

FRIENDS OF DAKOTA.

Mr. Springer Indignant Over the Charge That the Democrats

Are Opposed to Admission as One State Without Delay.

The Republicans Are in the Way, Not the Democratic Party.

Harvey Wilson Tones Down His Remarks--Good Words for Day.

WASHINGTON, June 8.—Concerning the alleged indifference of the Democratic party in the matter of the admission of Dakota to the Union of States this morning, "It is tiresome, but not irksome to me, to hear that old and miserable lie. Every Republican who talks about Democratic indifference to the rights of Dakota knows in his heart and teeth that he is a low and nasty prevaricator. He knows that his words are as false as the Republican party is in favor of the admission of Dakota in time even to let her vote at the coming presidential election, and her admission could have been accomplished during the last Congress but for the pig-headedness of the Republican secessionists, who seem determined to sever the union of the States at this time. No one can be tried on a large scale, and it is not a popular doctrine in this country. Dakota can come into the Union, one and inseparable, and I shall vote for her admission at any time, and at any times. Let the Republicans give us an opportunity and we should soon make a state of the territory. She is big enough, populous enough, and rich enough for her admission. No one can advocate her admission with more enthusiasm than I do. Republicans are dissemblers when they pose as the friends of Dakota. They know that the Democratic party to a man wants statehood for Dakota."

THE WILSON INTERVIEW. He Did Not Mean to Be Understood Just in That Way.

WASHINGTON, June 8.—"I am sorry that you published that interview with me," said Harvey L. Wilson, of "Is-marek," "because it will not do me any good. I didn't know that you would put it in that way, and it seems to me that you might at least have let me see it before you sent it out for publication. "But, you were in Baltimore and out of reach. "No matter, then you oughtn't to have sent it out. It is all true as gospel, of course, and I wouldn't deny any of it, so far as it goes; but, don't you know, it doesn't tell the whole story. It simply puts me in the attitude of coming to me here to Washington and jumping on M. H. Day, and that isn't what I am here for. I said a number of things about Mr. Day, but they were complimentary of him, and the entire people know that he has commendable qualities. But the space devoted to the interview will take up by denunciations of Day. Now, if you will give me room in this week's issue to say something more rational and commendable of Day, I shall feel better."

"Of course, Mr. Wilson, you can praise any one you please. I don't like him as well as I once did, I simply want to be fair with him. He is an old settler of the territory, and he has a friendship of such men as Ziebach, Taylor, Miller, Bangs, McCormack, and it doesn't sound well for a young man like me to appear to be devoting his energies to abusing a man who has helped me in my business. I am not editing on anything I said before. But, when you come to think of the fact that M. H. Day, without patronage, had such strength as to enable him to organize a convention of his own in opposition to the regular convention of the party, it is well to remember that such a man has a personal following and is strong in his party. He is not a fallen leaf, by any means."

"In what way can the published interview hurt you?" "I can't hurt me. I didn't say that. I said it will do me no good. That is, as it stands, it gives me the appearance of jumping on a man when he is doing no man does himself any good by doing that sort of business. When you published that interview the delegates were assembling for St. Louis, and it looked to me like an effort to hurt Day at a ticklish time. I did not so mean it, and that is what I meant by expressing regret for it. There is nothing that I would take back. I still say Day would betray his friends to make a political point for himself. That is true."

THE TWO NEW JUDGES. Aberdeen the Only Town Thought of for the U. S. Court.

WASHINGTON, June 8.—Delegated Gifford is informed that Aberdeen wants something. This is also stated by Gifford in the Canton statesman. It seems that inasmuch as additional judges are to be provided for the territory in order to whittle down the immense dockets, the modest citizens of unpretentious Aberdeen have conceived a possible United States court which might be located in Brown county, as well as anywhere else. For convenience in preparing an outline of the proposed Seventh judicial district, Brown county is included in the territory. The names of the judges are: Marshall, Grant, Roberts, McPherson and the reservations. It never occurs to the fellow-

townsmen of Ordway Johnson and Maj. Barrett that possibly there might be room for the court in Redfield, Le Beau, Milbank, or any other considerable town. But seeing that the court will be necessary, and possibly an accessory to a bill which shall be introduced in the near future for a public building, the people of Aberdeen are up their horns to permit their horns to be exalted, so that they are heard in the land.

