have made every effort to restrain him from drink. As he hounded the house his mother said to him: "Frank, this is too bad. Do stop drinking." "Why in the name of God do you let me alone?" said Frank, at which his father tried to reason with his drunken son. The boy became absolutely frantic, and catching up an axe, he said: "D—n you, I'll settle this matter now," and he rushed upon the old people. He struck his mother twice, once on the shoulder and the second time hitting her a glancing blow on the head, splitting her scalp. The blood ran from the wound and the aged mother fell to the floor. The father then closed with his son, when Frank dropped the axe and struck him several times in the face with his fists. Berry went to the assistance of his wife, and Frank caught up the axe again, demolishing the furniture of the room, smashing windows and doors, and doing several hundred dollars' worth of damage. He was finally brought here, tied with ropes. Mrs. Berry will probably die. She was able to speak to-day, and insisted that "a good Sunday dinner be sent to poor old mother and father tonight. The blood under that dog that the old people will not appear again here."

A Four-Handed Fight. Special to the Globe.

WEST UNION, W. Va., May 12.—Newton Cox and Hen Gum, well-known young men of this county, quarreled at a protracted meeting some time since, and just as they were coming to blows were induced to stop by the pastor of the church. They were forced to a truce by the pastor, but an old farmer named Stewart came along, and ascertaining what the matter was, tried to persuade the men to stop fighting and accept of the pastor's mediation. Stewart took offense, and stated that he proposed to see that one or the other of the two men was whipped. One word led to another, until Stewart became enraged and threw a stone at the head of Hen Gum, who was hit above the ear, and he fell to the ground senseless. His skull was fractured, and he is not expected to live. Both young men were readily used up, and Meeks has left the country.

An Expert Horse Thief. Special to the Globe.

KENNEBEC, N. H., May 12.—Incarcerated in the Cheshire county jail at this point is one of the most notorious, skillful and audacious horse thieves that the country can furnish. Christopher Carter is said to be his name, but he has passed it in for such aliases as Albert Stone, James Taylor, and numerous others. He has served time in many houses of correction and prisons in New England, the Middle and Central States. Carter is a bold and daring thief, 45 years of age. He never designs to steal one horse; he draws the line at two. It is always two horses he takes away from him, excepting when he steals a cartload of equines, when they are on the way to the States from Canada, as he has been known to do, but ordinarily he captures two and a vehicle, one horse being used to draw the cart, while the other is led. Carter is wanted for a number of thefts, and has the prospects of a long term of years behind the bars. He was captured in Barra, Mass., and will first be taken to Saticum, where he will face several charges there preferred against him.

Attempted Murder. RICHMOND, Va., May 12.—Information was received to-day of a dastardly attempt last night by a negro to murder the Rev. W. C. Hall, pastor of the First Mile Creek Baptist church in Henrico county, and his wife. It appears that Dr. Hall and wife had just retired for the night when some one knocked at the front door. Mr. Hall arose, and opening the door, found a heavy built negro on the front porch. He asked the man what he wanted, but, without replying, the negro assaulted Mr. Hall with a club, striking him on the head, and entered the chamber and attacked Mrs. Hall with a club, striking her several blows on the head. It is thought the negro's purpose was robbery, but he was frightened off by hearing the police on the way to the house. An alarm was given by a little grandchild, and the neighbors found the venerable couple insensible and in a critical condition. Dr. Hall is 72 years of age, and is disabled, he is apparently a negro, and is found, he may be summarily dealt with.

The archbishop announced that the decree had been affirmed by the vatican, and will be enforced all over the United States. The archbishop took occasion to severely denounce the practice of selling on Sunday, and said that it was a length on labor and capital, and an injury to the laboring classes.

THE LABOR PROBLEM. IMMIGRATION FALLING OFF. The Labor Troubles Keeping Europe Quiet at Home. Special to the Globe.

NEW YORK, May 12.—The landing of several loads of grimy looking, hard featured immigrants at Castle Garden yesterday drew forth many comments on the gradual change in the class of people who are now seeking America as a foster mother. Superintendent Jackson, who stood on the pier with a staff, said to the GLOBE correspondent: "It is surprising what an effect the labor troubles in this country are having on immigration here. The number of arrivals which arrived from Hamburg this morning was less than 200 souls. This time last year she carried over 1400."

