To the Democrats of the Territory Through Their Favorite Sheet.

Some Important Matters of Detail About the Campaign and Election.

No Levy Upon Officeholders, But the Chance to Give Is Free as Salvation.

A Cheerful Prospect, and a Thorough Canvass Being Made.

To the Editor of the Dakota Globe.  
HEADQUARTERS OF THE DEMOCRATIC TERRITORIAL CAMPAIGN COMMITTEE, SIOUX FALLS, DAK., Sept. 25, 1888.—As the Dakota edition of the DAILY GLOBE has a very large circulation in the territory, the Democratic campaign committee desire to make some announcements through it for the information of the members of the party at large in Dakota.

First—The campaign headquarters for Dakota are in this city, and either the chairman or the secretary will be constantly in attendance until after the election.

Second—All communications relating to meetings, or for campaign literature, should be addressed to the secretary, Oscar P. Kemp, at the headquarters.

Third—The committee desire immediately a report from the chairman or secretary of every county in the territory as to the organization and prospects, whether straight or fusion. County tickets have been put in the field, and whenever practicable, marked copies of newspapers containing names of legislative and county candidates, or other matters of interest relating to the campaign.

Fourth—Ample supplies of campaign literature on the national and territorial issues will be furnished on application.

Fifth—Hon. James W. Harden, the Democratic candidate for delegate to congress, is making a thorough canvass, and expects to visit and speak in every county in the territory, and is desiring to arrange for meetings for him should communicate with this headquarters, and appointments will be made with a view to as little loss of time as possible. Other speakers will be furnished at meetings which Mr. Harden cannot attend when desired.

Sixth—Care should be taken to see that Mr. Harden's name is correctly printed on all the county tickets. Caution in this respect is deemed necessary in order to prevent any party from referring to him as John W. His correct name is James W. Harden. Stickers, with Mr. Harden's name printed thereon, will be liberally supplied to all county committees and precincts desiring them, on application to this headquarters.

Seventh—In order to refute any campaign lies circulated by the Republicans in regard to the manner in which this committee proposes to raise funds to carry on the campaign, we deem it proper to state that the only assessment authorized by this committee was one upon each Democratic county committee in the territory, on the basis of 1 cent for each inhabitant in the county, according to the last census. This is certainly not an exorbitant demand, and it is to be promptly paid to defray all the legitimate expenses of the campaign. Of course, it is not expected that whatever letters have been written, or demands made by any individual contrary to what is here stated, are wholly unauthorized by this committee.

### A CAMPAIGN FICTION

That Assessments Have Been Made on Officeholders, But Money Is Needed.

This committee believe that loyal Democrats would not feel happy or that they had discharged their whole duty to their party, which is struggling to establish the principles of good and economical government, unless they had an opportunity of contributing to its success. As it is presumed that the best Democrats

ARE IN OFFICE, it would be unjust to force them in this respect. Consequently the county subscription lists, like salvation, are open to all who may voluntarily desire to contribute. These subscription lists will be carefully prepared and reported to the territorial committee which delegated its authority to the executive committee for the purposes of this campaign.

It must be evident to all sensible men that to pay the legitimate expenses of a campaign, such as printing campaign literature, tickets, meetings and traveling, public sentiment, even if they had the civil service law—which has been strictly enforced by President Cleveland—and is now trying, even through one of its senators, to "try the fat" out of the

MONOPOLISTS AND TRUSTS in order to raise a corruption fund for use by Indians, and to make the national committee has been raiding through Dakota to raise money for the same purpose, as it therefore a reproach to the Democratic party in this territory to try to raise a modest sum in the manner indicated to pay the proper expenses of the campaign.

If the purpose is to frighten this committee into inaction, by raising a false cry of levying assessments on officeholders, it will not avail. This committee is not built that way. County committees are requested to act promptly in this matter, and report to this headquarters.

### WHY NOT SUCCEED?

The People Want Tariff Reform and Their Hope Is With the Democrats.

Mr. Harden's prospects of success are very flattering, and with an united effort of the party his election is assured. Let no Democrat imagine for a moment that the Republican majority at the last election is too large to overcome. Over fifty thousand of the voters in Minnesota were wiped out at the last election there, and that state is now rated among the doubtful. The issues of the campaign, both national and ter-

CLARK, DAK., Sept. 28.—The Republican legislative convention convened at Clark yesterday, and as is customary, the characteristic quality of the convention was the hogish desire to gobble everything. The district comprises Spink and Clark counties, both strongly Republican, yet there is among the leaders of that party a great diversity of opinion as to how things should be run, and on account of the diversity a bitter feeling for revenge predominates. Spink county Republicans claim that John E. Bennett, the leader of the Clark county group, is the man who

SOLD THEM at the territorial convention held at Watertown a few weeks past, and that they were to be elected by the men for the legislature when she should have had but one. Thus the matter has been growing until yesterday when the Clark county delegates to the territorial convention were

CLEAN OVER THE ROPE. They put in the field a ticket composed of the following names, all of whom live in Spink county: For the council, Judge Poindexter; for the house, Harry F. Hunter and Mr. Bixler. All kinds of the little band to their corner, and then knocked them.

