

A SWARM OF SINGERS.

Auspicious Opening of the Great National Sangerfest at Milwaukee—The Concert at Night.

Lovely Scores a Point in His Congressional Campaign by Capturing the Winona Primaries.

Destruction by Fire of the Opera House at Cedar Rapids, Iowa.

The Lake Benton Scandal—An Eau Claire Tailor Makes an Assignment.

The Great Saugerfest.

MILWAUKEE, July 21.—Delightful weather marked the opening day of the twenty-fourth fest of the North American Saugerfest. The city is full of strangers. It is estimated that between 11,000 and 12,000 people arrived from Chicago and St. Louis to-day. The hotels are crowded and to-night coals with sleeping visitors occupied all available space in the various hostleries.

Handsomely decorated with Chinese lanterns, arbor-vire wreaths and designs, and the flags of various nations. The principal decorations are on business streets, where they are bright and shop-owner views with his neighbor in making his shop attractive. Many of the saloons have built rustic arches from the logs to the outer edge of the sidewalk. At the breweries the decorations are notably elaborate. The chamber of commerce, the post-office and other public buildings are more or less adorned. From every flag in the city a flag flies, many foreign standards being displayed as well as the stars and stripes, thus giving the city a cosmopolitan aspect. A conspicuous feature of the festival decorations are the arches erected by the companies.

The Central Verdict.

It is that the largest of these, the cumbersome and expensive structure on Market square, with its insignificant final statue, is a failure, but the light and graceful arches of wood, set off with colored streamers and decorated with mottoes—such as the arch on Wisconsin street, near the club house, and that on Reed street, a short distance south of the union depot—are very pretty, and afford a pleasing contrast.

A TOTAL MEMBERSHIP of 2,455 singers. Late this afternoon societies arrived from all over the north, Philadelphia, the town of Lake, Illinois, two from Columbus, Ohio, three from Wheeling, W. Va., and four from Cleveland. With the eight bands which accompanied them the twelve St. Paul societies this afternoon paraded the principal streets, and were reviewed from the east balcony of the Exposition building by Mayor Walker and the central committee.

A lively southwestern which sprang up towards evening prevented further street parades and played havoc with some of the decorations. It is estimated that \$40,000 were expended in traveling arches and private decorations.

The Opening Concert of the fest took place at the Exposition building. Looking from the mammoth orca at the south end there was a vast sea of heads. The jangle was made up of many people being compelled to stand, and numbers being turned away at the door. It is estimated that there were 10,000 to 12,000 present. Among the guests of honor were Mayor Walker, Mayor of Berlin, Gov. Rusk and eminent parties of music throughout the country. On raised platforms extending clear to the ceiling of the great building was the mammoth chorus of several thousand voices. The flowers and foliage divided them from the auditorium. The walls were hidden from view by a covering of evergreen. Mayor Walker and Gov. Rusk delivered addresses of welcome to the city, and evidently stepped aside onto the pier while the train was passing and lost his balance. The distance to the ground was sixteen feet, and the ground covered with rocks on which he struck. He was not discovered for some time. When picked up he was unconscious, and died two hours later. He was 50 years old.

Duluth From Trade.

DULUTH, Minn., July 21.—At the meeting of the directors of the Duluth chamber of commerce held to-night, Edgar R. Mills, now holding a position on the Chicago, Burlington & Northern near St. Paul, was elected secretary at a salary of \$2,000 per annum. The chamber has accepted the offer of Mungler & Markell for room, and will hold its next meeting at the new building. R. B. Hayes and party will be entertained by a committee of the chamber of commerce and shown about the city and harbor.

Killed by the Cars.

WATERLOO, Iowa, July 21.—John Quirk, an Illinois Central conductor, was run over by the cars at the depot in this city this morning. He had signaled the train to start and undertook to get through between the cars to prevent some tramps getting on the train. In jumping his clothing caught and he fell in front of the wheels and was terribly mangled. He died this afternoon. He had been connected with the road for fifteen years.

An Opera House Burned.

CEDAR RAPIDS, Ia., July 21.—Fire was discovered in the opera house block in this city at an early hour this morning. After two hours' hard work the flames were gotten under control by the Wagon Works. The property had been gutted, causing a loss of \$30,000. The store of W. W. Hubbard, hide and leather merchant, beneath the opera house, was flooded, and the loss on stock and fixtures is not insured. The origin of the fire is unknown.

