

MINNEAPOLIS EVENTS.

The Official Canvass of Hennepin County to be Begun To-morrow Morning.

Labor Ballots—No Evidence of the Number Rejected by Election Judges.

A Remarkable Divorce Suit—Col. Weadon's Suit Affected by a Snowstorm.

"Mickey" English and a Female Pal Charged With a Serious Crime.

The Official Canvass.

The official canvass of Hennepin county's vote will begin to-morrow morning. County Auditor McDonald has selected to assist him, in accordance with the law, E. J. Woodward, of Richfield, and A. C. Bailey, of Long Lake. The former is a Democrat and the latter a Republican, and as Auditor McDonald is a Republican, all three parties will be represented and a fair count may be confidently expected.

These Labor Ballots.

Thousands of people have been lately demanding to know where are the thousand odd "state tickets" put in the ballot boxes in this city and not counted, and about two dozen communications to the same effect have been poured into this office. The fact of the matter is that while the belief is general that ballots of this character were cast and rejected, there is very little evidence on which to base it. Globe reporters have on several occasions visited the city, and if the judges did receive and not count such ballots they would deny it. It may be also said that these ballots were counted in some precincts and are perfectly legal, and if the official canvass shows such ballots to have been received and not counted they will be counted.

Incompetent Judges.

Evert Nymander—As far as the president in which I was a clerk of election is concerned (Sixth precinct, of the May ward), I can say this, that the poll was not opened before 10:15 a. m., and that five minutes were taken to receive only one vote. Of 1,300 registered voters only 672 had time enough to cast their votes. There were also several challenges of Ames votes by the Republican judges, where the evidence was not at all well founded. I charge the judges in this precinct with being incompetent to act as judges, or else carrying out some planned schemes. I am entirely against such management of the polls as that in the Sixth precinct of the Fifth ward.

Not That Kind of Man.

The Globe is in receipt of a long communication denying another communication published last Monday. It was stated in the latter that Willis James, then a candidate for the office of treasurer, had been taken, through the Milwaukee press, by the Republican judges, who instructed the canvassers to vote for him on pain of discharge. The employees unite in denying this, and say Brearly is not that kind of a man, which the Globe is pleased to hear.

He Gives His Reasons.

To the Editor of the Globe. Allow me to assign one or two of my reasons for the light Democratic vote in Minneapolis. I do not believe that many of the Scandinavian voters knew whether the Democratic candidates were Irish or American Catholics or Protestants. There is a strong temperance sentiment among the Scandinavians, and that the cause, to-wit: "How is it that every saloonkeeper and brewer in town works so hard for the Democratic ticket?" had some influence on the votes cannot be doubted. The Republicans were never more pleased than when they saw the "Ames" picture in the windows of saloons.

TALES OF MARRIED LIFE.

Domestic Woes Told the Judges—Divorces Granted to Albert P. Martin.

Albert P. Martin has commenced in the district court an action for divorce against Mary E. Martin. Mr. Martin is a wealthy land owner in Dakota county, while Mrs. Martin keeps a fashionable boarding house at 107 East Grant street. Mr. Martin charges his wife with having committed adultery with one Eugene A. Bassett, who is now installed as a boarder at Mrs. Martin's boarding house. Mrs. Martin has filed an answer, in which she alleges cruel and inhuman treatment. Some three years ago she obtained a separation from him on that ground, and the terms of the separation expired last August. Yesterday she made application for alimony, attorney's fees and money enough to carry on the divorce proceedings. Mr. Martin, through his attorney, fought this demand in a stubborn manner. He claimed that Mrs. Martin was making a good living from her boarding house, and he feared that if alimony was granted she would leave the state in company with Bassett. Judge Lochren, before whom the case was heard, decided that under the circumstances the allowance for support could not be granted. Mr. Martin, however, will be obliged to pay his wife's attorney \$100 and \$25 for additional expenses. The case will come up for final trial next term. Mr. Martin is about sixty years of age and his wife about forty.

WHAT SOME OF THEM SAY.

