A GENERAL STRIKE.

The Miners Decide to Recognize the Railroad Men's Troubles,

And Have Ordered All Men Out, and to Stay Out Until a Settlement.

Iron-Clad Leases Being Put Into Operation on Some of the Strikers.

Everybody Anxiously Waiting for To-Morrow to See What Corbin Says.

POTTSVILLE, Pa., Jan. 11.-Subdivision 12 of the Miners' National District No. 135, unanimously and officially decided to-day to recognize the railroaders' troubles and join forces with them. In order that all concerned could have full participation in making this decision, the joint committee reserved the subdivision's report and telegraphed the thirty local assemblies in the coal regions to at once send three representatives, with full power to act, to meet the joint committee here this evening, when final and sufficient action was taken. The Reading city executive committee took similar action. Secretary Benzman, in the name of Chairman John L. Lee, officially promulgated the strike order by which not a colliery goes into operation as long as the Reading company uses non-union train hands to ship their coal. This has been finally and assuredly determined upon. The terms of such a settlement are now given out by the labor leaders here as

First-All matters looking toward a settlement must be submitted to the joint strike committee. Second—The 8 per cent to the miners must be continued.

Third—All train men discharged after the order was given to return to work to be reinstated.

Fourth-All new men put on to take discharged men's places must be taken Fifth-All men discharged for attend-

ing labor meetings to be reinstated. Sixth—The trouble at Port Richmond and Elizabethport to be arbitrated after-

On Monday evening the Mechanics' assembly, comprising machinists, car-penters and skilled workmen employed in and about Pottsville by the Coal and Iron company, decided almost unani-mously that they would not strike under any conditions, no matter who gave the order. A like action was taken by the skilled mechanics at Reading City. The order to strike issued to-night included, however, all laborers, helpers, yard hands and miners employed at the shops and overwhere not rewest. and everywhere not now out. This ae-tion was suggested at the general executive board conference, snd when the strike is in force the leaders are to offi-cially place it before the board and they

to place it before Powderly.

SCOTT'S MINERS GO OUT.

PITTSBURG, Pa., Jan. 11.—The mass meeting of Scott's miners at Industry yesterday voted to strike. There were color three discenting. dissenting votes. Knights of Labor and Amalgamated association miners promise to pay each striker \$4 a week and each head of a family 50 cents a week additional for each child under fifteen years. This support will be given for a year, if needed. Supt. Hossacks, of Scott's mines, said the men were violating their agreement with Mr. Scott and they would not get the increase.

THE STRIKERS ORDERLY.
HAMOKIN, Pa., Jan. 11.—The Enterprise is the only colliery in operation to-day. This colliery started yesterday, the miners receiving the 8 per cent, and no coal to be shipped over the Reading railroad to be handled by non-union railroad to be handled by non-union men. The Reading company has a large force of special policemen on duty here, but the strikers are orderly.

here, but the strikers are orderly.

ALL ARE IDLE.

ASHLAND, Pa., Jan. 11.—Everything is quiet here to-day. All the collieries are idle, and the outlook is gloomy. Our streets are crowded with idle men. But they are all quiet and orderly; they seem cheerful and are generally sangune of winning. Business men hope that some satisfactory way out of the difficulty may be discovered, but the outlook is not encouraging. The joint meeting here to start the Big Run mine failed and the colliery is idle.

meeting here to start the Big Run mine failed and the colliery is idle.

ONLY INDIVIDUAL MINES RUNNING.

MOUNT CARMEL, Pa., Jan. 11.—The only collieries in operation in this neighborhood are the Belle-Moore and Mount Carmel, both controlled by individual firms. The capacity of these two collieries is about 225 cars daily. They ship over the Pennsylvania railroad. Not a single colliery belonging to the Reading company is in operation.
All is quiet among the men.
CORBIN'S PROPOSITION.

PHILADELPHIA, Jan. 11.—It was learned this evening from a delegate that the proposition of Mr. Corbin, whatever it is, will be presented to a meet-ing of the business men of Pottsville to be called at once. It was gleaned that the merchants are to undertake to treat in some manner with the strikers' leaders, with a view to coming to an un-derstanding. This is the reason why it was impossible or indiscreet to divulge

the facts of the conference to-day.

