It is the duty of all Danes to protect the reputation of Danish women, and the statement made against their chastity is an outrageous lie. The speaker assured his hearers that their country, though small, was as great in the reputation of its people as either Norway or Sweden.

Judge Fish, the conservative major began his defense. He was clever yesterday, dealing out shoulder hits on every side. One of the prominent denials in property business are made daily. It was learned yesterday that Rev. C. R. Ferner, a poor parson at Mt. Pleasant, Pa., had invested \$300 with him and the only return he received was a note for one year from Dec. 24, 1937.

Ferner sent this correspondence and note to a friend in Minneapolis with the request that he look it up, but it came too late. It was disclosed yesterday that the deed to his residence, which Baker gave White & that he had definitely in his bond, was void on account of a wrong description, evidently intentionally made.

When Frank Plummer heard this he immediately recorded his deed, and if there is enough left after paying the mortgage he may save his share of Baker's bond. There is a liability of \$31,000 on the property, of which Judge Ames holds a mortgage for \$12,000 and a man named Clompiet a deed of trust for \$9,000.

Several new suits have been brought against Baker's Debenture company in an endeavor to secure attachments, and it is now a question of how far the stockholders are liable.

The board of directors of the Masonic Temple association met last evening to consider the bids for the construction of the temple. There were five full bids put in, but all of them exceeded the architects' estimate from \$20,000 to \$50,000 or more.

The board was unanimously of the opinion that something was wrong with the bids, and that the building could be erected for no more than was originally estimated. All bids were rejected, and it is now probable the board will call in and put up the building itself, as individual members declare it shall be under roof this summer.

Granite will be used in building the new Postoffice. Several other ministers championed the resolution, one of them hitting the nail squarely on the head when he said the papers were looking only for such matter as would make them sell.

The resolution was finally adopted, and the secretary was instructed to write out the papers hereafter. It was doubted by some whether the papers would print such a report after made, but the point was not pressed.

The reporters gathered up their implements and quitted the room, and hereafter "Orthodox Ministers Exclude Reporters" will be known to the assignment book no more.