DAKOTA DIVISIONISTS Said to Be Glad at Springer and W. T. to Defeat Him.

WASHINGTON, June 8.—The information reaches here that a coterie of Dakota divisionists have raised a pool for political purposes, have purchased thousands of the Dakota speeches of Senators Davis and Spooner, and are sending gory trophies by Hon. W. M. Springer with those speeches. It seems that the threats of the divisionists are not without bottom to the ears of the Republicans, and a determined effort, to defeat Springer this year. It is not generally known, but it is a fact, that Dakota men have taken a keen interest in securing Springer's defeat in '86. The divisionists are intensely mad at Mr. Springer because of his splendid advocacy of the union of Dakota.

Stands by His Friends. Special to the Globe.

WASHINGTON, June 8.—"You may quote me as saying that I have as high an admiration for M. H. Day and his political sagacity as I ever had for any man," says Judge J. J. Offenbacher, of Deadwood. "I am not in harmony with him on many personal questions, and a determined effort, to defeat Springer this year. It is not generally known, but it is a fact, that Dakota men have taken a keen interest in securing Springer's defeat in '86. The divisionists are intensely mad at Mr. Springer because of his splendid advocacy of the union of Dakota."

King for Congress. Special to the Globe.

WASHINGTON, June 8.—A prominent Republican leader in Southern Dakota loses the following clipping from the Grand Maxey, Herby in a letter to the GLOBE correspondent, and asks: "What is there in this?" "Hon. John King is being strongly urged by many personal friends, and his successful work in behalf of the Sioux reservation opening, the residents of the Black Hills and all the South Dakota men think there is nothing too good for him."

Nelson Says "By Gum!" Special to the Globe.

WASHINGTON, June 8.—The Nelson bill for the opening of the Red Lake reservation still hangs under the table in the Daves committee room of the senate and is getting edge-watered by the Grand Maxey, Herby in a letter to the opening of the Sioux reservation and the Montana reservations to go through his committee, feel that they are having a bitter partisan, but possibly that he imagines a still small voice whispering "well done" to him. But he is mistaken. It is the voice of a man who has done his duty, and his words to that effect. Candidly Mr. Daves is needlessly dilatory in the matter of the Red Lake bill; obstinately slow is saying but little."

THE WEEK IN FARGO. Ladies on Beer Kegs--A Jubilant Democratic Fete--The Musical Fete--Firemen's Tournament--No Bureau Needed--Philanthropic Editor.

It is evident that the ladies of Fargo have actually sat down upon the business--the seats for them at the memorial banquet were not taken up by beer kegs. As to what the kegs contained before or after the services, your dependent knows not. It is evident that the ladies of Fargo have actually sat down upon the business--the seats for them at the memorial banquet were not taken up by beer kegs. As to what the kegs contained before or after the services, your dependent knows not. It is evident that the ladies of Fargo have actually sat down upon the business--the seats for them at the memorial banquet were not taken up by beer kegs. As to what the kegs contained before or after the services, your dependent knows not.

