

SAINT PAUL.

Additional City News on Page 8.

A LITTLE ORDWAYIANA.

An odd-time New England politician is ex-Gov. N. G. Ordway, of North Dakota, who is now stopping at the Metropolitan hotel, in this city. Easy, slow-going and affable, he is slow to wrath, and consequently, isn't ready as yet to say anything in regard to the attack made upon him in the upper house of the North Dakota legislature last Saturday by Senator J. L. Moore, of Pembina.

But, while the ex-governor wouldn't talk about the La Moureaux attack, he did chat in a most entertaining manner upon the political outlook in general. In case Johnson runs for congress next year it will certainly defeat Hansbrough. There is a strong free-trade sentiment in North Dakota, and to keep in power there each party's got to be run on the square. Mr. Johnson and the nomination he ought to have had the election. The secret of Johnson's defeat, however, was the fear quite common among railroad men, that in case of his election he would secure the appointment of his brother as district judge.

"I won't do for us Republicans to attempt to disparage our President Cleveland," continued the governor, "and I am surprised that our editors continue to keep up those articles. I think I was a man of wonderful ability, and I never realized so much as I did when I heard him deliver three remarkable addresses in one day at the fair which I attended. They were fine efforts, and there was no substance about them. Cleveland has been repeatedly re-nominated, and it will require some effort to beat him. Nothing saved us last year except the tremendous pro-union vote which was brought to bear upon the manufacturers. While Quay did very well, I suppose no other national committee had ever anything near the same success with him. It won't do to depend upon annihilating Cleveland by disparaging him."

A CURTLED "400."

A considerable proportion of the population of St. Paul have been busy lately in preparing lists of "four hundreders." There have been just about as many lists as there are "400s" in the city. The latest compilers of respectability—that is, the upper crust of respectability—have been the members of the Wabasha club. Several members of that organization got their heads together Sunday evening and prepared a list. The list was made in New York, the Wabashas made a reasonable comparison between the population of that city and that of St. Paul, and concluded that if St. Paul has 400 of the truly gilded-ages, St. Paul's highest social circle should not include more than fifty people. The following gentlemen and their wives were selected: William L. Banning, George L. Becker, William B. Bent, Frank B. Clark, William Dean, E. F. Drake, David Day, John Farrington, Judge Charles E. Flannery, James J. Galt, John H. Galt, Gen. E. W. Johnson, Crawford Livingston, William H. Marshall, William H. Merriman, John L. Merriman, Stanford Ramsay, John S. Prince, Alexander Ramsay, Col. D. A. Robertson, Henry M. Rice, Robert A. Smith, Gen. H. H. Sibley, Joseph A. Wheelock, A. H. Wilder.

A MAGNIFICENT SHOWING.

President Stickney, of the Kansas City road, is authority for the statement that in the past year the Minnesota Transfer yards handled nearly 800,000 pounds of freight at a cost of less than 1 1/2 cents per ton. Mr. Stickney is interested in the building of horse yards at Chicago. These yards will contain over 1,000 miles of track and have storage room for 100,000 cars. The arrangement of the yards will be such that if all the storage tracks were full any one of the 100,000 cars could be loaded by a single engine, and it will be possible for 250 engines to work at the same time without interfering with one another.

SINGULAR SITUATION.

A Woman Jailed Under a Sentence Which Cannot Be Executed—Court Notes.

A petition of habeas corpus has been presented to Judge Simons, asking the release of Mary Summerfield, who is now in jail under a committal dated Nov. 1, directing her confinement in the reformatory at St. Cloud. The petition recites that she is twenty-one years old, and that she was committed and is detained without authority of law, in that there is no provision for the reception of female prisoners, and that the retention in jail is not authorized by the commitment.

A MACHINE FOR UNCLE SAM.