EXCITEMENT AT READING.
READING, Pa., Jan. 11.—There was considerable excitement here this afternoon over an expression reported to have been made by President Corbin, of the Reading railroad, that the strike is not now a question of miners' wages alone: that the miners have made the train-men's fight their own, and would not go back if arbitration were promised them. It is claimed that under no circumstan-stances will the miners go to work unless all trainmen discharged after the order was given to go to work be reinstated. There has been no improvement to-day in the traffic of the company. Not a coal car has come down the road this afternoon and only 150 loaded cars went afternoon and only 150 loaded cars went through Reading from the indlyidual collieries during last night and up to noon to-day. New rules for the guid-ance of the railroad company's em-ployes in this city, issued by Supt. Swe-gard, have just been posted in all the shops. They are regarded as unusu-ally stringent, and the men have been discussing them all the afternoon.

discussing them all the afternoon.
SOMEWHAT BRIGHTER.
PHILADELAPHIA, Jan. 11.—The Record for to-morrow, in speaking about President Corbin's conference with the coal region business men, will say that it lasted nearly an hour and a half, and the ground was fully gone over in that time. Among other matters that were brought to the attention of President Corbin were the resolution adopted at a general meeting of the business men of the region, and which were in effect that an effort should be made to bring both sides together to arbit bring both sides together to arbitrate the question. A member of the committee stated that President Corbin said he would be willing to hold a conference with the representatives of the organizations who are out on a strike. The result of the interview will be brought before a general meeting of the business men of the coal regions, to be held to-day (Thursday). At Pottsville, the position of the company was put by President Corbin, remarked Chairman Whalen, "in a new light, and we were told some things that we did not know before. I think the prospect of a settlement of the difficulty is not so far off as many persons believe."

EVICTING THE MINERS.

A Hazelton Employer Putting Into Force an Iron-Clad Lease. WILKESBARRE, Pa., Jan. 11.-Ario Pardee, of Hazelton, began ejecting his striking miners yesterday. He filed in the office of the prothonotary the lease

between the company and Thomas Gray, one of his striking employes. The lease is of exactly the same iron-clad character as those in the famous Hazelbrook eviction case. By it the tenant waives every right and protection he has under the law. He agrees that the company shall retain the rent out of his wages, confesses judgment for an amount of rent, which is left blank for amount of rent, which is left blank for the company to fill in, and also signs the provision styled an "amicable suit in ejectment," by which, without hear-ing or trial, he stands convicted of tres-pass and can be ejected on five days' notice. On this "amicable suit" a writ of ejectment was issued against Thomas Gray and placed in the hands of the sheriff and will probably be served sheriff, and will probably be served to-day and Gray and his family thrown out. This, it is understood, is a test, and if the proceeding goes through a wholesale system of eviction will be inaugurated.

TROUBLE ANTICIPATED.

Indications of a Strike Between Chicago Painters and Hardwood

CHICAGO, Jan. 11.—The trouble b tween the house painters and the hardwood finishers which T. B. Barry, of the general executive board of the Knights of Labor, was sent to Chicago to investigate, is assuming such an acute form that a strike is not improbable. The strike would be by one labor organization against another, the painters wishing to drive the hardwood finishers out of the business. The question of nationality also enters into the fight, inasmuch as most of the furniture workers, including the hardwood finishers, are Germans or Scandinavians, while the painters are largely Irish. The painters want to do all the hardwood finishing on the buildings and to confine the members of the Hardwood Finishers' assembly to furniture work in factories, which the painters are not skilled enough to do.

ILLINOIS LABORERS.

A Large Attendance at Their Annual Convention in Peoria.

PEORIA, Ill., Jan. 11.-The annual convention of the Illinois State Labor association was resumed this morning with a much larger attendance of delegates, and considerable interest was manifested in the proceedings. At the opening of the session a large number recommendations from labor bodies of recommendations from labor bodies in different parts of the state were presented and referred. Among them was one asking that the state platform be so amended that the article asking for the appointment of a state board of arbitration be changed to a petition for a law requiring all difficulties between employers and employes to be settled by the appointment of arbitration committees; that the clause demanding the enactment and enforcement of a law prohibiting all kinds of gambling be stricken out, and that the clause calling for the enactment of an efficient apfor the enactment of an efficient apprentice law be left without alteration. The platform, it is understood, will de-nounce pools and trusts, condemn the law which makes strikes and boycotts a criminal offense, and call upon the wage earners to use their political power in the interests of labor instead of those of political parties.

J. ELLEN FOSTER,

Manager of the Temperance Legislation, Turns Her Attention to National Fields.

special to the Globe DES MOINES, Io., Jan. 11 .- Readers of Washington dispatches have noticed for a day or two that Senator Allison pre-sented to the senate numerous petitions f rom several congressional districts in Iowa asking that congress repeal all revenue laws concerning the manufacture and sale of liquors. These petitions have an inside history much more interesting than the petitions themselves. It seems that they have been prepared in obedience to a request made by J. Ellen Foster, the noted temperance advocate of Iowa, to the vice presidents of the temperance organizations in each congressional district of the state. This modest demand is dated at Geneseeo, Ill., and relates that it is the signer's desire that all vice presidents write to Iowa senators and to the congressman of their district, stating that that all revenue laws touching the manufacture or sale of liquo's shall be re-pealed by this congress. Personal let-ters are more influential than petitions. She writes this to the superintendent of national legislation, and she closes with the request to "get as many others in your district as well-ministers, profes-sional men, business men, farmers and women—to write a short, crisp letter. I am informed that some of the strongest men in Washington favor the repeal." Mrs. Foster having bossed temperance legislation in Iowa for many years, has now turned her attention to the national fields.