What absent minded men may do, will represent the other day by H. M. Day, of musical name, who while on the witness stand in an important case, was asked his name, age and occupation. His reply was: "H. M. Day, thirty-one years of age, and the June musical festival commences June 26, and everything is moving along smoothly." Thus it is seen how completely his mind is absorbed with this, to be great musical event of the Northwest. Arrangements have been completed for the accommodation of 200 people, besides the orchestra and chorus. The building is to be lighted by the Thompson-Houston incandescent light, the Argus name is prominent in the program. Great preparations are being made for the North Dakota Volunteer Firemen's tournament, at Grafton, which is to be held on the 12th, 13th and 14th of the present month. President J. C. McKendry, of this city, and Secretary Judge Gray, of Wahpeton, have been named as judges. The arrangements and fees assured that the low rate of only one cent a mile will insure a large attendance. The companies participating will be from Bismarck, Mandan, Jamestown, Casselton, Valley City, Wahpeton, Hillsboro, Grand Forks, Minot, Devils Lake, Mayville, Grafton and Fargo. Prizes are being offered in each city to the most energetic efforts to secure their proportion and so much more. The prizes are being offered in each city to the most energetic efforts to secure their proportion and so much more. The prizes are being offered in each city to the most energetic efforts to secure their proportion and so much more.

COMES BACK SMILING. Special to the Globe.

ST. THOMAS, Dak., June 8.—A heavy thunder shower occurred here this morning. Lightning tore the side out of C. B. Walker's residence and also struck the George H. Christian elevator, and it was burned to the ground together with 3,000 bushels of wheat. The St. Thomas Lumber company's stock narrowly escaped destruction. The citizens worked bravely and the fire is now under control. Loss of elevator about \$8,000; insured.

of electricity torturing his voluminous brainworks to devise schemes to make life a continuous holiday for the farmers. He proposes to relieve them of all taxation, give them a bonus on their improvements, show them how to sequester their wheat, and beat the elevator sharks and secure economy in the county expenditures. To promote their interests, he is even willing to go to the council and enact such laws as they need. Whether appreciation and gratitude will dominate in the rural heart, is one of the problems that even Father Potter does not feel clear about in his mind.

Fargo loses one of the ablest clergymen in Rev. K. A. Beard, who has accepted the position of superintendent of Congregational missions in Washington territory.

A VETERAN EDITOR. Cotemporary With Jackson and an Encyclopedia of American History.

JAMES TOWN, June 8.—William Rathbone Kellogg is one of the oldest newspaper men in Dakota. He was born the same year that "Old Hickory" was elected president--1828. His memory is stored with the details of American history for the past half century, and he has seen and heard many of the men who have figured most prominently in politics during that period. He was educated at Jonesville academy, Pennsylvania, was brought up among Democratic surroundings, and, until 1861, was a follower of

Jackson and Douglas. Soon after the death of the latter, Mr. K. became a Republican, and has been unwavering in his allegiance to that party ever since. He advocated the cause of the Union arms, and has always regretted that ill health prevented him from going to the field. He is an ardent, sometimes, perhaps, a bitter partisan, but socially genial and kind. His children have married and are settled in the states, and by the recent death of his lamented wife he is now alone; but he still retains a great interest in the training and development of the young, and is active in Sunday and mission school work, besides editing his numerous and exacting editorial duties.

A PROBABLE JUDGE. Mr. Hickok, comparatively a recent arrival, came here to the office of the Deadwood National bank, of which he is the present cashier and head. By close attention to business, uniform fidelity, industry, and an intuitive knowledge of the law, he has within the time built up a very handsome clientele, and now manages the executive part of the bank.

Born in 1856, at Philadelphia. Removed to Lambertville, N. J., about 1870. Received an academic education and commenced the study of law. In the fall of 1877 went to Philadelphia and entered the office of Francis Rawle, now treasurer of the American Bar association. Entered the law department of the university of Pennsylvania in 1877 and secured his degree, "Bachelor of Laws," from that institution in 1879. Admitted to practice in Philadelphia early in that year. Removed to New Hope, Pa., in the fall of 1879 and commenced the practice of law there, where he continued until 1882. Admitted in 1882 to practice in the supreme court of Pennsylvania at Philadelphia, and shortly thereafter, in the summer of 1882, came to Dakota and located at Hope, Steele county, where he entered upon the practice of the law, remaining at Hope until the spring of 1885, when he removed to Grand Forks, forming a partnership with George H. Walsh and afterwards with C. B. Pratt. He was a candidate for district attorney of Grand Forks county at the last general election on the Democratic ticket, came to Fargo in the spring of 1887 and entered the office of Ball, Wallin & Smith, attorneys, and is still practicing law in this city.

