The Disposition of the Crowd on the Chicago Board Was Bullish.

But Outside Speculation Was So Light That Little Buying Was Done.

Transactions in the Financial Circles of Wall Street---The General Quotations.

Сысько, Sept. 21.—There was a bet ter un dertone to the wheat market to-day and prices were well sustained, despite the fact that the crowd was bearish and depressed and cables lower. The blackboard pre-sented a rather better face, exports being 157,000 bushels and primary points receipts 467 000 bushels. There was only a moderate inquiry, but the presence of speculative offerings was not excessive, and there is less hedging against wheat in the Northwest. The mills in the Northwest and around about St. Louis are rushed with business, and as millers are making big money they are no longer under the necessity of protect-ing themselves by hedges. A leading St. Louis miller, who was on 'change to-day, says 70 per cent. of the new crop of wheat in Southern Illinois has been marketed and that 60 per cent. of the Missouri crop has passed out of farmers' hands. Corn opened firm, but the market softened under free speculative selling. The price slid off ½c on increased receipts, estimates for to-morrow being 510 cars, when less than 400 had been counted on. October broke from 41½c to 41c, November from 41¾c to 41½c, and May from 44¾c to 44¾c. The market was fairly active and the temper of the crowd bearish. Provisions sold off to-day on heavy receipts of hogs and lack of investment support. October ribs led in the decline, breaking from \$8.45 to \$8.30 in ten minutes, re-covering 10c, however, but again going to \$8.20. January ribs dropped from \$6.2712

\$8,20. January riss dropped from \$6,272 to \$6,1742. The market

at the decline. Lard displayed symptoms of weakness, October declining by noon from \$6.35 to \$6,3242; November from \$6.30 to \$6.271₂, and January from \$6.371₂@6.40 to \$6.35. January pork declined from \$12.30 last night to \$12.20. The grain market had a very solid closing at 1 o'clock. Wheat quotations at that time was at the outside for the day, and corn regained a portion of the ground that had been lost. The markets were active and excited during the last quarter hour of the long session. The jump in wheat was due to the fact that the scalpers discovered, or thought they did, which amounts to the same thing, that Ream and Cudahy had been picking up the wheat on them and were about to give the shorts a whirl. Afternoon markets-The crowd has been bearing wheat for several days. A big buying order was received just before the 1 o'clock close, was received place below the 1 of colors these and there was nobody left to sell. December was advanced to 72½c and then to 72½c, with little trading. At 72½c millions of bushels changed hands, and the pit was not cleared for ten minutes after the tap of the bell. The market held firm during the afternoon section and electing press were at the noon session and closing prices were at the top. 2:30 p. m. prices—Wheat, October, 6958@6934c; December, 725c; May, 784sc. THE ROUTINE REPORT.

CHICAGO, Sept.21.—While the disposition of the wheat crowd on 'change to-day was rather bullish, outside speculation was so light that nothing was done in the way of pronounced buying. Considering the lightness of speculation in wheat, values held remarkably steady during the greater part of the session. As on yesterday, shortly before the close, there was an attempt on the part of wheat shorts to cover. In a few minutes some old time activity was seen in the pit, and wheat went up lige at once before the closing bell rang, and it was with difficulty that the officers of the floor could stop the trading and excitement in the pit. All futures sold at least 4c over the official quotations and the close at 1 p. m. The receipts show something of a falling off to-day, aggregating at twelve points 595,000 bu, and the shipments were larger, footing up 468,000 bu. The shipping and export demand was limited and interfered with by the advance in European freights. October opened at 69c, declined to 6834@687ac, reacted to 694sc, declined to 6844@687ac, reacted and closed at 6911-16c. Corn

