Workingmen of the Country Endorse the Mills Tariff Bill.

Information That Will Be Found in the Democratic Campaign Text Book.

The House Refuses to Accede to Senate Amendments to the Army Bill.

Senator Sawyer Sticks to His Post Despite His Physician's Orders.

Special to the Globe. WASHINGTON, Aug. 1.-The correspondent of the Kansas City Times telegraphs his paper the following observation, this evening: "I have been talking with the labor members of congress to-day. They all voted for the Mills bill. They say that before voting they consulted their laboring men's assemblies, and ascertained in every possible way how their supporters and constitu-ents wanted them to vote. The unanimous sentiment they found to be in favor of the Mills bill. Therefore, they conclude that the Mills bills is received with great favor with the laboring men, and will get strong and almost unani-mous support of the laboring men throughout the country."

CAMPAIGN TEXT BOOK. Valuable Statistics Furnished by the Democrats.

Special to the Globe. Washington, Aug. 1. - Senator Kenna says: "The Democrats' campaign text book will be out in a short time. It will contain, in addition to other matters of general interest, a parallel column of the present tariff parallel column of the present tariff rates and the proposed rates of the Mills bill that alone will prove valuable to the party as well as interesting to the masses. There is no doubt in my mind that Cleveland will be re-elected. All talk about the Republicans carrying West Virginia and Indiana or North Carolina is sheer nonsense."

ARMY APPROPRIATION BILL. The House Refuses to Concur in Several of the Senate Amendments.

Special to the Globe. Washington, Aug. 1 .- After routine business the house went into committee of the whole, and spent the remainder of the day discussing the senate amendments to the army appropriation bill. Mr. Townshend's motion to "concur in the amendment appropriating \$25,000 for repairs to the sea wall and wharf at Willette's Point, N. 1.," was the pending question, and was agreed to, Mr. Burnes, of Missouri, while conceding the right of the senate to place amendments upon a house bill, insisted that the house was the

He opposed the establishment of a gun factory at Watervliet arsenal. made before war commenced.

Mr. Butterworth, of Ohio, favored the plan proposed in the fortification bill, as it invited competition in the making of guns, and provided for a board to pass upon their merits.

Mr. Reed, of Maine, said the senat

amendments proposed the only practical way to secure guns, and those who cal way to secure guns, and those who opposed them were playing into the hands of men who believed no guns should be built at all.

Mr. Wheeler, of Alabama, while disclaiming any intention of reflecting upon the committee of appropriations, thought that the subject of procuring ordnance should be entrusted to a committee which would

TAKE ACTION UPON IT.

Mr. Tracey, of New York, thought the outlook for action upon this important question discouraging if the passage of the fortifications bill was to be relied upon. The senate amendments were finally non-concurred in. Mr. Sayers offered a resolution declaring that the house will insist upon its disagreement to the senate amendment relating to fortifications and ordnance; that the house requests a conference; that the house conferees should insist upon disagreement and not consent to placing agreement and not consent to placing appropriations for fortifications on the appropriations for fortifications on the army bill, as that subject had been re-ferred to the committee on appropriations, and that all such appropriations should be placed on the fortifications bill. Mr. Townshend, of Illinois, raised a point of order against tne resolution, and pending a decision the house at 5 p. m. adjourned.

Senator Sawyer Attending to Business Despite His Physician. Special to the Globe.

Washington, Aug. 1.—Senator Sawyer was at the capitol to-day against the advice and protest of his physicians. He looks pale, but determined to work as long as he can. It is known that he is suffering with a severe attack of dysentery, and Dr. Kempster says that he has in that way lost considerable blood on several occasions during the past two weeks. The doctor objects to his pa-tient's disobedience of orders, and says the senator ought not to leave his house for several days, but he can't control

THE POTOMAC FLATS. Suit to Determine the Title to Much Valuable Property.

Special to the Globe. WASHINGTON, Aug. 1.-Chief Justice Bingham yesterday denied a motion made by Henry A. Marshal and others to file a second amended supplemental bill in the case of the United States against Martin F. Morris and others, to settle the title of the Potomac flats. The petitioners claim that their right to the title comes direct from Lord Culpepper, who obtained the title to the Potomac river from King Charles II. and James II. They claim that the United States 11. They claim that the United States has no right to claim the property under the cession of the property to Maryland, as Lord Henry Hartford was the last lord proprietor of Maryland, and they have secured a deed of the property from Paul Hartford, the heir of Lord Hartford. CONGRESSMAN MACDONALD. The Family Will Leave for Home, But He Will Stick to His Post.

Special to the Globe.
WASHINGTON, Aug. 1.—The family of Congressman MacDonald will leave for Shakopee Saturday. They are all anxious to get back home. Mrs. Mac-Donald and Miss Flora are especially

long enough to make me tired. I shall miss my family, but there is considerable work to be done here and I am going to see it through before I give any thought to vacation, politics, renominations or anything else.

Mr. Edmunds opposed it as a useless waste of money. The wisest thing to be done with the assets of the late Confederacy, as well as with the late unpleasantness itself, was to forget all about them. Mr. Gibson opposed the amendment, believing that at the close of the war the officers of the confederate army and navy had delivered up all public property under the contract. Finally, after discussion, Mr. Call's amendment, on motion of Mr. Allison, was on motion of Mr. Allison, was LAID ON THE TABLE.

A number of amendments involving amounts were offered and agreed to, and the bill was reported to the senate. All the amendments were concurred in and the bill was passed. In response to questions, Mr. Allison gave the present status of the various appropriation bills, which had not as yet become laws, and stated further that it might safely be assumed all the appropriation bills could be disposed of next week.
