Alleged Heirs to Valuable Minneapolis t roperty Make a Few Remarks.

Special to the Globe. LOWELL, Mass., Feb. 16.-The title to some \$3,000,000 worth of property in Minneapolis is soon to be tested in the courts, the alleged owners being several poor factory operatives in this city. Between 1840 and 1850 Michael Casserly, otherwise known as Michael Cassidy, came to Lowell from Ireland and was for a time employed. The Northwestern Miller of to-day will say:

"The flour output showed little change last the control of the con as a gardener. Being attracted by the opportunities offered in the Western states to energetic young men, he emigrated early in 1850 and secured a government grant of seventy acres of land near St. Anthony falls in Minnesota. Being of a rugged nature and knowing no ailment for many years, he neglected to make a will. When letters of administration were requested on his estate on the session of the probate caurt in Minneapolis in 1885, it is reported that a Miss Margaret Carney appeared and stated that she was the nearest of kin and the on y living relative. It was with reluctance that the judge, who saw the prospective value of the land in the near future, granted her letters of administration and it is represented by the same and though prices have been reduced that he saw the prospective value of the land in one near future, granted her letters of administration, and it is now understood that he stipulated that the case would be reopened stipulated that the case would be reopened jump, and assumed quite fair proportions." til recently it is reported that Miss Carney has enjoyed the benefits accruing from this valuable property. Portions of the land have been sold to railroad men, manufactories and capitalists and many costly buildings have been erected on the estate. In September last Henry W. Wadsworth, an \$10 check on the First National bank to which attorney in Minneapolis, discovered the letters of probate granted Miss Carney in 1885 and the stipulation regarding the future appearance of the other heirs. He ascertained by some means that some of the heirs resided in Lowell and others in Albany, N. Y., and others in Ireland.

are Mrs. BridgetMcNamara, Mrs. Catharine Scully, Mr. and Mrs. Andrew Haley, Michael Gallagher and Mrs. Margaret Burns, all employed in the cotton and woolen mills of this city. They claim that with the heirs in Albany and in Ireland they signed away their rights to Wadsworth for small amount of money, he asserting that the land was unsettled and it would probably take years to settle the matter in the courts. Shortly after the deed was signed the son of Mrs. McNamara remarked to Edward B. Pierce, of Lowell, that his mother had come into some property in three divisions of the A. O. H., met at Win-Minnesota which she deeded to a Minneapolis lawyer for a small sum. After receiving a description of the property, Mr. Pierce wrote to Mr. Stevens, cashier of the Northwest division of the Eric Telephone company in St. Paul, regarding the property, and was informed by him of the immense value of the estate.

Mr. Pierce informed the heirs and was given power of attorney to act for them in the matter. In their interest he visited Minneapolis last fall and consulted leading attorneys of the state regarding the suit which will be brought before the Minnesota courts in April to set aside the deed given by the heirs to Wadsworth. He also visited Ireland during this winter and obtained the consent of the heirs residing there to the proceedings which have been begun by those residing in America. THE WARD SCHEME Shown Up in its Barefaced Ineq-

uality by a Few Figures. The article in yesterday's GLOBE provoked considerable comment in reference to any plan which might be sprung by the Republicans to gerrymander the city. The Thirteenth ward plan, as given, was met by general condemnation. As has been said, the plea for a change is that the present war di are disproportionate, but it is only necessary to figure on the proposed new ones to see how much worse they will be. The population by wards by the census of 1885 and their estimated population at present, on a basis of 160,000, are shown as follows:

First	16,021	20,000
Second	8,527	11,000
Third	19,222	21.000
Fourth	21,993	26,000
Fifth	20,862	25,000
Sixth	30,093	34,000
Seventh	6,971	11,000

Second 11,000 Tenth 7,000
Third 14,000 Eleventh 7,000 Fourth 28,000 Twelfth 5,000 Fifth 25,000 Thirteenth 16,000 Sixth 18,000 Seventh 7,000 Total 160,000

Eighth...... 6,000 In addition to this, there would be some 8,000 to be added from the new territory to be taken in, which would be divided among the Third and First, Ninth, Seventh and Twelfth. However, it is only necessary to point at the difference between the Ninth and Fourth wards to show how utterly hollow are Republican pretentions, where they speak of the necessity of this change to equalize the wards. The new territory to be included, is as follows: On the East side, the line is to be run over to meet Ramsey county, making that boundary a straight north and south line. This will take in the Pilisbury elevator property hitherto so carefully excluded. On the north, the West side will take in the work-house territory and the East side will take in the work-house territory and the East side. in the work-house territory and the East side will include the brick yards. On the south the line below Lake Harriet will be projected due eastwardly until it meets the river. This

Danger of Being Squeezed. The Chicago bears seem to have complete control of the wheat market and there is a probability that the Northwestern "longs" will be treated to a squeeze similar to that inflicted abo ut a year ago, when several prom inent Minneapolitans and one clevator man from Fargo narrowly escaped dropping their substance. From 87½ cents the leading cereal has steadily dropped to 785%, and the cereal has steadily dropped to 78%, and the wayside is strewn with the remains of unlucky "longs," who were unable to cover in their margins. It was the gossip on 'change yesterday that a prominent miller who suffered seriously by the drop of last spring, was again in the toils and could only be extricated with great difficulty. It is also reported that the Pilisburys are very long, but they are abundantly able to protect themselves in the future as they have in the past selves in the future as they have in the past. In the bucket shops, considerable money has changed hands over the break, the many losing to the few. Quite a number of speculators who sold when wheat marked 87½, held on when it had reached 85; but when a slight upward turn came they lost nerve and closed their deals, only to see reaction and a block 110, Minneapolis, and \$1,800, alleged to etill further depression next day.