Mr. Jackson said that if the labor troubles continue, immigration would probably be confined to anarchists, socialists and communists. The police at the pier, it is understood, are quietly ordered to watch the immigrants and ascertain in what numbers such persons are coming over, and keep an eye on their direction they inquire at the various steamship agents' offices revealed the fact that a large number of the laboring class are returning to Europe. This is particularly the case on German ships, which are returning to Europe. It is impossible to supply the demand for newly arrived labor, said Mr. Conolly, of the labor bureau at Castle Garden. Every day we are obliged to turn away hundreds of people who seek help for their farms, or for domestic.

THE BONES OF FIVE.

A Mysterious and Ghastly Find at Stinking Lake.

Judge Drake of Aberdeen Takes Upon Himself a Wife.

Whose Bones Are They? Special to the Globe.

WASHBURN, Dak., May 12.—While two men were out fishing at a lake called Stinking Lake, some twenty-five miles east of Washburn, they discovered the remains of five persons, who, from the appearance of their skulls, had been murdered and thrown into the lake, being tied down by ropes to stones. From the appearance of the bodies they must have been the remains of some one who had been in the lake some time, as the flesh had all cleared from the bones and the clothes were torn in threads. The coroner has been notified and will probably investigate the matter. The theory is that they are the remains of some horse thieves who were overtaken and killed by a party of cowboys from Henry county some two years ago. There was nothing by which the bodies could be identified. There has been no person missing in this section, and it remains a mystery.

Powderly's Circular. The General Master Workman Acknowledges its Authenticity. SCRANTON, Pa., May 12.—General Master Workman Powderly expressed great annoyance over the publication of his circular in the Standard, and in reply to the editor of this afternoon. In reply to the question as to whether the manifesto was genuine, he said: "It is genuine and is correct, except in one sentence, and the types have taken the emphasis out of that sentence and made it ridiculous. I am represented as saying, 'In the hands of men entirely more than the pen is mightier than the sword.' To do this is, in the hands of men entirely more than the pen is mightier than the sword, and I have said 'In the hands of men entirely more than the pen is mightier than the sword.'"

"Probably not directly, but some legislation is likely to be adopted for the speedy expulsion from the country of those who would advocate or uphold such lawless methods as those of the anarchists."

The police at the pier, it is understood, are quietly ordered to watch the immigrants and ascertain in what numbers such persons are coming over, and keep an eye on their direction they inquire at the various steamship agents' offices revealed the fact that a large number of the laboring class are returning to Europe. This is particularly the case on German ships, which are returning to Europe. It is impossible to supply the demand for newly arrived labor, said Mr. Conolly, of the labor bureau at Castle Garden. Every day we are obliged to turn away hundreds of people who seek help for their farms, or for domestic.

THE BONES OF FIVE.

A Mysterious and Ghastly Find at Stinking Lake.

Judge Drake of Aberdeen Takes Upon Himself a Wife.

Whose Bones Are They? Special to the Globe.

WASHBURN, Dak., May 12.—While two men were out fishing at a lake called Stinking Lake, some twenty-five miles east of Washburn, they discovered the remains of five persons, who, from the appearance of their skulls, had been murdered and thrown into the lake, being tied down by ropes to stones. From the appearance of the bodies they must have been the remains of some one who had been in the lake some time, as the flesh had all cleared from the bones and the clothes were torn in threads. The coroner has been notified and will probably investigate the matter. The theory is that they are the remains of some horse thieves who were overtaken and killed by a party of cowboys from Henry county some two years ago. There was nothing by which the bodies could be identified. There has been no person missing in this section, and it remains a mystery.

Judge Drake Married. Special to the Globe.

WARREN, Ill., May 12.—The following explains itself: DRAKE—BAIRD—At Warren, Ill., May 12, by the Rev. Mr. Knutson of Galena, Ill., Hon. J. H. Drake, editor of the Pioneer, Aberdeen, Dak., to Miss Lola M. Baird, daughter of Hon. J. P. Baird, late of the Wisconsin legislature. The wedding of Judge Drake was a very quiet affair, being attended by only a few of the most intimate friends. The bride is among the handsomest of the young ladies of Warren, and our citizens feel that the judge is to be congratulated on his matrimonial venture. After a honeymoon in Chicago and some of the Eastern cities the happy couple will return to Aberdeen, where the judge has a cage prepared for his "Baird."
