THE STORM'S VICTIMS

It is Now Believed That the Death List Will Exceed One Hundred.

Scotland, Dak., Reports a Large Number of Dead and Many Still Missing.

Casualties Very Numerous About Huron, Dak., and Adrian, Minn.

The Terrible Story Told by Persons Rescued in the Nick of Time.

The list of casualties from the great storm of Thursday is still far from complete. Already the names of ninety-three persons who perished have been printed, but new names are constantly being added to the long roll, and it is now believed that more than 100 went down to death before the terrible blizzard.

AN AWFUL STORY. Special to the Globe.

SCOTLAND, DAK., Jan. 15.—The great storm of Thursday has left the railroads and wagon roads in such a blocked condition that it is impossible to get full reports, but enough has been learned to place the list of fatalities far above that of any storm in the history of the country. At this writing the bodies of twelve people, frozen to death within a distance of thirty miles of Huron, have been found. Within the same radius six or seven people are missing, and it is feared that they too have perished. In this county the dead bodies of six have been found. They are those of Joseph Kooren, a farmer ten miles west of Scotland; Nels Halliburton, a farmer, living five miles west of Scotland; the eight-year-old son of Michael Hoff and Mrs. Frank Ballois, near Tyndall. This afternoon the dead bodies of A. J. Winters, a traveling man from La Crosse, Wis., and his driver were found on the prairie near Tyndall. Parties have been dispatched for the bodies and they will be taken to Tyndall. The bodies are all large all through this section and will aggregate many thousands dollars. The weather has been intensely cold since the storm and there is great suffering in many places. The work of opening the railroads was commenced this morning, but it will be several days before traffic will be resumed.

SPECIAL TO THE GLOBE. HURON, DAK., Jan. 15.—Parties reached here from Alpena, this afternoon, with the news that a blizzard had a house five miles from home and three from where he left the Nirson boys, who were frozen to death. It appears that the blizzard had a house five miles from where he left the Nirson boys, who were frozen to death. It appears that the blizzard had a house five miles from where he left the Nirson boys, who were frozen to death.

HELEN, DAKOTA CASUALTIES. Special to the Globe.

FARGO, DAK., Jan. 15.—So far as reported, the loss of life was very few cases of loss of life in the late storm. Yesterday the body of a man not identified was found in the river north of Lakota. A farmer started home from Lakota, but he could not face the storm. He was found on one of his horses, badly frozen, but still breathing. The other horse froze to death. The man was found near St. Paul on the Northern Pacific, but not on the other roads.

STUART, NEB., Jan. 15.—Mrs. Chapman, aged fifty-one, and her two grandsons, aged five and seven, were found frozen to death twelve miles north of town. On Wednesday morning they were found in this place with a pair of ponies and a sled. The ponies were still standing hitched to a sled. A farmer named Matthews and his wife were also found frozen to death. Other names are missing.

LAKE BENTON, MINN., Jan. 15.—The thermometer indicated 42 deg. below zero here this morning. Considerable snow has been reported from here. The mail carrier from here to Pipestone, was lost in the snow, and released his team and burrowed in a drift, where he remained over night, and escaped with only slight injuries by frost. He was brought in today.

ONAH, MINN., Jan. 15.—The thermometer is rising slightly here. Last night the thermometer registered twenty-five, and in some parts of the city thirty, between ten and twelve deg. Reports are still coming in showing that there were a great many fatalities throughout the state as a result of the blizzard.

CANNON FALLS, MINN., Jan. 15.—No

trains have reached this place since Thursday morning, and no mails have been received. It is hoped that the blockade will be raised to-morrow.

CLEARING THE TRACKS. Special to the Globe.

TRACY, MINN., Jan. 15.—The snow plows and shovellers made a start to-day in clearing the Dakota Central road to-day and cleared about three miles of track. The passenger train, which has been blocked on that road eight miles from Tracy, will probably be ready to start to-day. The passengers and crew, excepting the express messenger and baggage man, have left the train, some going to Balaton and others to Tracy. The Winona & St. Peter west, has been cleared for about twenty miles, and a train of about fifty miles remains to be cleared between Kassia and St. Peter. Eye before the blockade east will be raised.

THE BEAUTIFUL CHURCH OF THE REDEEMER

The Beautiful Church of the Redeemer, a Mass of Ruins.

Nothing But the Four Gables and the Spire Remains Standing.

A Tough Fight for the Fire Laddies With Fire and Frost.

Loss and Insurance Even—Several Small Fires Last Night.

The beautiful Church of the Redeemer, Minneapolis, one of the most elegant and costly of the religious edifices of this city, was entirely consumed by fire yesterday. Nothing but the four bare gables and the tall spire remain to the people of that flourishing congregation. The fire began at 8:30 yesterday morning and burned steadily until after 9 at night before the destruction of the building was complete. The church was a mass of ruins, and the origin was in a disconnected flue of a furnace undergoing repairs. The janitor was sick yesterday and sent his son to heat the church, and the boy was unaware of the fact that one of the five furnaces was being repaired. He built a fire at the corner of First avenue and Eighth street, but three efforts failed, and he had to go to Twelfth street to get an alarm in. By that time the fire had gained great headway, and when the superintendent arrived, the even the main auditorium could be entered. In the meantime, however, the first floor was forced and the piano, pictures and other articles were rescued. For twelve hours, in the bitter frigid weather, the firemen fought the flames, but at such disadvantage that the general conflagration of the neighborhood. The water supply itself was limited, and the firemen were almost at a standstill at the time, the apparatus was handled with the greatest difficulty. The large windows of the church were covered with a thick coating of snow, and the firemen, which was of necessity, all done from the outside. Eight steamers were called in to assist, and many streams played upon the fire, but the long range gave the cold an opportunity to act and the water was broken by the snow, and the firemen could not enter the building, and all that could be done was to play upon it from the outside.