HAPPY IN THE HILLS.

For Their Reduction Tests Are Favorable and Works Are to Be Built.

Narrow Gauge Railway--Eastern Capitalists Are Coming to Invest.

Thousands of Dollars Will Go to the Grand Jubilation on Fourth of July.

More Railroads Are Needed to Prevent Delay From Waterspouts.

DEADWOOD, June 7.—The date has at length arrived and passed. Stockholders of the Deadwood Reduction company have held their annual meeting. Of the 6,000 shares of stock issued 4,400 were represented. These voted unanimously for the election to the directory of Harris Franklin, Seth Bullock, George C. Hickok, Ben Baer, Col. C. W. Carpenter, J. K. P. Miller and James H. Adams. At a meeting of the board held subsequently Harris Franklin was elected president; James H. Adams, vice-president; George C. Hickok, secretary and treasurer; Prof. R. D. Clark, superintendent, and an executive committee consisting of C. W. Carpenter, Ben Baer and Seth Bullock appointed. If any reason for delaying work except the waterspouts existed, the new board has already demonstrated it no longer obtains. Surveys were made of the ground Tuesday, and grading the site for the building is now nearly completed. In the meanwhile bids, to be opened on June 5, have been invited for furnishing 125,000 brick, of which 100,000 will be used to build. Prof. Clark will at once go to Chicago and thence to New York, to purchase necessary machinery, and every confidence is entertained that the works WILL BE IN OPERATION BY AUGUST 1.

IN CONNECTION WITH THE plant and already a few members have commenced arriving. Six hundred visitors are expected, and dinner preparations have been made for their reception. A ball will be given at the opera house on the night of the 11th, at which 1,500 people will attend. The event is promised to prove a memorable one in the history of Dakota Masonry.

THE CITY COUNCIL held its regular session on the night of the 5th. A meeting after the ordinance that passed, will largely cut down the perquisites of the city attorney, now allowed \$8 each time a man arrested for drunkenness is taken to the jail, which appears against the unfortunate or not. The party to be affected was present and craving the indulgence of council, and the ordinance, closing his remarks by a personal attack on the councilman offering it. The latter replied in kind language, and within a few minutes the meeting was over. It is believed that the ordinance will wind up in a rough and tumble, go-as-you-please, free-for-all fight. Fortunately, the meeting was over before the bell-ringers for the time. The end of the matter is not yet known, but it is generally conceded that the present city attorney must go.

AN EARLY INDIAN TRADER. Perils and Adventures Among the Pierce Sioux in the War Periods.

DEADWOOD PLANT will have an original capacity for treating fifty tons of ore per day. The mines are not yet fully opened, and the amount. It has been announced that the present corporation would, therefore, increase the size of its works before the winter sets in, and has yet to do, but in the meantime another strong organization was formed which proposes building a large plant near the mines, and operating it upon the same principles governing the Deadwood works, and under the patent belonging to the home corporation. For the benefit of the latter, the new plant will be operated by the movement will, therefore, prove directly beneficial not only to the proprietors and mine owners of Steele Mountain, but also to the stockholders of the new company. The new corporation will include in the list of its largest stockholders and most active members, the following: Superintendent T. J. Grier, of the same company, and Ernest May, Esq., one of the most successful grocery firms of the Black Hills. One or two of the stronger mining corporations owning property in the district will likewise be heavy subscribers to the capital stock. This is the first of

MANY SIMILAR PLANTS other than that in Deadwood, upon which work is expected to begin during the summer. As may be well imagined, the outlook is extremely cheering and the aspect of affairs most encouraging.

