TODAY'S WEATHER.

WASHINGTON, Nov. 8.—For Upper Michigan, Wisconsin and Minnesota: Fair, preceded by rain. Eastern Wisconsin: Fair, with light rain. Lower Michigan: Fair, with light rain. Lower Wisconsin: Fair, with light rain. Lower Minnesota: Fair, with light rain.

GENERAL OBSERVATIONS.

Table with columns: Place of Observation, Direction of Wind, Force of Wind, State of Sky, Temperature, Barometer, Humidity, etc.

THE OHIO IDEA PICKED.

The political revolution in Ohio is largely the work of the men sometimes termed 'vest pocket voters.' They are generally thoughtful, intelligent men, who have no aspiration for office and are conscientious in their honest convictions.

DAKOTA SENATORS.

The Farmers' alliance in Dakota as yet retains the organization covering both states, and the annual convention in December will determine whether it is advisable to recognize the state division. The alliance desires representation in congress.

LET THEM MARRY.

In many, perhaps most of the larger cities, the school boards have discriminated against the teaching of the marriage laws. In some of them the teacher who marries is forced out of her position at once if the fact of her marriage is discovered.

THE NEW FIGURES.

It has been insisted by Republican papers that, with the advent of the new states, they can pull through in the national bout of 1892 without New York.

NO COMFORT THERE.

The attempt of some of the exponents of administration politics to find comfort in the explanation that the elections have resulted about as usual in the off years, needs to avoid reference to figures. These dissipate all basis for consolation in that quarter.

A WIDE FIELD.

The fact that New York this year gives a straight and increased Democratic majority greatly adds to the difficulty.

many Democrats seem to have in dissipating the impression that the party disloyalty of convention, that they lost the election to Mr. Cleveland last year. This conviction, whether right or wrong as a matter of fact, will be very effective in inducing the next national convention to prefer statesmen not residents of New York.

ONE OF THE FATHERS.

When the Republican who was with that party in its early days on account of its anti-slavery aims notes that George W. Julian is removed from office by a Republican president for political reasons, he will rub his eyes and ask if this is really the Republican party he joined in the old time.

LICENSE IN IOWA.

The impression is quite common that prohibition has been worked into the constitution in Iowa, and consequently its removal will be a matter of time and difficulty, as it would be in the case of the Dakotas.

THE WORLD'S FAIR COMMITTEE IN NEW YORK.

The world's fair committee in New York remember that KNICKERBOCKER, in his history of the place, reports 'a class of wealthy old citizens, who, having amassed a fortune, but in the days of their youth, look rich, and are good for nothing all the rest of their lives.'

VICE PRESIDENT MORTON NO DOUBTS.

flattered at the prompt and cordial recognition given him by the associates in his new calling. The liquor dealers' association at Terre Haute, Ind., promptly elected him an honorary member of their body, and extended him a warm hand of business fraternity.

THE STATE OF RHODE ISLAND HAS BEEN SHOCKED.

by the death of a wealthy man who did not leave anything in his will for Brown university, the Harvard of the state. Probably, however, he was graduated on one of the short meter plans.

IT IS A RELIEF TO THE PUBLIC THAT THE CONTROVERSY AMONG THE PENSION PIONEERS.

was interdicted, even if TANNER did promise to make it spicy. He knows how to secure the "equally as good" things from the administration.

SOME OF THE LARGE SHEEP-GROWERS IN COLORADO.

as they look at their pile of iron in round numbers might find the surplus in congress meets. If the Republicans can work out their programme there won't be any financial obesity when the session closes.

ONLY TWO DEMOCRATS HAVE EVER BEEN GOVERNORS OF IOWA SINCE IT WAS A STATE.

and the last one was out in 1854. It has been a long time between drinks, as the Carolina executives remarked.

has expressed itself that way, and the people say amen. KANSAS did some local voting the other day that indicates a purpose to get prohibition out of its constitution in early time.

THE STORM HAS ABATED.

Further Fatalities Reported From the New Mexican Ranges. CLAYTON, N. M., Nov. 8.—The storm has abated, and for the first time in nine days the sun shows to-day.

THE PANS ARE ASKED TO "TAKE A CHEW" ON EVERY SIDE IN KENTUCKY.

What He Sold For. The Mitchell Gazette is opposed to the selection of Judge Edgerton for the federal judgeship, and gives as a reason that Judge Edgerton sold out his chances for the United States senate for this appointment.

THE CUP WILL BE FULL.

Now let's have the reservation thrown wide open forthwith, and our cup of happiness will be pretty near full. The past year has been one to be long remembered by every Dakotan for the making of a happier, more prosperous era.

TO BE QUITE DRY.

Gov. Mellette favors a law without loopholes and with a non-elastic spinal column. In this we quite agree. The legislature owes prohibition a fair test. It is not a question of whether to prohibit, but of how to prohibit.

WILL CARE FOR THEM.

Aspirants for positions that are being sent out from the Dakotas by irresponsible persons and journals, and also from the journals of the East, should be corrected. The Dakotas are unable to take care of every unfortunate person in them, and will do it. All the unfortunate need to do is to present their cases and the commission will take care of them.

NO TO LIBERAL.

The opinion of Gov. Mellette on the propriety of condemning the two brewery properties in South Dakota, one at Sioux Falls, the other at Yankton, may be of interest to the public. He did not propose to indemnify saloons and liquor dealers. Can not the vict roll afford to be generous to the other branch of the peace to those who have some color for claiming vested rights?

NEED SMALL CHANGE.

St. Paul is to have another ice palace this winter. It is said that the management have decided to do away with the admission fee. The change is being celebrated, but it is not clear whether it is a good or bad thing.

THE TRADE GUILD.

Attorney General Miller has assured Senators Moody and Pettigrew that Judge Edgerton will be appointed United States judge for the South Dakota district.

NO IRRIGATION.

The Northwestern Farmer and Breeder, published at Fargo, says that the Dakotas are not sufficient for irrigation. The paper thinks that the farmers should confine their efforts to limiting the production and relieving the overstocked market.

An inquisitive gentleman, anxious to know how far this would have an educational effect upon the readers, crept up behind one who seemed more rap than the others, and found that he was standing on the wrong side of the street.
