Yesterday's Proceedings in the Wisconsin Legislature--Notes of News and Gossip.

Special to the Globe. DES MOINES, Ia., March 9 .- Joseph Rowe, accused of killing Constable Logan, was arraigned before Justice Gaston in Valley township and committed to the grand jury without bail. His attorney will apply to the district court for a writ of habeas corpus and endeaver to affect his release. "What do the constables intend to do in the Logan matter?" was asked of Constable Laverty to-day. "We intend to avenge his murder. We do not contemplate any thing rash or anything that is not right and legal, but we think we can make a strong case against his muderer, and will push it to the bitter end.

### A Prohibitory Case.

Special to the Globe. DES MOINES, March 9.—The supreme court to-day decided an important case appealed from Clinton county, involving one phase of the prohibitory law. The lower court held that as the prohibitory law would deprive defendants of property without compensation a federal question was involved, and refused to proceed with the The supreme court holds that in so doing the court erred.

It is to be regretted, said Judge Seever in his opinion, that the state courts are called upon to determine questions in relation to the removal of causes to the federal courts. Such decisions are not binding on the federal courts, and may be reversed therein, and as the supreme court of the United States is the court of last resort in such cases, of necessity and to prevent unseemly conflicts of jurisdiction, the state courts must regard the decisions of the federal courts as to such questions as final and conclusive on them. It would therefore seem to be the better practice when a petition for removal is presented to the state court, and a decision is made, or if the court entertains the petition, but refuses to proceed and try the case, to remove the record to the federal court and move to mand before appealing to this court. But as this course has not been adopted it becomes our duty to determine whether the judge of the court below erred in holding that a federal question was involved. To enable us to do this it is necessary to look into the peti-tion for removal. This we think we are authorized to do and that such is our duty. The question presented by the record before us is not a new one, and we understand it to have been determined in McLean vs. Leicht, Twenty-nine Northwestern reporter, 327, adversely to the holding below. It is not deemed necessary to add anything to what is said in that case. Counsel for the appellees cite and rely on State vs. Walruff, Twenty-six Federal reporter, 178. The facts in that case are materially different, and the decision we think is clearly distinguishable. The case is onsequently reversed.

### A Street Railway Case.

Special to the Globe.

DES MOINES, Ia., March 9 .- A stree railway case from Waterloo was decided by the supreme court this morning which will encourage the Narrow Gauge company in Des Moines to hope for a favorable decision of their case against the Broad Gauge. The city of Waterloo granted a company a charter conferring upon it the exclusive use of all the streets and alleys for thirty years. The grant was accepted and certain tracks laid. It afterward commenced laying track on Jefferson street. when the council passed an ordinance repealing the former grant, but granting the same privilege as to the streets then occu-It then began proceedings secured a temporary iniunction against the company enjoining it som build ng on Jefferson street. One ground on which the suit was based was that the company was using a "T" rail which would be a nuisance. The city did not claim in the supreme court that the city could repeal its original grant, and in considering the supreme court assumed that the grant, if the city had the power to make it, constituted after acceptance a contract between the parties. It was held that if it was conceded that the grant was invalid for the reason that the city had no power to give exclusive charter 'it would follow that the city notwithstanding the only that the difference of the grant to defendant might lawfully confer the same privilege upon others; not that the grant of the privilege to it did not con-

CHATFIELD, March 9.—The election passed off quietly yesterday, and the following ticket was elected: Supervisors, James Waters, James Williams and A. Nellson; assessor, Levi Ober; clerk, George Gould; treasurer, G. H. Haven; constables, John Scott, Eli Hodkinson.
ROCHESTER, March 9.—The election yes-

terday was quite spirited. The office of marshal was contested for by three candi-dates, and the city was so thoroughly canvassed for votes that a number of minors were rung in. The count gave a majority of one vote for Marshal Kalb, who ran on the people's ticket. The position of Radabaugh is interesting. Whether he will contest the election or not is not known. The Democrats elect mayor, street commis sioner, alderman and constable in the First ward, constable in the Second ward, and school commissioner in the Third ward. The Republicans capture the balance of the ticket. Illuminations were numerous last evening in honor of Nelson, mayor elect.

