DEFERS TO BE BYNCHED.

Confession of a Brutal Murder by an Alabama Coon.

DECATUR, Ala., Sept. 26.—The vicinity of Houck's postoffice, twelve miles from this city, is in a terrible state of excitement over the confession of a brutal murder and improper proposals made to a woman by Tom Haywood, a negro. About a year ago Thomas Williams, the mail carrier here, was successful in eluding arrest or even suspicion. A few nights ago Thomas Haywood, who lived on the Williams' place, went to her house, and presenting his revolver, demanded that she sell her place, piece with him to the North and there marry him. Being at the mercy of the black fiend, she apparently consented to his demands, and he, elated at his success, returned to his quarters, threatening to kill her if she told any one. While at Mrs. Williams' house, Haywood confessed to having killed Williams a year ago, and told her how he had managed to escape all suspicion by playing a trick on her. He had stuffed a coat and placed it together with a hat on the wood pile, and Mrs. Williams, seeing that, supposed it was Haywood and it being on the woodpile at the time when Williams was killed. Mrs. Williams, according to Haywood, was yesterday the negro had not been caught, but his arrest was expected at any moment, and if caught it was very likely that Judge Lynch will hold a special court and mete out terrible punishment to him.

A Missouri Town on Edge Owing to the Finding of Dynamite Bombs.

INDEPENDENCE, Mo., Sept. 26.—A sensation was created here this morning by the finding of what is supposed to be a dynamite bomb with a fuse attached in a room of the court house wall. The bomb was made after the gaspian plan. The following letter was sent on the steps of one of the daily newspapers:

FARMER LUCE IS HONEST.

He Surrenders Uncared Railroad Lands to Uncle Sam.

LANSING, Mich., Sept. 26.—The governor of Michigan has surrendered to the United States the unearned lands granted the state of Michigan by act of congress in 1856 for certain railroads in the upper peninsula. These lands were granted for a railroad from Ontonagon to the Wisconsin state line and for a road from Marquette to Ontonagon. Last March congress passed an act forbidding such lands to be sold or otherwise disposed of by the state legislature at its last session, empowered the governor to release the title that the state had held in trust for these lands to the United States. The lands returned amount to about 220,000 acres, and many homesteads had been taken on them. The railroad companies will no doubt contest the matter to the bitter end.

While in the hospital at that place, he made a similar assault, and the sister was removed to the convent here at her own request. Sister Camilla was unconscious all night, and did not recover until this morning. The man escaped.

MILK VALUATION.

The Method in Use in Germany in Fixing the Values.

In Germany, according to Dr. Bennett B. Davenport, there is a good way of valuing milk. The central dairy in Hanover pays for milk upon the basis of fat contents. Each kilogram (about one quart) of skimmed milk is paid for at 75 cents. The extra rich milk, or cream, is paid for at 1.25 cents per quart. For each one-tenth of 1 per cent of fat one-twentieth of a cent more is counted. In Massachusetts, according to the same authority, the standard would be paid for as follows: 75 cents per quart, 55 per cent fat; 87 cents per quart, 57 per cent fat; 1.00 extra rich milk, 59 per cent fat; 1.125 extra rich milk, 61 per cent fat; 1.250 extra rich milk, 63 per cent fat; 1.375 extra rich milk, 65 per cent fat; 1.500 extra rich milk, 67 per cent fat; 1.625 extra rich milk, 69 per cent fat; 1.750 extra rich milk, 71 per cent fat; 1.875 extra rich milk, 73 per cent fat; 2.000 extra rich milk, 75 per cent fat.