W. E. Haskell, of the Tribune—The result is due to the ignorance of the Scandinavians. Gen. A. B. Nettleton—I don't think it is true that the course of Bishop Ireland deflected his own people on the ticket. Ed A. Stevens—If my advice had been followed, Mayor Ames would have stayed at home last Monday night, instead of going to the city and being shot. J. B. Gilliland—The results show the depravity of the people. William Bickley—It is amusing to hear Republicans, who have lost three congressmen and have seen their 40,000 majority in the state melt away, still talk of victory. I wonder what they would call defeat. J. C. Worrall—I am a Republican, but who could help admiring Ames after that brilliant and victorious canvass he has made. Freeman P. Lane—We Republicans are much better schemers than you Democrats. Auditor McDonald—If the canvass all over the state is as fair as it will be in Hennepin county, we will not complain. C. A. Gallagher—So long as Anti-Ames is elected, I can get a man I defeated candidate. F. F. Davis—The farmers were dissatisfied with the present condition of things and allowed their prejudice to rule. Thomas L. Wilson—If I thought McGill was elected, much as I despise the little thing, I would say to seat him, but if Ames is the choice I will shoulder a musket if necessary to see that he receives a fair count. George A. Pillsbury—I think the Republicans nominated the wrong man for governor. Mr. Gibbs was the strongest man of those mentioned. Not but that Mr. McGill is as able a man as Mr. Gibbs, but there is a great rivalry between Minneapolis and St. Paul and Mr. McGill is generally considered a St. Paul man. This injured him very much. In fact he is a resident of St. Peter. Loren Fletcher—There were various and almost innumerable causes for the falling off of the Republican vote that would only occur once in the lifetime of a party. The first and principal cause was the demoralized condition of the party as left by the previous state central committee of which H. A. Cattie was chairman. The convention was called sixty days too late. It would seem for the purpose of demoralizing the party in order that the new committee might have no time for a campaign and recuperate from the terrible condition in which the late Republican convention found things. It seemed the committee was in the hands of a few political slysters who were determined to rule or ruin the party, and after the nomination of the state convention were made the same spirit was still at work in trying to further demoralize and disrupt the party. John W. Aretander—The cause of the big cut can be summed up in one thing—the Republican campaign, convention and all has been one error. Mr. Gibbs was the strongest man of those mentioned. Not but that Mr. McGill is as able a man as Mr. Gibbs, but there is a great rivalry between Minneapolis and St. Paul and Mr. McGill is generally considered a St. Paul man. This injured him very much. In fact he is a resident of St. Peter. Loren Fletcher—There were various and almost innumerable causes for the falling off of the Republican vote that would only occur once in the lifetime of a party. A CELEBRATED CASE.

A Decision Given Which Affects the Great St. Paul Suit.

The suit of Julian Bausman et al vs. Harriet C. Richardson, which is one of the number of actions involving title to Silver Lake and Oakland additions, came up in the district court, yesterday morning, upon a motion on the part of the defendants to set aside the judgment rendered in December upon the arbitration award. The motion was granted by Judge Young, and the judgment was set aside. The decision is important as affecting the claims of other defendants who have been claiming equities in Silver Lake addition through Mrs. Richardson's letter authorizing the

disclaimer to title in property is dated Oct. 21, 1885, and reads as follows: You are hereby authorized and instructed to appear as my attorney in the above entitled action, and to disclaim any estate right or interest in the land described in the complaint as said action by me.

THE PARK COMMISSION.

The Development of the Boulevard System progressing—The Board's Finances.

At the meeting of the park commission yesterday afternoon H. W. S. Cleveland, the landscape gardener, submitted a plan for the development of the boulevard system, which was favorably commented upon by President C. M. Loring. A communication was read from F. Law Olmsted, the landscape architect of Boston, who laid out Central park, in which he advised the board to embrace the present opportunities to improve the natural beauties of Minneapolis. President Loring, on behalf of the committee on improvements, reported gratifying progress on the part of the boulevard commission, and stated that the deeds for the land necessary to insure a continuous drive around the lake have been procured. He also reported that the grade of the Hastings & Dakota railroad at the boulevard intersection will probably be raised so that a bridge can be put in. Thomas Holloran entered a protest against the award of the commissioners upon land taken for boulevard purposes. He claimed that he was only awarded \$300 for land worth \$12,000. The matter was referred to a special committee. Baldwin Brown reported in favor of condemning the land to be used for the park fronting the Exposition building, and his suggestion was adopted. He stated that the cost of the land taken would be about \$50,000. The finance committee reported the amount in the treasury to be \$1,000, with audited bills to be paid amounting to \$11,735. The committee was authorized to negotiate for funds to meet the January interest on bonds and meet the awards for the land taken for Calhoun boulevard. The committee was also authorized to audit bills for November.

THE NEW THEATER.

Col. Weadon Broken Up Over a Snowstorm.