The Former's Nomination to be Withdrawn -- Templeton Named for Attorney General,

Special to the Globe. BISMARCK, Dak., March 9 .- The substitute for the House Bill No. 145 came up in house this afternoon and created an interesting little splurge. in which Frank Aikens figured conspicuously. The bill provides for abolishing the old copitol commission and creating a new board of trustees for territorial property here, consisting of the governor, auditor and secretary. When the bill was brought up in commit-

tee of the whole Dr. Stewart, of Fall River, propose the following amendment: All outstanding warrants heretofore is-ued by the auditor rnd territory under provisions of chapter 104 of the general laws of 1833, not exceeding 555.870.53 and interest due thereon shall be redeemed by exchanging. Therefor acfunding warrants for the amount of the principal and interest lawfully assessed thereon at the date of such change. The principal of said refunding warrants shall be bayable three years after the date of the issuance therof and the same shall bear interest at the rate of 5 per cent. per annum payable semi-annually at the office of the territorial treasurer, but any of the said refund-warrants may be redeemed by the government. warrants may be redeemed by the governor at the time of the maturity of any installment of interest falling due after a period of two years subsequent to the date of the issuance thereof by payment to the lawful owner and holder of such refunding warrants of the principal thereof and of the interest which shall have accrued thereon prior to the date of making such redemption. After tender by the treaturer to the holder of such refund-ing warrant of

as aforesaid for redemption thereof, interest upon the principal of such refunding warrants shall cease. The principal and interest of said refunding warrants shall be paid out of any money in the treasury, not otherer-wise appropriated, as the respective duties of maturity of said interest and principal. Within ten days after the date of the passage of this act it shall be the duty of the passage of this act it shall be the duty of the treasurer to give notice by mail to each of the holders of warrants now outstanding to present the same to him for redemption in the manner hereinbefore provided, within twenty days from the date of such notice, and in case of the failure of the holder of any of said warrants now outstanding to so any of said warrants now outstanding to so any of said warrants now outstanding to so present the same for redemption within ninety days from the passage of this act all interest upon the same shall thereafter cease. Provided, that in case the territory shall hereafter be divided into two territories or states that territory or state in which the city of Bismarck shall be situated shall be exclusively liable for the payment of the principal and interest of said refunding warrants.

Aikens fought the amendment and the passage of the bill vigorously. He said the

passage of the bill vigorously. He said the capitol commission has issued warrants il-legally, and they had better be left just where they are, and the board of commis sioners should be allowed to exist. claimed it was a scheme to saddle the debt on the territory, and he thought this ought not to be done until the territory could clear title and deed the land on which the capitol stood. Otherwise it would revert back to the Northern tory had no claim on the capitol, and was not responsible for warrants issued, ostensibly to get funds with which to build the These warrants he thought the board of commissioners should be responsible for. Aikens fought well, but the North had laid its wires too well, and the amendment was adopted and the bill eventuall passed on a vote of 26 to 22 as amended The South is anxious that the North should pay for the capitol since they have it, and they don't want to have a hand in it themselves. Dr. Stewart is a South Dakota man, but he wanted a soldiers' home and got it, through the friendship of the North.

Consequently he was UNDER OBLIGATIONS to that faction. In regard to the matter Alexander Hughes, president of the capitol commission board, in an interview with the GLOBE correspondent this afternoon, said: The deed for the capitol grounds merely follows the act of the legislature and contain nothing which the law and act itself would not add to shortest and simplest form of war-ranty deed that could be devised. The act in substance provides that the territory through the medium of the capitol commission shall the medium of the capitol commission shall invite contributions in money and in lands; that the lands shall not be less than 160 acres in quantity; that the same shall be properly platted and laid off; that a proper quantity for the site of the capitol building and its appurtenances shall be reserved: that the residue not needed for such uses shall be appraised and sold for the best price obtainable, not less than the ap-praisement, and that the proceeds shall be oaid into the capitol building fund. The legal effect of any donation of lands in the territory inder this act will instantly be recognized by any lawyer. The lands are received by the territory for the specific purposes named in the act and for those only, and the territory cannot lawfully divert them to any other use or purpose than that which the act itself

cifies. If the territory, having asked an obtained A GIFF OF LAND for one purpose, should then turn around and seek to divert it to another, the donor irre-spective of the form of his deed could at once reclaim such part of the lands as remained unsold and the unexpended balance of the proceeds in the hands of the territorial treas-urer. This is a plain, simple rule of law and, equity, applicable to all courts and founded on the most manifest rules of common hon-esty as between man and man. All the terri-tory could possibly do with the lands donated

by the railroad company under any form of deed that could be made would be: First, to use so much thereof as seems proper for the site of government buildings, and second to sell the remainder and apply the proceeds in the construction and repairs of such build ings, including repayment of the funds advanced out of the general public earnings for the same uses. The bill has yet to go through the council

and pass the governor before it can become a law. There is little doubt that it will pass the council, but the governor, it is unlerstood, will not approve a bill that provides for the payment of a debt out of the general fund in the territorial treasury. In conversation with the GLOBE repre tive to-day he said he had laid the following proposition bearing on the subject be-fore some members of the legislature, and it seemed to him to be the only fair way of disposing of the matter.

disposing of the macer.