Two Bishoprics Probable.

It is also said that Jamestown, in North Dakota, and either Mitchell or Sioux Falls, in South Dakota, will be made cathedral towns. Yankton has heretofore been considered the most likely selection. Bishop Marty is at present located there, and his residence, convents, cathedral and other buildings which naturally cluster around the bishop, are there, and for this reason it is extremely probable that the headquarters will not be removed. the headquarters will not be removed. In North Dakota Fargo, Bismarck, Grand Forks and Jamestown put forward great efforts to secure the resi-dence of the new bishop when he is ap-pointed. It is the general opinion that Jamestown is the favorite. The peti-tions and propositions were forwarded to Rome last July.

For several weeks the roads in the Western association have been struggling over the proposition to make a round trip rate for all parties that wanted to visit St. Paul during the continuance of the ice carnival. From the thuance of the ice carnival. From the beginning there has been a very strong determination on the part of most of the roads to resist the effort for a reduction of rates, and many meetings have been held to discuss the subject. At last the matter has been accomplished. At a meeting held yesterday at Chicago it was determined to put on sale tickets to the carnival at half fare rates from St. Jo, Atchison, Leavenworth and Kansas City. It is slitogether probable that the City. It is altogether probable that the St. Louis roads will do the same.

CHICAGO, Jan. 11 .- Although more than half a dozen lines have drawn out, the Western States Passenger association to-day agreed to continue the organization, there being left some twenty roads to keep it up. The principal defection is that of the Chicago & Alton in the Southwest, which goes out Alton in the Southwest, which goes out in order to be in fighting trim to meet the Wabash, and the Minnesota & Northwestern in the Northwest, which is also inclined to play a lone hand. In order to provide against possible reductions made by the ouside lines, the chairman of the association was to-day authorized to meet the cut rates at once authorized to meet the cut rates at once, without the delay of five or ten days' notice. All the lines are given the privilege of withdrawing at fifteen days' notice. It is the general opinion that when a settlement of the present Western troubles come the withdrawing lines will again become members, and in the meantime the form of an association will serve as a sort of balance ation will serve as a sort of balance wheel to prevent the complete demoralization of rates.

WORK FOR THE SNOW PLOW. The Jamestown & Northern Badly Blocked---The Snow Plow at Work.

The Jamestown & Northern road has had a very rough time of it during the last ten days with the snow. No trains have gone out during this time and the express offices have been loaded with express goods. Nearly a week ago the third rotary snow plow arrived in St. Paul and was immediately hurried up in that direction and has been set up and it is expected it will be undoubtedly put at work to clear this road of snow. All the other branches and the main line of the Northern Pacific are clear of snow and trains are running regularly, though on account of the severe cold they are run more slowly and carefully, and consequently are a little behind.

The preliminary examination of John Gillespie, charged with assault in the second degree, committed upon Fayette Marsh on Saturday last, occupied the municipal court all day yesterday and will be continued to-day. L. L. Manwaring, associate municipal judge, who was talking with defendant when Mr. Marsh came up and the quarrel ensued, was one of the principal witnesses examined. His testimony was to the effect that Mr. Marsh approached Mr. yette Marsh's Jaw. feet that Mr. Marsh approached Mr. Gillespie and asked some questions about a suit to which the latter was one of the parties, when Gillespie retorted in an abusive manner. Soon both parties were engaged in an angry dispute, and when his back was turned he heard a blow struck and saw Mr. Marsh stagger and fall. He caught his assailant, but was not able to hold him and both men clinched. A crowd collected and they were separated. Dr. G. T. Clark was examined next. He testified to having been called to see Mr. Marsh after the fight and found a large-sized indentation on the right cheek an inch and a half below the eye. Further examina-tion showed that the maxillar bone was broken, which could not bone was broken, which could not be set without making an incession in the face which would result in a permanent sear. This Mr. Marsh does not want to submit to. Dr. Watier's testimony corroborated that of Dr. Clark. of a Duluth Man.

