CHRISTMAS PRESENTS FOR EVERYBODY.

With the advent of the fall holidays bright, attractive and desirable goods, which have held the attention of the multitude of buyers for months before, temporarily sink into comparative insignificance, and goods--Christmas articles (we can find no better term) forge their way into public favor.

In previous issues of the Globe we have demonstrated that we are fairly in the tide, and the thousands of visitors who have called upon us since our Grand Opening of Holiday Goods are loud in their praises, all being willing to concede ours, by long odds, to be the largest display in the city.

We have the exclusive sale of many articles in our display, and as a large proportion of these cannot be duplicated, we would suggest an early call, and recommend the morning hours for visiting our establishment, where it is possible to do so, and thus avoid the afternoon rush.
