merchatile paper 6@812. Sterling exchange dull but steady at \$4.814 for sixty-day bills, and \$4.8414 for demand. The stock market to-day was duller than on any day so fur this week, but the tone was strong throughout, with decided strength in a few stocks. London was again a buyer, and the cliques purchased freely on foreign advices, while professionals offered the only resistance to the advance, though some bulls were moderate sellers, especially in the forenoon. The bear attacks were successfully met, and the short interest, which is very large in Western Union, Union Pacific, Lake Shore, St. Paul and Missouri Pacific, was not reduced to any appreciable extent. St. Paul was the pivotal stock, and the trading in it was very large, while it was notably strong throughout. Union Pacific was notably strong throughout. Union Pacific was next in point of interest and on its good showing made the largest advance of the day. Missouri Pacific attracted a good deal of attention, and was strong until the last few minutes, when the gains were lost. The usual dividend is aunounced for the 15th inst. The general list was dull, and for most of the day without special feature, though the tone was firm throughout. The only weak spot was Wheeling & Lake Erie, which reached its lowest price for the week owing to a rumor that the company was about to issue additional stock, but this is denied by Mr. Dillon, who says that the present stock will be made preferred and placed on a dividend basis. The bank statement for to-morrow was looked forward to with great interest, as a large increase in the reserves, expected on account of the large disbursements, though these may not how fully in the statement. The opening was strong at advances over last evening 's final figures of from '§ to \(\frac{1}{2} \) per cent generally, while Kansas & Texas and Jersey Central were exceptional, the latter being up 7s. Further gains were made throughout the list, Union Pacific being most noticeable. Lack-awanna also attracted some attention, but afte after 2 o'clock extreme dullness marked the dealings and prices stagnated until the last hour, when realizations sagged the list off small fractions, though the close was steady to firm at slightly under the best prices of the day. Almost everything is higher to-night, but the advances are for fractional amounts only except for Union Pacific which rose 1½; Louisville & Mashville, Norfolk & Western preferred and St. Paul, one per cent each. Railroad bonds were dull but firm. Sales, \$964,000. Closing figures generally show small advances. Government bonds were dull and steady. There is hardly any change in this department in prices, and as to business it is about the same one day as it is another. Butter continues very firm, especially for the best qualities, and the demand is sufficient to clear up suppties. Cheese is quiet. Cranberries very firm, with a tendency to advance. Dressed poultry is the thing that is in doubt. Large quantities were on hand immediately after Thanksgiving, and dealers were fearful of the consequences. The Cold snap came to their rescue though, and they could safely pack away their stock. Now, however, there has been a great modification in the temperature and holders of stock are fearful of the results.

The products must inevitably follow them to the end. New York, Dec. 2,—Cotton certificates had a very irregular market, with numerors sharp fluctuations in value. Altogether it proved a sort of liquidating market among those who think all probable new influences have been exhausted, with no fresh developments of an outside character, except that "Wall street" unloaded pretty freely at one ime during the day. After gaining sone 4 o 6 points, the rates receded 15 points, and hen recovered 5 to 6 points again, closing teady.