IT WAS ALWAYS difficult to extinguish a burning auditorium, and in this case it was doubly so. The pitch of the floor, which was almost unobtainable, made necessary, gave plenty of inflammable material and the fire roared on uncontrolled. It was 3 o'clock, or after the fire had been burning for six hours, that the huge roof fell with a succession of crashes. From this time forward the fire burned slowly and the firemen did not enter the building until after 9 at night. The casualties were as follows:

DAVID KELLY, blacksmith; leaves a widow and two children.

JOHN J. TUTTILL, laborer; leaves a widow and two children.

WILLIAM WRIGHT, laborer; leaves a widow.

JOHN EVERETT, merchant; left leg broken.

GEORGE DECKER, right leg broken.

ALBERT SHOCKER, left internally.

LORIAN T. MANNING, bruised about arms and legs.

WILLIAM STUBBINS, GEORGE KERNICK and WILLIAM HOUSE, painful contusions.

They Remember Yorktown. PARIS, Jan. 15.—Mr. McLain, the United States minister, in a letter to M. de Freycinet, congratulating his readiness to attend the banquet in celebration of the battle of Yorktown, says that the celebration recalls for the French their glorious past and for the minister the most glorious of his own. He continues: "It is to the ancient battle of Yorktown, the American soldiers in battle fields in the world that is due the strong current of sympathy which has never ceased to draw republicans of America together. I greet in the French soldiers present at the banquet the representatives of the French army and the president of the French republic, a toast to whom I desire you to propose in my name."

Both Badly Punished. SCOTSDALE, PA., Jan. 15.—A bare knuckle prize fight took place near Connelville at daylight this morning between two pugilists named James Melton, alias Jim Smith, of New York, and Michael O'Malley, of Youngstown, the former being the challenger. The fight from the start, and in the fourth round knocked his opponent out. The mill was for the gate receipts, and was pressed by about 30 persons. Both men were badly punished.

A Brewery Damaged. NEW YORK, Jan. 15.—Fire in Ebling's brewery, Harlem, today caused damage to the extent of \$38,000, which is covered by insurance. The fire is attributed to spontaneous combustion.

LOSS AND INSURANCE. About a Stand-Off—The Church's Future Plans.

The loss is somewhat difficult to estimate accurately. The church was built during the boom times, when material and labor commanded high prices and cost \$80,000. The masonry work was very substantial, and if the walls are not injured beyond slight repair it is likely that the \$50,000 insurance carried

WILL DIE IN PRISON.

Terrible Charge Made Against Mr. Balfour by Mr. Wilfrid Blunt.

He Imprisons the Weakest of the Parnellites to Kill Them Off.

Why Lord Salisbury Is Rendering Fawning Submission to Hartington.

Samuel J. Randall Described as an Ignorant Man by a Correspondent.

DUBLIN, Jan. 15.—The Freeman's Journal says: "Wilfrid Blunt, being personally persecuted and fearing that he will be removed to a worse prison, feels bound to state the grounds upon which he fears that the Parnellite leaders are to be imprisoned. While staying at a country house in the South of England in September he met Mr. Balfour, who made the statement that he intended to imprison six of the physically weakest of the Parnellites, adding: 'I should be sorry for Mr. Dillon, as he has some good about him; he will have six months, and as he is in poor health, he will die in prison.' After the Michelstown affair Mr. Blunt went to Ireland and warned Messrs. O'Brien and Dillon. 'Mr. Balfour,' says Mr. Blunt, 'became aware of this, to which I attribute his violence in the Portland trial. I feel unsafe in Mr. Balfour's hands. Unless protected by those responsible for the direction of prison discipline I should incur the risk of ill-treatment, or perhaps a worse worse.' In response to an inquiry Mr. Balfour said: 'The story is a ridiculous lie. I do not believe that Mr. Blunt conveyed the assertion attributed to him.'"

A POLITICAL TRIMMER.

Savage Attacks on Lord Salisbury—An Estimate of Randall.

LONDON, Jan. 15.—A considerable portion of the Tory press continue to attack Lord Salisbury's Liverpool speech, and are particularly venomous in their comments on his references to the tariff. Why the premier should pursue such a policy or advocate movements upon the lines and to the advantage of Mr. Gladstone, say these journals, when he took office to reverse the Liberal's policy, seems incomprehensible. It is precisely what they conceive him to be doing. It favors very much of ingratitude for Conservative papers to denounce the man who has sacrificed much of his self-respect and endured so great a degree of humiliation in his endeavored to restore relations with the Unionists that the Tories might retain control of the government; but these journals show no disposition to spare him on this account.