### HARDEN IS THE MAN

And His Wife is a Lady in the Same Sense of the Term.

We explain that the national banks have too much power and influence in legislation now. One-half of the farmers of Dakota will this year have to pay 2 per cent per month, or more, for the use of money. The United States should lend their enormous surplus to these farmers, secured on their land for 2 or 3 per cent per annum, instead of loaning it to the national banks for nothing. Who you can't do better than the best advocate of our interests in this matter. G. A. Mathews, a vice president of a National bank, or J. Harden, the only candidate who in any sense represents the agricultural interests of Dakota. If we are sincere in our desire for representation, we can show it by our votes in this contest. I shall vote for Mr. Harden, because I know him to be an able, honest, reliable representative of every farmer in Dakota.

PLANK IN OUR PLATFORM, and in full accord with all we are trying to accomplish. For two years he has been on our executive committee. The Democratic on the board, he has never tried to influence the alliance for his party, nor to use it for selfish purposes. He has been a very careful and further the interests of the party to which he belongs. From my knowledge of the man I am satisfied

that the alliance will be a success. It is not in any way authorized to speak for the alliance, except through the medium of the executive committee, who were elected spokesmen of the alliance for the current year. Following to the letter the plans as outlined at our last annual session, and that was, that we were as an organization to concentrate our efforts in securing the passage of the tariff bill. This attempt, therefore, of some two ardent supporters of Mr. Mathews to place us in a false position necessitates our defining our position at the moment. It will be well for the members of the alliance to remember that the editorials in the Ruralist do not necessarily reflect the opinions of the alliance. The only parties authorized to speak for the alliance will do so over their signatures. The position of the executive committee on the delegate question will be clearly outlined at our session, Aug. 24.

PRINCIPLE BEFORE PARTY.

Mathews Voted Against the Alliance Usury Bill and Free Market.

During the session a message was received from friends at Watertown stating that "the platform adopted was satisfactory to the members of the Alliance here." The following answer, as given by Mr. Mathews, was adopted:

It is perhaps as well known to the Democrats of Dakota as any other in the ranks so young and so short a time in the territory, since the time he showed his courage and loyalty to the party at the Aberdeen convention two years ago. Mr. Ryan was born in Adams county, Iowa, in 1852, and is therefore thirty-six years of age. Before he became of age he was appointed deputy clerk of the district and circuit courts of that county and served two years.

FOUR BEXNATT, Cheyenne Agency, Sept. 28.—Cheyenne Agency Indians are waiting patiently for the arrival of the commission. Twice they have been called in, but owing to some other arrangement of the commissioners they were disappointed; but the disappointment did not cause any dissatisfaction, as the agent saw that all were sent to bed with a loaded stomach. It will be remembered that the Globe correspondent advised last winter that the Indians be allowed

TO VISIT WASHINGTON, and especially since they had raised sufficient funds among their people to defray all expenses, but the Indian department deemed it best to refuse them permission to leave the reservation and considerable dissatisfaction was caused. It now appears that Commissioner Pratt has deemed it prudent to allow the chiefs elected in council last winter to visit Washington, accompanied by himself, and call upon

THE WHITE FATHER, state the wishes of their people, and also hear from his own lips that the government only intends to deal with them fairly, and on such terms that even the Great Spirit would advise them to accept. The delegation from Claymont would include White Swan, Red Jacket, Charger, Crow Eagle, and perhaps Hump.

ALL THESE INDIANS belonged to the Sitting Bull band and took prominent part in the Custer massacre. The spirit of Hump had a wonderful effect on his people and was a mammoth building, railroad, steamboats and navy yards, that upon his return he called his people together in council and then he had peace.

VISITED A NEW WORLD. In this world white people were as thick as the snow now falling, and should his people go on the war path against the White Father, the Indians would disappear as rapidly as the sunshine gathers up these snow flakes.

SIOUX FALLS, Sept. 28.—In the history of Minnehaha county politics there was never a more disgraceful convention than the one held here by the Republicans on Monday. Your correspondent has kept the readers of the DAKOTA GLOBE posted on the effort of the Republicans to induce Mr. Soderberg and Mr. Lyon, the candidates for the council and house respectively. The city caucuses went off against Soderberg, because he is

OUT FOR HARDEN, and against Lyon because like old dog Tray, he was caught in bad company. There was a contesting delegation from the Third ward. One delegation received 35 votes and was for the Farmers' ticket, the other scraped in over 100, but of that 100 it was claimed about were railroad 30 graders and non-voters. The farmers had charge of the convention and organized the credentials committee in favor of the Soderberg-Lyon delegates. During the time the report was being read and a number of times before, the convention of disorder. For a time it looked as if a fist fight would result, and Company B, which was on the street for parade, was called up to quell any riot which might result. As soon as the report of the committee was submitted, the three regular delegations and the one thrown out, led by Pettigrew, Heith and others, bolted the convention, retiring to a little upper chamber, where they put in the evening with cigars, good jokes and big threats. The main convention went on with its work, selecting Soderberg and Lyon delegates.
