Duluth Wheat.

Special to the Globe.

Duluth, June 6,—Wheat was moderately active to-day and reached \$4c\$ higher than saturday's close. The demand was good and the markets showed an improvement. Chicago sales of June were made on the curb as high as 9349c. Had there been a regular session there our own market would have been much livelier and probably advanced still more than it did. The shipping demand is fair and all the available tonnage continues to be taken for shipment. The close was easy, and little doing. Cash Wheat—A car of No. 1 hard, to an iye after the 7th, sold 824c.

No. 1 hard, fresh, \$154c and \$2c. At the close it was worth \$24c. June sold at \$134c early, and closed at \$24c. No. 1 Northern sold at \$04c, July opened at \$34c, eased on to \$315@834c, immed up and advanced under a fair demand to \$35c, and closed with sellers at that, \$34c bid. August sold at \$44c and \$5c. September sold at \$5c. and was worth about \$54c at the close. Afternoon Board—The market was active and firm, July sold at \$34c up to \$9c and closed at \$4c. August sold at \$44c and \$5c. Lake tounage is as scarce as ever, and ander big demand rates rontinue to mount skyward. Saturday afternoon they got to 74c in Buffalo for wheat tomage from this city and that was paid here saturday evening. To-day \$c is asked and nothing can be got here under that rate. It seems Duluth has been chartering both here and at Buffalo and at Cleveland or wherever they could get track of tonnage and this fact has had a tendency to help along the advance pretty fast. New York vesselmen refuse to take coal for this city, preferring to come back light for wheat cargoes, as the advance in quicker trips pays better than an up-trip cargo at present rates. Cars on track 177. Wheat shipments last week, 1,036,877 bg; flour, 29,324 bbls.

limited extent. Later in the day there was a sudden spurt in Western Union, based upon wide spread rumors that a dividend would shortly be declared upon the stock, which scheme is said to be favored by several of the most influential stockholders. Under this stimulus a better feeling became noticeable throughout the entire list. There was extensive covering of shorts in Pacific Mail throughout the afternoon, and the stock made a material advance. The improvement in the market was also aided late in the day by a reduction in the rates of sterning exchange. Besides the stocks mentioned above, there were large dealings in Wheeling and Lake Eric at advancing prices, though the gains made are generally attributed to the efforts of the clique now bulling the stock. The remainder of the list was quict and without feature, the fluctuations being extremely narrow, except in a few specialties, prominent among which were Tennessee Coal and Iron and Marquette. Houghton & Ontonagon common, both of which broke badly in the forenoon, but made partial recoveries toward the close. The opening was moderately active and weak, first prices showing declines from Saturday's figures extending to be per cent. Fort Worth and Denver and Wheeling and Lake Eric showed considerable strength, both making fractional advances, while further declines were established throughout the remainder of the list. After the first hour a firmer tone was imparted to the trading, notwithstanding which Tennessee Coal dropped 3 per cent. Western Union suddenly dropped into inactivity after 12 o'clock, displaying at the time unusual strength. The general list became firm and fractional gains were recorded. Pacific Mail afterward became the leading strong stock, while Marquette, Houghton & Ontonagon dropped 31 per cent. GIVE YOUR CHILD A START IN LIFE.

A VALUABLE ST. PAUL LOT FREE SOME LUCKY BABY.

Competition Open to the World, from the White House to the Humblest Home.

With the object of giving some one of the great mass of struggling humanity a start in life the Globe has determined to originate and carry out a plan which it is pleased to designate "The Babies' Beneit." The Globe has purchased an eligible lot in the center of the present limits of St. Paul. There is nothing rash limits of St. Paul. There is nothing rash or improbable in the assertion that the lot will easily bring \$10,000 before a baby at the present time becomes of age. It is proposed to give this lot, free of any incumbrance, to some baby who is fortunate enough to hold the lucky number. The deed will be made to the parents, who will be required to hold the lot in trust for the child until it becomes of age. There is no charge for tickets. They are Free to All—who have babies born between January 1, 1887, and August 1, 1887. The parents have only to clip out and fill the following blank, enclose it in an envelope, and send it to "THE GLOBE, St. Paul, Minn.—Babies' Benefit."

Physician. 10 70. ata

These tickets will be numbered as fast as they are received, and checks with corresponding numbers sent to the pa-rents. On August 15, 1887, the drawing rents. On August 15, 1887, the drawing will take place, supervised by a committee of responsible and well-known citizens, and every baby will have a fair and equal chance. The signature of the attending physician or the postmaster must be attached to the ticket, or no notice will be taken of it. This is necesary to prevent imposition by designing or would-be funny people.

The result of the Drawing will be published in the Globe of August 15, 1887

The new week on the stock exchange opened with a quiet-and rather listless market, in which a half adozen stocks completely monopolized the interest and two of these made the temper of speculation at different periods of the day. The announcement of the proposed extra issue of the stock by the St. Paul company, coming as it did after the unfavorable bank statement of Saturday, created a marked depression in the Granger stocks in which the general list sympathized to a House Special Commission.

145-172 Minnesota berries having made their appearance in St. Paul, Illinois and Iowa fruit has been given the go-by in the most decided manner. Prices are very firm and steady. At present there is no outside inquiry for butter as there is nt certain seasons of the year and as a general thing commission houses have to rely solely on supplying the local consumption, and this has been interfered a good deal with by country shippers
