THE GENERAL OPINION. The returns are pretty nearly all in our favor, even from the remotest sections of the country.

THE FISHERIES TREATY. It seems that the ornamental fisheries commission did have something of the useful about it after all, though just how useful it has been cannot be decided until it is seen whether the treaty, which is the result of their labors, will meet with the approval of the various bodies which must pass upon their labors.

ON THE OTHER FOOT. The appropriation shoe is on the other foot just now so far as Chicago is concerned. It was but a short time since that, fearful of a still further independence upon the part of the Northwest, that Chicago derided, ridiculed and denounced the application of an appropriation for the purpose of improving the "Soo."

merited rest, the voters of Wisconsin might well inquire whether it would not be well to extend his vacation indefinitely, and to put in his place an energetic Democrat with some idea of what is due his state and the people whom he serves.

SHERMAN'S INDIFFERENCE. Senator SHERMAN is something of a philosopher after all. He says he doesn't care a continental whether he is nominated or not.

MINNESOTA DEMOCRATS CANNOT USE HIM AS A GOVERNORIAL CANDIDATE. Many Minnesota Democrats believe that their party can carry that state, providing that the Democrats will nominate an independent Republican who will meet the views of the Democrats on tariff reform and be endorsed by them.

MONKEYS. The following composition on monkeys was written by a Sioux boy of fourteen years, who is now a student at the Marquette Indian school. Three years ago, when the youngster left his home on the Rosebud agency, he could not read or write, or even speak a word of English.

THE DYED MOUNTAIN. The Democrats in this vicinity say that McGill will be nominated for governor, and that will give them a clear walk over in the fall.

A NICE LITTLE BOOM. Hon. William R. Merriam, of St. Paul, has really as nice a little boom for governor as any we know of.

ST. PAUL TO THE FRONT. There is a sanguine prophet thinks St. Paul will be elected in a few weeks, at a commercial center, and that her population will equal or exceed that of Chicago.

STANDARD OIL NEWS. The Standard Oil company operates its newspapers as it operates its dead oil and naphtha fangs—through dummies and stool pigeons who stand for it, directly or indirectly, as stockholders or owners in the guise of the public.

THE PACIFIC TREATY. When asked the chairman of the house committee if the central Pacific road could meet its debt in partial payments for fifty years, Mr. Huntington answered: "You have the record of what it is doing, and certainly will pay it in no time."

THE BEST KIND OF POLITICS. One of the many things which drove the Republican party out of power was the habit of honoring its rascals instead of punishing them.

THEY ALL WANT IT. Eye-gougers, Rusk's friends are sedulously brushing up his little presidential boomlet since Blaine's letter was fulminated.

DEAF BULL at least deserves credit for originality. For an ice palace affair last night's banquet exhibited very little leanness.

and admired his princely presence the other day, that Joel P. Heatwole would make a dandy congressman. But don't infer that we are looking him for the office. He is a fine old fellow, but the senatorial timber of the Heatwole kind to spare in Minnesota.

jumpers did not go, whereupon the mayor ordered his force to "bounce them" and then to tear down their shanties. The tents and fences, which were promptly done and guarded, prevented the jumpers' return. The jumpers say they will ask help of the United States marshal.

TRoubles of a School President in a Washington Territory Mining Town. PORTLAND, Ore., Special: Ruby City is the principal place in the Salmon river mining district in Eastern Washington territory. It is a typical mining town, and contains a hotel large enough to accommodate fifty persons, several restaurants, a number of saloons and other stores and houses, including a school building. A bright and energetic school superintendent, three school directors, and a teacher elected one of their number, a hardy miner who has worked with the pickaxe and shovel, teacher of the school. He resigned at the end of the month on the ground that he did not possess the necessary amount of funds to hold the position. The directors, on being put to the test of designating his successor, found that no one in the town was competent to hold the office.
