A FIREBRAND. It was moved that the bids be referred to the committee on extensions. This called Commissioner Glenn to his feet to enter an earnest protest against the methods of the office of the water board. His remarks proved a firebrand, and brought Commissioner Foote to the fleet to enter an extraction and Dahl were heartily received, and the meeting was a very enthusiastic one, in fact a significant "sign of the times."

The next meeting of the club will be Welpesday evening same place and will be sioner Foote to the floor to antagonize the proposition ennanciated by Commissioner

"Right here," said Col. Glenn, "I would like to ask a pertinent question: What right have we, as business men, to require contractors to put their bids into this office at 12 o'clock noon, when the board does not meet until 7:30 o'clock in the evening? Should these bids lay in the superintendent's office seven and one-half hours? Contractors have come to me and complained of such proceedings. They say that they would not not be the contractors have come to me and complained of such proceedings. ings. They say that they would not put a many sarcasms for publication. office. Three bids only have been opened here to-night. It strikes me forcibly that three bids are a very small number for a city

of this size."

Commissioner Foote could see no objection to the system in vogue. He said no one opened bids but the water commissioners themselves. He was surprised at the remarks made by Col. Glenn. He had heard of no such complaints.

Commissioner Glenn—As a contractor I

deprecate the principle. It is a queer proceeding. And there is another matter I wish to mention. Later on I propose to introduce to mention. Later on I propose to introduce a resolution here to the effect that all proceedings of this board shall be officially published the same as the council proceedings. It will tend to relieve this office of the sus-picion that now is cast upon it. Of the three contractors who told me they would not bid, one has submitted a proposal When that proposal was received I have no means of knowing. One of these men openly charged to me that his bid had been tampered with in the superintendent's office, and if it is desired I can give the name of the

contractor.
Commissioner Foote—I move again that these proposals be referred to the committee on construction. I hope if anylone has a com-plaint to make he will have the manhood to come before this board to make it. It is not worth while for this board to take cognizance of any complaint made in a private office. Commissioner Glenn-Has not a complaint

Commissioner Farnham—A man came to me and said he would not put in a bid. He spoke poor English and I paid no attention to what he said.