Col. Percy Weadon, the impresario who is to have the management of Sackett & Wiggin's Hennepin Avenue theater, has been on a month past. Day and night crews are at work under the supervision of Architect Wood, of Chicago, and the work is being pushed with astonishing rapidity. Everything depends upon the weather, and is hoped by Col. Weadon that the entire structure will be under cover by Dec. 1. The importance of mild weather at this juncture is appreciated to the fullest extent by the colonel, and when snow began falling yesterday morning at 7 o'clock Weadon was in a violent attack of spasms, together with nervous prostration of an alarming character. Medical attendance was summoned and the usual remedies were applied, without avail, until some one changed to glance out of the window and exclaimed: "It has stopped snowing." Col. Weadon immediately paused in the midst of a nervous convulsion and was well in a second. After paying the physician he was soon back at his familiar post—the lumber pile opposite the theater.

Speaking of the Hennepin Avenue theater, the following is taken from an advertisement that appears in the Chicago News-Letter of the new theater: "Minneapolis has gained in population this year (1887) 10,000 people, and the end is not yet. Minneapolis is not a stagnant town, but enjoying a steady and healthful increase."

A Six Years' Sentence.

Worcester, Mass., Nov. 6.—Samuel H. Wood, of Minneapolis, Minn., was today sentenced at the superior court on two indictments for obtaining \$8,000 by false pretenses from Luther and John G. Peters, of Fitchburg, Mass. The motion for a writ of error, which he filed Thursday, was overruled to-day and he was sentenced to six years in state prison, two days solitary.

They Drugged His Liquor.

Detectives Lawrence and Doyle yesterday arrested "Mickey" English and Minnie Kittle on a charge of robbing Harrison Church early in the morning at the Boston restaurant. The man was induced to drink liquor which had been drugged, and when in an almost insensible condition he was taken into one of the stalls and robbed of nearly \$200. English has done time in various prisons and is looked upon as a hard man. The case will be heard Monday in the municipal court.

THE BASE BALL MAN WAS A CRANK.

He had been looking over the base ball column as the car stopped at College street. He turned to the Teutonic passenger next to him and observed: "That York team's doing pretty well; don't you think so?" "I don't no somethings about horses." "No, no; I mean the New York base ball team." "Oh, yah, you mean horses that play base ball." "No, I mean the Giants." "Oh, excuse me; some of those time museum valers. I don't hear about dat." "No, no; I mean that the base ball nine in New York is doing good work." "Vot nine vas dat?" "The New York nine." "Vat your half dot done?" "Well, playing." "Vot I don't see exactly vot you mean. You say you know what base ball is?" "Oh, yah; ver dey hit a ball round mit a club, und then run round mit von veller says 'Go id' and another says 'Hold up,' und then the veller 'going id' shilps loun, und some von says 'dime,' has broke his leg. Yah, I know vat base ball is; dat vas foolishness." Now the admirer of the New York team discursively seeks the platform, and the Teutonic murmurs to himself: "Dot veller vas a crank."

Gilman was the second choice of the masses, and would have polled a much heavier vote than McGill, had he been elected. It was understood to be Fletcher's man, and that is a "b— of a b—" for any man running before the people of this state. The Republican means speakers over the state, while Ames fought almost single-handed and alone. It was like a dog fight where a dozen mastiffs and bloodhounds "battered" one little pointer. The speaker naturally sympathized with the little bulldog.

AMUSEMENTS.

The patrons of the Panora opera house can look for a great treat this week, since "Our Railroad Men" will be on the boards, with a fine cast, new scenery, etc. The stock company has been augmented by the well-known artists, Howe and Connelly, Nell Howe and Connelly. "Our Railroad Men" is pronounced the most laughable comedy of the day.

The people who have been waiting until the hot weather and the rainy season were over before visiting the panorama, now have the opportunity presented to them. During the past week, what with the excursion from Hutchinson and Dudley P. Chase's post day, there has been a fair attendance. The excursion from Stillwater announced for yesterday was postponed. The first of the series of children's parties to be made pursuant to the suggestion made in the newspapers, will occur on Saturday next, when the children of the parochial schools will visit the panorama.

Duff's Comic Opera company opens at the Grand theatre next night in "Pantinitza," with Lillian Russell, Vernon Jarbeau and Zeldia Seguin in the cast. The company will hold the boards all the week, presenting "Pantinitza," "A Trip to Africa" and "The Mikado."

