Powderly Consents to Lead the Knights of Labor Another Year.

Debate in the Assembly Indicates a Strong Undercurrent of Discontent.

Bloomer, of Toledo, Gets the Eounce, as Did Tom Barry.

Then the Knights Take Turns in Roasting a Chicago Editor.

Recial to the Globe. INDIANAPOLIS, Ind., Nov. 19 .- At the meeting of the general assembly of the Knights of Labor this morning, the report on the appeal case of William leason of the Chicago district was considered. His appeal set forth the same cause of complaint upon which Barry based his contest, that a member could only be tried and expelled by the court of his local assembly. The assembly, going back on the precedent set in the Barry case, held in favor of Gleason. The matter now goes back to Gleason's local assembly, when a trial will be had.
The assembly then took up the appeal of Joseph M. Bloomer, of Toledo, O. It also is like that of Barry's, Bloomer having, without trial by his local assembly, been expelled by the general executive board. The committee reported in favor of Bloomer, holding that he must be given a trial in his local assem-The debate indicated to Powderly and his friends that their opponents would not patiently bear more mistreatment, and the report of the committee was voted down by a vote of 45 to 98, so Bloomer was expelled as Barry had been. There was more dissatisfaction among the delegates at the other than the art any time since the at noon than at any time since the ably met. George Schilling, of ago, was particularly incensed because the convention "put aside," as he said, "all methods of decency, and framed a new law to meet the requirements in every case that came up." At the afternoon session no actual busi-ness was completed, though a lively time interested the delegates. Various unimportant routine matters were re-ferred to the proper committees, but the business that took the time of the general assembly was of a different char acter. Last week George E. Detwiler-editor of the Knights of Labor, a Chieditor of the Knights of Labor, a Chi-eago publication, was in the city in his individual capacity of editor and mem-ber of the order, after which his paper is named and of which it is not the official organ. On his return home Mr. Detwiler wrote an editorial, which ap-peared in his publication Saturday and was, read here to-day. This leading editorial was an attack on the character and position of this general assembly, and position of this general assembly,

and position of this general assemoly, stating that Powderly is the ruling mind; that the convention was packed in the interest of the general master workman, and that Powderly and Litchman were

AFRAID OF PUBLICITY
and therefore both of them were ready
to make peace, and promptly did so at
the first chance. Powderly took the
floor and a vigorous denial and denunciation of the whole matter. His speech
was pointed and emphatic and was
greeted with frequent and hearty applance. He has introduced and referred lause. He has introduced and referred to a committee a resolution to the effect that whenever a member of the order shall, through the public press, make accusations of misdemeanor against members and officials of the order without first having made and sustained those accusations before the proper court of the order, he lays himself to court of the order, he lays minser to immediate expulsion by the general executive board without trial. Mr. Powderly supported this resolution in his speech and explained that all such matters should be brought before the proper tribunal and not given to the public first. Ex-Secretary Charles H. Itahran followed Mr. Powderk in an public first. Ex-Secretary Charles H. Litchman followed Mr. Powderly in another hearty denunciation of the editorial and denial of its statements. W. T. Lewis, the master workman of the miners' assembly, who has been considered an opponent of and competitor for first place with Powderly, was equally prompt and emphatic in hisremarks. John L. Lee, of Philadelphia, master workman of the railroaders, said that if the stories were rainfoaders, said that it the stories were true every member of the order wanted to know it, but they wanted to find it out in the ways provided by the laws of the order. Others followed, and all denied and denounced while none defended the editor in his criticisms. The stand taken by Mr. Lewis in this case is regarded as significant, and Powderly's friends hope it means the miners will not desert the order. There has been a great fear of that and it will not be fully settled until the meeting to be held by the miners at Columbus, O., on Dec. 5. By a secret circular, Mr. Powderly has asked them to remain in the order, and try to add to it those miners who are out. In like manner Mr. Lewis responds to Mr. Powderly, saying the Knights of Labor must do something for them if they wanted to keep their present membership among the miners. There the matter stands, as it has for two weeks, and action here is expected to influence the Columbus meeting next month. Mr. Lewis has kept quiet and took no stand for or against the charge, but some hope his action is indicative of his probable action. Regarding the declarations of Thomas B. Barry, expelled member of the gener I executive board, R. R. Elliott, of Bridge, Ont., who is secretary of the grievance committee, says that Barry was given an opportunit to make good his assertions before that commit-tee, but

BEFUSED TO AVAIL HIMSELF of the privilege. He made a general and strong denial of Barry's statements, and further says that Barry has not been a member of the order since last April, and he gives the law to back up

is assertions.
To-day Powderly consented to accept the position of general master workman again at a reduced salary if he is given the right to appoint his own advisers. A quarrel is imminent between Lewis. master workman of the miners, and Powderly, on account of a circular sent by the latter to miners' assemblies, urging them to remain with the Knights. Lewis favors their union with the federation of miners and mine laborers.

SPRINKLED WITH KEROSENE. An Attempt to Burn His Establishments Lands a Clothier in

PITTSBURG. Pa., Nov. 19.-Morris Keller, a clothing dealer, was arrested to-day on a bench warrant on a charge of attempting to defraud his creditors. The suit was brought hy Samuel Lewis & Co., of New York, who had furnished Keller with goods. At the hearing P. J. Keenan, his clerk, told a remarkable story of a plot to burn the store for the \$3.000 insurance, which if it had been carried out, would have probably resulted in the loss of several lives. Keenan stated that Miller bought kerosene last Friday, and ordered him to sprinkle the store and a number of cases of cotton batting with it. He was then to turn on the natural gas, and apply the match to the kerosene. Keller left for Salem, O., and Keenan was ordered to telegraph him after the building had been burned. Instead of doing this Keenan potified the agent of Lewis & Son after notified the agent of Lewis & Son, after which he telegraphed Kellerthat every-thing was all right. When Keller came back he was arrested for attempting to detraud his creditors. Keenan says if the plot had been carried out the lives of four persons living over the store would have been sacrificed, as it would have been almost impossible for them to escape. Keller is in jail.

Carefully picking his way through the mud of Carter street, the reporter climbed the yellow clay bank apon which a dozen or more small brown houses are perched. Stopping in front of the half of one of these houses which bore the number 58, the visitor knocked vigorously and his summons brought to the door a sadeyed woman, who said her name was Mrs. Beichler. The door opened into a room, which served the double into a room, which served the double purpose of a reception and bedroom.