The real estate market grows apace, and gathers force as it moves along. During the week ending Saturday, 27th, deeds filed in the office of the recorder in the city of Deadwood, to the amount of \$25,000 worth of property situated in this city. The grantees were all Eastern men, from which fact is naturally deduced that the wonderful resources of this section of the Hills and the great future before it are no longer unknown to the moneyed men of the outside world. In view of the present prosperity and its continual growth it is only natural that the best, the most exuberant spirits should prevail, and also that the people should seek some means of enlarging. A most appropriate day has been chosen, and the Fourth of July will this season be observed with more than ordinary pomp and circumstance. As long ago as the first part of last week did preparations begin by the selection

of the first day, and its unqualified needs assured. Several meetings have since been held, at which the day's programme has been in part arranged. A resolution was left Tuesday negotiating with railroad companies for reduced rates to excursionists, and to invite several of the crack hose company teams of North Dakota to compete for the handsome prizes that will be offered. The event promises to be THE MOST BRILLIANT of the kind that has ever taken place in the Hills, and preparations will be made to accommodate at least 3,000 strangers during the time the celebration continues.

From Friday, May 25, until Wednesday, May 30, no Eastern mails were received in Deadwood, or, as for that matter, at any point on the E. & M. V. railroad west of Chadron. The company assigned as a reason the water spout or cloud burst which had broken up the line, and the track was washed out, and alleged it was impossible to complete repairs so that mail matter or passengers could be carried. The fact, however, was that the annoyance and considerable disgust has resulted. It is said that equally as damaging washouts occurred in a more than ordinary degree on the line of the rival line transporting freight and passengers on the same parallel, that the breaks could have been easily repaired during the week. The E. & M. V. Church has dampened the spirits but not the military ardor of the local MILITARY COMPANY.

In a letter to the governor the governor regrets that circumstances compel him to decline the proffered services of the company, and necessitate his resignation. During the week, he equipped it with arms. The trouble is the territory's portion of the funds appropriated for militia service has been exhausted, and the territory, therefore, unable to accede to the company's request, and desires. The boys had, before the unexpected negative arrived, become wedded to daily drill, however, and are thinking seriously of forming an independent company. Judge Hugh Wilkinson, of Carbonate, one of the most popular men in the hills, largely interested in the project, has shown a staunch and unwavering Democrat, has been appointed aide-de-camp on the governor's staff, with the rank of major. During the week, he has given general satisfaction, and if the executive will now reconsider his refusal to equip the Deadwood company with arms and uniforms, he will be a most valuable acquisition of not a few voters in this section of the territory. The grand lodge of

the first day, and its unqualified needs assured. Several meetings have since been held, at which the day's programme has been in part arranged. The latter replied in kind language, and within a few minutes the meeting was over. It is believed that the ordinance will wind up in a rough and tumble, go-as-you-please, free-for-all fight. Fortunately, the meeting was over before the bell-ringers for the time. The end of the matter is not yet known, but it is generally conceded that the present city attorney must go.

only 125 all told. In the wrangle for the parties part of the hostiles got excited and

KILLED THE WHOLE HERD. The chief then went to Primeau and told him that he would not take the animals just now, but would come back in a few days to pay his respects to the store. Two days after Primeau ordered a couple of his men to take the skiff and cross the river to round up the work horses and cattle, which were kept in the bend on the east side of the river. Just as the men were pushing out a boy, kept around the place, jumped in, saying that he would go along. The boat crossed over all right, but as it was about to land, the skiff and cross the river to round up the work horses and cattle, which were kept in the bend on the east side of the river. Just as the men were pushing out a boy, kept around the place, jumped in, saying that he would go along. The boat crossed over all right, but as it was about to land, the skiff and cross the river to round up the work horses and cattle, which were kept in the bend on the east side of the river.