There will soon be put in operation, in the postoffice of this city, a machine that will greatly facilitate the delivery and transmission of mail matter. In fact, it will do away with the manual labor of hand labor and callous hands as a result of stamping the tons of mail. It is nothing more nor less than an automatic machine for cancelling postage stamps, stamping the date of mailing, besides counting the letters, cards, etc. It is claimed to operate at the rate of 500 per minute, or 30,000 in a day. This machine has been tested in Washington and other Eastern cities—resulting highly satisfactorily in facilitating the rapid movement of mails. This can be readily seen to be the result when it is remembered that an expert can stamp only about 120 letters a minute by means of a hand stamp, and the majority do a much smaller number in a like time, to say nothing of the loss of time and the fact that the machine works so rapidly alone commends its general use. The machine is about the size of an ordinary typewriter, and is provided with a hopper for the reception of letters, postal cards and circulars, which may be put into it indiscriminately, without regard to sizes. They come out in a continuous stream—postmarked, cancelled and counted. The impression is made with a steel die, and means are provided for rapid change of date. The adjustment of the machinery is such that envelopes of different lengths are post-marked and stamped in the same place. It can be operated by either a treadle or motor power.

WILL NOT BE BULLIED.

Commissioner Ives Tells of His Fight With Adulterated Food Manufacturers.

Speculators, Ahoy! It has been demonstrated beyond doubt that there is an almost inexhaustible layer of iron ore in the northern part of Minnesota, and yet it will scarcely be credited that only three companies have been formed to raise the valuable mineral. These are the Minnesota Iron company, the Chandler Iron company, and the Pioneer Iron company. The latter, however, appears to be only a one-horse affair, as its output for the year ending November was merely 3,000 tons. That of the Minnesota Iron company was 25,711 tons, and that of the Chandler Iron company was 298,741 tons. A fee of one cent per ton on the ore raised is paid as a royalty to the state. The state thus gets \$8,945.55 on last year's output, half of which goes back to St. Louis county, where the mines are located.

GHOST WON'T WALK.

For the City Employees Until Council Meets in January.

Comptroller Roche's Construction of Judge Otis' Opinion of Yesterday.

Health Inspector Hendrickson Fails in His Suit Against the Mayor.

A New Stamping and Cancelling Device for the St. Paul Postoffice.

There were many long and anxious faces about the city hall yesterday afternoon. From the records of departments down to the janitors, city employees were disturbed over the prospect of worrying along through the holidays without their December salaries. The trouble is due to a decision rendered by District Judge Otis yesterday morning in disposing of the mandamus proceedings instituted by A. P. Hendrickson to compel the mayor to sign an order for the relator's salary as live stock inspector. It will be remembered that Mr. Hendrickson in May, 1880, was appointed live stock inspector by the health commissioner, under the act of 1887 governing the health department, at a salary of \$70 per month. About the same time he was elected by the board of health as inspector of cattle, sheep and swine under the state law passed last winter relating to inspection on the hoof. Mayor Smith signed the order for his salary as inspector of cattle, sheep and swine in 1887, but when the order for the June salary was drawn and presented to the acting mayor (Yeager) he refused to sign it upon a written opinion of Corporation Attorney Holman, who advised Mr. Hendrickson was not entitled to compensation under both appointments. Mayor Smith, on his return, upheld the acting mayor, and the mandamus proceedings were begun.

The regular meeting of the association will be held at the Metropolitan on Thursday afternoon at 4:30, when the troublesome matter of fixing upon the permanent headquarters of the association will again come up. A number of the directors are violently opposed to the Metropolitan, on account of its being some distance away from the business district of the city, and it is expected that the meeting will be devoted to securing a list of meeting places either the association or any of its committees. "During the carnival," said President Van Slyke, "I expect to devote my whole time to the carnival, and it will just be impossible for me to make four or five trips a day out to the Metropolitan. I can't spare the time and I am emphatically in favor of more accessible headquarters."

WAITING TO BE HEARD.

In the Application for Habeas Corpus in the Smoke Nuisance Case.

The application of Mary Barreau, William L. Barreau, Hiram Backus and William E. Barber made yesterday to be discharged from custody upon a writ of habeas corpus in a proceeding to test the smoke nuisance ordinance of this city. The petitioners admit that they are the owners of the apartment building at the corner of Sixth and Washington streets, and that they are the proprietors of the building. They claim that the ordinance is unconstitutional and void, and that they are entitled to be discharged from custody. The case is set for hearing on Monday next.

TWO SALARIES NOT GO.

Health Inspector Hendrickson's Suit is Dismissed.

