

MINNEAPOLIS.

A SUBPORT OF ENTRY

Talks with Men. United States Senator George G. Vest, of Missouri, with his wife, passed through Minneapolis on their way to the Pacific coast. They stopped at the West long enough to partake of one of its sumptuous dinners and tell the reporters he did not know any more about the Pacific coast and did not want to know anything about politics. He was not informed in regard to an extra session of congress, nor about the reported coolness between the president and members of the cabinet. In conversation with a Star reporter, the senator vigorously reaffirmed the position he has taken in his fight against abolishing executive sessions of the senate.

Thought To Be at Last Obtained for Minneapolis.

The Single Tax Mill at Harmonia Hall a Draw. A Ten Thousand Dollar Burglary Reported in South Minneapolis.

And a Successful Forgery Racket Worked—A Double Funeral.

The struggle to have Minneapolis named as a sub-port of entry, which has been going on for several years, has, there is now reason to believe, culminated in success. Senator Washburn and Congressman Snider have been united on this more than on anything else they have undertaken, and have succeeded in winning over Secretary Windom to their side. The conjunction of three such political stars insures Minneapolis this privilege, which has been unjustly denied her for years. As a business proposition the city is entitled to the consideration she is now to receive. At present St. Paul is now the port of entry. Imported goods remain in bond until they reach the city, where they are taken to the custom house, and the duties assessed. The goods destined for Minneapolis merchants, who are to be imported, are taken to those of St. Paul, and after passing through the custom house are repacked and shipped to Minneapolis. This entails a heavy expense on Minneapolis merchants, which their customers eventually pay. It is worth \$100 a day to have this city named as a subport, and deliver all goods for Minneapolis to the custom house here. It will necessitate the building of a bonded warehouse, probably in the basement of the government building. It will make a federal office to be filled by a customs collector, which thought a minister could fill it.

VERY MEAGER.

Meagher's Arguments Announced That at Harmonia Hall. There was a small prize fight at Harmonia hall last evening, a bloodless battle, to which the most fastidious could take no exception. The contestants were a gentleman from New York, Mr. W. Meagher, and C. J. Buell, the noted pugilist under the single tax name. The gentlemen fought at catchweights in the presence of about one hundred spectators, most of whom sympathized with the cause of the single tax. The fight was a draw, and the prize was divided equally between the two contestants. The fight was a draw, and the prize was divided equally between the two contestants.

Organization of a New Milling Company Without Him.

Articles were yesterday filed with the register of deeds, incorporating the Washburn-Crosby company, for doing a general milling and grain business; capital stock, \$500,000; limit of liability, \$20,000. Incorporators are: John Washburn, William H. Dunwoody, James S. Bell, Charles J. Martin, A. V. Martin, of Minneapolis, and John Crosby, of New Haven, Conn. This is the company organized to succeed to the Washburn-Martin company, which is operating the Washburn mills A. B. and C, leased from the C. Washburn estate, and the Washburn mill leased from the Day estate. W. D. Washburn retires, this being the principal change in the company.

ATTEMPTED ROBBERY.

Capture of the Man Who Assailed M. Werth. Tuesday evening a tall young man entered M. Werth's clothing store at 100 Hennepin avenue and began to help himself to goods in an indiscriminate manner, crying out to the proprietor, "Give me a pair of trousers." The proprietor, who expostulated with him, whereupon the stranger retreated toward the door. When he was about to leave, he was seized by M. NEED A FOUNDLING ASYLUM.

Growing Necessity for a Home for Waifs. Rev. James McGorick, at whose door a six-weeks-old babe was left the other night, is agitating the need of a foundling asylum in Minneapolis. There are such institutions in nearly all the large cities of this country and Europe, and the annually increasing number of waifs in Minneapolis seem to warrant the founding of such an establishment here. Any children left at these hospitals are either adopted or sent to the orphan asylum. McGorick thinks that such a place would save the lives of many an infant born in shame.

Those Boats.

As a consequence of newspaper rows following the recent Harriet drownings, park board officials have taken off thirty-four of the best rowing boats at the Harriet and Central Park, and will offer them for sale. This leaves nothing but tubs for sale, which will retain their equilibrium in a cyclone.

More Economy.

A new order requiring conductors on the motor line to make a deposit of \$25 for the purchase of uniforms is said to have occasioned a good deal of complaint on the part of the motormen, the exaction is hard after the recent reduction in pay.

The Equalizers.

At its meeting yesterday, the board of equalization set aside Monday to listen to complaints from millers and wheat men, especially the St. Anthony Elevator company, which claims that wheat in store is not assessable. On Tuesday the lumbermen will be heard, and the matter of assessing logs in the river above the city will be discussed.