Lost His Life.

PITTSBURG, Feb. 16 .- An incident occurred early this morning on the limited express on the Pan Handle road, due in this city at 6 o'clock, which caused intense excitement among the passengers, and in which one of them narrowly escaped with his life. The train was speeding along at a very high rate of speed at 2 o'clock this morning when the porter on the St. Louis sleeper was suddenly startled by a crash of glass. He hurried forward to the first section whence the noise seemed to have come, and which was occupied by a young man en route to Washing. cupied by a young man en route to Washing cupied by a young man en route to Washington. The porter hastly pulled aside the curtains, when he was horrified by the sight that met his gaze. The glass of a large double window had been broken, and the glass was scattered around the section. A man's head, arms and shoulders had disappeared through the broken window, while his legs and feet still remained within the car. The speed of the train was so great that the cars swayed from side to side, and each moment there was danger of the man slip-ping through the window and being hurled to the ground. Instantly the porter realized the danger of the young man, and grabbing him by the feet finally succeeded in getting him back. By this time the conductor, who had been called by the porter, and several of the passengers, hurried to the berth to learn what had caused the excitement. The young man seemed dazed at first as though he were but partially awake, but gradually he re-alized his situation and shuddered as he learned what a narrow escape from death he had. He arose and dressed himself. He then walked back to the rear of the car and told walked back to the rear of the car and told the porter that he would never forget what had been done for him as his life had been saved by his timely arrival. He said his name was C. F. King, and that he was en route to Washington. He was returning from an extended trip in the West where he had gone for his health. Yesterday afternoon he had eaten unusually hearty while traveling in the buffet car. After he had retired to his berth for the night he fell into a restless sleep and finally had an attack of nightmare. He dreamed that the sleeping car was on fire. The rumwalked back to the rear of the car and told that the sleeping car was on fire. The rumbling noise of the moving train gave him the impression that the passengers were hurrying to and fro trying to escape from the cars. While still asleep, it is supposed, that he made a dash toward the window and tried to plunge through head first.

WHY IS IT

That rheumatism and neuralgia are so prevalent? This question has not been satisfactorily answered, but it is certain that these diseases are not only the most painful but among the most common, and some member of nearly every family in the land is the victim of one of these dread tormentors. Ladies seem to be peculiarly liable to neuralgic attacks, which, in the form of neuralgic headache, pain in the back, or nervous pains are of constant occurrence. Not until the discovery of Athlophoros had any remedy been found for either rheuma tism, neuralgia or nervous headache, and they were generally conceded to be incurable; but Athlophoros has been proved to be not only a certain cure for these diseases, in all their varied forms, but a safe remedy. If in the use of Athlophoros, the bowels are kept freely open, its success is certain, and to aid this, Athlophoros pills are recommended, which, while providing the necessary cathartic, will be found to be a valuable aid to the action of the medicine. Athlophoros is no experiment, it has been tested

and has proved its wonderful efficacy. The Athlophores pills were originally prepared as a remedy for use in connection with Athlophoros, for rheumatism and neuralgia and kindred complaints. Used in connection with that remedy, they are a certain cure for either of these very com-mon and distressing diseases. They have mon and distressing diseases. also been found to be an invaluable remed; for any and all diseases arising from vitiated blood or general debility. They are especially valuable for nervous debility, blood poisoning, dyspepsia, distress after eating, headache, constipation, loss of appetite, and all stomach or liver troubles. For diseases of women they are invaluable. These pills are perfectly harmless and may be safely

used by adults or children.

Testimonials of those who have been cured will be sent free on application. Every druggist should keep Athlophoros and Athlophoros Pills, but where they can not be bought of the druggist the Athlophoros company, 112 Wall street, New York will send either (carriage paid) on receipt of regular price, which is \$1 per bottle for Athlophoros and 50 cents for Pills.

GOVERNMENT!

The people of the United States pay every year between six hundred and seven hundred millions for their government, it being from seven to ten per cent. of their annual product, or about one and one-half per cent. of their total property-about \$12 to each person, or \$36 for each worker. Of this, more than half is for state and local purposes. Some one has said: "There are two things certain—death and taxes." We would add one more, and make it three things; the triumph of the UTK Clothing House. And this latter relieves the former by prolonging life and reducing taxation; by placing in market its own make of clothing, reducing the cost to the purchaser to the minimum. It is a good time now to take advantage of the BROKEN LOTS and buy an OVERCOAT or SUIT very cheap, at the corner of Nicollet avenue and Third street, Minneapolis.