Got the Wrong Man.

WINONA, July 21.—Deputy Sheriff Tisdale and Deputy Marshall Lovely overhauled two men at Lewiston about 5 o'clock this morning who answered to the description of the highwaymen who held up Edward Connor on West Fifth street Monday evening. They were arrested and thoroughly searched but as nothing whatever of value was found on them and the men gave a fairly satisfactory account of themselves the deputies concluded to let them go.

Judges Nominated.

SHOUC CITY, Ia., July 21.—The Republicans of the Fourth judicial district of Iowa met here in convention to-day and nominated Judge C. H. Lewis of Cherokee and G. W. Wakefield of this city to succeed themselves, and Scott M. Ladd of O'Brien county to succeed Judge McCullum. Mr. Ladd was nominated on the thirty-first ballot. There were four or five candidates.

A Tailor Assigns.

EAU CLAIRE, Wis., July 21.—E. J. Brunner, a merchant tailor, made an assignment to S. E. Smith this morning. The liabilities are much more than covered by the assets, which are about \$5,000. The assignment was caused by an attachment.

Harvesting in Otter Tail.

FERGUS FALLS, July 21.—Grain in general is looking well in this section and that on new land is better than last year. The recent hot weather has ripened grain very fast and the harvest of this year will be a record. The weather is favorable, and the weather continues favorable, harvesting will be well under way by the latter part of this week.

Got Out of Jail.

LIVINGSTON, Mont., July 21.—Ed Thorpe, a dissolute character, was placed in jail last night for breaking into a house. During the night some of his friends visited the jail with an axe and let him out.

LIND A PROTECTIONIST.

"Citizen" Says the Second District Farmers Are Being Duped. To the Editor of the Globe: I have just been reading the editorial in the DAILY GLOBE of July 21, "A Bitter Pill," and I would advise every word of it. Mr. John Lind is a bitter pill for the Republican papers to swallow, but ten times more bitter for the thousands of farmers in this district who feel that they are entitled to some recognition in the selection of a representative in congress. Mr. Lind is a sharp young lawyer, simply this, and he is not a protectionist, but for various other reasons, considered by the lawyers candidate. A clique of lawyers, some of them for the use they hoped to make of him, selected him, not with the intention of injuring the boy, but from pure deviltry. He pointed his rifle at Sweet and Pillsbury, trying to hit them, and shot three times before he succeeded. After the shooting Pillsbury extended a hand to the other boys not to tell, and it was several hours after before it was known. Dr. M. V. Hunt probed for the ball, but failed to find it. Mr. Sweet is full of grit and may pull through all right. Fisher is only 10 years old, but has a natural propensity for destructiveness. Only a short time ago he strung up a lamb and skinned it alive. He has no doubts, and is pointed to this rifle at people, threatening to shoot, and at last has satisfied his cravings. No arrests will be made.

that on new land is better than last year. The recent hot weather has ripened grain very fast and the harvest of this year will be a record. The weather is favorable, and the weather continues favorable, harvesting will be well under way by the latter part of this week.

Mr. John Lind is a bitter pill for the Republican papers to swallow, but ten times more bitter for the thousands of farmers in this district who feel that they are entitled to some recognition in the selection of a representative in congress.

An Accident and Suicide.

DULUTH, Minn., July 21.—Ludovic Butler, a Pole, fell from the barge Cormorant at the Northwestern Fuel company's dock, fracturing his skull. He will probably die. He has a wife and two children. Thomas Walker committed suicide this morning by blowing his brains out with a revolver, which he deliberately pointed at his head. The funeral will take place to-morrow. He was a well-known character, about 67 years old, and had lived fifteen years in Duluth. He was dock clerk for Capt. Alex McDougall, a well-known and a good natured, but story-telling man. No cause is known for the rash act. He has no known relatives, although there are said to be two daughters at St. Catherine's.

A Platform Falls.