Special to the Globe. DULUTH, Jan. 11 .- The item referring to the attempt of a New York syndicate to oust settlers from public lands published in the St. Paul Dispatch yesterday is an outrageous canard, and has been found to have its origin with two Duluth reporters for St. Paul and Minneapolis afternoon dailies, who are paid for work according to number of dispatches printed. When pressed for information one of the reporters said the news was received from land officers, but all people connected with the land office positively deny any knowledge of the rumor and pronounce it purely sensational. The Evening Herald, of tonight contains the following communication:

To the Editor-As near as can be To the Editor—As near as can be ascertained, there is a big piece of chicanery going on at Cloquet to which the attention of the government has been called and assistance asked in preventing a fraud of huge proportions, and with a view to giving the bona fide settlers unqualified and inalienable rights to the property they have prempted. There are at present at work in the Cloquet pine region three gangs of surveyors. One is in the employ of a New York syndicate and the other two New York syndicate and the other two are employed by a certain railroad corporation. Texans and Mexicans Planing for a Large Irrigating Canal. El. Paso, Tex., Jan. 11.—A movement is on foot in Western Texas and Southern New Mexico to secure federal aid, if possible, in building a monster irrigating canal from 200 to 230 miles long for the purpose of reclaiming vast tracts of land that are now arid wastes. It is proposed to start the canal at a point on the Rio Grande above the "Jarando del Murto" in New Mexico, and carry it along the high lands of the Rio Grande valley as far below El Paccoca. carry it along the high lands of the Rio Grande valley as far below El Paso as it is found practicable. The federal government will be asked for a subsidy in the form of a grant of land on the ground that such a canal would bring on the market large tracts of govern-ment land that are now worthless. A conference of citizens of El Paso and delegates from Southern New Mexico delegates from Southern New Mexico was held here yesterday, and it is probwas need here yesterday, and it is probable that one or more representatives will be sent to Washington soon to further the plan.

Gets \$250,000.

MONTREAL, Jan. 11.-The celebrated discontinued to-day. Frank J. Boehmer ease of Admiral Boxer, of London, Eng., against Fred Judah, Q. C., an advocate of this city, has been settled. When Henry Judah died some years ago, Admiral Boxer sued the estate for \$250,000, and the case has been in the courts for the last five years. The whole matter has been compromised

with Mrs. Boxer, the admiral's widow. and she receives payment of her claim to the extent of \$250,000 with interest.

Admiral Boxer was a near relative of Mrs. Arthur Boxer, of St. Paul, who lives with her mother, Mrs. Capt. Cavanaugh, of Tenth

Largely Attended Meeting at Indianapolis for the Purpose of Organization.

INDIANAPOLIS, Ind., Jan. 11 .- A

largely attended conference of Indiana Democrats was held to-day, in response to a call issued recently by the Hen-dricks club of this city. The committee on permanent organization reported the name of Gov. Gray for permanent chairman, and the choice was approved. The governor was received with great ap-plause and in response said: "The Dem-ocratic party never was in better order, and after the next convention I think it will be found that the Republican party is a party of the past. This is no time for speechmaking, and I simply add here that whatever there is of me, and all of me, will be deveted to recking the all of me, will be devoted to making the Democracy triumphant in the coming election." The resolutions indorse the administration of President Cleveland, welcome his recent messages and recom-mend Gov. Gray to the Democracy of the nation as a candidate for the vice presidency nomination.

Fought Fifteen Rounds.

NEW YORK, Jan. 11 .- Eugene Hornbacker, of this city, and Billy Clarkson, of Philadelphia, each weighing 112 pounds, fought fifteen rounds to a finish in an up-town club house to-night. Clarkson got sick in the fifteenth round and threw up the sponge. The fight lasted one hour and two minutes. Jack Reagan was referee. Hornbacker's eyes are closed, his nose broken, and he lost several teeth. Clarkson is badly cut about the face.

Handicapped by the Cold. Frank Dingley started to break the 100-mile indoor bicycle record at 8 o'clock at the Washington rink, Minneapolis, last night. Whittaker and Mc-Curdy speeded him during the first two hours. The rink was cold, and it is not thought he stands a show of doing his best. His object in making the attempt is to win a \$200 prize offered by a bicycle manufacturing company.

A \$16,000 Race. The Whittaker-McCurdy bicycle race will come off this afternoon at 3 o'clock at the Washington rink, Minneapolis. Yesterday \$3,000 a side, in addition to \$2,000 a side already up, was deposited with J. L. Black, making \$5,000 a side. To-day before the start an additional \$3,000 a side is to go up, making \$16,000 wagered on the result of the five-mile race. No admission will be charged spectators spectators.

CAL CURE FOR CATARRH will afford instantaneous relief.

But this treatment in cases of simple Catarrh gives but a faint idea of what this remedy will do in the chronic forms, where the breathing is obstructed by choking, putrid mucous accumulations, the hearing affected, smell and taste gone, throat ulcerated and hacking cough gradually fastening itself upon the debilitated system. Then it is that the marvelous curative power of Sanford's Radical Cure manifests itself in instantaneous and grateful relief. Cure begins from the first application. It is rapid, radical, permanent, economical, safe.

Sanford's Radical Cure consists of one bottle of the Radical, Cure, one box Catarrhal Solvent and an Improved Inhaler; price, \$1.
