Two railroads already built to them, and business blocks are being built far out on Rice st., which is to be a great thoroughfare and business street, while prices are lower than almost any property so near the city. There are also hundreds of men who are paying \$10 or three times \$10 per month for rent, who can attend this sale and buy two or three lots on nice elevations with shade trees, and in 12 months stop the rent leak and have homes of their own, which in ten years will make them also independent. It is only necessary to look ahead instead of looking back for these men to act sensibly and make these investments. It is pure business to do so. A savings bank in one case and a home in the other. We want 100 houses built in Rice Street Villas in 1888 to benefit our other property, and we will aid all who buy to make a loan and to help them through.