WINONA, July 21.—About 10 o'clock this morning 400 feet of platform in the yard of the Winona Lumber company gave way, precipitating to the ground a number of laborers employed in handling lumber. Fritz Schaefer was very seriously injured in the spine and Joseph Paszelka received serious internal injuries. Jo Burstynski, Albert Vince and August Zyja were badly bruised. The platform was built upon a high trestle work and leaned towards the right. This morning it was overloaded with lumber and toppled over with a crash, killing the men and lumber up in a common heap. The lumber company has since the accident strengthened the other trestles to avoid any accident of the kind hereafter.

Watsonia.

Special to the Globe. OWATONNA, July 21.—E. F. Turner and family have gone to Hancock, Dak., where Mr. Turner is engaged in the hardware business. W. Dennis goes to St. Paul to-day to meet with the Prohibition State Central committee, of which he is secretary. The pupils of Miss Emma M. Rich will be expected to learn that they will return to this city in time to take their examinations at the state at the Minnesota academy. She is spending her summer vacation at her home in Rochester, N. Y. The Board of Trade held its regular meeting on last Monday evening. Considerable business of importance was transacted, and a committee, consisting of H. Brickett and W. J. Toher, to correspond with parties at Albert Lea, Minn., in regard to the survey and proposed construction of a railroad on a line running between Kenyon and Albert Lea, Minn., was appointed. The establishment of such a road would be enabled to secure cheaper rates on wheat, shipped, and would have a beneficial effect on the trade of Iowa. Applications for admission to Minnesota academy are being received, and indications are that the number will be much larger than last year. Pillsbury hall, in the course of erection, will be completed by September 1, and will accommodate forty-two young ladies.

Special to the Globe. Eau Claire.

EAU CLAIRE, July 21.—The question whether or not the mayor and several members of the common council were convulsively engaged on a recent Saturday night and Sunday morning, in the case of the Eau Claire, is being discussed in the leading sample room known as Steenbeck's castle, is arousing much discussion in the local press. The Eau Claire, in the opinion of the Eau Claire, is making a sensation. It is also drawing attention to the fact that saloon bars do not need the watchfulness of the law and order league. The Spashes from dams on the upper waters of the Chippewa have moved out this week containing several millions of lumber. All the mills are still making sawdust fly, but the prospect for a log supply which will run all the regular months of the season is not very cheering, and becomes less so daily, as the dry weather continues.

Special to the Globe. Fall From a Pier.

Hudson, July 21.—Mathias Jost of Shakopee, Minn., employed on the steam shovel opposite this city, fell from a pier of the railroad bridge this morning, sustaining injuries from which he died. He was crossing the bridge to this city, and evidently stepped aside onto the pier while the train was passing and lost his balance. The distance to the ground was sixteen feet, and the ground covered with rocks on which he struck. He was not discovered for some time. When picked up he was unconscious, and died two hours later. He was 50 years old.

THEY ARE THIRSTY FOR GORE.

Two Citizens of Pierre Arranging to Fight a Duel.

Reports From the Ripening Crops--Jail Breaking at Wahpeton.

Pistols for Two.

PIERRE, Dak., July 21.—This city was thrown into the greatest excitement to-day by an authenticated report of the settlement of a quarrel between one of our citizens, Mr. L. B. Albright, and Dr. Barbour of Fort Bennett, by a duel. The parties to the affair are well known and eminently respectable gentlemen. Dr. Barbour being the recently-appointed surgeon at Cheyenne River Indian agency, and formerly from Louisville, Ky. Mr. Albright is a member of the wholesale grocery firm of Albright & West. The origin of the trouble is not known to your correspondent, but Dr. Barbour is the challenging party, and Mr. Albright, having the choice of weapons, selected pistols with which he is an expert. Mr. Barbour selected his second among the latter gentlemen chosen the river to-day for the purpose of arranging the preliminaries. Deputy United States Marshal Harris started out to-day to stop the duel.

GATHERED IN STILLWATER.

Annual Meeting of Company B, Veteran Association.

Receiver Brown's June Report--A Peculiar Accident.

Special to the Globe. FARGO, Dak., July 21.—Crop reports received to-day by the Northern Pacific Elevator company are slightly improved over last week. Following are extracts from them: Bismarck—A heavy shower greatly improved the prospects of the wheat crop. Wheat is filling in splendidly. Late wheat has taken quite a start, and promises a heavy crop. Sunday's storm damaged about 1,000 acres west of here.