acted to 694%c, declined again to 683%g/083%c, reacted and closed at 6911-16c. Corn showed considerable weakness, due in part to the large receipts announced for to-morrow (510 cars), and partly to the large offerings of prominent local operators when it was moderately active. The market opened at about the same as yesterday's closing prices, with offerings free, and prices declined %c0½c, the near futures showing the greater weakness, then ruled firmer and closed 440%kc lower than yesterday. October opened at 41½c, sold down with small fluctuations to 41c, advanced and closed at 41½ (40 May opened at 44½c, receded irregularly to 44%c, recovering to 44%c, the closing price. Oats were nearly lifeless. There was no change in prices except late in the afternoon, when September was marked up ½c higher. Holders of provisions unloaded freely, owing to the unexpectedly large receipts of hogs and the consequent decline of 150/20c in the market value of the animals. There were no outside buying orders of consequence, and prices of October short ribs opened 7½c lower, at \$8.45, tumbled to \$8.20, rallied to \$8.30, receded to \$8.20 and at 1 o'clock were \$8.22½ a net decline of 30c. Later \$8.25 was bid. About 500.000 pounds were traded in. January declined 5c and closed at \$6.20. Lard was offered more freely and declined 2½605c. October sold at \$6.32½c06.37½ and closed at \$6.35, January at \$6.40. Pork for January sold at \$12.204(2.27½ and closed at \$12.22½ bid.

Special to the Globe.

Duluth, Minn., Sept. 21.—The market was active and strong, and the demand good, a great many orders from the outside being on the floor. Other American markets were firm and advancing, with business more lively. The tone seems to be stronger than at any time during the past two weeks. The greatest drawbacks are small clearences and heavy receipts in the Northwest. These receipts are much smaller than at this time last year, and there seems to be a demand for all that comes in. Cash and September were readily taken and at a good premium over October. Not less than 180,000 bu September, which is the same as cash, was sold. This may be taken for shipment and it may be for covering short wheat which has not come in. Foreign markets were generally reported firm and steady. and lower at \$4.794@4.80 for sixty days, and \$4.84@4.844 for demand. The stock market to-day was slightly less active than on yesterday, but was equally feverish and subject to sudden changes from activity to dullness and strength to weakness and vice versa. The activity was most noticeable during the weak spells in the forenoon, and later in the day during the strong periods. There was a disposition to await the action of the treasury, but in the absence of liquidation the bears attacked the list again with marked success. The weakness was intensified after the small amount of funds offered became known, but a better feeling prevailed later, and the bulls assumed command of the market. The general opinion seemed to be that the small offering of bonds indicates that the government has absorbed the floating supply of the 4½s and will have to buy 4s and 6s in order to relieve the pressure upon the money market. The notice of the limit offerings caused a rush by the bears which, notwithstanding the resistence offered by the purchases for foreign account and the more influential room traders, forced prices down sharply for a short time. The overesold condition of the market is shown by the fact that most of the active stocks loan at a premium for use, and the bulls assert that any attempt to cover the outstanding shorts would precipitate a rise of 10 per cent. The activity in Reading was very great, but its influence upon values was not greater than Western Union, New England or St. Faul. There were no special favorites in the list, but all were equal sharers in the movements of the day. Under the influence of a more hopeful feeling and purchases by the foreigners, prices were materially higher at the opening, advances ranging up to 3s per cent. The advance was were sustained by some of the specialties. The market rallied, recovered most of the loss, but again became weak and active before noon and from ½ to 1¼ per cent. was knocked off of values with Western Union leading the decline, though it was later displaced by New England. The decline received an impetus after 12 o'clock, and the lowe

Produce Exchange. Live poultry is very abundant, with large daily receipts, requiring the shading of prices to move stocks. A moderate supply of prairie chickens have been arriving regularly, but the supply is not large. Some ducks and pheasants are coming in, but the supply is not large yet. Apples are without change. Trade in cranberries is not very active, with liberal stocks on hand, and objection is made to any except those of good quality. The butter market is inclined to be a shade easier on everything except strictly fancy dairies, which are picked up on arrival at steady prices. All other grades are in good supply and buyers have no trouble in sorting up stocks. Eggs are steady at quotations.

Cables from the old country are getting to be regular chesmuts in their style, for the regulation remark is about as follows: "Cables come in weaker; weather perfect."

A prominent broker just returned from the Northwest says the farmers have their wheat all well stacked and that they are kicking all the time about prices.

The markets all accound had a firm tone. The markets all around had a firm tone yesterday. Duluth and Chicago quotations ran up ½ a cent and the home market seemed in sympathy. Sewer on Iglehart and Other ran up 1/2 a cent and the home market seemed in sympathy.

S. S. Linton has returned from a business trip he took through the western country. He reports a pleasant time.

The good demand for eash wheat for export at Duluth was partly the cause of the rise in prices at that point.

Lindblom to Peacock: No pressure whatever to sell wheat, and there is some demand. Receipts are very small.
