Chicago Grain and Provisions

Special to the Globe.
CHICAGO, July 24.—Prices in the speculative list were not quite so stiff to-day mainly because rains were reported from the corn growing parts of western and southern Kansas. There were so many scoffers at this class of news, however, that at times it failed in restraining the advancing tendencies of corn, though it unquestionably had considerable effect before the opening. At that time prices were %c lower than they closed the afternoon before. September opened at 41%c. fell during the day to 40%c, advanced later to 41%@ 4134c, and reacted to 4134c, "The country" is believed to be selling corn now and some good local judges are getting bullish. Both Ream and Jones, for example, believe the crop situation to be extremely critical. To-day Capt. Williams and Cudahy were put down as among the most active buyers. sellers also bought early to protect themselves. Toward the close the market went off on estimated receipts of Monday at 430 There were 247 cars inspected here and 194,000 bushels in at St. Louis. Just after the opening there was a little spurt from 75%c up to 76%c, caused by experts at New York, but it did not long remain at that figure. By noon the prices had reacted to 78%c on rumors that next week's visible would show from 2,500,000 to 3,000,000 bushels of an increase. The effect was to bring out a few more sellers than there ordinarily would have been. It was Saturday and that meant that the small holders were disposed to even up for Sunday. They always do it, though it does not always happen the market is "long." Around 75c, 1c decline from yesterday, the market was about steady and closed quiet. The last half hour brought out hosts of weak holders who were afraid of big receipts and the 3,000,-000 bushels increase, and also atraid to go long over Sunday. The decline from 75c to 74¼c was rapid and steady. Everything closed weak. A decidedly easier tone prevailed in oats and other small grains, the former declining substantially 2c from yesterday's high point. The action was wholly in sympathy with more important grains, though receipts were heavy to start with. Provisions were dull, easy, averaged somewhat lower, and were only moderately

### FINANCIAL. New York.

Special to the Globe. NEW YORK, July 24.—The market was quiet to-day, but opening prices were well maintained. Northern Pacific, Louisville & Nashville and Union Pacific were advanced from last night's closing prices. Nothing of consequence was doing in the Vanderbilts. Western Union or Northwestern, and foreigners were reported to be out of the market entieely. The strength of Northern Pacific was on the story that the company had sold a block of 2,000,000 acres of land at \$2 per acre, returning \$4,000,000 of preferred stock. Latest advices, however, were to the cars here, and also heavy expected arrivals at St. Louis and other primary points. The closed was slow. Wheat crawfished nearly all the session. There were 247 cars informed operators, however, claimed that the recent advance in rates would be maintained

in good faith, and that the outlook for a good fall's business was decidedly good. Louis-ville & Nashville was bulled on its recent increase in earnings and the prospects of better business this fall. The feeling in regard to the Grangers continued bearish and the mar-ket was confined to professional traders, and in the absence of news calculated to affect prices, moved very little in any direction. There was little news, but the usual supply of rumors, some of which were used with effect. Advices from the West contained nothing but reports of damage to the corn crop, while certain members of the late Chicago party are quoted as taking a very unfavorable view of the crop prospects in that region, and con-sequently of the prices of stocks.