At the Conique this week, Rely & Smith's vaudeville concert will hold forth. The evening concert, "Little Si Salem," and its vaudeville absurdity, will also be presented. The Human Steam Engine, or Sampson, the Human Fly, is the attraction at the dime museum, which will be open every evening. Their musical selections, will occupy the stage.

A collection of pictures, paintings and antiquities, which have no parallels in existence, will be permanent features at the Dime museum from the present date.

upon the same ground, naturally excited the curiosity of a certain peccol party, so that the bird was swept along with the throng. And where did it land? Right in the midst of birds, monkeys, dogs, rabbits, white mice and rats. Such a narrow escape! Many a shiver, many a small bird's plume, people laughing, children exclaiming and polite attendants gasping. After recovering from the shock, our eagle saw a perfect forest of birds of every and of rare plumage. Hundreds of sweet-throated canaries, scores of mocking birds, skylarks and many others, such as goldfinch, black and brown thrush and the English bunting. The parrots and macaws—but let them talk for themselves; they are fully competent. Two macaws are the most noticeable, one being of all eyes, perched upon their lofty stands. In a large tank are many hundreds of goldfish, and near that, swimming as content as though in their own waters lakes, some say our aquarists. Here they are—some say a papa monkey and a mamma monkey, and such a cute little pair of twins, only 5 months old. Lovers of fine dogs should stop to examine the full-blooded English pug dogs. They are so beautifully ugly, they seem to be favorites with the ladies present. There are pups of all ages, from a few weeks to several years old. Rabbits, white mice and many other animals are in pretty cages about the place, which is known as the Metropolitan Bird Store, No. 1, Third street south. A soapery at west to Minneapolis, and adjoining the store, the enterprising proprietor, Mr. C. R. Kimball.

Ornamental Splendor. A building of Moorish design attracts the notice of the pedestrian as winding his way up Hennepin avenue he reaches the corner of Sixth street. Pass through the main entrance on the left, and ascending a broad easy staircase to the second floor, he is confronted by a richly paneled doorway, beautifully colored stained and enameled glass pre-occupying. The door opens into a reception room, the largest in the state, and is furnished with more accessories and apparatus than any two ordinary galleries; this room is furnished with a very unusual lighting, and is supplied with a new and scientifically constructed skylight, built upon glass furnished by Mr. Brush. The "acoustic" property of the room is such that the scenes and furniture used in taking the photographs are very numerous, and parties wishing pictures taken in novel and artistic surroundings, need not look elsewhere than Mr. A. Brush, as he has more novelties in book-cases, bronzes, bric-a-brac, balustrades, fancy gateways, etc., etc., than any other dealer in the city. Ladies and gentlemen should remember this, and call on Mr. Brush at his studio, corner of Hennepin avenue and Sixth street, Minneapolis, Minn.

FREE EXCLUSION.

Go and Examine for Yourself.

The St. Louis Park Land and Improvement company will run a free excursion train out to St. Louis Park and return next Tuesday forenoon, leaving the Minneapolis & St. Louis railway at the corner of Third and Fourth avenue north at 9 a. m. and return for dinner. All who desire to speculate or secure a good home should not fail to examine the property, and to secure a starter acre lot in this beautiful suburb with lake attractions and two railroads. Depot completed and streets graded so that now there is no work in selecting lots. A user with any foresight can make big money. Plans or further information can be had at 350 Temple court, Res. C. Labor the Cause of It All—Laborers in Several Branches Needed.

St. Louis Park, the booming new townsite, just out west of the lakes, on the lines of the Minneapolis & St. Louis and Hastings & Dakota railways, offers work for masons, brick layers and carpenters. A shop will be built free for a good blacksmith at once. Tools will be furnished if necessary, and a good salary paid if preferred to the large rate of trade tributary to the place now. Apply at once on the townsite. Must be a first-class blacksmith and horse shoer.

A Remarkable Cure.

Ayer's Sarsaparilla has cured me of a bad case of Abcesses of the Liver as any human being could be afflicted with and two years, and for the last two years I have been able to leave my bed. Four physicians treated me without giving relief, and, in fact, nothing helped me, until I tried Ayer's Sarsaparilla. After using a quart of this medicine I began to feel better, and every additional dose seemed to bring new health and strength. I used three bottles, and am now able to attend to my business. I walk to town—over one mile distant—and return without difficulty. Ayer's Sarsaparilla has accomplished all this for me.—W. S. Mimer, Carson City, Mich. 11