THE PROPOSITION IS THIS:

That an act be passed by the legislature providing for the issuing of first mortgage providing for the issuing of first mortgage bonds on the grounds and on the captol, which will be a lien on 160 acres and on the capitol on condition that the Northern Pacific rail-road people agree that this shall be a lien on the capitol and capitol grounds. This is for the purpose of obviating any question that may arise, that in case of a removal of the capital the land will revert to the Northers

Pacific Railroad company.

Second—That the quarter section be likewise conveyed by the Northern Pacific railroad with a proviso in the deed that it should be sold in lots and the money used for the completion of the capitol. It may be appraised and sold at such time, or in such manner as the legislature may direct, and the fund arising therefrom shall be pledged towards the payment of the interest on the mortgage bonds and principal to run at a low rate of interest, and to be redeemable at the option of the governor. The act to furthe provide that the interest on the certificate provide that the interest on the certificates of indebtedness shall cease after a certain time and the holders to exchange for bonds to the amount of the certificates which are in round numbers \$55,000 The mortgage bonds

antee the payment of the interest and principal of the bonds. There would be almost money enough realized in my opinion on the sale of lots to fund all the certificates and in sale of lots to fund all the certificates and in the event of the legislature at some future time making an appropriation to pay off any balance of the mortgage bonds that remain unpaid, they could further provide that these bonds could be assigned to the territorial treasurer in trust for the benefit of the terri-tory thereby preserving the lien for all money advanced by the territory for the re-demption of said bonds on the capital and

tained, the territory could with safety guar-

demption of said bonds on the capitol and land, and consequently there would be no possibility of the territory ever losing anything by the transaction, for the reason that the capitol building and 160 acres of land on which the same stand are undisputably worth

which the same stand are undisputably works more than \$55,000.

This is the governor's position on this question and unless his ideas are followed out in the main in the bill the probabilities are it will get a veto.

HIS CONDUCT CRITICIZED. Gov. Church to-day approved the bill creating the office of public examiners, providing that two men, one from South Da-kota and one from North Dakota, should be appointed to fill the offices. The governor in sending in the bill to the council this afternoon, with his approval, nominated for the offices C. N. Harris, of Aberdeen, and Mayor A. Edwards, of Fargo. Harris is a Democrat and Edwards is a Republican and his appointment to this undoubtedly most lucrative office that is tory is a source of a great deal of surprise among the friends of the new executive. Mayor Edwards is editor and proprietor of the Fargo Argus, and can, as he undoubtedly will, make the office an exceedingly profitable one to him, as he has free access to the accounts of all county boards and public institutions in North Dakota, and he can, if he will, use means to induce these boards and those institutions to purchase their books and stationery of him. What influences were brought to bear upon the governor to make this appointment are known only to himself and those of his friends who live in his shadow. It cannot be told to-night whether the council will confirm the appointment or not. It is given out that Dr. Galloway, Donovan and Lawler, three Democratic members of the council, will not vote in favor of Edwards' confirmation.

HE DOESN'T GET IT. The nomination of Edwards for the office of public examiner has created a great deal of dissatisfaction here among Republicans and Democrats, and Gov. Church has announced that he will withdraw the name from the council to-morrow. In an interview to-night Gov. Church said he had been taken advantage of, and he had made the appointment on the recommendation of men whom he supposed were his (Church's) friends. He congratulates himself that he discovered his mistake in time to rectify it.

OTHER APPOINTMENTS. Charles F. Templeton, a Democrat, was to-day nominated by the governor for the office of attorney general. The appointee is a citizen of Fargo and a member of the law firm of Spalding & Templeton. He is 30 years of age, a native of Vermont and a graduate of Dartmouth college in 1878. He is a very shrewd member of the legal profession, and the appointment gives general satisfaction. The following appointments were made to fill vacancies on the board of trustees of the Bismarck penitentiary: L. Shattuck, Fargo, Dem.; John Russell, Valley City, Dem.; A. J. McCabe, James-town, Dem.; H. C. Plumley, Fargo, Rep. The appointment of Eugene A. Dye as superintendent of public instruction was to-day confirmed by the council. TEE AITCH.

### HONORING THE DEAD.

Preparations About Completed for the Funeral of the Late Henry Ward Beecher.

The Ceremonies at the House Will Be Attended Only by the Family and Close Friends.

