

SANT PAUL.

AMUSEMENT NOTES.

The seating capacity of the People's theater was well taxed last night by an audience composed of the music-loving people of the city, who assembled to enjoy a musical banquet of rare excellence. No young artist ever won such a popularity in the Northwest as that won by Miss Emma Juch during her starting tour in the late National Opera company and she now comes back to confirm her merit to the golden opinions she won on that occasion. She has already attained a position in her profession second only to Patti and the time is rapidly approaching when Miss Juch will rival Patti. The concert last evening included a programme of exquisite selections from the masters rendered by artists deserving their reputation. The programme was as follows:

- Verdi—"Maurandio"....."Comte il bacio"
William J. Lavin and Sig. Clemente Bologna.
Chopin.....Scherzo in G major, Op. 10, No. 3.
Chopin.....Nocturne in E-flat major, Op. 9, No. 3.
Davidoff....."At the Fountain"

Part second in costume. The entire second act (opera scene) of (Donizetti's) opera "Faust"..... Next to Miss Emma Juch as..... Miss Rosa Linde (Martha)..... William J. Lavin (Mephistopheles)..... Sig. Clemente Bologna. It was in her famous interpretation of the character of Marguerite that Miss Juch had the best opportunity to exhibit that clear, delicate quality of voice which so much resembles Patti's, and so rarely possessed by vocalists. Next to Miss Juch's singing the parts of the programme most enjoyed by the audience were Mr. Victor Herbert's violin and cello performance, and the piano playing. All of the performers received enthusiastic encores, and at the close of the performance Miss Juch had a call before the curtain.

Advance sale of seats for the Robson and Crane engagement, next week, will open at the box office of the Grand opera house tomorrow morning. The celebrated comedians will play their great New York success, "The Henrietta," all the week. Mr. Shay, the advance agent, has been in the city for a week arranging for the performance.

David Morgan; prayer, Rev. Robert Forbes, D. D.; reading of Scriptures, Rev. C. A. Van Anda, D. D.; hymn, Rev. S. B. Warner; statement by pastor, Rev. J. F. ELMO RESIDENCE PARK LAKE ELMO, MINN.

ANNOUNCEMENT! In response to many inquiries, the Elmo Park Company announces its purpose of first offering its lots in "Elmo Residence Park" for sale ON MONDAY, OCTOBER 22, 1888.

At 10 a. m., at the office of the company, Room 252 Drake Block, St. Paul. Until that date no lots will be sold, or contracted to be sold, in order that all may have an equal chance for a first choice. The prices of these lots have been fixed, and a printed price-list, together with a lithograph copy of the plat, will, after a few days, be furnished on application. For three years the Elmo Residence Park scheme has received the careful study of the ablest specialists in Landscape Art and Civil Engineering. Prof. H. W. S. Cleveland was given charge, and sent by the company to the East to visit all the prominent residence parks there for the purpose of securing every valuable feature for this park. Benetzette Williams, the Eminent Civil Engineer of Chicago, who designed and constructed the water and sewerage system of Pullman, Ill., which is renowned for its completeness, is perfecting the plans for a similar system for Elmo Residence Park, which will be pushed to completion in time to meet the demands of those building.

The Elmo Park Company has platted 330 of the 750 acres owned by it at Lake Elmo. About 150 acres bordering the lake are to be inclosed, and will be known as "Elmo Residence Park." It is believed that no residence park scheme of equal completeness in all its details has ever before been offered. About 180 acres north of the railroad are platted as the townsite of Elmo. The Park now has within its limits the Elmo Park Hotel, completely equipped in every particular, with its Electric Light Plant, Steam Laundry, Stables, Capacious Cold Storage House, etc., besides the Finest and Largest Fleet of New Cedar Boats ever provided for a lakeside hotel.

The lots average about a Half-Acre in size, and it is the purpose of the company to furnish the residents within the Park with every convenience for home life which they would secure in the best part of the city. A strip about 100 feet wide along the lake front is reserved for the common benefit of all lot owners.

About thirty well-known gentlemen of St. Paul have applied for lots in the Park, and many signify their intention of building next spring. Some will build Summer Cottages, but more will build Permanent Homes. Such restrictions will be made in selling lots as will secure a fine class of residences. No other buildings will be allowed in the Park except in the stable quarters, where private stables may be built by those not desiring to use club stables.

The Elmo Park Hotel will hereafter be practically a Club House for the use of those residents of the Park who prefer to take their meals at the Hotel. It will continue, however, to invite such guests during the summer months as have patronized it so liberally for the past three summers, and assisted in making it a very delightful resort.
