TARTED BY THE PRESIDENT. Bleveland Will Push the Electric Button and Set Exposition Ma-

Arrangements are now being made by which President Cleveland will push an electric button and start the ponderous mathinery at the opening of the Exposition. Complete connection by telegraphic wires will be made, and at a certain hour a touch great advertisement through the East, and the big show will reap the benefit.

The minutiæ of the opening day program has not yet been determined upon, but it is known that ex-Gov. Davis, Mayor Ames, Gov. Hubbard and President Washburn will participate. As the exposition is assentially a city affair, Mayor Ames, as the official representative of Minneapolis, will band and wife, in which Mr. McKeen for the distriction of the contract between husband and wife, in which Mr. McKeen for the contract between formula of the contract between the contract between formula of the contract between the contract be the central figure on opening day, and is gave his wife on condition that she would expected to deliver an address on the beauties and glories of the great city of which he is the lord. Less than two weeks now remain in which to perfect everything and open the Exposition. It seems incredible that in complainant does not charge such subsethat time the thousand and one affairs can be made ready, but the history of the past alleges facts which would be evidence of that time the thousand and one affairs can two weeks shows nothing is impossible. Important affairs are rapidly coming to a focus and the building i. being "cleared for action."