The Remains Afterward to Be in State for a While at Plymouth

Rev. Joseph Parker, of London, Pays a Tribute to His Deceased

NEW YORK, March 9 .-- The arrangements for the funeral of the late Henry Ward Beecher are not yet completed, bu it has been decided that it shall be a public one. At the house the services will be strictly of a private nature, in compliance with the wish of the family. Dr. C. H. Hall, of the Church of the Trinity, an old friend of the famous preacher, will officiate. None but the family will be admitted within the gift of the governor of the terri- to these services, which will be of the simplest nature. The body will be escorted to Plymouth church at the close of the funeral service by the Thirteenth regiment, of Brooklyn, of which Mr. Beecher was chaplain. The regiment will then pass by the body, which will be laid in front of the platform. They will then be dismissed and will leave Company G, which is known as the Plymouth company, and is composed chiefly of members of Mr. Beecher's congregation, to remain on guard while the body is laid in state in the church. The church will remain open all day Thursday, and the friends and members of the congregation will have the first privilege of passing before the body. On Friday the church will be opened to the public. This course has been rendered necessary in consequence of the extent of the friends and admirers of the great divine. The citizens' committee. of which ex-Mayor Seth Low is chairman, will have charge of the body until the interment on Saturday.

It will rest in the church on a platform raised six inches from the floor of the church. The feet will rest towards the east so that the people passing up the east aisle and in front of the pulpit will get a full view of the features as they pass along slowly by the bier. They will turn to the right at the head of the coffin and then out into Orange or Cranberry streets. On Thursday but those having tickets will be admitted to the church. The tickets will be given to pew holders and others entitled to them. Each pew holds five persons, and only four tickets will be given to the pew holders, the other tickets being reserved for visiting members of G. A. R. posts, prtvileged persons and personal friends. It was expected that an overflow service would have been held in the Academy of Music, but that building could not be obtained as it was engaged. The private funeral services will be held on Thursday and the public funeral services will be held on Friday. Brooklyn's buildings to-day DRAPED IN MOURNING.

LONDON, March 9.-Rev. Dr. Joseph Parker, pastor of the City temple, whose guest the Rev. Henry Ward Beecher was during his recent visit to London, publishes a tribute to Mr. Beecher's memory. He says he does not hesitate to pronounce Mr. Beecher the greatest preacher who ever

lived, and continues:

We who have bowed with him in prayer know with what might of humility, penitence. faith and love he stormed the Kingdom of Heaven. His moral fearlessness was consistent throughout. It was in vain to threaten Mr. Beecher. Having made up his mind no Luther was better prepared to face loss, infamy or desertion. I never heard him say one unking word of any enemy. When Mr. famy or desertion. I never heard him say one unkind word of any enemy. When Mr Beecher left my house he put his arms around my neck, kissed me and said: "Good bye, old fellow, I love you." These were the last words I heard from Mr. Beecher's lips. My house is larger and brighter because Mr. Reecher tarried there. Mr. Beecher and his wife used to call themselves two old folks. Verily, they might have been young lovers, so devoted were they to one another. I wish to be at Mr. Beecher's grave in spirit to take one short look at the place where his body lies, and thereafter to look steadily upward to heaven, to which he has ascended.

# ALL READY FOR THE FRAY.

The National League Managers Complete Their Work.

A Schedule of the Games to Be Played This Season. .

New York, March 9 .- When the delegates of the National base ball league met at the Fifth avenue hotel this morning, it was announced that a reply had been received shortly after midnight from Kansas City, accepting the first offer of the league for their players, namely \$6,000, the second proffer of \$3,500 for five of their men, with an extra \$500 for Radford, not being satisfactory. The agreement was closed on these terms. The Washington men secured the four players for whom they have been contesting since they gave up the hope of adding Glasscock to their team, namely, Donnelly, A. Myers, Whitney and O'Brien A long discussion took place over the draft schedule of games for the coming season, and though it was at one time announced that it had been accepted just as brought in, it was not in final shape at noon. F. K. Stearns was elected director to fill the place of Mr. Menzies, when the latter retires shortly with the Kansas City. By unanimous vote which is necessary to carry out a measure conflicting with the constitution, it was resolved that on any vacant date in the championship season the home club should be permitted to play any championship games scheduled for other dates with other league clubs, or exhibition games with any non-league club, if said dates are not re quired for postponed championship games. The convention then adjourned until next year. The Kansas City association has

possession of a franchise in the Western league and will organize a new club. The following is the schedule of games for the coming season adopted by the National base ball league to-day:

The first number of the Northwestern Sportsman, a new weekly publication to ap-pear March 12, under the business management of Alfred Rhodus, with Burt W. Lyon as managing editor. Headquarters have been established in the Union block, corner of Fourth and Cedar streets, St. Panl, and the publication will start out under very aus-picious circumstances, being backed by plenty of capital. It will be a sixteen page quarto devoted exclusively to sports and theatrical matters. It will make a special feature of base ball, and arrangements are being made to cover all games in the three leagues, the National, the American and the Northwestern. The initial number will be illustrated with a lithographic group of the St. Paul team for this season. Ramsey Crooks will hold down the position of dramatic editor.

The secretary of the Northwestern Base Ball league, under directions of President Roche, has issued a circular calling for a