The action brought at the instance of Health Inspector Hendrickson against the mayor of St. Paul was dismissed yesterday at the time set for hearing before Judge Otis. This was the case where Hendrickson applied to Acting Mayor Yeager to sign a warrant for his salary as meat inspector. Acting upon advice of the county attorney he said the same warrant could not draw two salaries from the city—one as health officer and the other as meat inspector—payment of \$70 a month for the latter services was refused. The suit was subsequently acted on the same plan. A mandamus was resorted to for the purpose of compelling the mayor to sign the warrant, with the result mentioned.

TO CANCEL AND COURT MAIL MATTER, AND SAVE WARE AND TEAR.

The electric wires question was yesterday again before the members of the chamber of commerce. It argued the Col. Davidson's resolution a week ago, recommending to the city council the appointment of an inspector to supervise the laying of electric wires. Mr. Baker, on behalf of the committee on buildings and fire department, reported favorably on the resolution, and without debate it was unanimously indorsed by the chamber. Gen. C. A. Andrews had a resolution adopted expressing appreciation of the public spirit of our sister city on the opening of the public library at Minneapolis, and to present a written demand for the refund of about \$500, which they had paid under protest on the opening of the new street grading, which cost about \$13,000.

ELECTRICITY AND HEAT.

Matters Which Came Up Before the C. of C.

The electric wires question was yesterday again before the members of the chamber of commerce. It argued the Col. Davidson's resolution a week ago, recommending to the city council the appointment of an inspector to supervise the laying of electric wires. Mr. Baker, on behalf of the committee on buildings and fire department, reported favorably on the resolution, and without debate it was unanimously indorsed by the chamber. Gen. C. A. Andrews had a resolution adopted expressing appreciation of the public spirit of our sister city on the opening of the public library at Minneapolis, and to present a written demand for the refund of about \$500, which they had paid under protest on the opening of the new street grading, which cost about \$13,000.

THEY'RE A STRONG PAIR.

Potter and Miller Doing Great Work on the West Side.

The union revival meeting at Clinton Avenue M. E. church, continues with unabated interest. The large audience was well filled last night, and the services throughout were very interesting. Mr. Miller was at his best, and sang with his usual vigor. His solo singing shows not only great control of his voice, but his wonderful musical tones, but his powerful and distinctively heard, and the thought is driven home in a wonderfully direct way. Mr. Potter preached on "Waiting for Conversion Season," taking for his text Paul's defense before Felix. The sermon was strong, forcible and eloquent. His voice pictures were very beautiful, and his

TRICKED BY A ROSE.

Sensational Conclusion of What Was Believed to Be a Pardon.

A St. Paul Italian Lured Into Sicily, Then Charged With Murder.

Story of a Murder Which Grew Out of a Duel for Love.

Two Italian Officials Looking Through the Twin Cities for Witnesses.

The GLOBE published exclusively on May 11 the facts in connection with the pardon of an Italian named Guido Alvarez by the Italian government, and chronicled the departure from St. Paul of that worthy for Palermo, of which city he is a native. Alvarez was charged with the murder of a tenor singer named Barrell who the latter was filling an engagement at the Grand opera house, N. Y. The facts in the case are as follows: Barrell was, at the time the trouble arose which resulted in a duel, in the city of Palermo, an operative star in the same company named Inez Corrao. Alvarez, who was paying his first visit to N. Y., with a view to securing a position as a tenor singer in the city. He was introduced to the tenor singer Barrell, who was at the time in the city of Palermo, and the result being a duel with stilettoes, in which Alvarez was the victor. Early in May last a pardon bearing which was represented as being the official seal of the Italian government was received by Alvarez at Palermo. It was a letter from Giuseppe Alvarez, father of the exiled Dago, and a wealthy merchant of Palermo, containing a request that Alvarez should accept of a pardon which came to light yesterday, it is placed beyond doubt that the pardon received by Alvarez was simply a ruse.

THE CARNIVAL PLANS.

Directors Discussing Them and Cursing the Weather—Kick on Headquarters.

"I don't believe there's going to be any ice palace," said J. H. Bushnell, as he strolled into room 16, at the Metropolitan, yesterday afternoon, to attend the meeting of the committee on building of the carnival association. "Do you know what the Bible says about unbelievers?" put in President Van Slyke in a way that demonstrated the fact that, at least, his confidence in the weather is not based on an ice palace, regardless of what others might say or think. "The regular meeting of the association will be held at the Metropolitan on Thursday afternoon at 4:30, when the troublesome matter of fixing upon the permanent headquarters of the association will again come up. A number of the directors are violently opposed to the Metropolitan, on account of its being some distance away from the business district of the city, and it is expected that the meeting will be devoted to securing a list of meeting places either the association or any of its committees. "During the carnival," said President Van Slyke, "I expect to devote my whole time to the carnival, and it will just be impossible for me to make four or five trips a day out to the Metropolitan. I can't spare the time and I am emphatically in favor of more accessible headquarters."

BETTER FIRE PROTECTION.

For South St. Paul—City Improvements Agitate the Council.

Fire protection and water supply were among the interesting matters considered by the South St. Paul council at its regular meeting last evening. The fire committee, which had been empowered to take action towards improving the fire department facilities, reported that they had arranged to secure a 60-gallon Waterous engine and a No. 1 hose carriage for the second ward, and also a No. 2 hose carriage for the third ward (Riverside), and that the old schoolhouse there be moved and erected as a fire station. The committee also recommended that cisterns of 800 barrels capacity each be built on the higher ground in the second ward, and that the water supply be improved by means of water supply to the numerous residents in their vicinity. The standing order of the council, which was passed on the 12th inst., providing for the improvement of the water supply, was also read and approved.

AN EDITOR IN TROUBLE.

A Polish Journalist Charged With Sending Obscenity Through the Mail.

Heronimo Derdowski, editor of the Warsaw, a Polish paper published at Winona, was brought to St. Paul yesterday by Deputy Marshal Brackett, and taken before United States Commissioner McCafferty on a charge of sending obscene matter through the mails. The charge is preferred by Louis Niemo, an employe of the state printing office, and a prominent person among the Polish residents in this city. Niemo claims that he has received a number of letters from Derdowski, which he has forwarded to him, and that he has received a number of letters from Derdowski, which he has forwarded to him, and that he has received a number of letters from Derdowski, which he has forwarded to him.

32 WEST THIRD ST., ST. PAUL.

HELPLESS 40 DAYS.

The great agony caused by rheumatism is indescribable, and the gratitude of those who take Hood's Sarsaparilla, and are cured is often beyond expression. The following is from a well-known Wisconsin farmer, and is indorsed by the editors of the Neillville Wis. Times as entirely true: "For 25 years I have suffered with sciatic rheumatism. Last November I was taken worse than ever, and was unable to get out of the house. I was almost helpless for forty days, suffering great agony all the time. In December I commenced taking Hood's Sarsaparilla. After the second bottle I was able to be out and around and attend to business. I took five bottles, and am now so free from rheumatism that only occasionally I feel it slightly on a sudden change of weather. I have great confidence in Hood's Sarsaparilla. CHARLES HANNAH, Christie, Clarke Co., Wis. N. B. If you make up your mind to try Hood's Sarsaparilla, do not be induced to take any other."

HOOD'S SARSAPARILLA.

Sold by all druggists, \$1.50 for \$5. Prepared only by C. L. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar.

FIELD, MAHLER & CO.

IMPORTED FANS AT HALF PRICE.

We began yesterday a special sale of fine Fans, consisting of our entire stock, which has been largely increased by the addition of an Importer's Sample Lot. There's an endless variety of Gauze, Satin and Feather Fans, plain or hand-painted, with carved wood or ivory sticks.

A SURPRISE PARTY.

Reported by Judge Burr—Police Court Scenes.

There was the usual Monday morning docket in the police court yesterday, and the session was long and tedious, though none of the fifty or more cases were of great importance. Judge Burr had a surprise in store for William Miller, proprietor of the Hotel Carlyle, who caused the arrest of Madeline Frechette, a French girl, who was charged with robbing a man of \$30. The judge fined all of the parties \$25 for visiting a disreputable house, including Charles Galtier, a watch at which the girl was arrested, and Mike Mcarty, who appeared as Miller's witness.

DRESS GOODS.

We can show you something pretty cheap in ALL-WOOL DRESS GOODS this week. Look at them when in the store. Mail orders receive our best attention. Where selections are left to us, goods may be returned if not satisfactory.
